An act to amend an act entitled "A further supplement to an act entitled 'An act for the better regulation of proceedings upon writs of mandamus,' passed December second, one thousand seven hundred and ninety-four," which said supplement was approved March twenty-sixth, one thousand eight hundred and seventy-eight.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That the first section of the act entitled "A further supplement to an act entitled 'An act for the better regulation of proceedings upon writs of mandamus,' passed December second, one thousand seven hundred and ninety-four," which said supplement was approved March twenty-sixth, one thousand eight hundred and seventy-eight, be and the same is hereby amended so as to read as follows:

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That whenever application has been heretofore been made, or shall hereafter be made, for a writ of alternative or peremptory mandamus, or where a rule to show cause why such writ should not be issued has heretofore been obtained or shall hereafter be obtained, the said writ being desired for the purpose of compelling any officer or officers of this state, or of any county, township or school district in this state, or the mayor and common council, or the mayor and board of aldermen, or any officer or officers of any city or other municipal corporation of this state, to perform a duty or make a payment required by law, and such writ has been or shall be denied, or such rule has been or shall be discharged, by the supreme court of judicature of this state, and such denial of said writ, or such discharge of said rule is the legal consequence necessarily resulting from a determination by said court of the question of the constitutionality or unconstitutionality of any statute of this state, that being the main question brought before the court for adjudication and the principal ground of the litigation between the parties, it shall be lawful for the relator or relators, at any time within one year next after the date of entry of the rule of said court denying said writ, or discharging said rule, to sue out and prosecute a writ of error to remove the proceedings into the court of errors and appeals, which court shall thereupon review the said proceedings and the action of the supreme court thereon, and make determination in reference thereto.

2. And be it enacted, That the second section of the said supplementary act be and the same is hereby amended so as to read as follows:

2. And be it enacted, That the said writ of error shall be made returnable forthwith, and upon return thereof said court of errors and appeals shall require an immediate and speedy assignment of errors and joinder in error, and upon such short notice as may by the court last aforesaid be directed, shall hear and determine the cause during the term to or in which said writ of error is returnable, if possible so to do without necessitating the postponement of other business of said term to a subsequent term; and on reversal the supreme court shall take action accordingly.

3. And be it enacted, That this act shall take effect immediately.

Approved March 3, 1881.

CHAPTER LXXII.

A supplement to the act entitled "An act to secure operatives in manufactories, and other employees their wages," approved March thirteenth, one thousand eight hundred and fifty-six.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That whenever in any suit at law or in equity pending in any of the courts of this state, it shall become necessary or advisable for such court to appoint a receiver to take the charge and possession of the goods, chattels and personal property of any manufacturer, distiller, brewer, or producer of any manufactured articles in whatever stage the same may then be, and then being due and unpaid to the mechanics, workmen and laborers employed by such manufacturer, and other persons sole or corporate producing such manufactured articles, wages for the labor and services by such mechanics and workmen bestowed upon the goods, chattels and personal property then there taken by such receiver, it shall be the duty of the chancellor or of the judge appointing such receiver, on being petitioned by such workmen and employees for the payment of such unpaid wages due to them, setting forth the nature and kind of services performed, and of the amount due to such petitioners, to make an order directing a reference to a master in chancery to ascertain and report upon the correctness of the allegations in such petition contained, and of the amount of wages then due and unpaid to such petitioner and petitioners, and thereupon further direct such receiver forthwith to make sale of so much of such personal property as may be necessary to pay such wages to such employees and workmen in preference to any other creditor and without delay.

2. And be it enacted, That the provision of this act shall extend to all cases, if any, at the passage of this act pending in any court of this state when distribution of the assets thus taken and held by any such receiver has not been made.

3. And be it enacted, That this act take effect immediately.

CRIMES AND ACCIDENTS.

Any Fool can Destroy—Only the Man with Valuable Material can Save—Reader, take Warning Before it is too Late.

The summer of 1880 contributed largely to the records of disaster and death. Stupidity, ignorance and carelessness can take life; any fool can destroy. But the ability to restore, to crush disease, to make life worth having is the joint product of nature and education. For this reason Dr. David Kennedy, of Rondout, N. Y., has came to be both proud and thankful that his name is gratefully mentioned by so many whom he has healed or helped. "Kennedy's Favorite Remedy" has become a household word. Everybody, sooner or later, gets sick, and sickness is both wearisome and costly. "Favorite Remedy" steps in at this point. It is not expensive and it is efficient. For all diseases of the Blood, Bilious Disorders, Kidney Complaint, Constipation, and the aches and ills which make the domestic life of women a cross so hard to bear, "Kennedy's Favorite Remedy" has been successfully used by thousands. It will build up a system which has been run down by overwork. It is the thing for the student and literary man to have at hand, and should be in the home of every mechanic. "Favorite Remedy" is economical, safe and pleasant. Buy it and try it, or, if you need advice as well, write to Dr. Kennedy, who is in active practice as a surgeon and physician at Rondout, N. Y. MISCELLANEOUS READING

THE OTHER SIDE.

Breakfast was just over at the parsonage, the table was cleared away, the chairs set back, and Mrs. Ashton in a neat morning dress, with a pretty little cap on her pretty little head, was standing with her arm over her tall husband's shoulder looking at the morning papers. And as fine looking a pair they were as you are likely to see on a summer day. The Reverend Clement Ashton was indeed regarded as the handsomest man in that part of the world, and that with good reason. Whether he ever had an idea of his own on the subject, was entirely his own affair.

Mrs. Ashton, as she was styled by the parish—Christiana as her godfather and godmother named her—Chrissy as her brothers and her husband called her—was not usually regarded as remarkably handsome. Her features were not very regular, and she was not very fair, but her eyes were so bright and so clear, her figure so elastic and trim; her abundant hair, above all her frank, easy manner, and the expression of sunny good temper and perfect openness lighting up her face made most people consider her a very attractive woman. Every one in the parish liked her, from the two old people who sat near the stove in church, and always came round to get their dinner at the parsonage on Sunday, to Mrs. Dr. Rush, who was by far the grandest lady in the parish.

Mr. and Mrs. Ashton had been married but six months, after an engagement of almost three years, during which time they had corresponded vigorously, but had seen very little of each other, for Mr. Ashton was an assistant in an overgrown parish in one of our large cities, and could seldom be spared; and Chrissy was a teacher in another great city, where she supported herself and helped by her talents to educate one of her brothers for the ministry. It was not till this brother had finished his studies, and was on an independent footing, that she had consented to be married.

"George cannot support himself entirely," she said, in answer to the remonstrance of her lover; "he is not strong enough to labor as many of the young men do and he needs my help. I know that he has talents that will make him eminently useful in the calling he has chosen; I knew, too, that if he attempts any more than he is doing his health will fail and he will become discouraged. You must content yourself to board a while longer with your good friend Mrs. Bickfer, Clement."

And to this resolution she steadfastly adhered, despite Clement's persuasions and those of George, who was much distressed at the thought that his sister's marriage should be put off on his account. Under these circumstances the lovers did not see each other often, and they were finally married without Chrissy ever having suspected her husband of any infirmity of temper. She had suffered much in discovering that such was the case, and it inclined sometimes to wish she had never been disenchanted; but she was a very wise woman; she knew her husband's intrinsic excellence, and his strength as well as his weakness, and altering an old maxim to suit her purpose, she resolved both to endure and cure.

"What do you set about to-day?" said she, as Mr. Ashton arose from the corner of the sofa, having exhausted the paper.

"Visiting," replied his reverence. "I must go up to old Mrs. Balcomb's and see the Joneses and try to prevail on Phil Taggart to let his children come to Sunday-school once more. Then I have to see Maggie Carpenter, who is much worse again, and if I have time I shall get into the omnibus and ride out to the hills to see that girl Miss Flower mentioned to me yesterday."

"What a round!" exclaimed Chrissy. "You will never get home to dinner at two o'clock. I think I will put it off till six and run the risk of being thought 'stuck up' like poor cousin Lily."

"What do you mean?"

"Why, you know they always dine at six, to suit the Doctor's arrangements. One day Lily called about some society matter on a lady who lived not a hundred miles from her street, about five o'clock in the afternoon. The lady herself came to the door, and Lily was about entering, when she thought she perceived the smell of roast beef in the hall and said, very politely, 'perhaps it is now your dinner hour?'

"'No, indeed!' replied madam, with indignation. 'We don't dine at this time of day; we are not so stuck up!'"

"Poor Lily!" exclaimed Mr. Ashton, laughing. "What did she say?"

"O, she did her errand and retired, of course. There was nothing to be said."

Mr. Ashton turned to go into the study, and as he did so his foot caught in the carpet and he was nearly thrown down. Chrissy started in alarm, but he recovered himself and said pettishly:

"I wish you would have that carpet nailed down. I have stumbled over it twenty times in the course of a week, I really believe."

"I thought Amy had fastened it down," replied his wife with mildness. "I am sure I saw her at work there. The door must pull it out of place, I think."

"O, of course there is some excellent reason for it being out of order. It seems to me that with all your ingenuity you might find some way to make it more secure."

He turned into the study, shutting the door after him with unnecessary force, and Mrs. Ashton returned to the fire and arranged her work basket for the day, with something of a cloud on her face. She was not long left undisturbed, for Mr. Ashton's voice was soon heard calling her in an impatient tone. She sighed but arose and entered the next room, where she found her husband before his bureau, partly dressed, and with shirts, handkerchiefs and cravats scattered about him like a new kind of snow, while his face bore an expression of melancholy reproach, at once painful and ludicrous.

"What is the matter?" she asked.

"O, the old story. No button where it ought to be! Not a shirt ready for wear! I do not mean to be unreasonable," he continued, in an agitated voice, as he tumbled over the things, to the manifest discomfiture of the clean linen, "but really, Chrissy, I think you might see that my clothes are in order. I am sure that I would do more than that for you; but here I am delayed and put to the greatest inconvenience, because you cannot sew on these buttons. I should think a little of the time you spend in writing to George and Henry might as well be bestowed on me."

This address was delivered in a tone of mournful distress, which might have been justified, perhaps, if Mrs. Ashton had picked his pocket of his sermon as he was going to church.

"What is the matter with this shirt?" said Chrissy, quietly examining one of the discarded garments. "It seems to have all the buttons in their places; and this one, too, is quite perfect; and here is another. My dear husband, how many shirts do you usually wear at a time?"

"O, it is very well for you to smile, my love, but I do assure you that I found several with no means of fastening the wristbands. We had breakfast late; and now I shall be detained half an hour when I ought to be away. I know you mean well; but if you had served a year's apprenticeship to my mother before you were married it might have been all the better for your housekeeping."

"It might have prevented it altogether," thought Chrissy; but the thought was repressed in a moment. She picked up and replaced the scattered apparel, folded the snowy cravats, warmed her husband's overshoes, and saw that the beautiful little communion service presented by a lady of the parish, and consecrated to such sufferers as Maggie Carpenter, was in readiness. Before he left the house Mr. Ashton had forgotten both his fretfulness and its cause. He kissed his wife, thanked her for her trouble, and proposed that she should send for Lily to spend the day with her, and strode away with his usual elasticity of step.

Chrissy watched him from the door until he turned into the next street, and then went back to the fireside and her own reflections.

His fretfulness and tendency to be disturbed at little matters was almost her husband's only fault. He was self-sacrificing to the last degree; faithful and indefatigable as an apostle, almost, in his professional labors, liberal to a fault, and in his administration of parish matters, wise and conciliating to all. He could bear injuries, real injuries, with the greatest patience, and was never known to show resentment.

But with all these good qualities, Mr. Ashton had one fault—a fault which threatened to disturb and finally destroy the comfort of married life. If his wife by extravagance or bad management had wasted his income and involved him in difficulties, it is probable that he would never have spoken an unkind word to her; but the fact of a button being missed, or a book removed from its place, would produce a lamentation half indignant and half pathetic, which wrung in Chrissy's ears and made her heart ache after Clement had forgotten the circumstances altogether. Strange as it may seem, Mr. Ashton never thought of the habit, of which he was but imperfectly conscious, as to its being a fault.

He thought, indeed, that it was a pity he should be so sensitive, and sometimes said that he wished he had not such love for order and symmetry, for then he should not be so often annoyed by the disorderly habits of other people. He said to himself that it was one of his peculiar trials, that even Chrissy, perfect as she was, did not come up to his ideas in this respect; but that the temper with which he met what he was pleased to call his peculiar trials ever became a trial to other people he did not imagine. He had indeed remarked, in spite of himself, that Chrissy's face was not as cheerful, nor her spirits as light as when they were first married, and he regretted that the cares of housekeeping should weigh so heavily upon her; but nothing was further from his thoughts than that anything in himself could have produced this change.

Mr. Ashton, exhausted with the day's work, turned towards home with his mind full of what he had seen and felt. He said very little during dinner, but when the table cloth was removed, and he sat down in his dressing gown and slippers before the fire, he related to his wife all the events of the day, describing with all the enthusiasm of his earnest nature the patience and holy resignation he had witnessed, and ended by saying:

"Certainly religion has power to sustain and console under all trials, and under every misfortune—"

"Excepting the loss of a button," replied Chrissy, seriously. "That is a misfortune which neither philosophy nor religion can enable one to sustain."

The Reverend Mr. Ashton started as though a pistol had been discharged at his ear.

"Why, what do you mean Chrissy?"

"Just what I say," returned Chrissy, with the same soberness. "Yourself, for instance; you can bear with the greatest resignation the loss of friends, and misfortune. I never saw you ruffled by rudeness or abuse from others, nor show any impatience under severe pain; but the loss of a button from your shirt, or a nail from the carpet, gives you a perfect right to be unreasonable, unkind, and I must say it—un-Christian."

Mr. Ashton arose and walked up and down the room in some agitation.

"I did not think, my love," he said at last, in a trembling tone, "that you would attach so much importance to a single hasty word—perhaps I spoke too quickly; but even if it were so, did we not promise to be patient with each others infirmities? I am very glad to bear—"

Mr. Ashton paused; he was an eminently truthful man, and upon consideration he could not remember that he ever had anything to bear from his wife, aside from the shirt buttons, etc., which he was now becoming conscious he had not borne very patiently.

"If it were once, my dear husband, I should say nothing about it; but you do not seem in the least aware how the habit has grown upon you. There has not been a day this week in which you have not made my heart ache by some such outburst of fretfulness."

Mr. Ashton was astonished; but as he began to reflect he was still more surprised to find that his wife's accusations were quite true.

One day it had been about the front door mat, the next day about a mislaid review, and then a lost pair of gloves, which, after all, were found in his own pocket. He felt that it was all true, and as his own conscience brought forward one instance of unkindness after another—real unkindness—he sat down again and covered his face with his hands.

"But this is not the worst," continued Chrissy, becoming agitated in turn; "I fear—I cannot help fearing—that I shall be led to feel as I ought not towards you. I fear lest I shall in time lose the power of respecting my husband; and when respect goes, Clement, love does not last long. This very morning I found myself wishing I had never known you." Chrissy burst into tears, an unusual demonstration for her; and Clement springing up once more, traversed the room once or twice, and then sat down by his wife's side.

"Christiana," he said mournfully, "I have deserved—I feel that I have—but to lose your respect, your love—my punishment is greater than I can bear, Chrissy."

"It was but the thought of a moment," replied Chrissy, checking her sobs; "but I am frightened that the idea should have entered my head. If I should, I would rather die this moment."

"God forbid!" ejaculated her husband, as he clasped her in his arms. "But why, my dearest, have you never told me of this before?"

"It is neither a grateful or a graceful office for a wife to reprove her husband, nor a woman her pastor," replied Chrissy, laying her head on his shoulder; "and if I had not been left here all day, I think I should have hardly got up my courage now. But if you are not angry, I am glad that I have told you all that was in my heart; for indeed, my dear, it has been a sad, aching heart this time. And now I must tell you how those two unlucky shirts came to be buttonless."

"No, don't say one word about them, my love," said Clement, impatiently. "I will never complain again, if the sleeves are missing as well as the buttons."

"But I must tell you, because I really mean to have my housekeeping affairs in as good order as any one. I was looking over your shirts yesterday afternoon, and put them all to rights but the two, when Mrs. Lennox came in in great distress, to say that her sister's child was much worse, and they feared dying; so I dropped all and went over there. You know how it was. No one had any calmness or presence of mind. The child's convulsions were frightful to witness; the mother was in hysterics, and Mrs. Lennox was worse than nobody at all. It was nearly midnight before I could get away, and in the meantime, Amy had put the room in order, and restored the shirts to their places."

Here Amy put her head in the room.

"If you please, missus, a young woman in the kitchen would like to see you missus, a minute."

Missus arose and went into the kitchen, and Mr. Ashton, taking a candle from the table, entered the study, and locked himself in. Chrissy waited for a long time, and at last went and tapped at the door. It was opened to her with a fervent kiss, and though there were not many words said on either side, there was a light in the eyes of the husband and wife which showed the understanding was perfect between them.

A SERIOUS ACCIDENT.

"What's the matter, my dear?" cried Mrs. Spoopendyke, as her husband limped into the room and droped into a chair. "What has happened to you?"

"I fell down and killed myself," moaned Mr. Spoopendyke.

"How? Where?" asked Mrs. Spoopendyke, bustling around him, nervously. "How did you do it?"

"Slipped on the ice and broke my arm from head to foot," sighed Mr. Spoopendyke, faintly.

"Great gracious!" ejaculated Mrs. Spoopendyke; "whereabouts? Where did it happen?"

"Out doors! Where d'ye s'pose it did? Think I brought the ice in the house and laid down on it? Oh, dear! I'll never get my clothes off again. I've got to sit here and die!" And he leaned back in the chair and closed his eyes with resignation.

"I'll help you off with your hat and overcoat," said his wife tenderly. "Let me help you."

"Be careful about taking off my hat," he said, rousing up. "Take it off easy, or you'll hurt my elbow. Pull the left arm of my coat down, so it will slip off—what are you doing? Trying to skin me? That sleeve is full of broken bones, I tell ye! Now help me into a chair. I knew I must go some time, but I never expected to die so suddenly as this." And he lifted his sprained arm and dropped it again to see if there was any animation left in his system.

"Can't I do something for you, dear?" asked the anxious wife.

"If you could sing a hymn without starting up the cat, it might make my last minutes more peaceful," he replied, putting his feet on a chair and composing himself for dissolution.

"You'd better let me attend to your arm," recommended Mrs. Spoopendyke. "If it's badly sprained, you ought to have something on it."

"Didn't I tell you it was broken? Just got curiosity to see it, haven't you? Can't wait for the post-mortem, can ye? Do what you please. In a little while I will be beyond pain. Just take it and do what you like with it."

And Mr. Spoopendyke stuck the maimed arm out straight, and waved it around like a ham.

"If you would let me rotate it a little, and then bind it up with arnica, you'd be all right in an hour," cooed the anxious wife, affectionately.

"Rotate it, then," he muttered. "I don't suppose it will make much difference to my estate. Take it down in the kitchen and rotate it. You might—hold on! What d'ye think I am—a pump? Got an idea I'm a clock? Let go that arm, will ye?" and Mr. Spoopendyke pranced around the room. "O, you're a surgeon, you are. All you want is a bucksaw and a broken balustrade to be a medical college. Going to pull it out by the roots? S'pose that's a tooth? It isn't; it's an arm, and it's busted like a torpedo!" and Mr. Spoopendyke, who had been brandishing the injured member, began to stroke his shoulder and sympathize with himself.

"Let me bathe it in arnica," said Spoopendyke. "That's the best thing in the world. Just let me turn up your shirt sleeve, and I'll fix it in a minute."

"Very good," said Spoopendyke; "I don't suppose it will do any harm to hurry matters. Is my dress-suit all brushed? Have I got a shirt with a button on the back to be buried in? Have I got a pair of socks that my immortal soul won't shine through the toes of? 'Cause if I haven't, you'd better use some of your measly arnica on my clothes. If you think I'm going into the tomb all covered with grease, and my shirt flopping around on me like I was a clothesline, you're mistaken, that's all;" and Mr. Spoopendyke eyed his wife gloomily while she prepared to salve his sprained shoulder.

"Will you put me in a casket?" he moaned as she began operations.

"Yes dear," replied Mrs. Spoopendyke.

Mr. Spoopendyke regarded his wife with one eye, and grunted feebly.

"And you'll put on a silver plate with my name and age, and get a few flowers? You don't want many. I shant miss 'em if there ain't mor'n six. Will you attend to it?"

"Yes," answered Mrs. Spoopendyke; "I'll see that you have lots of flowers and a big fun—"

"I don't want any big funeral. S'pose I'm being cut off in the midst of my usefulness just because funerals are cheap? Have you got a cheap handkerchief to put in my pocket when I am dead?"

"Certainly, dear," replied Mrs. Spoopendyke; and having thoroughly bathed the arm, she bandaged it carefully. "Don't you feel better?"

"Perhaps if it were amputated it time I might get well," rejoined Mr. Spoopendyke, hitching his arm around to see if he could find a pain anywhere. "What kind of a cravat have I got to wear in case of—in the event of—the worst?" and Mr. Spoopendyke approached the climax of his question as becomes a man who shrinks from the inevitable.

"The one you've got on will do, won't it?" inquired Mrs. Spoopendyke.

"No, it won't, either. Is that all I've got? Expect I'm going to be buried among strangers in a necktie that won't hold together four days longer? Calculate that I am going to the promised land as though I was hunting for a job? Want me to prowl around among the other late lamented as though I'd busted in business? Think I'm a measly tramp?" and Mr. Spoopendyke tore off the tie and stamped on it, and then dove into bed.

"Can't you bring up my breakfast?" demanded Mr. Spoopendyke, the next morning. "My arm's so lame I can't go down stairs."

Mrs. Spoopendyke brought it to him, and an hour later, when dressing, he asked for his necktie.

"I wish you'd look for it," said he, querulously. "You know I can't hardly move."

"Here it is dear," said Mrs. Spoopendyke, handing it to him. "You tore it up last night with your sprained arm," and she left for down stairs without waiting to hear her remark about measly wives who only need a long beard and a little song book to be a Solomon.—*Brooklyn Eagle.*

ALLEGED CURE FOR HYDROPHOBIA.

It is asserted on good authority that a Mrs. Reeves, residing at Pompton, Morris County, is the possessor of a remedy for the bite of a rabid dog. It is claimed that several persons have been cured by it of that dread disease, hydrophobia. The *Iron Era* says: The remedy is said to be a poison that counteracts the poison of the saliva from the mad dog. It was concocted by a man named Penny, many years ago after long study. He tried the remedy on animals first, and it is related that he then allowed himself to be bitten by a mad dog to test the remedy, and cured himself before he tried it on any one else. It pretended that no one ever used the remedy and followed the directions who was not completely cured.

A copy of the recipe could be obtained on payment of $25 and taking an oath never to reveal it. Some years ago a number of physicians went to get a copy, but they reported that they found it so tainted with superstitious quackery that they would never try it. Nevertheless, people came from all parts of the country to be cured, and their faith was boundless. All efforts to obtain the formula have hitherto been futile. There are now in Patterson three copies of the original recipe, which is now for the first time made public. It reads as follows:

[redacted]

Franklindale, Ulster County, April 28th, 1807. To be more implicit the four articles are to be mixed in equal parts by measure except the lime and alicompain to be one eight the most each.

Freeholder Benj. Hooper, of Jefferson Township, is also the possessor of one of these recipe.

Elecampane is said to have been used by the Indians as a cure for hydrophobia. Falarmenia, or dragon's blood, is a resinous gum found in South America. Its properties are astringent. Although formerly much used in medicine, it is said to have almost dropped out of use.

SPEECH BY GENERAL HANCOCK.

The following is the speech made by General Hancock at the Manhattan Club dinner given in his honor last Saturday evening. It is admirable in its terseness and appropriateness. After the dinner General Hancock was toasted and said:

MR. PRESIDENT AND GENTLEMEN: You have assembled here to-night to do me honor. I am no doubt called upon mainly in consequence of the position I held in the recent canvass for the Presidency. I regard my connection with that subject as practically closed. I, however, maintain the principles which I held when I accepted the nomination of the Cincinnati Convention, and, believing, as I do, that the triumph of those principles would promote the welfare of our whole country, I hope to see them prevail at some future time. Their success must rest with the Jeffersonian Democratic party, which is fully and ably represented here to-night. To you I commend the preservation of that true republicanism on which our fathers founded the institutions which have made us great among the nations of the earth. I can only say in relation to the political canvass of 1880, I have no fault to find with the failure of my friends and nothing to regret or modify of my own acts or words. I thank you, gentlemen, most heartily for the honor and pleasure which you confer upon me by this entertainment.

PROGRESS.

The progress of the nineteenth century is in nothing more vividly portrayed than in steam navigation.

The first steamship of the famed Conard line was called the "Britania," built of wood, side wheels, and of the following dimensions—Length 128 feet,
Breadth 30 "
Depth 10 "

She could steam 8 miles per hour.

A new Cunarder, named the "Servia," has just been launched on the Clyde; she is built of steel, screw propelled, estimated to make 17½ miles an hour, and measures thus—Length 530 feet,
Breadth 52 "
Depth 44 "

A BOUQUET.

They have him.

The bargain's made.

Conkling, Logan and Arthur are happy, and President Garfield sends to the Senate Chamber a magnificent garland of flowers, cultivated at the public expense, in token of his deep seated gratitude.

They have secured him.

What the consideration was is not definitely ascertained, but supposed to be a big slice of patronage and the Chairmanship of a Committee.

He trains with them.

Elected by Democratic votes to represent the State of Virginia as a Democrat on national issues, Mahone makes the Senate Republican and glories in his shame.

He says he is a "Readjuster."

Had Mahone ranged himself with the Democrats, how Conkling and Company would have sneered at him as a Repudiator.

Voting with them makes black white.

Mahone boasts of his military service in the Confederate army.

Was he on the Democratic side of the Senate, what fierce invective would hiss from Conger's lips against Rebel Brigadiers.

Voting with him atones for sins like that.

They have Mahone, yet despise the tool that carves their work.

What a beautiful bouquet?

LOYALTY.

It remains the honorable record of the Democratic party that, in spite of all opposition, it has unconditionally supported the Constitution, both National and State.

THE CENSUS.

The Census Office at Washington has commenced issuing Bulletins showing the progress made in the highly important work entrusted to its care.

The collecting and proper arrangement of such statistical information is a task involving great labor and skill, and from evidence already furnished, we are pleased to believe, that the Tenth Census will be more perfectly detailed than was ever done before.

Robert P. Porter, Esq., of Illinois, is the Special Agent on "Wealth, Debt and Taxation," and he is giving that duty the most thorough attention. From a report made by him relative to the Bonded Indebtedness of Cities and Towns containing a population of 7,500 and upward, we glean the following interesting figures touching three of the Middle States—

	No of Cities	Population	Bonded Debts
New York	28	2,580,187	207,742,061
Pennsylvania	29	1,546,299	56,296,194
New Jersey	13	503,071	28,373,380

And which shows the per capita of indebtedness to be in

New York	$81.46
Pennsylvania	63.26
New Jersey	78.69

From the same source we learn that the total Bonded Debt of such sized Cities and Towns in the United States is

$664,316,913,

or about one-third of the National Debt, and that the average burden resting on those municipal populations is $58.53 per head.

That is a matter worthy of serious consideration, revealing as it does the ground-work of heavy taxation.

AN ABLE REPORT.

We have perused with much interest the report of a Special Committee of the Union County Board of Freeholders on the propriety of maintaining the insane of this County within its own borders.

The Committee, of which our fellow citizen, Freeholder G. W. F. Randolph was an active member, prosecuted the inquiry with intelligence and thoroughness, and have placed on record information of decided value. They show by their report that the number of insane unfortunates in Union County is rapidly on the increase, numbering at the present time 102, the charge for whom in the State Asylum last year amounted to the large sum of $17,779.

The conclusion of the Committee is, and they base judgment upon the actual experience of other Counties, that if Union possessed a farm, with suitable buildings for both the insane and poor, an immense annual saving would be realized by the taxpayers, and no detriment ensue to the cause of charity and humanity. In support of their expressed opinion the Committee cite the experience of Essex, which having a County Asylum, finds the cost of supporting and caring for insane patients therein to have been for five years *sixty-three thousand dollars less* than the State Asylum would have charged during the same period of time.

The Committee remark—"It is simply a question, whether we should continue to support say 75 of our incurables in the State Asylum for the balance of their natural lives, at a cost per capita of $3 per week, or support them in an Asylum of our own at a cost certainly of less than $1.50 per week."

It is a subject worthy of public thought, and the Committee deserve credit for what they have done.

A JAR.

There was a brief, but frightful jar in the political machine at Washington one day last week, and whether caused by the stupidity of the new engineer, or lack of adequate *greasing*, we are not fully informed.

The question before the Senate being to indefinitely postpone consideration of the Democratic list of committees as submitted by Senator Pendleton, of Ohio, General Mahone, the Garfield nosegay crowned Senator from Virginia, voted, as he was elected to do, with the Democrats "No."

Terrible was the Republican consternation that ensued.

The "biler's bust," one Western valiant breathed aloud.

The venerable Anthony, of Rhode Island, wheeled his chair and imploringly scanned the great and good "Readjuster," Conkling swabbed from off his classic brow the perspiration of dread anxiety, Logan looked as savage as a pile of gory tomahawks, while several of their virtuous colleagues twisted and jumped as though a bomb had exploded upon the floor.

It was a painful sight.

Fortunately for them, and the glorious cause of *readjustment*, there was a party surgeon nigh at hand.

Over against an ante-room entrance stood a patriot equal to the emergency. He was in waiting to be chosen Secretary when the Senate was *readjusted*, and scenting havoc in the air, motioned Mahone to his side.

They together vanished through an open door.

Soon they reappeared.

Something had been said.

Something done.

When calling the roll was ended, Mahone asked that his vote be changed to "Aye," which made a tie, the Vice President cast his on the same side and the mill again ground well.

Hail Columbia!

Speaking of Mahone and his allies, the St. Paul, Minn., *Pioneer*, a Republican journal, remarks:

"It is doubtful whether Mahone is such a valuable acquisition to the Republican side as to be worth the cost of his purchase. He represents a cause in Virginia with which it is needless to say the Republican party cannot afford to identify itself. So far, therefore, as, in return for the aid he now gives the Republicans in controlling the organization of the Senate or in passing their measures, they shall undertake to aid the cause of the Readjusters in Virginia, of which he is the chief exponent, *and which is understood to mean a partial repudiation of the debt of Virginia*, they can gain nothing and will lose much. The Republicans in the Senate had a finer opportunity to place arty on the highest plane of pub esty than by refusing to accept ertures from Mahone for an al looking to any strengthening party of public dishonesty in a. They would have tempor st the control of the Senate, but ould have gained immeasurably al standing before the country."

GRANT, THE UNOBTRUSIVE.

The modesty of some men is admirable, but that sentiment as possessed by Mr. U. S. Grant is ridiculous. No more appropriate addition to the paradoxical literature of the country has lately been written, than the absurdities expressed to the *interviewers of our New York* dailies by that diffident egotist, in relation to his act of resignation from the presidency of the World's Fair Commission. The gentleman in question was exalted to such office in consideration of the influence his selection would have upon over-susceptible foreign powers—people brought up to worship extensively advertised heroes. His lack of executive ability was excused, and the mere effect his name would have on the undiscerning masses was the only result looked for in making such a choice. A figure-head both dormant and quiescent, was desired, and to such elevation (!) Mr. Grant was raised. But he failed *to fill the bill*, inasmuch as the expectation that he would do nothing was, unfortunately, nipped in its realization. Very little that would harm the purposes of the Commission was left undone by its President, and either in the interest of outside opponents or from innate contrariness, he succeeded before many weeks in placing the state of affairs in a very precarious condition. Philanthropists held back, and the final three hundred thousand dollars necessary before work could be begun, it seemed impossible to secure—then was performed the most praiseworthy action of his life and Mr. Grant resigned. *What has been the result? Immediately* upon such rumor becoming authentic the first million dollars of stock was subscribed; the Executive Committee experienced renewed energy upon its release from the incubus, and a prospective attainment of the intents and purposes of the Commission became assured. It is needless for us to surmise that another "figure-head" will not be chosen for the vacancy. A man of brains, ability and influence will undoubtedly be selected to further the interests of the Commission and to carry out the decisions of the Executive Committee.

HOUSE BILL NO. 316.

We last week alluded to an important bill presented to the Legislature which affected Plainfield, and have since gathered new facts concerning the same. The bill, which is known as House No. 316, was introduced by Assemblyman Sheldon at the solicitation of Mayor Randolph and other members of our municipal government, with the view of affording relief to our city in its present state of financial embarrassment in consequence of mandamuses issued and to be issued by the Courts for past due taxes—which ought to be collected, *but are not*. The bill was rushed through the House last week, and *but for the accidental happening* of one of our citizens in Trenton on Tuesday, would in all probably have passed the Senate. On that day, our fellow citizen, Wm. B. Maxson, Esq., happened to be at Trenton on business, and was informed of the bill. He immediately went before the Senatorial Judiciary Committee, and stating to them the nature of the bill, the Committee at once agreed to hold it until a protest against or something commendatory in its favor could be heard from the people of Plainfield. As a result, the next day prominent citizens visited the State capitol and so explained the "true inwardness" of the bill that it was amended by a section providing that before the bill became a law the people of Plainfield should first vote upon the adoption of its provisions. We doubt, however, if the bill becomes a law. By the provisions of the bill, an additional tax of $20,000 could be levied upon our citizens in any one year, and there would be no necessity of compelling delinquent tax payers to settle up in answer to County Collector Sheridan's mandamuses. If the Council would but *compel* delinquents to pay their taxes there would be no need of mandamuses. Why do they not do it? There is something wrong. Let it be shown up. Below we give the bill in full.

An Act concerning the assessment and collection of taxes in cities.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That whenever the common council of any city in this state, shall find, upon investigation and inquiry, that the moneys it is authorized by law to assess and raise by tax for its current expenses have been for the last preceding year, or will probably for the current year be, wholly or in large part absorbed in paying the quota of state and county taxes required by law to be raised in such city, then it shall be lawful for such common council to order and caused to be collected (in the manner and by the means provided for the assessment and collection of the taxes of such city), as an additional tax for that year for the current expenses of *said city, such sum* of money as in the judgment of the said common council will be necessary to meet and defray the said current expenses; provided, that such sum shall not in any one year exceed a limit of fifty cents on each one hundred dollars of the assessed value of taxable property within the boundaries of said city; and provided further, that any such moneys so raised shall be exclusively appropriated to the payment of said current city expenses, and shall not be liable to be diverted for the payment of the state and county quota of taxes.

2. And be it enacted, That whenever an additional tax is assessed, pursuant to the provisions of the foregoing section, it shall be lawful for the said common council to borrow on the credit and in the name of said city in anticipation of said tax, and to be repaid therefrom, a sum not exceeding sixty per centum thereof.

3. And be it enacted, That this act shall be deemed a public act, and shall take effect immediately.

THEY WILL ADJOURN.

On Wednesday, the Senate agreed to the House resolution to adjourn *sine die* at noon on Friday, the 25th inst. *In Executive session the same morning* the Senate rejected the Governor's nomination for State Prison Keeper. Governor Ludlow, therefore, will have the re-appointment of Secretary of State and State Prison Keeper.

Before the Republicans gained possession of both branches of Congress, through Mahone's treachery, their party press howled against an extra session of Congress. Now, however, they have discovered that it is necessary for the welfare of the country (and pockets) to have said extra session.

State Geologist's Report.

The State Geologist's report for 1880 has just appeared. It is accompanied by a "map of progress" of the State of New Jersey. In its civil divisions it has added all the new townships, of which the total number is 243. It has all lines of railroads, of which there are 1,700 miles. All the main roads in the State are on it, so that it is a good traveler's guide. It has marked on it all the places were meteorological observation have been taken, so as to get records of our weather and climate. The locations of the numerous iron mines and the zinc mines are indicated by small arrows.

In reference to the Gold, Silver and Copper mines of New Jersey, the State Geologist says: There have been many statements published during the year of the occurrence of silver and gold in our State, especially about the old workings for copper in the red sandstone region. These statements have excited much attention and inquiry. So far, there does not appear to have been sufficient evidence of the occurrence of these precious metals in quantity to warrant any excitement. [The results of the assays of 29 ores are given]

Silver has been found in eight of them, to the extent of three ounces and upwards in a ton. The lead from the Andover (Sulphur Hill) mine, Sussex county, carries from 17 to 19½ ounces. the ton. The assays show that all the copper ores of the red sandstone formation carry a little silver. The assays for copper found from 14.7 to 64.6 per cent. of metallic copper. The ores containing the largest per centage of copper carry the most silver. * * * * *

Generally, the percentage of copper at all the localities is low and it is extremely doubtful whether any of them, even under the most favorable conditions, can be worked profitably.

The discovery of silver in our copper ores in rocks of the Triassic age correspond with recent developements in the West—in Utah and New Mexico—and is interesting to the geologists, although not thus far of much promise so far as any addition to our mineral resources is concerned.

Gold has not been found in any of the *ores and specimens tested. The reported* discoveries of this metal in ores at Hopewell, Plainfield and other places is not substantiated by these assays. The pyrites veins of a number of localities examined do no contain any gold. It is hoped that the result of these assays will be useful information to many and serve as a caution to sanguine capitalists who are often tempted by designing and deluded speculators to engage in mining ventures.

The following are the results of some of the assays:

Copper ore, Green Valley copper mine, near Plainfield. Copper, 23.5 per cent.; silver, 3 oz. to the ton.

Field mine, Washington Valley, near Plainfield. Silver, 1 oz. to the ton.

Bridgewater mine, north-east of Somerville. Copper, 18.25 per cent.; silver, 4.13 oz. to the ton.

Farm of J. Hoffman, near Pluckamin. Silver, ½ oz. to the ton.

Griggstown copper mine (dressed sample). Copper, 64.6 per cent.; silver, 15.1 oz. to the ton.

Blue shale in city of New Brunswick (carrying carbonates of copper). Silver, ¾ oz. to the ton. The metallic copper in the shale amounts to about 3 per cent. of the mass.

WESTFIELD WISPS.

It takes but two to make a band, to judge by the music turned out by a banjo and guitar. The artists are well known.

A Concert is in preparation to be held under the auspices of the "Ladies Mite Society," of the Presbyterian Church, at an early date.

The services of Mr. John Dowall, a graduate of the Quebec College of Pharmacy, have been secured by Mr. George A. Bayard as assistant in his Westfield Pharmacy.

The erection of 40 feet of chimney, in connection with placing steam power in Irving's Mills, is the first indication of the future importance of Westfield as a manufacturing centre.

The many friends of Mr. James R. Ferris, will learn with regret that he has been confined to the house by illness for the past week, and with pleasure that his condition is reported as improved.

The notice of the proposed pigeon shooting match, has already awakened the interest of many experts with the gun, to judge from the numerous questions relative to the matter asked.

The many friends of Mr. Wm. Schoonover, *our able dessicator of meat*, will learn (if true) with pleasure that he has fallen heir to a fortune, by the will of his grandfather, lately deceased, in Holland.

The Ball of the Westfield Social Club, previously noticed, took place on the evening of the 17th inst., and proved a great success both as to attendance and financial results. Its management reflects credit on those in charge.

Rev. Wm. Gill, Pastor of the Presbyterian Church, repeated, by request, his lecture on "William the Third and the Revolution of 1688," at the Church on the evening of the 17th inst., for the benefit of the "Ladies' Mite Society," whose Treasury was benefited to the extent of $45. Resolutions, returning thanks to the orator of the occasion, were adopted at the end of the lecture, and the ladies of the "Mite Society" presented Mr. Gill with an elegant basket of flowers.

The members of Atlas Lodge, F. and A. M., No. 125, to the number of about 20, those so especially favored accompanied by their wives, astonished Bro. Thomas Love with a genuine surprise party on the evening of Tuesday, the 15th inst., and a truly enjoyable time was the result. It has been intimated that the movement was largely due to that *very active* Brother, Past Master F. R. Pennington, who is accused of having organized the attack.

The very bad condition of the roads has prevented our horsemen from giving *their trotters necessary exercise*, and in consequence their grooms may be seen daily exercising their favorites upon Broad street from Central avenue to the Railroad, and to judge from the gaits shown by the animals of rival claimants of the *fastest* we look for lively times as soon as the roads settle, especially as several purchases made this winter are comparatively unknown, notably that of Mr. F. N. E.

TOWN COMMITTEE MEETING.

March 17th, 1881, 7:30 p. m.

Present—Henry F. Alpers, chairman, James Moffett, Robert R. Sinclair and L. M. Whittaker, clerk.

Minutes of last meeting read and approved.

On motion the bonds of the following township officers were received and approved: Wm. W. Connolly, Collector, $15,000; James Moffett, Treasurer Town Committee, $1,500; Gustave H. Koester, Constable, $500.

Communications from Doctors Harrison and Smith in reply to proposals authorized at the last meeting of the Committee for medical attendance for the sick poor of the township received. Bills of the Clerk, Judge and Inspectors of election, *held March 8th, for services*, received and on motion referred to Treasurer to report. Treasurer reported the following bills correct:

Chas R. Clark,	Clerk of Election,	$[illegible]
Chas E. Leveridge,	Judge	" [illegible]
A. H. Sumstead,	Inspector	" [illegible]
Chas. Walt,	"	" [illegible]

And on motion they were ordered paid.

On motion the clerk was instructed to ascertain from the records the cost to the Township for medical attendance for the care of the town poor for the past 3 years.

L. M. WHITTAKER, Clerk.

ELECTION ROAD OVERSEERS.

The [illegible] of Road Overseers, and the extra tax voted upon the different districts, except Districts Nos. 5 and 10, from which no reports have reached the Town Committee at this date are given below:

Dist. No.		
1	John H. Bird.	
2	Isaac F. Squier, sidewalks,	$[illegible]
3	Chas. Morris,	[illegible]

14	[illegible]	[illegible]
15	[illegible]	[illegible]

The total extra taxes reported raised are $1,425.00, certainly a very liberal sum and if the amounts set aside for sidewalks are properly used, "Old Hickory," will be obliged to change his tune as to the condition of sidewalks, that his article unmistakably under-estimated.

BOARD OF HEALTH MEETING.

March 17th, 1881, 7:30 p. m.

Present—Henry F. Alpers, R. R. Sinclair, James Moffett and John M. C. Marsh.

Minutes of last meeting read and approved.

Mr. Sinclair reported that so far he had been unable to see Mr. Amos Clark, Jr., with reference to the England nuisance.

The Secretary reported that he had notified Mr. Schweinforth as directed. Mr. George Godfrey representing Mr. Schweinforth, denied complaint and stated that his client was willing to make affidavit that no nuisance existed as charged. The Secretary was appointed a Committee of one to investigate as to the facts in the case to report at the next meeting.

The Secretary was directed to notify Mr. Geo. B. Smith in regard to the removal of out house on his property corner Elm street and North avenue.

On motion adjourned.

JOHN M. C. MARSH, Secretary.

IT is a good thing to be vaccinated, but it is a better thing to keep your courage up. There is no danger other than your imagination creates.

THERE is more necessity of paying your taxes than of getting vaccinated. You can get along without the latter, but the city needs the former.

Merchants may now get ready for the very satisfactory Spring trade and renewed activity and prosperity of all lines of business, that is sure to come. *Ergo:* Advertise in THE CONSTITUTIONALIST.

MISFORTUNES never come singly. No money for the use of the city; its real estate business ruined by sensational accounts of disease in its midst; prospects of a light peach crop, and many other unfortunate occurrences lose their terrible significance and effect in the face of a more dire disaster that is proposed—there is to be a go-as-you-please match in the Wigwam, so they say.

IF Callender's Georgia Minstrels ever want a hearty welcome, they have only to visit Plainfield again. The entertainment given by the troupe at Van Deventer Hall, on Thursday of last week, was first-class and enjoyable in every particular. The singing was melodious, the instrumental music harmonious, the sketches ridiculous, the fun contagious, the jokes infectious and the applause of the audience uproarious.

DR. Leopold Damrosch will conduct four evening concerts on May 3, 4, 6 and 7, and three afternoon concerts on May 4, 5 and 7 in the Seventh Regiment Armory. The chorus will be composed of 1,200 accomplished and carefully selected singers, in addition to which there will be a chorus of 1,500 young ladies from the schools, and 300 boys from the church choirs. The orchestra will consist of 250 picked musicians drilled expressly for the occasion.

WE observe, as Spring approaches, the advent of the solicitous and inevitable peddling tramp. Some of these industrious reprobates are thieves in disguise, and to lend to their visit the air of necessity, hawk from door to door, ribbons and such things to sell, their real purpose being to investigate the houses upon which they contemplate some nightly visitation. It would be well for the people to be on their guard and drive these intruders from their doors. The vigorous application of a large club might serve as a gentle reminder that there is a hereafter even for a tramp.—*Exchange.*

BUSINESS education is receiving the attention that its importance demands. Joseph Wharton has given $150,000 to establish a school of Business and Finance in connection with the University of Pennsylvania. But, after all, the credit for developing this department of special education and raising it to its present standard, is due to individual enterprise. Perhaps no institution in the country has done more toward the elevation of this class of schools than the Capital City Commercial College, of this city, under the management of Hon. A. Rider. Too much can not be said in praise of this excellent institution.—*True American.* See advertisement of Spring opening.

The celebrated Dr. Field, during the ravages of diphtheria in England a few years since and during his immense practice, did not lose a patient. Brimstone kills all species of fungus in man, beast or plant. His infallible remedy was one teaspoonful of the flour of brimstone in a wine glass of water, stirred with the finger. When mixed use as a gargle, and swallow in extreme cases. When the fungus is too nearly closed to allow of gargling, blow the sulphur through a quill into the throat. If the patient cannot gargle, sprinkle the flour on a live coal and let the patient inhale the fumes.

A Highwayman Secured.

Mr. Moses Walker—who has been discovered to be the negro whose snatchings of pocket-books and satchels from the hands of various ladies of this city, Roselle and Elizabeth, have furnished items for the local press for some time past—was arrested in New York on Monday, by Constable Joshua Briand (colored) of Cranford. He was brought to Elizabeth by Chief Yates without a formal requisition, where he will await action against him on numerous new charges as well as under an indictment found against him by the Grand Jury of 1878. At that time the prisoner was arrested for stealing a quantity of robes and blankets from a resident of Westfield, in which town he was then living. He subsequently escaped from Constable J. M. C. Marsh, and has since been at large engaged extensively in highway robbery.

A Fatal Step.

A most shocking and unfortunate accident occurred at the railroad station on Friday evening of last week, which resulted in the terrible death of Mr. Wm. H. Blackwell of Brooklin N. Y. The deceased had been spending a short time in Neshanic and had come to this city to visit friends, among whom was Mr. John Whitlock and family, of North Plainfield, when his death resulted. Upon getting off the train on which he arrived, he was compelled to await the passing of an oil train before crossing to the south side of the track. While standing unthinkingly between the rails of one of the main tracks, and unable to distinguish from the noise of the passing train the sound of an approaching fast freight, the latter bore down upon him and crushed his body beneath its grinding wheels. The engineer, Charles Ward—who formerly resided in this city—endeavored to check the impetus of his train immediately upon seeing the perilous position of the unfortunate man, but without success. The victim had passed his allotted three-score years and ten, had a large family and was in comfortable circumstances. His wife and a son arrived in Plainfield the next morning and arranged for the disposition of the body.

Scholar vs. Principal.

Some excitement has arisen among our neighbors over the brook in regard to an occurrence that in the beginning developed itself into a question of veracity between Principal Barick and master Willie Smith of the Primary school, North Plainfield. The boy, during a brief spell of unruliness, one morning recently, occasioned his teacher, Miss Louise Trembly much trouble and some personal affliction; whereupon Mr. Barick was sent for to administer necessary discipline. The course of action pursued in the case by the principal, was brought up for investigation before the Board of Trustees by the boy's father, on Tuesday evening. According to the scholar's unsubstantiated account of the affair, he was lifted from the floor by the ear, which organ was otherwise pinched and twisted in a manner objectionable to its symmetry. To such a charge Mr. Barick replied with a most convincing and unqualified denial. All the evidence that the Board was able to procure, failed to show that any personal force was used except a seizing of the boy by the shoulders upon his attempt to escape from prospective punishment. Miss Trembly's testimony sustained the statement and denial of the Principal, as far as that lady was an observer of the occurrence. As no other foundation for the charge was presented than the boy's word, the Board was justly impelled to dismiss the complaint.

The Rebuilding of the Dam Allowed.

Arguments were made on Monday before Vice Chancellor Van Vliet, for and against the injunction asked by Elizabeth Leonard restraining the executors of the Randolph estate from rebuilding the dam at Washington avenue. The petitioner was represented by Mr. Francis E. Marsh of this city, his partner Mr. Titsworth and Corporation Counsel Chas. W. Kimball. The defendant's case was sustained by Mr. Wm. B. Maxson. The latter held that damages should be sought for by means of a suit, and that the present form of the case did not cover the claim made. If the pond was a nuisance its owners should be indicted for its existence. Property owners in the vicinity testified by affadavits that during their many year's residence in the neighborhood, no unhealthy effects from the pond had been observed or experienced. Affadavits were presented by the petitioner, of Drs. Tomlinson, Craig, Burlingham and Hart, and City Physician Lowrie, to the effect that the pond was detrimental to the health of the surrounding section. The Vice Chancellor stated that upon the aspect of the case as it stood, he could only grant an injunction preventing the rebuilding until such time when the pond should be thoroughly cleaned out. If he did so, he argued, it would be a vexed question as to when the provision was complied with. He also intimated that after the nuisance (if such it was considered) was allowed an existence of twenty years, it was rather late to claim relief. The injunction was subsequently refused, and the matter dismissed at the cost of the petitioner. Great credit is due Mr. Maxson for his efficient and successful labors in the case.

The Delaware and Raritan Canal opened for navigation on Monday morning last at seven o'clock.

Our City's Health.

Since our last issue the temporary scare induced by false rumors and sensational accounts of a small-pox epidemic about to visit the city, has almost entirely passed away. Two very light cases have been reported and placed under the strictest surveillance; and with their recovery, which is steadily progressing, all presence of the disease will pass away. One of them, Mr. George Miller, who reached this city on a visit about two weeks ago, is supposed to have come in contact with the disease during his steamboat trip from New London, Conn. His condition at present is very satisfactory. The other, Mr. Joel D. Hedden, is steadily improving. Only one death in Plainfield has resulted. Mr. Wm. McNabb expired on Saturday last and was buried in Bound Brook the same night.

The reports extensively circulated to the effect that the latter caught the disease while engaged in removing the remains of the Burrows child from their first place of burial, and that other cases have arisen directly from the act of exhumation, are entirely without foundation. The card published in another column from Dr. E. W. South who assisted at the first interment, and also a communication from a correspondent whom we may refer to as personally interested and concerned in the affair, proves conclusively the utter baselessness of any contrary statement. The child was first buried in the "public lot" of the Williams street Cemetery, by Dr South and Mr. Burrows, in a grave of from four to five feet in depth. Subsequently Mr. Burrows purchased a plot from a former resident of this city (Mr. Chaffee) and upon his own responsibility, with every consideration for the welfare of the public, removed the body during the early morning of Monday the 14th inst. No endeavor was used to secure the assistance of anyone outside of Mr. Burrows own authority; the change of location of the remains was less than 300 feet and inside of the cemetery fence; and the presence of the body within a casket and outer box deterred any danger resulting from the exhumation. After the new interment in a grave six feet deep, Mr. Burrows and his assistant buried their clothes, spent the night in a disfecting room, and consequently put on entirely fresh apparel. Under the circumstances, it subsequently is greatly to be regretted that even citizens of high standing lend their authority to reports calculated to injure the future of the city and excite feelings of fear amoung the timid of its residents.

Pres. Whiton presented the following com'n from Collector L. E. Clark:

TO THE HONORABLE COMMON COUNCIL OF THE CITY OF PLAINFIELD, N. J.

Your resolution of March 7, 1881, has been handed me by the City Clerk, which resolution requests several answers in regard to the collection and disbursing of the State and County taxes collected by me.

In reply thereto, I would say that I have always acted as I supposed under the advice of the Corporation Counsel and the law of the State concerning the same.

The present charter under which the city of Plainfield is now acting was approved April 4, 1872, at which time the Township of Plainfield was a legally constituted body and so continued until the passage of the act abolishing the Township of Plainfield, approved March 6, 1878; after which the Assessor and Collector of said city should have the same powers and perform the duties as the assessor and collector of said township were then required to perform; so that the Charter of the City of Plainfield as passed in 1872, directed certain things to be done by the Collector over which they had no control and could not under any circumstances compel the collector of taxes to do, as he certainly would be, up to that time, under the direction of the State law, which requires the collector of taxes of all townships and cities to pay, according to section [illegible] of the supplement to the tax act, approved April 11, 1866, which reads as follows: "That it shall be the duty of the collector of the townships, cities or wards in the State out of the first monies which shall be collected by them, to pay to the county collector of the county in which they hold their offices the state and county taxes required to be assessed in their several townships, cities and wards at the time required by law to pay the same."

After the passage of the act of March 6th, 1878, at the time of the collection of State and County taxes, December 20, 1878, seeing by the requirement of the city charter the provisions made in section 15 "for the payments of all monies received by me for the city to the City Treasurer as soon as collected," might to some extent conflict with the State law as prescribed by section 23, as above cited, I applied to the Corporation Counsel for the city then acting for advice as to my duty in disbursing the funds received for State and County taxes, payable in December, and his advice and directions were to me to pay it as heretofore to the County Collector direct; as the city could have no control over it, no part thereof being applicable for city purposes, but only for State, County and State School. Under that advice and by subsequent demands made by Frank Bergen as County Attorney, by letter dated Nov. 26, 1879, directed to me as Collector, I have continued to pay the State and County taxes to the County Collector.

The letter alluded to as received from the County Attorney is as follows:

(A copy.)

ELIZABETH, Nov. 26, 1879.

MR. CLARK, Collector, &c.

DEAR SIR: I wish to call your attention to the Resolutions of the Board of Chosen Freeholders of this County adopted on the 8th inst., a printed copy is hereto annexed, also the 23d section of the tax law in the revision page 1159. The law requires that every dollar of tax that comes into your hands *from all sources* no matter for what year, shall be paid to the County Collector until the County and State taxes are paid in full. Any other disbursements, *for any purpose whatever*, until the County and State tax is paid, will be a direct violation of the law, and any custom to the contrary will be no excuse. Unless the law is strictly complied with. From this date the matter will be laid before the Supreme Court without further notice.

Very Respectfully,
FRANK BERGEN.

I construed this to apply to the State and County taxes only, as the city taxes were levied and collected prior to the confirming of the State and County taxes, and therefore could not apply to them. I have never refused to pay such monies to the City Treasurer, neither have I ever had any directions to pay them to the City Treasurer, by the legal authorities of the city, and heretofore your Honorable Body, as well as the several committees thereof, have refused to take any cognizance of the State and County taxes until the mandamus was served upon the City Treasurer. The only person who has ever spoken to me about them was the City Treasurer, who thought that from the reading of the City Charter the State and County taxes should be paid to him.

In December, 1879, the Assessor and myself presented our bills for the assessing and collecting the State and County taxes for the year 1879, to the Common Council to be audited, so that they might be paid out of the receipts for State and County purposes for which the provision had been made; which were referred to the Corporation Counsel for instructions, and as to the legality of their coming under the jurisdiction of the Common Council, and they were returned to me without being examined or audited, and have so remained until their being presented again to your Honorable Body at the last meeting, which I trust will receive consideration at your hands.

I think statements have been presented on the State and County Taxes each year and placed on file, but no further action has ever been taken with regard to them. The books of the Collector regarding the city as well as the State and County taxes, are ready to be examined and inspected at any time, and it will afford me pleasure to confer with any of the committees of your Honorable Body in regard to them or the best method for collecting those that are unpaid. I have not decided upon any future action in relation to my payments on account of State and County taxes, nor did I in the past, except so far as I believed I was required to by the State law governing them, and by the advice received from the Corporation Counsel and the County Attorney, regarding my future action. I shall be governed altogether by the instructions of your Honorable Body, and leave the issue between you and the County Collector, if you shall decide that to be my proper course to pursue.

As regards the amount available for State and County purposes in my hands, I have to inform you that I have [illegible] of the taxes for the year 1880, and all the amounts on years prior to 1880 will be more than absorbed by the amounts due the Assessor and Collector for their fees as per bills presented. A full report of receipts and disbursements, since 1878, will probably be in readiness for your next regular meeting.

Respectfully submitted,
L. E. CLARK, Collector.

Plainfield, N J., March 21, 1881.

Filed.

The Clerk stated that he had been unable to present to Council this evening the delinquent in taxes, as per resolution of two weeks ago.

On motion of Mr. Tyler, the publication was deferred another week.

Mr. H. Smith, from Alms Com., reported as correct the following claims: P. M. Demarest, $85 95; James DeLong, $30; Peter Langenbahn, $6; G. Mehl, $26; T. J. Preston, $60; F. Conaboy, $8. Ref'd to Aud. Com.

By the same—As correct from Aud. Com., the following bills: H. H. Lowrie, $62 50; G. W. Townley, $20; S. C. Young, $4 75; Alex. Warnock, $3 65. Tabled for the present.

The Finance Com. reported as correct bond of St. Com'r Wm. Hand. On motion, accepted.

By Mr. Waring, from Fire, Water & Lamp Com.—Com'n from Plainfield and N. Y. & N. J. Globe Gas Co's as to lighting the lamps of the city for the ensuing year. Tabled for future action.

By the same—as correct, bill of N. Y. & N. J. Globe Gaslight Co., $157 82. Ref'd to Aud. Com.

By the same—Claims of Plainfield Gaslight Co., Jan. up to March, were read and on motion, referred back to Gas Co. for correction, Mr. Waring not feeling justifiable in reporting them as correct, as complaints had been made to him that numbers of the lamps had not been lighted, and he had taken the trouble himself to go around and examine the lamps, and found quite a number of them not lighted.

By the same—That petition from Chas. Hand for lamps on Central ave. and William street, be referred back without recommendation, owing to the city's position relative to money affairs. Agreed to.

By Mr. Tyler—The following:

Resolved, That the bills of the Assessor and Collector of taxes for amounts alleged to be due them or either of them, for assessing and collecting and disbursing taxes, be and the same are hereby referred to a special committee of three members of this Council to examine the books of the Assessor and Collector, and ascertain whether in fact such bills are correct as to amount, and the items of services rendered actually been performed, and report to this Council.

Resolved, That said committee be and it is hereby authorized to employ such clerical help in the premises as it shall consider necessary or expedient.

Mr Tyler wished not to be appointed one of the Com., as he did not understand "accounts."

On motion, the resolutions were adop'd, the Pres. stating that he would appoint the Com. later in the evening.

By Mr. Hamilton—from Police Com., as correct, claim of J. Doshay, $6. Ref'd to Aud. Com.

By Mr. Guion—As correct from Printing Com., claim of Runyon & Leonard, $45 55. Ref'd to Aud. Com.

By Mr. Coriell—from St. Com., the following claims as correct: Geo. M. Angleman, $26 25; St. Com'r Wm. Hand, $34 31; H. H. Lowrie, vital statistics, $25 80. Ref'd to Aud. Com. Also, as not correct, not being properly certified, claims of A. Killgore and R. Heaney, services to Board of Health. On motion, referred back to Board of Health for correction.

By Mr. Waring—The following:

Resolved, That one hundred dollars be appropriated to repair Park Avenue, and the Street Commissioner to do the same as soon as possible, provided, that when the work is finished the property owners on said Avenue shall pay the Street Commissioner promptly and agree to wait for their money until the City Treasurer shall have it in his possession, and able to pay same, when warrants shall be drawn for the amount without further action being taken by this Council.

This resolution raised considerable discussion. Mr. Coriell thought there were other streets in Plainfield that needed as much repairing as Park avenue. He made repairs on his street and fixed his gas crosswalks and never said anything about it.

Mr. Finch stated that he, too, had fixed the Avenue in front of his property, but there were other portions in bad condition, etc. After some further remarks in the premises, the following amendment to Mr. Waring's resolution was presented by Mr. Tyler:

Resolved, That the Common Council agree to become responsible for the expense of repairing Park avenue, not to exceed $100, provided, that the property owners shall pay the expense of said repairs, and not claim to be reimbursed until the Council has funds that can be appropriated for that purpose, provided further, that said work shall be done under the supervision of the Street Committee.

After some further discussion, the amendment was carried, and the resolution, as amended, adopted, Mr. Coriell voting in the negative.

The Pres. appointed as Special Com. to examine the Collector's and Assessor's books, Messrs. Henry Smith, A. H. Smith and Flanders.

By Mr. Darling—The following:

Resolved, That the Mayor and City Treasurer be and they hereby are authorized to borrow in anticipation of the collection of taxes for the year 1881, the sum of Fifteen Hundred Dollars. Adop'd, all aye.

By Mr. Tyler—An order served on City Treasurer VanWinkle to show cause why mandamus should not issue for county taxes of 1880. On motion, ref'd to Corp. Counsel for immediate action thereon.

The petition from Chas. Zimmer, was taken from the table and read.

Mr. Finch moved that the petition be referred to License Com. for a report thereon this evening. Adopted by the following vote: Ayes—Darling, Finch, Guion, Hamilton, A. H. Smith, Waring—6. Nays—Coriell, H. Smith, Tyler, Whiton—4.

Mr. Finch moved that the petition of Mr. Zimmer for a saloon license be granted. Adopted, the vote being the same as above—6 to 4.

On motion, Council then adjourned to meet first Monday night in April.

Iron Ore, Clay and Marl in New Jersey.

There were worked during the year 1880 136 of 350 iron mines in this State, or 39 per cent. At the close of the year there were 81 at work or 23 per cent.

The total amount of iron ore shipped from these mines in 1880 was 845,000 tons. The production for 1879 was reported at 488,028. The increase for the year is therefore 357,000 tons, or 73 per cent.

Iron mining began in Morris county as early as 1710, and was considered to be in a prosperous condition from that time onward, but it did not reach an annual product of 100,000 tons until about 1855. It has increased since then more than eight fold.

The zinc mines of Sussex county have shipped during the year 28,311 tons, which sum exceeds that of 1879 by at least 6,000.

The total amount of fire brick, fire clay and other refractory materials mined or shipped from the Middlesex mines during the year was 257,800 tons.

Stoneware clay mined in Middlesex, 10,000 tons. The clay banks on Pensaukee Creek, Camden, produced 41 917 tons of fire clay, kaolin, fire sand, etc.

There were nearly 100,000,000 red brick made in the State, of which 60,000,000 were produced at the Raritan and South River and Raritan Bay yards.

The number of fire bricks made in the State is estimated approximately at 10,000,000.

There are 110 kilns (at Trenton, Elizabeth and Jersey City) for making white pottery ware. The amount produced was about $3,000,000.

The aggregate sales of marls amounted to 69,578 tons, as compared with 56,570 tons in 1879.

NORTH PLAINFIELD PARAGRAPHS.

Mr. Daniel Pierson of Duer street is lying dangerously ill at his home, of heart disease.

Mr. Alex. Thorn of the firm of Berry & Thorn, has moved into his new residence on Craig Place.

It is hoped that there will be a large turnout of voters at the meeting of Tuesday evening next, to decide whether the district is to have a new school house.

Card from Dr. South.

MR. EDITOR:—May I state a few facts to allay the existing excitement in our midst regarding the many rumors of the cause of the present contagion in our city.

First. The body of little Helen Burrows has been removed, not because, as is alleged, it was interred "only one foot deep," but on account of her friends having purchased a lot into which they wished her laid. The grave from which her body was taken was at least four feet six inches deep, perhaps five feet.

Second. The gentleman lately residing on Fifth street and who died from small pox, was entirely unknown to those who performed the task, and *he had nothing whatever to do with it.*

Third. He had been sick nearly or quite one week before the disinterment took place, it being done on the night of the 13th inst., between the hours of 11 p. m. and 2 a. m.

Fourth. The young man Ashton did not get his contagion from the removal, as, if I am correctly informed, he was taken sick on the 13th, some hours before the body was moved.

Fifth. The consent of Mr Burrows' physician was not given. He had no authority to give such consent, nor was it asked.

Very respectfully,
E. W. SOUTH, M. D.

The Work of the Employment Bureau.

Through the Winter 1879 and '80 the Women's Sewing-class, under the auspices of the Plainfield Relief Association, was attended by an average number of seven or eight persons (white and colored women,) though often times our room was full. Of these, but few had received any instruction in sewing, and their work was often improperly put together and badly sewn.

The women manifested not only willingness to learn, but genuine interest in doing their work well, and at the close of the year the committee in charge felt much gratification in hearing that perceptible improvement had been noticed in the quality of work done through the Employment Bureau.

Not less were we gratified by evidences that these our beneficiaries found comfort in communicating to use their joys and sorrows, and in listening to friendly advice and suitable reading.

Our first meeting held the past Winter was on 23d of December, and we have had quite a regular attendance of twelve or fourteen persons, both white and colored women.

Our work includes every form of plain sewing, with particular attention to buttonholes, and the darning of stockings. After lessons have been given in buttonholes, strips are given for practice at home, with a sample made; these are brought in at a subsequent meeting, the work nicely done.

Among our members are some whose characters have been open to discussion in our Relief Society, and the temptations of poverty have certainly been theirs, often perhaps, overcoming them, but our committee feel great charity for those whose hearts are still tender, whose eyes brighten with a sense of real interest felt in them, and who are grateful for a kind word of encouragement.

We would still bid these, our less favored sisters welcome, giving them the quiet of one afternoon in a week, when away from their home-cares, they may, from a different standpoint, receive kind suggestions, as to the care of home and children.

Republican Politics.

MESSRS. EDITORS:

What is the matter with the heretofore much boasted-of perfect (?) organization of the Republican party of our city?

It has been the custom for said party to elect its representatives to the County Executive Committee from this city, at the same primary that the Assembly delegates are elected, each year. It has also been the custom of the Republican Association of Plainfield, in January of each year, to elect its officers from President down. As matters now stand with them, they have not as yet elected their delegates for 1881 to the County Committee; nor have they had a meeting of the Association to elect their local officers for 1881. It would seem that the present officers of the Association—who are holding over—are afraid to call a meeting for the election of officers for the present year, for fear they themselves will be *ousted* from their positions. The probabilities are *they would be left* if an election should be held; and to retain their present *control of things*, they evidently have concluded that no election is necessary. But from what can be learned there is no little dissatisfaction among the rank and file of the party, at the arbitrary and bulldozing tactics of the self assuming officials, whose love for power (however small) is greater than their love for fair play. Call a meeting brother President—is the voice of many, many Republicans.

False Fire Alarms.

MESSRS. EDITORS:—

For the information of those viciously disposed persons, who seem to take such sweet delight in creating false alarms of fire in our city, I desire to state that the penalty for such an offence is $50 fine and thirty days imprisonment; and that for creating or knowingly continuing a false alarm within the fire limits of North Plainfield, there is also a penalty of fine and imprisonment; and that a speedy prosecution will follow the detection (which is sought for) of any one engaged in the nefarious business.

False alarms of fire are not only demoralizing in themselves, but are shocking to weak nerves; and are furthermore quite expensive to the Fire Department.

E. L. MORRIS, Fire Com'r.

For "The Constitutionalist."

MESSRS. EDITORS:

Permit me through the agency of your paper to place before the public some queries pertinent to a subject, which seems to be causing unnecessary agitation, and at the same time state a few facts for those who do not feed on mere rumor.

Why should it be enigmatical that new cases of small-pox are brought into this city, when the disease is so prevalent in the cities of Philadelphia and New York, to say nothing of smaller neighboring towns so easy of access to residents of this?

Why should there be such professional and non-professional groping after cause and effect, as has resulted in the monumental fabrications, to use no stronger term, evinced in current rumor, to connect the first case imported with those now prevailing?

It would seem as if official and professional dignity were imperiled by those who should sustain it, lapsing into a town gossip society, and instead of allaying, foster the excitement by giving heed to the most extravagant disconnected statements, and by the most illogical methods possible reach the only legitimate conclusion, the "*reductio ad absurdum.*"

This is not intended to try to account for the existence of the four new cases; there has been by far too much wild guessing upon that already; but to make futile the attempt to connect them and the case of last January, which has been made with a zeal and persistency worthy of a community of "Macbeth Witches."

It has been stated that the fatal case of March 19th was the result of participation in the exhumation and re-interment of the body of the first case. To explode this theory it is only necessary to say, that the re-interment was made at 1 a. m. of the 14th inst., while this man was far advanced toward the fatal stage of his disease, and furthermore, that he was entirely unknown to the friends of the first victim.

The only other statement, of the many highly colored, which calls for notice, is that of the "shallow interment" reputed to have been made without the cemetery limits. The temporary grave was dug by a regular grave-digger within the cemetery enclosure, was at least five feet in depth, while the present one is six feet deep.

If the "ex-policeman" who figures so extensively in these rumors, could for the moment deny himself the intense gratification of being before the public, he could with perfect truth deny all participation. He had nothing whatever to do with the work. It remains only to be said, every precaution possible, was taken to prevent spread of the contagion, as was done at the time and in the case of the first sickness. Those who participated have reached and passed the time for any development of contagion, aside from the fact of their being proof, by all law and precedent, from contraction of the disease.

The result, in the judgment of the writer, conclusively shows, and to the unbiased should demonstrate that all necessary precautions were taken to prevent evil result.

It is to be hoped for the benefit of the community at large, that all intellectual and physical energies should now be directed to the amelioration of the condition of the surviving afflicted ones, to circumscribe the limits of the contagion to its present; and that all this puerile vaporing shall be relegated to the stable or the grog-shop.

Be it enacted by the Senate and General Assembly of the State of New Jersey, That with the view to stimulate individual effort in the cultivation of fibrous plants, that the treasurer of the state be hereby authorized to pay the following bounties, upon vouchers duly receipted by the payee, setting forth the quantity and prices of the products grown, converted or manufactured by him or them, whose affidavit of their truthfulness shall be first affixed to the said vouchers, and be attested by the clerk of the county in which the products are grown, converted or manufactured; and moreover, the said vouchers shall be certified by the chief of the bureau of labor and industries of this state:

JOINT RESOLUTION NUMBER IV.

Joint resolution respecting the celebration of the centennial of the battle of Cowpens, and the erection and unveiling of a memorial column at Spartanburgh, South Carolina, in honor of the victors.

Whereas, It is proposed by the state of South Carolina to erect at Spartanburgh, in that state, a memorial column in honor of the soldiers, from the north and south, who achieved a victory at the battle of Cowpens, in the war of the revolution; and whereas, the state of New Jersey, as one of the thirteen states forming the original union, has been invited to participate in said erection and unveiling, and to make a small money appropriation for the purpose of being formally identified with the enterprise; therefore,

1. Be it resolved by the Senate and General Assembly of the State of New Jersey, That our state cordially expresses its approval of the proposed action of the state of South Carolina and cherishes the patriotic spirit and memories which prompt it, and that the state treasurer be and is hereby authorized and directed to pay to the treasurer of the state of South Carolina, out of any moneys in the treasury not otherwise appropriated, the sum of three hundred dollars, in order that the state of New Jersey may be formally identified with the memorial, and in the panel thereon set apart for the middle states.

2. And be it resolved, That a delegation consisting of his excellency, the governor, the president of the senate, the speaker of the house of assembly, and two members of the senate and two members of the house of assembly, be appointed by the respective presiding officers thereof, be and are hereby authorized and requested to confer with the proper authorities of the states of New York, Pennsylvania and Delaware, in determining as to the inscription to be placed upon said panel, and in selecting an orator to represent the middle states on the occasion of the unveiling of said memorial column.

3. And be it further resolved, that the secretary of state be and is hereby directed to transmit an engrossed copy of this joint resolution, under the great seal of the state of New Jersey, to his excellency, the governor of the state of South Carolina.

Approved March 3, 1881.

JOINT RESOLUTION, NO. V.

Joint Resolution in relation to the struggle of the Dutch farmers in the South of Africa to maintain their independence.

Whereas, The people of New Jersey owe much to Holland in the early settlement of the state for many of our civil and religious institutions, and in addition, later marriages of the descendants of the early settlers during the last two centuries has made a large portion of our population kindred by blood to the Dutch people both in the fatherland and those countries colonized by them; and whereas, the unequal fight between the handful of Dutch farmers in the South of Africa with the mighty British Empire appeals especially to our sympathies; not only as a kindred people but to our gratitude for the aid extended to us by the Dutch in our similar contest with Great Britain for independence; therefore,

1. Be it resolved by the Senate and General Assembly of the State of New Jersey, That our representatives in Congress be requested to use all honorable efforts tending to a settlement of this unhappy contest by the civilized and christian method of arbitration, instead of the barbarous one of force and superior might, and that they especially give encouragement if possible to that appeal to the [illegible] and magnanimity of the English people lately made by leading citizens of Holland in behalf of the Dutch farmers of South Africa in their patriotic struggle to maintain their independence against the mighty power of the British Empire.

2. And be it resolved, That his excellency the governor be requested to forward a copy of these resolutions to each of our senators and representatives in Congress.

Approved March 3, 1881.

DIURETIC.

KIDNEGEN is highly recommended and unsurpassed for FOUL KIDNEYS, DROPSY, GRAVEL, BRIGHT'S DISEASE, LOSS of ENERGY, NERVOUS DEBILITY or any OBSTRUCTIONS, arising from KIDNEY or BLADDER DISEASES. Also for BLOOD and KIDNEY POISONING, in infected malarial sections.

By the distillation of a FOREST LEAF with JUNIPER BERRIES and BARLEY MALT we have discovered KIDNEGEN, which acts specifically on the Kidneys and Urinary Organs. It can be taken at all times, in all climates, without injury to the system. Unlike any other preparation for Kidney difficulties, it has a very PLEASANT and AGREEABLE taste and flavor. It contains positive DIURETIC properties and will NOT NAUSEATE. LADIES ESPECIALLY will like it, and GENTLEMEN will find KIDNEGEN the best Kidney Tonic for its purposes ever used!

OLD DAN.

Farmer Henderson came from the barn one morning with his hands and clothes wet and covered with mud, his face red and his eyes flashing.

"Ned!" he shouted as he entered the kitchen. "Where's Ned?"

"Here I am!" came a cheery voice in reply, and an instant after a bright, strong boy of some sixteen years entered the old-fashioned country kitchen from the adjoining woodshed where he had been cutting potatoes for the day's planting. "Do you want anything?"

"I want to tell you this," said Mr. Henderson, as he washed himself at the sink, and rubbed his weather-beaten face with the coarse towel until it was even more red than before. "Old Dan must be killed! Just see the state I am in, and all from that worthless old rascal. I won't have him about the place another day. He's good for nothing but to make trouble and he must be shot before night!" added the farmer wrathfully.

Ned was about to plead for his pet when his little sister came into the room.

"Why, papa, what is the matter?" she cried, running to him in astonishment. "Did you fall into the creek?"

"I might as well," he replied, half laughing. "Old Dan butted me into the watering trough."

There was a shout of laughter from both children, in which their mother joined.

"Well, Jedediah," said Mrs. Henderson, coming into the kitchen shaking with mirth, "what could you have been thinking about, to let an old ram, most twenty years old, knock you into the watering trough!"

"But," explained her husband, "he took me unawares. I had just filled one pail to carry to the barn, and was stooping to dip the other, when the old rascal came at me like the wind, and knocked me completely into the water! He scampered, I tell you, before I could get out. He knew he had done mischief. Anyhow, he's got to be killed to-day, sure. He's only a nuisance, and I'll shoot him to-night, when we come back from town, if he's on the farm!"

Two hours later Mr. and Mrs. Henderson drove away to be absent from home until night. As they rattled out of the yard old Dan suddenly appeared close to the gate, and wagging his tail as if in derision, gave utterance to a hoarse "Baa-a-a!"

The farmer turned, shook his whip at the fellow, and cried, "This is your last day, my boy, make the most of it."

Ned and Carrie were the only children. Leaving Carrie in the house alone, after they had considered awhile whether there was any way of averting old Dan's sad fate, Ned shouldered his hoe and marched off to his work, planting potatoes with Cronson, the hired man, in the "back lot."

But the little girl of thirteen had no thought of being afraid. She had the breakfast dishes to wash, some sweeping to do, and the dinner to get all before twelve o'clock.

Time fled. The dishes stood in shining rows upon the pantry shelves, the broom had performed its work, and Carrie was preparing the vegetables to be boiled, when there came a faint knock at the door. Supposing it to be one of the neighbors, the little girl did not rise, but called:

"Come in."

The door was slowly opened and a man stepped within.

He wore a black coat, buttoned to the chin, and very threadbare. His trousers, too, were black and very shiny, and much too short for him. On one foot was a boot, while the other was graced by a ragged shoe. He carried a battered silk hat in his hand. His face was long and solemn, but quite red, his eyes bleared, his hands very dirty, and altogether he was a queer looking visitor.

"Is your ma at home, miss?" said he in a half whine, as he glanced sharply about the room.

"No, sir," replied Carrie, wondering why he asked; "she has gone to Underhill. Did you wish to see her?"

"Oh, no," the man replied, "only asked out of politeness, you know," and he smiled solemnly at the little girl, and winked one eye. "No I came on business with your pa—particular, urgent business. S'pose he's round, is he not?"

"No, sir; he went to town with mother," said Carrie.

"Now, that's too bad!" exclaimed the visitor, as he seated himself; "and I've come so far to see him. But, perhaps, your brother or sister would do as well."

"I haven't any sister," said the little hostess, laughing, "and my brother's over in the back lot. He'll be in by-and-by, though, if he'll do."

"Well, I don't hardly believe he will, after all," said the man shaking his head thoughtfully, "and I can't wait to-day anyway; I hain't got the time. But I'm terribly hungry. If I could I'd stay to dinner, miss. However, under the circumstances, perhaps you had better give me a light lunch before I go; a piece of pie and a cup of tea and a little meat or something of that sort."

"Oh, certainly, only I can't give you the meat, for we haven't it in the house," said Carrie, rising; "but I will find something." And she brought from the pantry a whole apple pie, which she placed before him with a knife and fork.

"If you will help yourself I'll have the tea ready in three minutes."

"All right, my dear," said the man seizing the knife and drawing the pie toward him. "I will act upon your advice. The last time I took dinner with Gen. Grant," he continued, as he cut a great piece and began to eat, "he said to me Governor, Governor," said he, "never disregard a lady's advice, and I have always remembered what he said," and he chuckled merrily, and nodded his head at the delicious looking pastry before him.

Carrie wondered a little at the table manners of the man who had dined with Grant, but she steeped his tea, flavored it with rich cream and sugar and passed it to him.

"I am not much of a hand for tea," said the man as he drained the cup, "but my doctor said I must drink it for my digestion. I ruined my digestion while I was in the army, you see;" and he winked solemnly. "By the way," he continued, picking up the silver teaspoon from his saucer, "have you any more of these? They are as neat a pattern as I ever saw, and odd, too. I should like to see the rest of the dozen, if you have them."

"Mother has only eleven," said Carrie in her innocence. "And she is very proud of them; but I will show them to you."

Then she brought the little box with the precious table silver—eleven teaspoons, four tablespoons and an ancient cream jug—all pure silver and shining brightly—and placed them before her inquisitive visitor to admire.

He had finished his "light lunch." That is, the pie was demolished and the teapot empty. As the girl handed him the treasures he arose, took the box to the window, examined its contents with a critical movement, and then, as if in a joyful surprise, said.

"I am right! They are the very spoons! The very same identical spoons that my friend lost when he was a boy! How lucky it is I have found them at last!"

With these words, and a very low bow the rascal opened the door and slipped away with the spoons and silver cream pitcher down the path toward the gate.

For an instant Carrie stood motionless, then rushing after him, she shrieked:

"Give me those spoons! They are my mother's spoons, and you are trying to steal them! You are a thief, a thief! Bring them back, bring them back!"

The man, however, paid no attention to the child's cries, but ran rapidly down the path, carrying the box in his arms; and the spoons and pitcher would have been lost forever if a new party had not appeared on the scene.

Old Dan was quietly nibbling the grass near the gateway. Hearing his little mistress' voice he looked up at the very instant that the tramp passed. What he saw about the man that disturbed him I don't know; but erecting his head, with a hoarse "Baa-a-a!" he shot after him like a cannon ball.

The man turned to receive him and defend himself, but the ram struck him fairly in front and knocked him, half senseless, flat upon his back, scattering the silver in all directions.

For an instant the fellow remained sprawling in the dust, then he slowly arose, limping and groaning, and with a glance at his enemy began to gather up his stolen spoils.

He had completed his task when old Dan, who had all this time been watching the proceedings from beneath his shaggy eyebrows, shook his long beard, and with another tremendous "Baa-a-a" dashed at him again, and over he went a second time, his treasures flying from his hand.

And now began a strange battle. With cries of rage and pain, the man recovered his feet, and turned upon the ram, kicking and striking at him furiously, while Dan, accustomed to such warfare from years of experience with the boys of the country-side, easily eluded him, and in return butted him to the earth again and again.

The spoons and cream pitcher were knocked hither and thither, as the combatants struggled, and the road was trampled into something like a race course, the air was filled with very bad language, very angry "baas" and great clouds of dust.

But after some five minutes, victory declared itself upon the side of the quadruped; and bruised and bleeding, with clothes in rags, minus hat and shoes, the vanquished man suddenly turned away and ran limping down the road, leaving his antagonist in full possession of the field and stolen silver.

Old Dan remained motionless, gazing after his enemy until he disappeared around a distant turn in the road; then shaking the dust from his coarse wool, he gave utterance to a low grumble of satisfaction, and wagging his tail, returned to his dinner in front of the house.

Half an hour later, as Carrie washed the coveted spoons and the bright little pitcher and laid them carefully away once more, she told her brother the story; and how the robber was foiled; and Ned, full of enthusiasm, cried:

"We will not kill old Dan at all, for I do not believe that father would shoot him now for a hundred dollars."

And the boy was right. The old ram did more than he knew when he fought the tramp and conquered him. He won his master's regard, and a free, happy life for the remainder of his days.

CONCERNING BED-ROOMS.

A HINT THAT MAY WELL BE FOLLOWED AND THUS SECURE GOOD HEALTH.

A physician was lately called to prescribed for a young lady who lives in one of the most charming villas in Learnedville.

"Nothing the matter with her," she declared, "nothing but terrible headaches." Every morning she waked with a headache and it lasted nearly half the day. It had been going on for months—ever since they moved into their new house. The doctor tried all the old remedies and they all failed. Riding and archery were faithfully tested, study and practice were cheerfully given up. Nothing did any good.

"Will you let me see your bed-room?" asked the doctor one day, and he was shown up into the prettiest little nest imaginable.

Nothing wrong about the ventilation. The windows were high and broad and were left open every night, the patient said. The bed stood in one corner against the wall.

"How do you sleep?" says the doctor.

"On my right side, at the back of the bed, with my face to the wall. Lou likes the front the best."

"The dickens she does!" says the doctor. "So do I. Will you do me the favor to wheel that bed into the middle of the room and sleep so for a week? Then let me know about the headache."

Doctors are so absurd! The middle of the room, indeed! And there were the windows on one side, and the two doors on the two other sides, and the mantle with its Macrame lambrequin on the fourth side. There was no place for the bed but just where it stood, in the corner.

"Never mind! Sacrifice your lambrequin," urged the doctor—"just for a week, you know."

The lambrequin was sacrificed, the bed moved where it had free air on both sides, and the headaches disappeared.

It may be only an exceptionally delicate system that would be induced to actual headache by breathing all night the reflected air from the wall. Yet possibly some of the morning dullness we know of may be traceable to a like cause. At any rate, plenty of breathing space around a bed can only be an advantage to everybody.

In visiting three or four newly-built and beautiful houses, recently, the lack of a good place for the bed was the most striking feature of the bed-rooms. Some of these rooms were finished in shining mahogany, ebony or walnut. Some were hung with rich modern tapestry. All were elegant and a few were airy. But in most of the best of them, where was a bed to stand? A bay-window, perhaps, would occupy the middle of one side, another window another, a door another, a mantle-piece another.

At a large masquerade ball in Phillipsburg last week Mrs. F. Heckman, wife of the foreman of the *Warren Democrat*, wore a dress made entirely of newspapers, trimmed with the headings of the daily and weekly papers of the vicinity.

Mr. George S. Duryea, of Newark, the Clerk in Chancery, has received his commission duly signed and sealed, and will file the necessary bond and take the oath of office on the 28th instant.

SHAPING THE WORLD'S AFFAIRS.

The dialect of the newspaper fraternity, when at work in the shop, is a bewildering maze of technicalities—a mysterious and unfathomable language to the outside visitor. A dear good old lady called in a newspaper office recently to obtain a reporter's position for her promising young lad, who had just graduated from a theological seminary. In the midst of her eulogies of the young man's ability, the city editor, intent upon the regular business of the paper, called out: "Mr. ——, give that 'Daring Housebreaker' a good place."

The old lady hesitated for a moment, but evidently doubting the accuracy of her hearing, renewed her eulogies.

"We'll be very pleased to see what can do for him, madame," replied the editor.

"Don't you want the 'Two Escaped Convicts' to follow?" asked —— interrupting.

"Yes, give them a good show, too."

The old lady could doubt no longer. She tucked her boy's arm in her own and said: "I don't know but I'd better have him stick to preaching."

"Possibly that's best," replied the editor. "But—"

"We've got a big lot of 'Diphtheria,'" interrupted the assistant.

"Gracious!" said the old lady, "I guess I'll go!—"

"And there's more cholera coming!"

The old lady heard no more, but withdrew, thanking her stars that at least such wickedness seemed to meet almost with immediate punishment.

Fancy the horror of the hopeful student of surgery when on a casual visit to a young reporter of the newspaper he heard the managing editor calmly direct that a "double head must be put on the 'Two Fallen Sisters,'" and "Talmage be cut right off in the middle." To intensify the shock he receives, it is only necessary to hear the final instructions:

"John, have 'Bernhardt's Lover' killed, and, old man, suppose you put a big head on 'Ben Butler.'"

The telegraph editor who holds a connecting wire with all the points of the globe, and supervises with equal fidelity the price of mess pork in Cincinnati and the awful crisis among the great powers, is frequently the occasion for harrowing thoughts among unsophisticated hearers when he remarks with fiendish imperturbability: "We have the Czar's assassination on hand to-night, and it looks as if we'd have a splendid conflagration, with heavy loss of life, in Chicago."

It is comforting to withdraw from such a dreadful condition of affairs to the lighter and happier atmosphere of the political editorial rooms, where great public events are settled thus:

Chief Editor—We ought to make Grant Secretary of War, I think.

Assistant—Yes, and send Sherman to the Senate.

Foreign Editor—Well, thank Heaven, I've got the "Irish Revolution" under way and finished "Gladstone's Policy," and I'll go to lunch.

BEFORE MARRIAGE.

Lovers' quarrels arise from different causes. Sometimes from mere intensity of affection making undue exactions; and at others from causes which, properly understood and appreciated, would warn the parties of the impossibility of their ever living happily together. For instance, a young man who is engaged finds his affianced very jealous. Whenever they meet other ladies in society, she treats him with great coolness. This chills his ardor, and makes him discontented, so much so that he is in doubt about marrying her at all. He has, in fact, come to the conclusion that if he believed she would treat him after marriage in the same way she does now, he would never marry her. As a general proposition, it may be laid down that persons will not change essentially after marriage. A belief that they would, has been the cause of countless unhappy marriages. They will be just about the same after as before, and, if anything, a little more likely to give way to strong natural proclivities or peculiarities of temper. If you would not marry a young woman provided you believe she would continue to be as she is now, without any very marked change in her disposition, then you do a very perilous thing to marry her at all. The same rule, on the other hand, applies to the young man. Many and many a girl has made shipwreck of her happiness for life by marrying a young man in the confidence that after marriage she would wield such an influence over him as to reform his wild habits. She finds her influence diminished rather than increased after they are married, and disappointments, disagreements and misery necessarily follow. Marry no one with whom, without any change of character, you are not satisfied.

EDITING A PAPER.

Editing a paper is a pleasant business—if you like it.

If it contains much political matter, people won't have it.

If the type is large people say it doesn't contain much reading matter.

If the type is small people say it hurts the eyes to read the paper.

If we publish telegraph reports folks say they are nothing but lies.

If we omit them we have no enterprise, or suppress them for political effect.

If we have a few jokes folks say we are nothing but rattleheads.

If we omit jokes folks say we are nothing but fossils.

If we publish original matter they condemn us for not giving selections.

If we give selections people say we are lazy for not writing more and giving them what they have not read in some other paper.

If we give a complimentary notice we are censured for being partial.

If we don't all hands say we are a great hog.

If we insert an article which pleases the ladies, the men become jealous, and vice versa.

From the New Haven, Conn., *Journal and Courier*, we extract that on the 3d of February, three persons, Wm. Wheeler, Curtis Hinman and John Oatman, with dogs, ran to covert in a cave 30 foxes. Of these they killed 23 by smoking the "varmints" out and then killing them with gun and dog. Seven of the 30 foxes escaped. The hunters claim the "cake." They should have it.

The reports published in certain sporting papers of New York and other States, that the quail have been exterminated in various parts of this State, in consequence of the extreme cold weather of the past Winter, is without doubt the doings of certain uninformed and irresponsible would-be scribblers. From well-informed and competent persons, we are informed that but few quail have been found frozen to death in this State, especially in this and the more Northern part of the State. As a rule the farmers and members of Game Protective Societies have taken the trouble to scatter feed about the resorts of bevies known to exist in their neighborhood, so that the birds could get sustenance to keep them from starving.

POLITICAL PREDICTION.

Sixty years ago, the Hon. Mahlon Dickerson, a Senator of the United States from New Jersey, in a speech delivered in the Senate, gave utterance to the following prediction:

"The time will come when the whole patronage of government will centre in the President, and that patronage, under our present system of choosing electors, will become a machine of irresistable power. The management of this power will become a matter of science. He will be deemed the greatest politician, and the ablest minister who can, with a given portion of patronage, produce the greatest effect. The force of this power will be applied to effect the purposes of ambition, with as much economy and skill as water is applied to the wheel, or that of steam to the engine."

That time has arrived and its baneful effects are plainly visible.

Political preferment has, as a rule, ceased to be the reward of integrity and ability, and the intriguing politician, no matter how venal, who can and willingly does ply his avocation for the advantage of party, is the recipient of both honor and profit.

The noble old fashioned inquiry—"Is he honest, is he capable, is he of good report?"—has been transformed into the sordid question—"Has he political influence?"

Such, unfortunately, characterizes partisanship in this country at the present day, and as Senator Dickerson gave warning note three score years ago, patronage to an enormous extent is now in the hands of the President, and wielded more for the perpetuation of ruling power than for the promotion of the public weal.

Making the President forever ineligible for re-election, and causing purity of personal character and practical ability to be the positive requisites for filling every office, whether through popular suffrage or executive appointment, would work a reform of priceless value to the stability and reputation of free government.

A READJUSTER.

Senator Mahone, of Virginia, in replying to the strictures of Senator Hill, of Georgia, exultingly exclaimed—"I am a Readjuster?" "Do you know what that is?"

The Georgian was somewhat perplexed, never having been familiarized with that kind of nondescript.

He knows now.

Senator Maxey, of Texas, in a speech the other day gave the desired information. It was this—

"A Readjuster is one employed to readjust the offices of the Senate in the interest of the Republican party, and under the control of a Confederate Brigadier."

Senator Burnside, of Rhode Island, thinks the Republican party cannot afford the Mahone speculation.

He is right.

THE CONSTITUTIONAL COMMISSION.

On Friday of last week, the following were appointed as the commission to prepare and present to the next Legislature amendments to the present Constitution of this State:

By the Governor—Hons. Leon Abbett of Hudson, John T. Bird of Hunterdon, and H. N. Conger of Essex.

By the Senate—Hons. Garret A. Hobart, President of the Senate, of Passaic, Thomas McKean of Camden, and John J. Gardner of Atlantic.

By the Assembly—Hons. Harrison Van Duyne, Speaker of the Assembly, of Essex, Barker Gummere of Mercer, and Holmes W. Murphy of Monmouth.

HOUSE BILLS 316 AND 350.

The bill designed for the relief of Plainfield, in providing for an additional tax levy on the people to raise money wherewith to pay off the mandamuses against the city, (House 316) which we gave in full last week, was amended in the Senate after passing the House, with a provision that before the bill became a law it should first come before the people for their acceptance of its measures. It then passed both Houses, and will undoubtedly be signed by the Governor and thus become a law. Therefore, before the tax can be levied upon our citizens they will first have a chance to express their opinion for or against it at the ballot box.

House 350 was a bill enabling Townships to issue bonds (not exceeding an amount of $4,500) for the purpose of raising money to purchase hose and fire apparatus. It was intended for the relief of the Plainfield Fire Department; inasmuch as North Plainfield Township is a portion of the Plainfield Fire Department, they would have the privilege of voting for the provisions of the act. The bill passed the House, but failed to pass the Senate.

PASSED AWAY.

The adjournment of the One Hundred and Fifth session of the Legislature of New Jersey, which pleasing event occurred on Friday last, was a great relief to the people of the State. It is difficult to find a notice even in the strictest partizan press, commendatory or eulogistic of the Legislature as a body. That it was a partizan body in every sense of the word cannot be doubted from its actions. The Governor was insulted by their refusal to confirm nominations made by him, while at the very last moments of the session endeavors were made to increase the salaries of Republican officials now in office. King Caucus ruled the members against even their own judgment. True there were exceptional cases where individuals were outspoken against such rulings but when voting time came they went with their party. The re-districting bill passed during the session was an outrageous measure, but we believe it will in time prove a boomerang and hit the party that made it, square between the eyes. The Democratic minority are deserving of the praise accorded them by the people, and even from some Republican organs, for their watchfulness in the interests of the public, by denouncing unjust bills introduced and in their endeavors to defeat such measures.

Senator Mahone read a speech of three hours length last Monday in vindication of his Republican alliance and the principles of a Readjuster. It sounded much like Conkling, who, watching Mahone's delivery, kept him closely to the prepared chalk line, and after he was through, flourishingly proffered congratulations. The performance was very transparent.

President Garfield has decided that there will be no extra session of Congress.

Kalloch, the murderer of De Young, the editor of the San Francisco *Chronicle*, has been adjudged "not guilty."

"A bird in hand is worth two in the bush." A Postmaster in office is stronger than half a dozen outsiders seeking to get in.

On Monday last, Charles H. Simmerson was appointed by Governor Ludlow as assistant in the Bureau of Labor and Statistics, in place of Samuel C. Brown, resigned.

One single family in Gloucester county recently ate fifty-one eggs for breakfast. The patriarch ate eighteen himself, and wanted more, but the supply being exhausted he was obliged to stop.

The Republicans made a great mistake, and some of them admit it, by allowing Mr. Hayes to veto the Funding bill. The three per cent bonds would all have been taken, and millions of dollars saved to the Treasury by the wise action of a Democratic Congress.

Senate bill 168, relative to the publication of the laws in supplements to the newspapers, which was killed in the House, reminds the Mt. Holly *Mirror* of the Connecticut church that fixed the pay of its minister at twenty-five dollars per year and half the fish he caught.

A political party that will tread principles under foot, and enter into copartnership with anything and everything for the attainment of an advantage, as the Republican has done, is on the downward grade. The Whig party adopted that kind of expediency and soon went over the precipice and to smash.

Who is to be Postmaster in Plainfield? That is an important question, fully equal to "Who struck Billy Patterson?" We learn that some of the many aspirants are sanguine of success. Don't count unhatched chickens too confidently, gentlemen, as the present incumbent is hard to oust under a Republican administration.

Governor Ludlow has made the following appointment of Commissioners to the World's Fair, to be held in New York, in 1883: First District, Edward Bettle; Second District, Edward J. Anderson; Third District, George H. Cook; Fourth District, Charles Scranton; Fifth District, John Ryle; Sixth District, Edward Balbach; Seventh District, Orestes Cleveland.

The Republican National Convention at Chicago last year declared that the validity of the public debt must never be questioned. Since then its candidate, now President Garfield, has crowned with flowers a man who boldly advocates repudiating portion of a State's indebtedness. If repudiation is treason in one case, can an official garland make it patriotism in the other?

Governor Ludlow has appointed Abraham Browning, of Camden, as one of the Commission to settle the boundary line between New York and New Jersey, in place of himself. The other Commissioners are Thomas N. McCarter, of Essex, and Prof. George H. Cook, of Middlesex. Also Chas. Whitehead, Nicholas Boraen, Julius Martin, Jonathan Peterson and Geo. E. Brown as Commissioners to mark out the property required by Brevet Major General John Newton, for the purpose of changing and improving the channel of South river and canals.

The gentleman from California named by the Republican caucus for Secretary of the Senate, has been graphicly compared with what they call in Texas a "pitching mustang." He has proven himself restive in the traces of party, but, notwithstanding that, the Republicans were forced to accept him, because Readjuster Mahone said so. Their selected candidate for Sergeant-at-Arms was another sweet morsel of readjustment diet. He wrote and voted for Hancock and English, still, the Republican Senators had to swallow him or run the risk of Mahone's kicking the rope out of adjustment line at a critical moment.

State Prison Keeper Laverty and Clerk in Chancery Duryee assumed formal control of their respective offices on Monday. The former was sworn in before Justice Gosson, filed his bond of $5,000 in the office of the Secretary of State, and began his duties at noon. His bondsmen are Samuel Hetherington and Ferdinand Heintze. Mr. Duryee was sworn in before Chancellor Runyon, at Newark, on Saturday, giving, as required by a new act, a bond of $50,000. His sureties are Susan L., Wm. R., John L., Joseph R. and Edward H. Duryee, and Oscar Kean, Wm. Rankin and ex-Chancellor Williamson. Both bonds have been properly approved. Secretary of State Kelsey will be sworn into office for one year on April 6th.

Hon. John T. Dunn, of Elizabeth, is deserving of the praise accorded him for his efficiency as a member of the House of Assembly during the past session of the Legislature. Always on the alert in the people's interests, he championed and aided to pass certain bills which will be of benefit to the general public, while he denounced in scathing terms the iniquitous measures embodied in others. Union County is ably represented by her one Democratic member, John T. Dunn. Senator Vail and Assemblymen Sheldon and Parrot also have made many warm friends by their actions during the past session. Mr. Vail has had the experience of past sessions to assist him. Mr. Sheldon and Mr. Parrot, as new members, have made fair representatives. Altogether Union County was very creditably represented in the Legislature just adjourned.

The editors of this State had as well make up their minds to the fact that lawyers are their implacable enemies, and govern themselves accordingly. Whenever a bill is introduced into either house of the Legislature inimical to the printers, it is always safe to set it down as the work of some lawyer. They believe in legislating for themselves every day in the week, and always make the laws as unintelligent and conflicting as it is possible, and then they are opposed to letting the people know what these laws are to the end that lawsuits may become more numerous and thereby bring grist to their mills. Unless they change their tactics and show a more liberal spirit towards printers, it would be about as well for the editorial fraternity of this State to declare open war against the lawyers and expose some of their disreputable tricks and practices.—*Gloucester Reporter.*

The Trenton correspondent of the *Elizabeth Herald* pays the following just tribute to our Democratic representative in this County:

"The Union County Democracy has been peculiarly fortunate in their representative during this and the last two sessions. No member of the House in either party has displayed more energy or devotion to his duties or exercised a wider influence in checking the mad folly and extravagance of a weak and corrupt majority than Mr. Dunn, and he deserves not only the thanks of his immediate constituency but also of the Democracy of the entire State; his absence would have been a serious loss to the friends of good legislation. His short, stinging and pointed sarcasms often brought the blush of shame to the cheeks of the Republicans, and had the effect quite often of bringing them to a halt. The bills Mr. Dunn opposed affecting your city passed only after the most wonderful Republican industry. They had to get one Democrat on one of Mr. Parrot's bills in order to pass it, and two on another. On the whole, Union County has reason to congratulate itself on its lone star Democratic representative, Hon. John T. Dunn."

The Gloucester *Reporter*, (Rep.,) also has the following good word for him:

"The newspaper men of the State have reason to feel under obligations to Hon. John T. Dunn of Union. Their interests have never been attacked in the House but that he has promptly and ably defended them. When the iniquitous Senate bill—which was drawn by lawyers and was aimed as a death blow at newspapers—was reported in the House last Monday night he promptly moved to indefinitely postpone it, and had the satisfaction of seeing his motion adopted with but two dissenting voices. Mr. Dunn believes that if the Legislature passes laws the people have a right to know what they are, so they can obey and respect them."

Bills can no longer be sent through the mails in unsealed envelopes under a one cent stamp. This is new ruling of the Postmaster General.

Another case of mere lads running away from home with the idea that they will become heroes by slaying and scalping Indians in the far West, the result of reading such light literary trash as *The Boys' and Girls' Weekly* and others of the same ilk, has occurred in New York State. When will parents learn to keep such venomous literature away from their children.

On motion, the Clerk was instructed to issue to the several Road Overseers their commissions of office.

The following was offered by Mr. Sinclair, and on motion was adopted by a unanimous vote:

Resolved, That the Town Clerk be directed to call the attention of the Road Overseers, Districts Nos. 4, 7, 8, 9, 11, 12, 14, 15, to the dangerous condition of certain portions of the sidewalks in their respective Districts; and to request them to make them safe and passable for pedestrians, as soon as possible.

Town Clerk.

MEETING HEALTH BOARD.

MARCH 28, 1881.

Present—Henry P. Alpers, Robert R. Sinclair, James Moffett and John M. C. Marsh.

Committee on Schweinforth nuisance offered diagram in reference to said nuisance, and reported facts as found as to ground and surroundings, and on motion the report was received and after considerable discussion, further consideration of the matter was postponed to the next meeting.

Communication was received from Dr. J. B. Harrison, reporting three children in the family of Edward Bussing ill with contagious diptheria.

The Secretary was requested to notify the principals of the different schools in the Township through the resident physicians of all cases of contagious disease in families whose children attend school.

[Signed] JOHN M. C. MARSH,
Clerk.

The disease known as French measles, is prevalent here.

We regret to report the death of Jas. Owens, which occurred Tuesday last.

The road overseers in the different districts have been busy breaking down the roads during the past week.

Mr. E. A. Clark, butcher and produce dealer, proposes moving his business to the Ferris building, Broad street, April 1.

Deaths are reported of children in the families of George Nestor, Edward Bussing and David Frazee, from malignant diphtheria.

An apology is due for the misspelling of the name of the assistant at Bayard's pharmacy, in our last issue. It should have been Mr. John Dorrall.

Particular attention of the road overseers is called to the resolution regarding repairs to sidewalks, adopted by the town committee at their last meeting.

Mrs. Nancy B. Haines, mother of Mrs. J. N. Wilcox, died suddenly on Tuesday last. The sympathies of the entire community are extended to the afflicted family.

Mr. Alonzo C. Townley, of this place was married to Miss Susan L. York, of Whitehouse N. J. on Wednesday evening last. The well wishes of his many friends here, follow him in his new relation.

The attention of our Board of Health should be called to the ordinances adopted by the Summit Health Board; their adoption here would be for the best interests of the township, by the authority given them by the laws of 1880.

The Schweinfort, England, Smith and several other nuisances, to which the Board of Health has been giving its attention for the last three meetings, have not as yet been abated, and the prompt attention of the Board should be given to these several matters.

Mr. John M. C. Marsh, local agent for the Fire Association of Philadelphia, Merchants Fire Ins. Co. of Newark, Jersey City of Jersey City, Liverpool, London & Globe, reports the insurance business very brisk since the fire of Monday, he having placed a number of risks in these companies. Mr. Wm. H. Mosher is the district agent.

The marriage of Mr. Arthur C. Webb, of this place, to Miss Ella C. Bruen of Elizabethport, was celebrated at the residence of the bride's mother, Elizabeth avenue, Elizabethport, on the evening of Tuesday the 29th. The ceremony was performed by the Rev. N. Vansant, before a goodly assemblage of the many friends of the bride and groom. The presents were many and handsome. The newly married pair left upon the evening train for Westfield, followed by the well wishes of all their friends.—[Elizabeth papers please copy.]

What proved to be a disastrous fire at the residence of Mr. Ernest C. Webb, occurred on Monday last. The alarm was given about 10:30 and was responded to promptly by the fire department and the citizens generally. *From first appearances*, it was deemed impossible to save the house; and every effort was made to remove the furniture. With the aid of the large number of willing assistants present, the larger portion was taken from the house before the fire was quelled. The fire department with the "Little Giant" did excellent service, and prevented injury to all that portion of the house except where the fire originated. Loss upon the house and furniture estimated at about $1,000, and was insured in the Home Insurance Co. of N. Y. city; building, $1,500, furniture, $1,500. We understand that the loss has already been adjusted, and too much credit cannot be given to this company for prompt settlement of the loss. Mr. Frederick Decker is the local agent.

NO "TREATING" IN WISCONSIN.

CHICAGO, March 29.—A dispatch from Madison, Wis., says the Governor of Wisconsin to-day signed the bill recently passed by the Legislature prohibiting the practice of "treating." The bill provides that any person who shall hereafter ask another to drink at his expense, or any person consenting to drink at another's expense, shall be liable to arrest and punishment. When the bill was introduced into the Legislature it was referred to as a senseless and impracticable idea, and nobody thought it would become a law. It has only attracted attention since it has passed.

The members of the State Detective Bureau are happier than they were before adjournment of the Legislature, as that body failed to abolish the law creating their Bureau.

STONES IN THE KIDNEYS
and BLADDER Expelled—Long Suffering of One of TROY'S Best People.
A LUCKY MAN.
It is by no means a strange thing that Dr. Kennedy should have received the following letter. By reading it you will see in one minute why James Andrews was thankful:
TROY, N. Y., April 8th, 1880.
Dr. D. Kennedy, Rondout, N. Y.:
DEAR SIR—Until within a recent date, I had for several years suffered greatly from gravel, called by the doctors the Brick-dust Sediment. For about a year past this sediment has not passed off in the usual quantity, but has accumulated, causing me untold pain. Having heard of "Kennedy's Favorite Remedy," I tried it in my case, and after using about one and one-half bottles, I voided a stone from the bladder, of an oval shape, 7-16 of an inch long, and rough on its surface. I send you the largest piece that you may see of what it is composed. Since then I have felt no pain. I now consider myself cured, and cannot express my thankfulness and gratitude for so signal a deliverance from a terrible disease. You have my consent to use this letter, should you wish to do so, for the benefit of other sufferers.
Yours truly,
JAMES ANDREWS.
No. 10 MARSHALL ST., IDA HILL.
When we consider that the medicine which did this service for Mr. Andrews costs only one dollar a bottle, it would seem that persons afflicted in the fashion can afford the expense of testing its virtues. Get it of your druggist, or address Dr. David Kennedy, Rondout, N. Y. "Dr. Kennedy's Favorite Remedy" for sale by all druggists. aiwd

THE latest epidemic is house-cleaning.

CLEAR up your back yards and cellars.

THERE was an influx of tramps to our city Tuesday night.

THE Common Council meet in regular meeting on next Monday evening.

THE third concert of the P. V. S., has been postponed from the 17th to the 26th of May.

THE pulpit of the Crescent avenue church was occupied during last Sunday morning, by the Rev. A. H. Lewis.

It is said that the John Dunn Hickory Club was to take part in a 15th Amendment parade at Newark, during this week.

THERE is less (if possible) excitement over the coming election of Fire Commissioners, than there was during the same in 1880.

THE planet Venus is now in her glory and has attained her greatest brilliance, and a good eye can now detect the planet at noonday.

EDITORS are mostly troubled by two classes of people—those who want their names in the paper and those who want *their names left out.*

THE scholars of our Public Schools began a short vacation on Monday which expires to-day. Some parents, strange to say, rejoice thereat.

THE storm of Wednesday did what the Street Commissioner could not do. It washed the tons of dust and filth from the streets into the brook.

TRUCK-loads of Furniture enter our city every day, but leave empty—evidence that Plainfield attracts and retains a continuous increase of population.

THE auction sale at J. W. King's well-known stock farm, of stock and farming utensils, on Tuesday, April 5th, should attract thither a large crowd of purchasers. See adv.

LOVERS of that delectable fish, "sucker," are at all events glad that Randolph Pond is "out," as they have fine sport nights in spearing large quantities of this festive fish as they run up the channel.

THE demands of the season inspire a spirit in the breasts of our truckmen that is refreshing to see on account of its unusual independence. You can't move unless they choose to assist you—that's what's the matter.

THE Plainfield Vocal Society will unite with Mr. Fitzhugh's Brooklyn organization, in giving that popular conductor a testimonial benefit at the Rev. H. W. Beecher's church, on the evening of April 27th.

THOSE who remember the able character sketches of Mr. Abram Cox, who visited this city recently with Callender's Minstrels, will regret to learn of his disappearance under circumstances that point to his insanity and probable suicide.

A PROMINENT Front street merchant, not entirely unconnected with the fancy-goods business, will in a short time—it is said—be united in connubial bondage. May the combined lives be so sweet as the new name the bride will be called upon to assume.

THE Martha Washington Tea Party to which all are invited at the Seventh-Day Church on Thursday evening next, will be for a most worthy object—the "furnishing fund" of the Congregational Church—and in consequence appeals to the philanthropy of the public.

THE auction sale of stock, implements and furniture of L. White, advertised to take place on the premises, Park avenue, this city, March 30th, was postponed in consequence of the rain to Monday, April 4th, at which time the sale will positively take place, commencing at 10:30 o'clock a. m.

THOSE desiring to buy anything in the way of desirable household furniture or a neat family carriage and horse, will be given an unusual opportunity upon the occasion of Mr. J. E. Dowley's sale at 2 p. m. to-day, at his residence on the corner of Front street and Netherwood avenue.

OUR Bound Brook neighbors may be assured satisfaction by dealing at the store which Mr. C. E. Dunham, of North Plainfield, has opened in their town. Tin and iron-ware, stoves and ranges, harness and a large variety of desirable household utensils and farming implements, kept constantly in stock.

AFTER funeral services in New York at the church of which the deceased had been a member, the remains of the late Wm. H. Roome were brought to this city on Friday afternoon. At 3 p. m., on Saturday, the body was buried from the residence of the *deceased's mother, Mrs.* James Roome, on Washington avenue.

THE sale of seats for Dr. Damrosch's Musical Festival to which we referred last week, took place on Tuesday and Wednesday evenings at Chickering Hall—whereat there was much competition for choice and most satisfactory financial result. The Festival will be of the highest artistic character and the greatest musical event of this country.

A PAPER by R. W. Emerson, on his personal impressions of Thomas Carlyle, made up from his unpublished letters written at the time of his first visit to England, will appear in *Scribner* for May. The publication is made by special arrangement with Mr. Emerson and the Massachusetts Historical Society, before which the paper was read, and in the minutes of which it is to be printed after its appearance in *Scribner.*

FRONT street on Wednesday morning was relieved of its dreary aspect by several go-as-you-please races between hats and their owners, the most notable one of which was that between a well-known Insurance agent and his fine derby; the latter reaching the goal—a mud bank southwest corner of Front and Somerset streets—several seconds ahead of its competitor. The meek look of the vanquished as he restored to his manly brow its wonted covering, was witnessed by—not a few.

THE father, mother and son, composing a family of the species tramp, insisted upon encamping on *the Mansion* House piazza, last Friday morning. Officer Randolph ordered them to move on; but as the uniform furnished our police, by the city, fails to designate their position, the lady of the party called the mighty guardian of the law everything but what he was and struck at him with evil intent. The "nippers" were brought into service in persuading Mr. Tramp to accept the comforts of the City Jail—at which hostelry Mrs. and Master Tramp also spent the day. The woman got "fifteen days"; while the man awaits the action of the Grand Jury.

THE cry of "knuckle down," "fen cobs," "fen dubs," "let my 'white alley' alone," and kindred expressions known to those acquainted with the game, have commenced to greet our ears at different points of the city. This is the season when "Young America" is in its glory. Marble shooting, hoop rolling, and other games have commenced to employ all the time not occupied at school. When we look upon the boys thus enjoying themselves—free from every care—we involuntarily wish we "were a boy again." They little dream what they must encounter should they live to be men, and it is well they do not, else much of their pleasure would be destroyed. "Go it while you're young," is an expression of considerable import to those to whom it is addressed and should be heeded, for it is self-evident that "when they get old they can't."

THE latest mania is roller skating.

WHERE did you move to? Tell "Cookey."

REAL estate business is active in Plainfield.

ANOTHER equinox (?) on Wednesday. Oh Vennor, what a prophet!

THE Baltimore & Ohio trains will cease running through this city on Sunday next.

THERE is but little frost remaining in the ground and farmers will soon begin to plow.

DR. E. RUSHMORE can now be found at his new residence on Park Avenue during the usual office hours.

THE pond not cleaned out; the dam not re-erected and hot weather approaching. Pleasant prospects ahead.

THE man who said March would go out like a lamb if it came in like a lion, was a lion when he so predicted.

THE Plainfield Mutual Fire Assurance Company was one of the losers, to a small amount, in the late fire at Elizabeth.

MR. UNDAL is grading the grounds about the site of Mr. Tallmadge's proposed new residence at Netherwood, in a fine manner.

Mr. L. White, at the corner of Front and Peace Streets, still continues to offer many special attractions to the purchasing public.

A VISIT to Green & Co's warerooms on Front street and an inspection of their new stock of bedroom suits and other furniture, will repay you.

MESSRS Edsall & Price are the agents in this city for J. Wiss & Son's celebrated scissors warranted to cut anything excepting matrimonial ties.

THE two cases of varioloid reported last week have entirely recovered, and with them disappear all danger—if there was any—of an epidemic.

THERE will be a change of time table on the Central R. R. of N. J., next Monday, necessitated by the withdrawal of the Baltimore and Ohio trains.

HUGH M. Gaston, Esq., of Somerville, has been appointed by Chancellor Runyon Advisory Master of the Court of Chancery, *vice* Governor Ludlow.

THE Delibers will receive the thanks of the public for the opportunity they intend affording all, to hear the Hon. Wm. Parsons during the present month.

A PETITION hanging up in the post office asking for the reappointment of Postmaster Vail, is receiving a large number of signatures from our citizens.

MR. L. Paoli, the veteran fruit and nut merchant of North avenue, has had constructed for him by Mr. Jno. N. Schenck, a young steam-engine with which to roast the fragrant peanut.

PREACHING of the Gospel, by Paul J. Loizeaux, next Sunday evening, at 7:30 o'clock, in the meeting room over Vermeule's Hat Store, Front Street opposite Somerset. All are welcome.

THE gang of thieves, lately captured in Newark, in the possession of which was found the missing property of Mr. Lyman Briggs, of Netherwood, has received some very heavy individual sentences.

THERE is no article that has achieved so much favor of late as Hudson's Homestead Fertilizers. A chemical analysis shows them to contain the best elements of vegetable nourishment. They are for sale by Curtiss & Griffen.

THE storm of last Wednesday prevented a full attendance at Prof. Baird's free class preparatory to the formation of a singing school, in the Y. M. C. A. Hall. *On Saturday the 9th inst., an opportunity* will again be given those desiring to join.

MESSRS. Pope Bros., appropriately call the attention of the public at this season of moving and re-furnishing, to their new stock and styles of carpets of all grades and qualities. Their "exhibitor" enables them to show exactly how a carpet will look on a floor of any size from one to a thousand yards.

WE know of no novel of late that has so thoroughly satisfied us upon a perusal, as Mrs. Frances Hodgson Burnett's "Fair Barbarian." It treats of a style of American girl whose overflowing spirits are often unjustly taken as an index of a frivolous character, when kindness of heart, loveliness of disposition and the most intense self-respect are all combined beneath the surface. James R. Osgood & Co., of Boston, are its publishers.

GROUND was broken on Tuesday for the erection of a brick one-story office building on the Livery grounds of Mr. Daniel S. Roberts, (late John W. Laing's). Mr. Warren Marsh has the contract for the mason and John Chandler the carpenter work. The building will be 15x20 feet in dimensions, facing on Front street, next to the engine house, and is erected by Mr. Laing for his lessee, Mr. Roberts, who is daily adding new friends and customers to his already large list. In addition to other new stock and material being added to the establishment, we notice a team of beautiful blacks, just purchased by Mr. Roberts, which it is the delight of an old *attache* of the place, Geo. Butcher, to groom and handle the ribbons over.

Of Interest to Firemen.

Among the laws of N. J., printed in this issue, will be found one of interest to Firemen's Relief Associations and Insurance Companies. We refer to Chapter XCI.

Netherwood Burglars Again.

The residence of Mr. Lyman W. Briggs of Netherwood, was discovered on Friday to have been entered some time during the past and a quantity of clothing, silver, table-ware, carpets and a few miscellaneous articles taken. Captain Dodd was at once notified of the loss and by means of a printed list of ownerless property that had been seized at Newark the week before in the possession of a captured gang of many colored burglars, traced almost all the missing goods to that connection. Mr. Briggs—who is the gentleman in whose employ was the thief Rosevain upon the occasion of the Netherwood robbery of last August—is to be congratulated upon his good fortune in recovering his property, while Captain Dodd is again to be praised for his efficient labors. The party committing the deed is composed of some of the worst sneak thieves in this State, and is now awaiting trial upon many charges.

Almost a Tragedy.

A domestic in the employ of an ex-Councilman of this city, on going to her room one day recently, was terribly shocked to find a horrid man reposing calmly in her bed beneath the sheets. She immediately took a rapid transit journey for the kitchen, and informed a fellow servant of the presence above. Thus reinforced a return to the room was made with the intention of "showing" the perfectly awful beast out; but the courage of the two melted away as they gazed through the key-hole at the naughty fellow. The coachman of the establishment was then appealed to, and with commendable bravery he entered the apartment and turning down the coverings of the bed disclosed a—bolster. Now the ladies, instead of thanking him for their rescue, charge the perfectly innocent coachman with playing a joke on them; because, they say, if he had not known it was not a man he would have been scared to death.

Agreeably Surprised.

The surprise sociable given ex-Chief B. Frank Coriell by a large number of his friends, on Tuesday evening, was a most enjoyable and pleasant affair. The committee of arrangements, consisting of Messrs. Wm. Van Syckle and T. A. Sofield, is to be congratulated upon its success in carrying the affair to a favorable termination; while the floor managers, Messrs John Morton and Chas. W. Tallman, are to be praised for their ability in providing unalloyed satisfaction for all. Prof. Franze furnished the music, and the dancing and social pleasures of the occasion, continued until the next morning.

A Suggestion.

In view of the fact that the Board of Fire Commissioners have not sufficient funds on hand to allow of their constructing more needed fire wells in thickly settled portions of our city, the question is being agitated by tax-payers, (who refuse to pay their taxes on the ground that they have not sufficient protection against ravages by fire) that if the Board will order the construction of wells in certain sections, they, (the tax-payers) will agree to pay for the same and allow the amounts to be accredited them on their taxes. Why not do this, Messrs. Commissioners? The wells are needed, and can be built for about $125 each. There are taxes enough due to build all needed wells and pay off the indebtedness of the department.

Short-Sighted Thieves.

The Ephriam Vail place at Green Brook, now occupied by Mr. Isaac Lines and family, was entered by burglars on Friday night of last week. The inmates were awakened by a noise they supposed to be caused by a wandering cat; which animal was caught and put out-doors through a window. It was not until the next morning that the robbery was discovered; when in the yard at the side of the house was found a pocket-book which had been taken from a bureau drawer in one of the bedrooms. From it had been secured $40 in money, but a check for $80 was left untouched. In the same drawer in which the pocket-book had been found, was $300 in gold wrapped in an old apron, which the thieves had overlooked. No trace of the perpetrators has yet been obtained.

The following have been appointed by the Governor of N. J., and confirmed by the Senate as State Commissioners to the World's Fair, in pursuance of the passage of the bill providing for such and published in substance by us recently: First District—Edward Bettle; Second District—Edward J. Anderson; Third District—George H. Cook; Fourth District—Charles Scranton; Fifth District—John Ryle; Sixth District—Edward Balbach; Seventh District—Orestes Cleveland.

Since our last issue the vacant presidency has been offered to Mr. Hugh J. Jewett, at present the second vice-president of the Commission. That gentleman declines on account of other business affairs demanding his entire time and attention. It is not known whom will next be chosen, but it is supposed that no other will be mentioned prominently until his acceptance is assured.

A Monster Locomotive.

The new monster passenger locomotive, built at the Altoona locomotive works for the Pennsylvania Railroad, made its trial trip over the road on Monday last, and excited wonder and curiosity along the whole line. The engine worked beautifully, and the crowd of engineers who came down on her from the works at Harrisburg, were greatly pleased with her speed and the new steam reversing arrangement. It is intended to put her on the 7:35 a. m. train between Philadelphia and New York, and it is expected she will make the fastest time ever known, 90 minutes being the figures named by the confident railroad folks. Engineer Covert ran her on the trial trip and made the return run from New York to Philadelphia, 90 miles in 113 minutes. The engine is 62 feet long, weighs 97,000 pounds, and is equipped with 18-inch cylinders and four 6½ feet driving wheels.

Of Interest to Employees.

A law recently passed by the Legislature, and which has been signed by the Governor, is intended to greatly benefit employees. The law provides that the employees who have not received their wages when a Receiver is appointed, may request the Judge or the chancellor who appointed the Receiver, to have their wages paid at once. The law then directs the Judge or Chancellor to refer the matter to some Master in Chancery to ascertain how much is due the employees. This master then reports to the Court, which thereupon issues an order to the Receiver requiring him to sell at once enough of the property of the bankrupt firm, if there is not enough cash on hand, and pay the employees without further delay. It will be seen that thus the employees can get their pay within a day or two after the bankruptcy of their employers, and they will not be compelled to wait weeks, months and sometimes years before they get their pay. The new law provides that the employees shall be paid first and that their claim shall have precedence over the claims of any other creditor. The justice of the law and the great benefit accruing thereunder to the laboring classes, is apparent.

Fire Commissioner Election.

The election for two members of the Board of Fire Commissioners of the Plainfield Fire Department takes place Monday April 11th. For years past the candidates for the office have been placed in nomination by the firemen, the citizens taking but little interest in the election, except when urged by firemen to go to the polls and vote for some particular candidate in their individual favor. The firemen think that the right to nominate belongs to them as they are more directly interested in the law-making of the Board than any other class of citizens, which they certainly are. Nevertheless it is important that good and competent men should be selected to hold the office of Fire Commissioner, which is of as much importance in some ways as that of councilman. The Board make laws for the government of the Fire Department, and the people are taxed an amount not exceeding $7,000 each year to maintain them in their law making, therefore every citizen should go to the polls on the day of election and see that the proper men are elected as Commissioners. Thus far the names of several good persons have been placed in nomination by the firemen. Undoubtedly there will be *two or more tickets in the field.* "Alert" Hose Co., No 1 nominates one of their members, Gilford Mayer, who is one of the two retiring members of the present Board. No. 2 Eng. Co, nominates T. J. Gillies, from their Company, and Solomon Flail from Zephyr H. & L. Co. No. 1. The latter Company endorses No. 2's nomination, as does also Gazelle Eng. Co. No. 1. The members of "Warren Eng. Co. No. 3 have as yet made no definite nominations, but will probably endorse two of the members nominated by the other companies. Every tax-payer within the fire limits has a right to vote.

James Barber, Jr., while tending traps along Alloways creek, one day last week, saw a large hawk making repeated efforts to carry something from a ditch near by, which it was unable to do. On investigation he found it to be a large cat-fish which the tide had left on the mud. On taking it home he found it to weigh six pounds.

The Second P. V. S. Concert.

As we predicted a few weeks before, the Second Concert of the Plainfield Vocal Society, given at the Park avenue Church on Thursday evening of last week, far surpassed in many particulars any previous entertainment of the kind that has favored our city. The melodies selected were mainly of the heavier style of choral music, calculated to display at its best the power of the Society under circumstances that called for the most thorough practice and entire unison. The first portion of the programme consisted exclusively of some of Mendelssohn's most perfect and beautiful works followed by compositions of Flotow, Buck, Blumenthal and others. In the beginning the appreciation accorded was but slight, but as the evening progressed the sympathies of the remarkably large audience became aroused and found audible expression. An exceedingly sweet hymn that opened *part second* and which was worthily rendered by the combined abilities of the vocalists, received an enthusiastic recall, which favor was thereafter shown each successive number. The singing of Sir R. P. Stewart's "Cruiskeen Lawn" was most intensely enjoyed as well as the Quintet and Chorus from "Martha." The latter, however, presented so many difficulties not to be overcome except by more extended practice that had been available, Mr. Fitzhugh declined to repeat it in spite of the *flattering demand of its hearers.* This selection was undoubtedly the gem of the evening and its iteration is justly hoped for on a future occasion. Mrs. Collier, Mrs. Freeman, Mr. Titsworth Mr. C. McCutchen and Mr. Howland, sustained their special parts with most satisfactory result throughout; and naught but praise can rightly be given the chorus for its uniform correctness and harmony. The efficient training of Mr. E. J. Fitzhugh is to be credited with being the cause, to a great extent, of the meritorious character of the music in general.

The soloists of the occasion were all deserving and gifted. Mr. Chas. H. Thompson of Brooklyn displayed talents as a tenor singer, seldom surpassed. It is easy enough to say that vocalists of like qualities but greater excellence have been heard in this city, but it is impossible to name them. His voice is remarkably clear and flexible upon the upper registers and contains much in it of sweetness and no lack of sympathetic power. He was heartily encored at the close of his solos, while his portion of the operatic selection imparted greatly to its recognized merit.

Miss Harriet Cady is always warmly received by the music-lovers of Plainfield. Although but a month since we had the pleasure of hearing the artist in this city, her talented execution flashed with every element of fresh enjoyment upon the audience. Two selections from Chopin's works No's 37 and 10, failed to *satisfy, but the lady declined to indulge* the desire of her hearers by an additional performance.

Notice of Miss Josephine Holcombe's success is left till the latter part of our criticism from no lack of appreciation of that lady's remarkable gifts. Her appearance was enthusiastically welcomed by reason of her personal worth, which sentiment was supplemented by one of admiration claimed by the perfect ease and grace of her singing. Miss Holcombe's voice is one of musical purity and rare melody, not very powerful but showing the evidence of thorough schooling and exquisite taste. It was with a feeling of regret that the audience listened to the closing notes of the clear, fresh voice they are allowed so few opportunities of enjoying.

Miss Jennie Pratt of this city—and a member of the Society—accompanied the chorus in a manner that showed a remarkable government of the instrument and a fine sense of the composer's intention. It is the general way to overlook that very laborious portion of a concert, which is sustained by the talents and abilities of the accompanist. Such position was never more acceptably and satisfactorily filled than upon the occasion we have referred to.

Obituary.

WM. FLANDERS.

The death of Councilman Wm. Flanders on Sunday night, after but a short illness, and the subsequent burial of his remains on Wednesday, leave vacant a position in public and private life that many may aspire but few prove worthy to fill. As one of the most respected members and conscientious laymen of the First Baptist Church, and as one of the most public-spirited workers and anti-license supporters of our Common Council, he has stood before the people a true pattern of that noblest work of God—an honest man in all his convictions. Exactly two months before his death, the deceased delivered a speech in the Council chamber that will be long remembered as a remarkably able argument against the granting of licenses—conveying in every sentence the speaker's faith in the teachings of Christ and his enrollment among the chosen of our Heavenly Father. His death was unexpected even to those who watched the course of disease, at his bedside; while his many friends who had met him in public but a few weeks ago, heard of his decease with an added sorrow caused by the suddenness of the news. He was sixty-three years of age at the time of his death, and left a family to mourn his loss in sympathy with a large circle of acquaintances.

The funeral services at the First Baptist Church, on Wednesday morning, were largely attended. The members of the Common Council were present, as well as a number of prominent city officials, besides friends from other places. The Revs. D. J. Yerkes and Robert Lowry, of Plainfield, and the Rev. Mr. Guispard, of Scotch Plains, united in appropriate remarks regarding the life and death of the deceased. The pall bearers were Mayor L. V. F. Randolph, ex-Councilman A. B. Dunlap and Messrs. A. Vanderbeck, Wm. White, D. F. Randolph and A. C. Dickens. The remains were interred in Greenwood.

DANIEL H. PIERSON.

Mr. Daniel H. Pierson one of the most esteemed and admired of the citizens of North Plainfield, died at his residence on Duer street, of heart disease, on Friday of last week. Although he expired suddenly, the deceased and his family had been prepared for this fatal termination of an affliction from which he had long suffered. Confident in the love of Christ and assured of a home in the Kingdom of Heaven, his dying moments were full of peace and hope—while the assurance of meeting their loved one in the hereafter, soothed the sorrow of those who were called upon to part with a life that had been to them a model and a support. The many friends and acquaintances which the deceased had drawn around him by his uniform kindness of heart and upright character, united in their endeavor to show honor to the departed and sympathetic sorrow with the afflicted family, by *attendance at the funeral services* on Sunday, at his late residence. It was unfortunately impossible to accommodate the large gathering that assembled upon the occasion—many being unable to get inside of the house by reason of its entire occupation. The Rev. Dr. D. J. Yerkes during the services, spoke most feelingly of the deceased's admirable qualities and pure life. A quartette composed of the Misses Nettie Worth and Gussie Runyon, and Messrs. Chas. McCutchen and T. C. Aldrich, kindly contributed their vocal talents, and standing around the coffin sang most appropriately and beautifully a favorite hymn of the deceased—"Asleep in Jesus." The remains were buried at Cherryville, Hunterdon Co., his native place, on Monday, at 2 p. m., after services in the Baptist church of that place, of which the deceased had become a member thirty years before. Dr. Yerkes assisted and delivered an additional eulogy. A widow and two children are left, one of the latter being the Rev. J. Judson Pierson of Jordanville, N. Y. Ex-Judge J. Buchanan and the Rev. J. C. Buchanan, brothers-in-law of the deceased, were present upon the sad occasion. The deceased was within a week of fifty-five years of age, and his death is the first sundering of a family circle of seven children.

The School Meeting Fizzle.

After all the expense of trouble and time necessary to call a District meeting in North Plainfield, the gathering assembled on last Tuesday evening to decide on the advisibility of erecting a more convenient and comfortable school house, adjourned after much useless discussion and without any progress or action towards a settlement of the question. It will be impossible upon a future occasion to bring together more representative men of the township, or a greater number of those interested in the future of the district—it is therefore reasonable to suppose that if no final decision can be arrived at regarding a simple resolution of form at such a meeting, it will be impossible in future to come to any conclusion effecting the main question under consideration. A reference to our report of the proceedings of Tuesday evening, will show that the law of '76 in relation to the raising of money for township purposes, was considered as covering the eligibility of voters on a simple resolution as to whether "the best interests of the district demand the erection of a new school house." Any resident of the district interested in its welfare, is certainly able to vote understandingly and conscientiously upon the necessity of additional educational facilities. Other meetings are provided for by law at which the question of raising money for the purpose proposed is to be decided. The meeting of Tuesday allowed no further action than the expression of the opinions of the public regarding the needs of the district in the matter; and the financial and intellectual standing of those *assembled admirably qualified the meeting* to arrive at a satisfactory conclusion thereon. The chair and the gathering seemed to be so frightened as to find no relief except by an adjournment; and no opposition to such motion was observable. Even a date upon which to again assemble was not named, and the formalities of calling another meeting will have to be re-incurred. Surely our neighbors seem to be lacking in sufficient ability to swallow whatever they bite off.

FIRE MATTERS.

The largest fire in Elizabeth for many years broke out on Sunday night, caused by the upsetting and exploding of a kerosene lamp in Anderson's cornice and lambrequin store. The buildings in the neighborhood are old wooden structures. The flames spread rapidly. The loss on buildings is from $20,000 to $30,000. Tucker's insurance is $9,000. The insurance on the other buildings is not reported. The reflection from the fire was so bright as to nearly cause an alarm of fire in this city.

On Sunday morning about 1 o'clock, a fire broke out in the barn and outbuildings of a farmer named Thos. Jewell, near Princeton and involved a loss of $10,000. Among the property destroyed were 50 tons of hay, 10 tons of straw, 35 Southdown sheep, with lambs, two pair of valuable mules, 17 head of cattle, all kinds of machinery and four head of horses, including a valuable trotting horse belonging to Mr. Wm. B. Stoddard (of the firm of Stoddard, Duncan & Van Pelt) of New Brunswick valued at $500. The insurance on the property was only partial. The reflection from the fire was plainly visible in this city.

The burning of a barn and contents at New Market on Tuesday night, created an alarm of fire in this city. The various companies had a run for nothing, and "Warren" afterward indulged in a wash.

NORTH PLAINFIELD PARAGRAPHS.

The Board of Health of the Township has offered a reward of $25 for the arrest and conviction of any person guilty of emptying objectionable substance into the ponds, brooks or streets within the limits of the township. Those who have been in the habit of so doing are now closely watched, and their arrest will follow any continuance of such action.

Little Charlie Peters of Jackson ave., whom many of our residents have seen driving his white goat and wagon gayly along the streets, has met with an accident that will confine him to his home for some days. On Sunday night the lad got out of his bed while still asleep, and in wandering around the house fell down stairs and broke his right wrist. Dr. Friedrich has the case in charge and expects a satisfactory recovery in due time.

Collector E. C. VanNorstrand has almost entirely recovered from an attack of gastric fever with which he had been confined at a relative's house in Elizabeth. He returned home on Tuesday afternoon and once more entered upon his business and official duties in the Township.

The meeting of citizens to consider the feasibility of erecting a more commodious school-house, brought together about seventy-five of North Plainfield's representative men on Tuesday evening. Mr. Chas. Place was chosen chairman, and Mr. Jas. K. Arnold acted as clerk. The chairman stated the object of the meeting and counseled a full and calm discussion before a final decision was arrived at. The clerk read the call, and stated what business could be legally done at that meeting. In reply to a question of Mr. A. Berry, he said that there were 400 scholars on the roll who could be all accommodated if desks were placed in the chapel—but that building was rented under restriction that no desks should be put in. The chapel was secured at a rental of $250 for ten months, but its possession depended entirely upon the will of its trustees. One year it could not be obtained at all. The room was so furnished that the infant-class only, could get along, and the larger ones were obliged to stay away. "There is," he continued, "a mortgage of $1,000 on the present school house held by the State, which is all we owe. Of course a new school would cost money, but there are two sides of the question to be looked at."

Mr. Alfred Berry thought it would be the better policy to get along the best they might, until the present load of debt on the taxpayers had been somewhat reduced. Possibly in another year the people might see a clearer way towards the object desired—although he was willing that the room necessary to accommodate all should be afforded.

Mr. Wm. H. Pangborn stated that upon an examination of the chapel during the past winter he found it was not heated sufficiently to warm a much smaller room. He was told that the furnace-room was locked up and no one allowed to enter it excepting the man in whose charge it was placed by the Trustees of the chapel. He found the man was in New York upon that occasion and at every other time.

Mr. Arnold explained in relation to the above statement, that he had called the attention of the chapel's Trustees to the matter, and they had afterward rectified the trouble. In reply to Mr. Judson Brown, he said that he knew of no other room that could be secured for the purpose.

Mr. A. J. Winckler proposed that the community should move over the brook where there were already good school houses and accommodations.

Mr. P. M. French agreed entirely with Mr. Berry. There was a large debt on the township already and its people should try and get along a while longer without increasing the burden.

Mr. S. G. Horton believed in the justice of giving the children every facility for education. Under the able management of its present Board of Trustees, he felt that the school was progressing most favorably; and, in consequence, saw no reason why it should not continue prosperously for at least another year. He felt that such future time would be a more auspicious one for a decision in the matter.

The following was then offered and seconded; Resolved, that the comforts of the children and the best interests of the District demand the erection of a new school house.

Mr. Berry said, in relation, that he believed that the discomforts of the school arrangements were drawbacks to the increase of the township's population—that many took up their residence in Plainfield city on account of its better schools—but he also believed that if an increase of the township's debt and tax was made, it would keep still more away. He did not consider that a school should be furnished, whereat preparation for college could be obtained. *Anything beyond a* common school education, he considered should be paid for by the parent some where else.

Some discussion then arose as to who should be considered as entitled to vote on the resolution. Mr. W. E. Jones stated the law of '76 to expressly define a legal taxpayer as one who owned property on which a tax was levied, and that no other was eligible to vote on a question that involved the raising of money for any purpose in the township. The speaker wished it understood that he merely made a statement regarding the law on the question—he, personally, felt that all interested in the matter should be allowed to vote.

The Chairman thought the money—if any were raised—was for a district purpose and not a township matter. Whether the law quoted referred to such a case also, he did not feel able to state. He subsequently declined to rule as to who was entitled to vote on the resolution.

Mr. Berry thereupon *moved to adjourn,* but withdrew such motion in order to allow Mr. Horton further speech in relation to the subject. That gentleman counseled a settlement of the matter at once as they were all assembled and desirous of some final and decisive action.

Mr. Judson Brown thought that the meeting could not act advisedly any farther as there was no way of understanding who could or could not vote.

The meeting then adjourned without date.

SPORTSMEN'S CORNER.

The Board of Directors of the "New Jersey Game & Fish Protective Society" held a meeting at the Mansion House, this city, Saturday evening last. The names of several new members were confirmed by them, and measures taken to rigidly enforce the newly-made game and fish laws. The Secretary was instructed to compile and print on postal cards, all the penal provisions of game and fish laws as amended by the late Legislature, with the open and close season for same.

The amended game law passed by the late Legislature allows woodcock to be shot in the State during the month of July, makes August a close month, and opens the season again September 1st, closing it Dec. 15th. RESCUED FROM DEATH.

The following statement of William J. Coughlin, of Somerville, Mass., is so remarkable that we beg to ask for it the attention of our readers. He says: "In the fall of 1876 I was taken with a violent BLEEDING OF THE LUNGS followed by a severe cough. I soon began to loose my appetite and flesh. I was so weak at one time that I could not leave my bed. In the summer of 1877 I was admitted to the City Hospital. While there the doctors said I had a hole in my left lung as big as a half-dollar. I expended over a hundred dollars in doctors and medicines. I was so far gone at one time a report went around that I was dead. I gave up hope, but a friend told me of DR. WM. HALL'S BALSAM FOR THE LUNGS. I laughed at my friends, thinking that my case was incurable, but I got a bottle to satisfy them, when to my surprise and gratification, I commenced to feel better. My hope, once dead, began to revive, and to-day I feel in better spirits than I have the past three years.

"I write this hoping you will publish it, so that every one afflicted with Diseased Lungs will be induced to take DR. WM. HALL'S BALSAM FOR THE LUNGS, and be convinced that CONSUMPTION CAN BE CURED. I have taken two bottles and can positively say that it has done more good than all the other medicines I have taken since my sickness. My cough has almost entirely disappeared and I shall soon be able to go to work." Sold by druggists.

2. And be it enacted, That it shall be unlawful for any person or persons hereafter, without the written permission of the owner or owners thereof, to use, sell, dispose of, buy or traffic in, or to wilfully mar or erase the name or names, mark or marks thereon, or to break, destroy or otherwise injure any such box or boxes, bottle or bottles so marked or stamped, a description of which shall have been so filed and published as aforesaid, or to fill the same with mineral water, beer, ale, porter or any other beverage whatsoever for the purpose of sale or traffic.

3. And be it enacted, That any person or persons who shall so use, sell, dispose of, buy or traffic in, or who shall so mar, erase, break, destroy or otherwise injure or fill any such box or boxes, bottle or bottles as aforesaid, shall be liable to the penalty, not less than twenty-five nor more than fifty dollars, to be recovered by proceeding as hereinafter set forth, together with all cost of such proceedings; which said penalty shall be for the use of the poor of the city, town, or township wherein such offence shall be committed.

4. And be it enacted, That the fact of any person or persons other than the rightful owner or owners thereof using such box or boxes, bottle or bottles, for the sale therein of any mineral water, beer, ale, porter or other beverage, or any junk vendor, or dealer in bottles, having secreted in, or upon his, her or their premises, or any other place or places, or having in his, her or their possession unlawfully, any of such boxes or bottles shall be prima facie proof of the unlawful use and purchase of such box or boxes, bottle or bottles as aforesaid.

5. And be it enacted, That if any such owner or owners, of his, her or their agent have reason to believe, and does or do believe, that any of his, her or their box or boxes, bottle or bottles, marked, stamped or impressed and registered as aforesaid, are being, or have been unlawfully used as aforesaid, by any person or persons, or that any junk vendor or dealer in bottles has, or has had any of such boxes or bottles unlawfully in his possession as aforesaid, or has any of such boxes or bottles secreted in or upon his, her or their premises, or in any other place or places, any such owner or owners, of his, her or their agent, may go before any justice of the peace of the county or any police justice or recorder of any city wherein such offence may be, or have been committed, and make complaint thereof under oath.

6. And be it enacted, That it shall be the duty of any justice of the peace, or any other magistrate as aforesaid, before whom any such complaint shall be made as aforesaid, thereupon, to issue a process in the nature of a search warrant, directed to any constable or police officer of said city, which shall recite said complaint as aforesaid, and shall command said constable or officers to immediately search the premises, place or places mentioned in said complaint, and if upon such search any such box or boxes, bottle or bottles, as mentioned in said complaint, be found, to bring the same, together with the body of the person or persons in whose possession they may be found, before such justice.

7. And be it enacted, That when any such person or persons as aforesaid, shall be brought before any justice of the peace or such other magistrates upon a process issued as aforesaid, such person or persons shall enter into a recognizance with good security to be approved by said justice, in the penalty of one hundred dollars, to appear at such time as the said justice shall appoint, for a hearing under said complaint, which hearing shall not be less than five nor more than ten days from the day of said arrest, and may be adjourned by such justice from time to time on good and sufficient cause being shown therefor, and in default of such recognizance, such person or persons shall be committed by said justice to the county jail to abide a hearing, upon which hearing the said justice shall proceed to hear and determine as to the truth of said complaint, and the ownership of any such boxes or bottles which may be brought before him; and if said justice shall determine such person or persons guilty of the offence as charged in said complaint, he shall thereupon render judgment against such person or persons for an amount of not less than twenty-five dollars nor more than fifty dollars, and all costs of such proceeding, and in default of payment thereof issue execution therefor against the goods and chattels, and the body of such person or persons, and shall immediately deliver such boxes or bottles into the possession of such owner or owners to whom the same shall appear to belong.

8. And be it enacted, That upon the issue of any such process as aforesaid the said constable shall be unable to find the person or persons therein named, but shall find any boxes or bottles therein set forth, he shall bring such boxes or bottles before said justice, who shall thereupon proceed to determine the right of such complainant thereto, and if upon the hearing had thereon, he shall be satisfied that such boxes or bottles rightfully belong to such complainant, he shall forthwith deliver the same into his, her or their possession.

9. And be it enacted, That any time previous to the hearing of said complaint as aforesaid, either party may demand a trial by jury, whereupon said justice shall issue a venire facias to summon a jury of twelve men competent as jurymen to try said complaint, and to decide whether the person or persons complained of be guilty or not guilty, which said jury shall determine the rightful ownership of every such box or boxes, bottle or bottles, if any there be, as well as the guilt of the person or persons complained of, and in case the said jury decide such person or persons guilty, then said justice shall proceed as though he had so determined if no jury had been demanded.

10. And be it enacted, That either party, upon paying all costs incurred, and by filing with said justice within ten days after trial before him a written notice of his, her or their intention to appeal from the decision of said justice or jury, may appeal to the next court of general quarter sessions of the peace, and may there demand a trial by jury, which court shall proceed to try the same and make such adjudication and delivery thereon as is herein provided, in case of such trial before said justice.

4. And be it enacted, That the treasurer of this state shall, on the warrant of the comptroller, pay to the treasurer of said commission the moneys hereby appropriated, to be used by said commission, together with the moneys contributed by said association, to erect and maintain a monument on said "Monument Park," and to grade, fence and improve said grounds; provided the said association shall on or before the first Monday of May next, transfer all moneys and evidences of indebtedness belonging or which shall then belong to said association (except the said sum of two thousand dollars), to the treasurer of said commission, and shall execute and deliver the deed aforesaid to the state of New Jersey; provided also, that no part of said moneys hereby appropriated shall be drawn from the treasury of the state until a majority of the persons composing said commission (the comptroller being one) shall certify in writing that said moneys are needed and required for the purposes for which this appropriation is made, which certificate shall be filed in the office of the comptroller; and provided further, that not more than two thousand dollars of said moneys hereby appropriated shall be drawn from the treasury of the state before the first day of January, A. D., eighteen hundred and eighty-three.

5. And be it enacted, That after the said monument shall be completed and unveiled, and the grounds properly graded, fenced and improved, the commission aforesaid shall make report to the governor of this state, to be laid before the legislature on the first day of the session next succeeding the completion of the work, and then the duties of said commission shall cease, and the care and supervision of said monument and grounds shall devolve upon and be vested in the "Monmouth Battle Monument Association" for the state of New Jersey.

And be it enacted, That said Association shall, out of the moneys in the hands of its treasurer, reserve the sum of two thousand dollars and place the same at interest, the interest to be collected semi-annually, which interest moneys, or so much thereof as shall be necessary, shall be used to keep the grounds and fences of said "Monument Park" in order and to care for the monument.

7. And be it enacted, That said monument grounds shall always be open, so that all persons may have access thereto without charge, under proper rules and regulations enacted by said association, which shall not be inconsistent with the laws of this state or of the United States.

8. And be it enacted, That this act shall take effect immediately.

2. And be it enacted, That it shall and may be lawful for the council of every borough organized and formed under the act to which this is a supplement, to order, and cause to be assessed and raised by tax every year, such sum or sums of money, not exceeding fifteen hundred dollars in any one year, as they shall deem expedient for the current expenses of such borough, which sum so designated being certified to by the mayor and clerk, shall be assessed and collected the same as provided for and directed in the act to which this is a supplement.

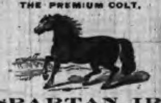
THE PREMIUM COLT,



SPARTAN, JR.

Is a bright bay, 16 hands, foaled May 1st, 1877, of superb style and action, with the appearance and finish of the highest type of the gentleman's roadster. Spartan, Jr. took first Special Prize at N. J. State Agricultural Society in 1879; he also took first premium at Somerset Co. Fair in 1879 and '78. Gentlemen wishing to raise stock with speed, road or coach, will find the three combined in this promising young horse. We claim he has the best crosses of blood for speed, road and coach of any horse in the State. Spartan, Jr. was sired by Spartan, he by Ethan Allen whose record is 2:15, and I think has never (...) a beaten in double harness. His first dam by N-lone, noted for coach and road; 2d dam by Fiddler who has a record of 20 miles in 49 minutes, 50 seconds, he by Monmouth Eclipse, 3d dam by Belcorah, also noted as a road and coach horse. Kidney Wort.

THIS GREAT REMEDY

In either Liquid or Dry Form acts at the same time on the diseases of the

Liver, Bowels and Kidneys,

This combined action gives it wonderful power to cure all diseases.

WHY ARE WE SICK?

Because we allow these great organs to become clogged or torpid, and poisonous humors are therefore forced into the blood that should be expelled naturally.

Kidney-Wort Will Cure

BILIOUSNESS, PILES, CONSTIPATION, KIDNEY COMPLAINTS AND NERVOUS DISORDERS,

by causing free action of these organs and restoring their power to throw off disease.

Why Suffer Bilious Pains and Aches?
Why Tormented with Piles, Constipation?
Why Frightened over Disordered Kidneys?
Why endure Nervous or Sick Headaches?
Why have Sleepless Nights?

Use KIDNEY-WORT and rejoice in health.

It is put up in Dry Vegetable Form, in tin cans one package of which makes six quarts of medicine.

Also in Liquid Form, very Concentrated for the convenience of those who cannot readily prepare it. It acts with equal efficiency in either form.

MISCELLANEOUS READING.

THE OBSTRUCTED TRACK.

Above the fair girl who looked out on a small dormitory window shone countless stars; she might have seen Bootes and Orion had she looked up, but that night the worlds of heaven had no attraction for her.

She was listening to a strange sound borne from the west by the nocturnal breeze that chilled her cheek. "I believe it is Gwynne's Cut," she said at last to herself. "Perhaps some villain is obstructing the track for devilish purposes. The Red Bird will soon be due, and this is Ed's trip down."

The moonbeams stealing in at the window, fell on the face of the dial and told Viola that it was 12 o'clock.

"Twelve," she murmured. "What! 12 o'clock, and he whistles to me at half-past! My heavens! What if the track is obstructed in the cut!"

With the last word on her lip, she turned and soon left the house.

At the gate she paused a moment and listened. The stars looked down upon a little object that glittered like silver in Viola's hand.

She was the belle of the county she inhabited. Her father was dead, and, with her widowed mother, and a little brother of twelve, she dwelt in the humble house won by the sweat of her father's brow. A railway station called Beaumont, was the only settlement near, and it was six miles from her home.

The brace of shrieks, loud and shrill, which sounded every night, told her who drove that engine toward that great city on the Mississippi's banks. They recalled the day, one year since, when the first engine she had ever seen had stopped at Beaumont, scarcely a station then. The engineer was young and handsome; as he saw her examining the great driving wheels, and looking with wonderment upon the mighty beauties of his iron pet, he leaped to the ground.

"A pretty piece of machinery," said he to her, "and she goes like a bird."

She blushed when she caught his eye, and the sound of his voice thrilled her. A week later she found herself at the station talking to him again. By and by Ed. Gordon, the engineer, carried a picture over his heart, and on Viola's bureau lay the photograph semblance of his face.

But to return to the night when Viola left her home to investigate the sounds that seemed to come from Gwynne's Cut. Viola at last reached the cut, into which the mellow moonbeams fell, and paused. Something high and dark obstructed the track before her at the very spot where the cattle guard seemed to be, and she held her breath. It was 12 o'clock when she left the house, and her walk had occupied a number of precious minutes. The shrieks of the Red Bird would soon be heard, and a moment thereafter its headlight would flash into the cut or gorge. She saw more, than a pile of strong ties on the track. She saw the dark figure of a man moving about among the pyramids, as if contemplating his night's work, and speculating upon the death and ruin it would cause. She watched until she believed that one man had accomplished the diabolical deed, and then she crept forward through the shadow of the bushes that lined the side of the cut, until she stood within ten feet of him.

"I'll go back to the station, now," she heard him say to himself. "I can get there before the accident, and when it occurs, why I can run up there and see him under the ruins of his engine, so crushed that the doll-faced girl will not recognize him."

The last words, full of devil's triumph, still quivered on his lips, when Viola stepped from the shadows and thrust the muzzle of her revolver into his face.

"This is your revenge, Morgan Duke," she said, looking sternly into his eyes. "Now, obey my command, or there will be a lifeless body on this track, to be mingled among the ruins of the night express. To work at once; off with your coat, and remove every obstruction your wicked hands have placed there."

"The train can't be saved now," he said, and there was joy in his tones. "It took me one long hour to obstruct the guard. In twenty minutes or less, perhaps, you'll see the Red Bird's headlight up the cut."

"Villain!" she cried, "if this track is not clear when I see her headlight, I'll drive a bullet through your brain. You know what to do. I'll talk no longer."

He worked for dear life, for he knew when the thundering train was due, and a glance at the girl on the track told him that she would surely kill him if he did not do her bidding.

She said to him: "I never thought this of you, Morgan Duke. When I rejected you I thought you would bear it like a man."

He replied not, but glanced at his watch.

"Half-past twelve," he said.

"To work!" was the stern command, and Viola stepped forward and brought the revolver nearer his head.

"I can't get them out," he said.

"You must," was the reply.

"I drove them in with a sledge."

"I did not hear the sound."

"It was deadened with my coat."

The girl's face grew paler than ever, and she glanced fearfully up the cut.

"Take them out!" she said suddenly; "the train is coming. I hear it."

The villainous station master heard the rumbling and again turned to the ties.

"You have your choice," Viola said to him. "A bullet or an unobstructed track."

She watched him as a woman never watched a man before. She knew that he was doing all that could be done to undo his wicked work, and while she watched her heart grew still beneath the rumble of the express.

"He'll soon call me," she said to herself. "There! there!"

The familiar shrieks cleft the cool October air, but they brought no joy to her heart. She was not at the old window beside the light he loved to hail from his engine. Perhaps she would be the first to kiss his cold brow beneath the stars at Gwynne's Cut. She almost shouted for joy when she saw the first tie drawn from the guard by the desperate man.

"Quick! the sledge! break the guard!" she cried.

"God, I never thought of that," he said, and the next moment he was shattering the long guard with the heavy sledge.

At last the tie was broken, and he thrust the other ties down into the long opening he had made.

At that moment the train, rounding the curve, dashed into the cut, and the flashing headlight, not twenty feet away, almost blinded the eyes of the twain.

Morgan Duke stepped from the track. He looked up and beheld the gleam of triumph in the girl's eyes. In an instant a grim look of resolve settled on his face. On, thundering came the train. He sprang forward and the next instant it disappeared in the woods leaving Viola alone with the mangled remains of her rejected lover. With tears in her eyes she bent over the shapeless mass. How could she fail to forgive the crime he had expiated with his life.

The next day brought Ed. Gordon to her side and none too soon, for the poor girl was almost prostrated with the excitement of the night.

The company presented Viola with a beautiful house, when her husband took charge of the car shops. I know she will never regret her night in Gwynne's Cut with her rejected lover.

HOW HE GOT IN.

"How much good money's worth does a man have to buy when he takes chips here?" inquired the Wabash man as he sat down—with his hat on.

The game having begun with an original contribution of $20 by each player, that figure was stated as the one required.

"It's all the same to me," said he, as he began to rummage his pockets. "It's a little higher'n we generally crack at it on the Wabash, but I'm the only son of a rich father, which parent furnishes me with funds for the express purpose of plaisterin' at the boys. Lend me $15."

The last remark was addressed to a friend who accompanied him.

"Now then, gentlemen," said he, glaring around the board with his glasses, "I'm up an' dressed for business. You may deal me five kyards, one at a time, and I'll see what I'll do."

Accordingly the cards were dealt. The Wabash man, who sat in the second place upon the dealer's left picked his up as they came to him, and examined them with considerable solemnity. He was still engaged in this study when all the others had taken theirs up; and he seemed to intend its indefinite continuance.

"Are you comin' in sir?" finally asked his next neighbor.

"Well, hold on, now," said he. "Do I have to say first. How much does it cost?"

"It will cost you a dollar to draw cards," observed the dealer.

"Well, now, hold on. Jes' lemme squeeze these kyards again, an' I'll see." After once more examining his hand, the Wabash man deposited in the centre of the table chips representing the necessary amount.

"The way we play this yer game on the Wabash," said he, as he performed this action, "ain't so cruel as you play here. It's an awful pathetic thing to pay out a dollar for the privilege of drawin' three kyards to a pair like I've got. Git in here, gentlemen; I want action. This yer's too slow. I've got a large capital invested here, an' I'm loaded to defend it. What's the limit?"

"Ten dollars," vouchsafed the dealer.

"Why don't you make the ceilin' the limit? 'Tain't a very big one."

"Is the limit too high for you?"

"Not if I ketch 'em right. But the way we do this thing on the Wabash, two dollars is considered higher'n a cat's back. Gimme three kyards."

"I'll help the age man first," said the dealer.

"I'll play what I've got here," observed the age man.

"What's that?" again asked the Wabash man. "Don't you want no kyards?"

"No, sir."

"I wish I was walkin' by the river, a listnin' to the gentle murmurin' waves. Whatd'think my feelin's are now? Well, I'll struggle with him, if it breaks my jaw. Gimme three kyards," said the Wabash man.

The cards were dealt. The other players tossed their hands into the middle of the board, and the Wabash man was left to "struggle" with the age man alone. His rigid face relaxed a little as he looked at the cards that were given him.

"That's what you call a pat hand you're a playin' there, ain't it?" he asked his antagonist.

"Yes sir."

"I've heard of these yer pat hands before," said he. "I was a playin' with my brother a few days ago, an' he tried it on me, an' bet three dollars, an' I called 'im. He didn't have nothing, an' I had two jeans. Don't that little incident terrify you?"

"Well, what are you going to do?" asked the age man.

"I'm waiting, my darling, for thou; gimme action. I'll make you think you've got to catch a train."

"It's a bet."

"Is that the way you play here?"

"Yes, sir."

"We don't play that way on the Wabash. *But, if I've got to bet I'll histe in fifty cents.*"

"Ten dollars harder."

"What! Well! hold on. Lemme go down an' look."

There was a half minute of silence. Then said Mr. Bigler:

"Well, I have got two pair here; that was never beat on the Wabash, an' I'll have to clatter back to the extent of my ability. I'll boost you back for what I got before me, an' I wish it was a million dollars."

The age man looked at him dubiously a moment, and then remarked, "I'll go you back $10."

"I don't care no more for $10," said Mr. Bigler, "than a farmer cares for a hundred acres of land. I'd call you if you was on the other side of the world. What have you got?"

"Straight flush."

"Tain't no good. I got four aces."

"It beats four aces."

"What does?"

"A straight flush."

"It may be the best hand here, but on the Wabash nothing beats four aces but a slippery-elm club."

"Sam," said the member who had brought him in, "you're the slickest card-player that ever rose up in Risin' Sun, but you're off your centre here. Better get out. You don't stand no more show with this crowd than a feather in a furnace. Cash out an' come along."

"I guess you're right," assented Mr. Bigler, as he pushed his chair back.

"Hold on," objected the age man, "how about that last $10."

"That's what I'd like to know," said Mr. Bigler. "I'll owe it to ye, and if ever I find a thousand dollar gov'ment bond floatin' up the Wabash on a grindstone I'll mail it to ye for lettin' me down so light." He pushed his chair back and got up. "Gentlemen," said he as he arose, "a man that plays this game as we understand it on the Wabash don't stand any more show here'n a disabled dog at a moonlight frolic. Goodday."

"Good-day, sir," chorused the party.

"Have a drink before you go," suggested the winner.

"I guess I will," said Mr. Bigler.

He walked to the sideboard, and as the operation of mixing and pouring was being performed I heard him go through his little game in a half-whisper, all to himself, as follows: "Whose deal is it?" "It's mine." "Run 'em out." "Here they are." "Whose age is it?" "Yours." "Well, whatdyedo?" "I stay" "so do I." "Syour bet." "No, syours's." "I'll go you half a dollar." "Two dollars more." "Hold on—lemme go down an' look. Well, I stay." "How many kyards?" "One." "I'll take three." "Well, whatdyedo?" "I'll go you a red seed." "Two dollars more." "Hold on—don't get funny." "Well, I've got two pairs. How many d'ye take?" "One." "Well, Ive got to call you—what you got?" "Jack full." "Jeehrise! Three aces! I always was a fool."

With that the great gambler from the Wabash took his drink, and with his friend departed.

CUNNING UNCLE MOSE.

One of the most remarkable features of the development of the African race since emancipation is the facility with which they have dropped into politics. Not only do such representatives of the colored race as Fred Douglass, Pinchback and others understand how to press their claims, but the most ignorant darkey can develope a keenness at a political bargain that disgusts the average candidate in search of votes.

Uncle Mose, who is president of the Rising Sons of Liberty Lodge, No. 8,974, and who also whitewashes fences and chops wood during the season of political inactivity, is taking a lively interest in coming Galveston municipal contests.

He dropped into the office of a prominent candidate and was cordially welcomed. The Risings Sons of Liberty poll fifty votes, are well disciplined and thoroughly organized. They vote solid when they do vote, and they vote as often as any other organization on Galveston Island, or as often as they can with safety, hence there was a vise-like firmness in the candidate's grip of the old man's "pickers and stealers."

"I has come to you for some advise, Karnel, as I don't know nuffin' about pollytics. We ain't fit, nohow, to mix up in pollytics."

"Why, Uncle Mose, I look upon you as one of the most intelligent of your race. I can learn from you."

The old man shook his head deprecatingly, and, producing a nickel, asked:

"Karnel, how much am a nickel wuff?"

"Ha! ha! ha! very good. I have always said there is more genuine humor in the African than in any other."

"But serious, boss; how much is it wuff?"

"Five cents."

"Jess 'xamine dat air coin, boss, and lemme know hits cash value."

The candidate took the coin, examined it, and returned it with the remark that it was not worth anything, as it was a bad knickel.

"But s'posin' I controls fifty votes ob de Risin' Sons ob Liberty?"

"A most worthy organization."

"And s'posin' I was to tell dem voters dat a prominent candidate had 'cheated dis ole niggah?'"

"Who was it?" asked the candidate, breathlessly.

"Nebber mind, boss; I'se hunting for information now. S'posin' I was to tell 'em one ob de candidates had gub me dat lead nickel?"

The candidate looked worried, and again asked the name of the fiendish candidate.

"As Noah said unto David, 'Thou art de man!' You gub me dat ar nickel in de change for whitewashin' your fence. I has done work for all de udder four candidates, and you is de only one who has taken advantage ob de ignerance and simplicity ob de culled race. De secret has been confined to my own breast, but hit am struggling foah freedom. Boss, how much did I hear you say dis lead nickelham wuff in a close election like dis heah one is gwine to be."

The Caucasian statesman rested his massive brow on his hand and thought, and thought, and thought.

"Hit's gettin' late, and dar am a bizness meetin' ob de Risin' Sons dis ebening."

The statesman wrote in a bold, round hand $50 on a blotting pad, and pushed it across the table. The old man took the pencil and changed the $50 into $100.

"They will not support any other candidate?"

"Does I look like a deceptive, onreliable niggah? Does I look like a fictitious culled man? De Risin' Sons will rally 'round yer like yer was a demijohn."

The money was paid over, the candidate remarking:

"This is my contribution to establishing a school in your ward. I want to see the colored man more intelligent, I do."

"We needs schools powerful bad bekase we is ignorant and liable to be tuck in by designin' bad men."

"But, now, give me that nickel."

"Heah it am. I nain't got no moah use foah it. You is de las' candidate I have been to see wid dat ar nickel. I has done cleared more den $300 wid dat lead nickel. All de udder three candidates has done paid up dar assessments, heah! heah!" and the old scoundrel went off into one of his indescribable guffaws.

When he got outside, however, he said to himself:

"I knows now dat all the candidates is in de habit of palmin' off lead nickels on near-sighted ole niggahs, and ef I don't look out dey will fool me. I tels yer de candidate, black or white, won't do to tie to, but all de green dey finds in my eye ain't gwine to pay 'em to harvest."—*Galveston News.*

MRS. MAHONE'S APPREHENSION.

Senator Mahone of Virginia is a very thin man. The following story illustrative of his exceeding leanness is told of him. During the war, while in command of a division of Confederates, he had the misfortune to be wounded, but not seriously. An acquaintance about to visit Richmond was requested to call upon the General's wife for the purpose of relieving any anxiety she might feel by explaining the nature and extent of his injury. Colonel —— called at the lady's house and, as report goes, found her in tears, she having already received the news of her husband's injury by telegraph. The officer attempted to reassure her by saying that the General would be out on duty again in a few days, but without avail.

"Why, madam," he expostulated, "you ought not to give yourself so much concern. He received only a flesh wound; no bones were injured."

"Ah, Colonel," she sobbed, "you—don't know the General as well as I—I do, or you wouldn't tell m'—me he could be—be wounded without striking a bone!"

SPORTSMEN'S CORNER.

SMELT.

At this season of the year when this excellent fish appears in our rivers a brief description thereof may not be out of place. Webster defines a smelt as a small fish allied to the salmon. It is of a silver white color and is highly esteemed as delicate food. It emits a peculiar odor, whence the name. It is also called sparling. With the disappearance of the ice and the opening of the streams the smelt, following the nature of the salmon, seek the smaller rivers for the purpose of reproduction. The amount of these fish consumed in the New York markets is stated in round figures to be 2,100,000 pounds, and, as their weight is an eighth of a pound, something like 17,000,000 of these small fish have to be caught to supply New York alone. The fish, however, in certain sections of America are so abundant that the small streams are choked with them, and they are only useful for manure. In Maine and Province of New Brunswick, in the early spring, pigs wade in the shallow streams and eat smelt. They are very clean feeders, eating shrimps and small crustaceous creatures. Some years ago, according to the stories of the older fishermen who plied their vocation in the Raritan River, these fish were so abundant that fifteen and twenty bushels were an ordinary haul. At the present time, owing, no doubt, to the thorough manner in which the river is fished, the smelt have become very scarce, and a haul of ten or twelve quarts is deemed something extra. From the time ice leaves the river and the water permits the seines are stretched across it; and as soon as one haul is made another is commenced, and, as a consequence, comparatively few of the fish succeed in reaching the spawning grounds. This process is kept up the entire season, and every year this delicate fish is becoming more scarce. Raritan frost fish, as well as shad, have the reputation of possessing a flavor superior to any other and command a larger price than those caught elsewhere, those first caught finding a ready sale at seventy-five and fifty cents per quart, and the fishermen, when the toil and discomfort incident to their capture is taken into consideration, fully earn the price demanded. But mackerel suits us better, all the same.—*New Brunswick Times.*

Several attempts have been made to introduce the English skylark into this country, and another is now on foot, and the birds will be set free very soon in this State. From a communication to a New York paper from Henry Hales, of Ridgewood we learn that nearly one hundred larks are now in confinement on a farm in that place, in good condition, and will be set free at the proper time. The lark has strong local attachments and Mr. Hales says will not increase in number like the irrepressible sparrows. The latter are attracted and sheltered by houses and barns. Skylarks keep to the open fields, and it will be a long time before they can become plentiful. Once rooted, they are bound to thrive and fill the air with their sweet melodies. There are other foreign birds that could be introduced, and it might be one of the most delightful occupations of men of means and leisure to bring here those beautiful creations of a wise Providence that, while rendering the air vocal, perform inestimable services to the farmer and gardener. It is essential, however, that men should work in harmony with the designs of Providence and not against them.—*Newark Adv.*

It is the opinion of the Fish Commissioners of New Jersey that of late years the supply of shad has not been increasing in the same ratio as it did in the earlier days of shad fishing. Many years ago the meshes of the gill nets were 6½ inches, and of the shore nets 5 to 5½ inches, while of the later years the gillers have reduced the meshes of their nets to 5 inches and 5¼ inches, and the shore fishermen theirs to 4¾ inches. It is known that female shad do not return to the river in which they were spawned until they are three years old and weigh about three pounds. The male shad pass up to the spawning grounds when they reach their second year, and weigh from 1½ to 1¾ pounds. *It is these fish the small meshes of the nets now catch,* and the taking of them before they have reached a suitable size, and while on their way to the spawning grounds will, it is said, gradually decrease their numbers. Suitable legislation will remedy this, but that is claimed to be hard to get in view of the diverse interests of the law makers.

He was born in the locality now called Spring Valley, in Bergen county, on March 28, 1781. The place was then called by its Dutch name—"Slack-op," meaning "swallowed up," and obtained its name from the fact that a cow ate a farm laborer's coat which he hung on a tree.

Abram Johnson died at Salem, Pa., a few days ago. According to his story he was born in Vermont in 1773, which would make him 108 years old. In the war of 1812 he was captain of a company of Oneida Indians. He married a daughter of one of the chiefs, who nursed him through a long illness. They had one child, Martha, who, when the mother died, joined the Oneida Indians. Johnson was entitled to a pension, but never claimed one. He died a pauper.

JEFFERSON.

The one hundred and thirty-eighth birthday of Thomas Jefferson was appropriately commemorated in Tammany Hall on Saturday evening last.

It was action well taken.

A more worthy duty cannot devolve upon Democrats than to keep alive remembrance of Jefferson and his illustrious deeds. Next to that of Washington his name adorns American history. They were co-laborers in the glorious contest for Independence, one inspiring it with the power of pen and voice and the other defending it with the sword of patriotism.

In establishing as a working system the government under which the people of these United States have won national renown, achieved material prosperity, and enjoyed the blessings of civil and religious liberty, honor attaches in a higher degree to Thomas Jefferson than to any other statesman that ever lived.

He was in fact the architect of the Temple of Liberty.

He it was that clearly discerned and effectually frustrated the monarchal designs of political Federalism, and firmly founded in this country popular rights.

He it was that framed the immortal Declaration of July, 1776, and afterwards as Chief Magistrate, boldly and successfully espoused its principles in the administration of public affairs.

He it was whose far-sighted wisdom negotiated for and brought under the star-spangled banner a vast and fertile section of national domain, thereby extinguishing foreign domination within the natural boundaries of the Republic.

And it was Jefferson who, as the organizer and leader of the Democratic party, valiantly took up the cause of the people, then threatened by aristocratic foes, and proclaimed sound political faith to be—

Fidelity to the Constitution;
The reserved rights of States;
Equal and exact justice to all people;
Peace and commerce with all nations;
Freedom of elections;
Acquiescence in the will of the majority;
Supremacy of the civil authority;
Economy in public expenses;
Preservation of the public faith;
Impartial trial by juries;
Equitable encouragement of industry;
Freedom of religion and the press;
Freedom of speech and person.

Thirteen sterling truths of Democracy, corresponding with the original stars of Union.

Such was the creed of the Democratic party when Jefferson stood at its head and such is its creed to-day. The practical application of those principles in the conduct of governmental affairs, both executive and legislative, by the Democracy when entrusted with power, has ever added to the glory of country and the permanent prosperity of all the people.

There is no other safe line of action. HONOR TO THE MEMORY OF JEFFERSON!

STATE SCHOOL TAX.

A law passed at the last session of the Legislature changes the manner of apportioning the State School tax, by providing that instead of a tax of two mills upon each dollar of the taxable property in the State, there shall be raised a sum equal to four dollars for each child in the State between five and eighteen years of age, as shown by the last school census, and that the Comptroller shall apportion this tax to the several Counties on the basis of the taxable property as shown by the last abstract of ratables. Comptroller Anderson has completed the apportionment and under the act the amount of tax to be raised this year is one million three hundred and twenty-two thousand seven hundred and forty dollars ($1,322,740), there being 330,885 school children in the State. The amount of taxable property in the State as assessed in 1880 is $518,617,518.84, and the amount in each county as well as the amount of tax apportioned to the respective counties is shown by the following statement:

THE WORK OF THE SESSION.

The following are interesting statistics of the work done by the 105th Legislature, which adjourned last week:

The total number of bills introduced were: Senate, 296; House, 357. Passed—Senate, 196; House, 176. Lost—Senate, 73; House, 46. The Governor has vetoed 17, and filed without his signature 11. But one veto was overruled—that of the bill abolishing the office of State Superintendent of Weights and Measures. Among the bills filed without the Governor's signature were the reapportionment bill, prohibiting the exclusion of colored children from the public schools, the Monmouth Battle monument appropriation measure, and the joint resolution providing for the payment of the expenses of the State Rifle Team at Creedmoor.

CIVIL SERVICE REFORM(?)

The Republicans made a clean sweep on the police force in Orange, on Tuesday night, declaring all the positions vacant and filling them with their own friends. The only man not turned out was City Marshal Patrick Conroy, who was reduced to the newly made position of Day Sergeant. All the other municipal offices in the gift of the Common Council were then declared vacant, the Democratic officials being turned out to a man and their places filled by Republicans.

The Republicans in the Senate have decided not to go into Executive Session to take action on recent nominations by the President, but to continue the effort to elect the Senate officers. It is reported that Judge Robertson will be requested to withdraw from the contest for the New York Collectorship.

The new Mayor of Utica is pressman of the Utica Herald.

In the State of New York the two divisions of the Republican party are known as Stalwarts and Half Breeds.

There is a rumor that Senator Hoar, of Massachusetts, will soon resign, on account of ill health, and go to Europe.

There is evidently little love existing between the Republican leaders Conkling and Blaine. Rule or ruin is depicted on the political countenance of each.

A Democrat who served in the Southern army is called a Rebel, but a Republican with the same past record is now a party Idol. What political humbuggery?

Where is Mosby? Does he not deserve a White House bouquet fully as much as Mahone? They fought on the same line. They both adjust for a consideration.

Thirty seven to thirty seven, with the Vice President to throw a casting vote for the Republican party every time, is the way Mahone has readjusted the Senate of the United States. No wonder President Garfield rushed to entwine a fragrant garland around the Virginian's massive brow.

It is reported that Longstreet, that noble Confederate soldier and loyal Republican partisan, has been ordered home from the Turkish mission and is to be given a lucrative office at the South. No doubt Mr. Garfield will have a basket of choice flowers in waiting for such a gallant fighter against the Union.

One hundred and thirty-seven workmen are now employed by Messrs. Ross and Sanford, the contractors, in the construction of the bridge across Barnegat bay for the use of the Philadelphia and Long Branch railroad company. Three large pile drivers are at work driving the piles.

The Legislature of Tennessee, which is a Democratic body, has just passed a law providing for the payment of the State debt, dollar for dollar at par, and three per cent interest. Minnesota, which is a Republican State, has just decided to pay fifty cents on the dollar and no interest at all.

Chancellor Runyon has appointed the Hon. Amzi Dodd as Vice-Chancellor under the act passed at the recent session of the Legislature providing for the appointment of an additional Vice-Chancellor. Mr. Dodd has accepted the position, and will be commissioned at once. The act of the Legislature was the result of the increase in the business of the Court of Chancery, which made it necessary that some relief should be given. The Chancellor is a Democrat and the Vice-Chancellors Republicans.

If New Jersey township and municipal authorities are rigorous in the enforcement of the new tramp law, which Governor Ludlow recently signed, the genus tramp will soon be a scarce article in these parts. Under this law all persons arrested and convicted as vagrants are to be put to work on the public roads of the county in which they are arrested. The result will quite probably be to drive tramps from our own into others, but while that will temporarily be severe upon our neighbor States, the only recourse they will have will be to enact similar laws, the ultimate result of which will be the eradication of the tramp nuisance. Let us hope that it will be rigidly enforced.

Last year more immigrants arrived at the port of New York than at any corresponding period since the Emigration Commission was established in 1847 or in the history of the country. The number was 327,371. The nearest to this was in 1854, when 319,223 arrived. The year before last (1879) there were landed only 135,070.

To show whence the current of emigration principally flows to our shores the nationalities most largely represented by the immigrants who landed in 1880 may be stated as follows:

Germany	104,264
Ireland	66,399
Sweden	35,217
England	33,768
Italy	11,190
Scotland	9,625
Norway	9,937
Switzerland	8,223
Russia	7,693
Bohemia	7,606
Hungary	6,672
Denmark	5,577
Austria	4,461
France	4,087

Few, comparatively, arrived at other ports until of late years. Last year, however, 28,944 landed at Philadelphia by the American and Red Star steamship lines, and about 26,000 at Boston, mostly by the Cunard steamers. Not many entered by Baltimore or the Southern ports.

There is no doubt that the more sensible of the Republican United States Senators are getting tired and ashamed of their filibustering at Washington. The Senate was called in extra session by the President for the purpose of taking action on various appointments. The Democrats consented that the committees should be formed in the interest of the Republicans, in order to expedite public business. As soon as this was done the Republicans insisted upon displacing the present Senate officials, to the neglect of all other business, and have refused to go into executive session day after day. A disgraceful bargain was made with the double traitor, little Mahone of Virginia, and the Republicans are fearful he will jump the traces, unless they shortly keep their bargain. The Democrats resist the turning out of the officers, and, when the Republicans insist that they are in the majority, the Democrats reply: "Then elect your officers, if you can." And so the fight rages. Meanwhile, as we said above, many of the Republicans are tired of this unsatisfactory filibustering, and there have been several informal conferences between Republican and Democratic Senators within a few days with a view of ascertaining whether any compromise could be arranged which would break the deadlock. The Republicans found that the Democrats would not yield as far as to allow new officers to take their seats until the regular session. The two propositions now talked of are either to elect officers with the full understanding that they are not to enter on their duties until next December, or to elect them with the agreement that none of them will disturb the present subordinate officers until December. It is also known that the President is decidedly opposed to continuing the present contest, and is in favor of stopping it even if Republicans have to give the matter up entirely until the regular session. The caucus this week will probably settle all these matters. The Democrats should insist upon postponing the matter till next December; and not enter into any promises or compromises of any kind. Let the future take care of itself.—*New Brunswick Times.*

TUESDAY'S DEMOCRATIC VICTORIES.

In Chicago, Ill., on Tuesday last, the Republicans were badly beaten. Harrison, the Democratic candidate for Mayor, was elected by a majority of about 8,000.

Complete returns from the city election at Columbus, Ohio, show a victory for the entire Democratic ticket with the exception of one street commissioner and a constable.

At Cincinnati, Ohio, Means, Democrat, was elected Mayor by 2,514 majority, as were also Democratic members of the School Board and Board of Public Works.

A majority of the city officers elected in Toledo, Ohio, are Democrats—the National candidate for Mayor received a small plurality.

The Democrats elected five out of the six Aldermen of Little Rock, Ark., and undoubtedly their candidate for Mayor.

At Dubuque, Iowa, with three tickets in the field, the Democrats were successful in electing Louis Hosmer Mayor.

At Omaha, Neb., the Democrats elected James E. Boyd, their candidate for Mayor, and carried the general city ticket and all the ward candidates with one or two exceptions. The whole city government is reorganized under a new law at this election, and the victory is regarded as most important.

In the city election at Freeport, Ill., Joseph McNamara (Dem.) was elected Mayor by a small majority.

ANOTHER NEW RAILROAD ROUTE.

A route for a new line of railway between New York and Baltimore has been surveyed. It is to run due north from Baltimore and touch the Pennsylvania line in Chester county. Connection will be made with the Chester Valley road, now controlled by the Philadelphia and Reading Company, at Downington, Chester county. A line of eight miles will be built from Edge Hill, near Conshohocken, to Jenkintown, the southern terminus of the Bound Brook road. The latter road and the Jersey Central will furnish the rest of the route to New York. The road will be entirely independent of the Delaware Western charter obtained by Col. Harry McComb, and which it is said the Baltimore and Ohio road has obtained for the purpose of constructing a line to New York. The proposed new route will not touch the State of Delaware, and this avoids any infringement upon the rights guaranteed by Col. McComb's charter. The saving in distance by the new line will be seven miles. Edwin C. Knight, formerly President of the New Jersey Central, is the originator of the new line, and it is said that ample capital has been guaranteed to build the road.—*Somerset Gazette.*

ACTOR PORTER'S MURDERER.

CHICAGO, April 2.

In contradiction to the despatch published in the morning papers from Little Rock, Ark., stating that the Currie reported killed was not the murderer of Porter, a despatch from Santa Fe says this: "The reported killing of Jim Currie, who gained such unenviable notoriety by the murder of actor Porter, at Marshall, Texas, two years ago, proves to be true. His identity has been proven." Good news.

The Secretary of State, next term, will have $6,000 salary, with $4,000 clerk hire. The fees of the Clerk in Chancery will be about $6,000. The salary of the State Prison Keeper will be $4,000.

Governor Ludlow has appointed Absalom B. Woodruff as Presiding Judge of the Court of Common Pleas of Passaic county, in place of John S. Barkalow. The Senate refused to confirm Judge Woodruff's nomination, and he is now appointed until the next meeting of the Legislature.

New Chancery Regulations.

Chancellor Runyon on Saturday made the following rules and appointments, which are of interest to the Bar of this city and State:

Rule No. 209—Hereafter it shall not be necessary for a defendant, in order to obtain affirmative relief in a suit, where he could obtain it by means of a cross bill, and does not require any answer on oath, to file such bill, but he may set up in his answer matter which would be the proper subject of a cross bill and pray and obtain relief in and on the answer. The matter set up as a cross claim must in the answer be prefaced by a statement that is set up as a cross claim. Where the cross claim is made against a co-defendant, a copy of the answer shall be served on such a co-defendant in five days from the date of filing.

Rule No. 210—Any objection to a bill or answer, or any part thereof, may be made and adjudicated upon on motion, without the filing of a demurrer or exceptions; but the notice of such motion (which shall be an eight days' notice) must state the particular ground or grounds of objection.

Appointments—Motions will hereafter, until other order, be heard as follows:

Alternately by the Chancellor and one of the Vice Chancellors, at the Vice Chancellor's Chambers in Newark, on every Monday, beginning with the 4th of April, 1881.

Alternately by the Chancellor and one of the Vice Chancellors, at the State House in Trenton, on every Tuesday, beginning with the 5th of April, 1881.

Except during the sessions of the Court of Errors and Appeals and the summer vacation, motions will be heard by one of the Vice Chancellors as follows:

At Jersey City, at the Law Library rooms, on every alternate Tuesday, beginning with April 19th, 1881.

At Camden, at a place to be provided, on every alternate Wednesday, beginning with April 13th, 1881.

NORTH PLAINFIELD PARAGRAPHS.

The death of the wife of Mr. William Much—a well known resident of this vicinity—occurred during Tuesday night at her late residence back of North Plainfield. The direct cause of the fatality was inflammation of the lungs, although the deceased was in the advance stages of small-pox at the time of her death.

Mrs. Daniel Cory died at the residence of her son-in-law, Mr. Jacob Adams, on Somerset street, during Wednesday afternoon.

SPORTSMEN'S CORNER.

But few English snipe have put in an appearance hereabouts or along the Passaic river, the cold snap having kept them back. One party killed eight on Monday last.

One day last week J. C. Kitchen, of Columbia, Morris Co., found a black bass which had been killed by the recent ice freshet, that weighed 5½ pounds, and measured eighteen inches in length.

The Board of Directors of "The New Jersey Game and Fish Protective Society" have employed detectives to apprehend any persons violating the game laws, or illegally fishing in the Raritan river and streams stocked with game fish.

That excellent and wide-awake sportsmen's journal, *Forest and Stream*, of March 24th, contained interesting compiled information regarding the condition of game birds since the late severe winter, gathered from all parts of this State at a considerable expense to the publishers. While in some instances two correspondents from the same section differ in their statements, on the whole the reports go to show that game has suffered severely in most parts of the State, especially the Southern. Farmers and Game Protective Societies seem to have taken an interest in the quail and cared for them by scattering feed about their resorts. From all accounts it would seem wise for Game Protective Societies to offer a bounty for the heads of hawks, which destroy a great many game birds.

WESTFIELD WISPS.

The painting and repairs to the depot are about completed, and a very decided improvement in its comfort and appearance is the result. Mc Neil was the architect of the brush, and his work as usual sustains his well earned reputation.

The trees in the depot parks are in need of immediate attention. The many limbs broken by the storms of last winter have not as yet been trimmed up.

Although no election is near at hand, political discussion does not seem to wane, and any one interested can hear the many well worn subjects gone over every pleasant day on Broad street.

The grand Hop at Moffett's Hall on the evening of the 31st, proved quite a success. The music was furnished by Messrs. Wilcox and Applegate.

Following a fire in one's residence it is decidedly uncomfortable, owing to the prevalence of hydrophobia to be bitten by a dog. Mr. Ernest C. Webb had that pleasure on Saturday last. The offending animal was the property of Dan Connor. Constable Marsh administered a dose of lead sufficient to quiet his dogship, and Dr. Cooper cauterized the wound.

Linus Scudder, an old and well known citizen of this township, died very suddenly from apoplexy on Saturday evening last. His funeral took place on Wednesday last and was largely attended. The afflicted family have the sympathies of the entire community in their sudden loss.

The wife of the late Lemuel B. Gardiner died in Brooklyn, N. Y., suddenly, last week. This will prove sad news to her many friends here.

Messrs. Ernest C. Webb and Wm. Stitt desire to return thanks to the members of the Fire Department and citizens, for their valuable services at the fire.

The Vestry of Grace Episcopal church have decided to adopt the free-seat plan, and rely upon the parishoners to pledge sufficient for the maintenance of the church. The plan is a good one and deserving of success.

Mr. B. Roake appears in a new character, that of a Fish and Vegetable vender this week. Barney deserves success and will undoubtedly receive a fair share of public patronage.

The programme for the Concert at the Presbyterian church on the evening of Monday, 11th, comprises solos on Organ, Cornet and Violin, besides vocal music by the Alpha Quartette of New York.

The Town Committee meet on Monday evening next, April 11th.

A want long felt and greatly desired in this place, has been supplied by the opening of a jewelry store at the corner of Broad and Elm streets, by Mr. Chas. E. Vail.

Invitations are being sent to the many friends and chosen acquaintances of Mr. and Mrs. J. S. Irving, cordially asking their presence upon the fifteenth anniversary of the wedding of that lady and gentleman—which occasion will be celebrated on the 18th inst.

According to the report, our Township Committee at their last meeting, passed a resolution requesting the Overseers of the several Road Districts to repair the plank walks in their respective sections. Are the Overseers of Roads bound to advance money to the township for the next ten months, when the Road law, Sec. 36, expressly enjoins upon the Township Committees of the several townships in the State, that they be particularly careful in this respect and to have money on hand sufficient for the purpose? As many tax payers are finding fault with the condition of the sidewalks, it might be appropriate to ask if any of these chronic grumblers are willing to advance the amount voted for sidewalk repairs in the different districts, and wait ten months for re-payment. Overseers of Road Districts have no authority to expend any of the regular or special road tax on sidewalks, unless instructed by the vote of the regular annual road meeting to expend it for that purpose; and the law further distinctly states that any Overseer so diverting the expenditure of road monies can be prosecuted by any tax payer.

The splendid services of the Westfield Fire Department during the past year in saving the property of our citizens from destruction, certainly entitles it to their highest consideration, and this is especially so when the limited apparatus, at their command, is considered. It seems hardly necessary to speak of their services at Pierson's store, Moffett's carpenter shop, Irving's sheds, Methodist church and the residences of Amos Allen and Ernest C. Webb, all of which have required and received their services during that period. The "Little Giant" has certainly done wonders, and while we advocated a better equipment at the start, has certainly surpassed our expectations. The attention of our citizens is hereby called to the advisibility of taking immediate measures to supply the Department with an engine of greater capacity, and to the fact that such an outlay on their part is not only due to our Firemen, but would be to the interest of all owners or lessees of property within the township limits. We know that many arguments will be advanced that fire limits should be established, and only those taxed for the maintenance of the department who live within them, and that those living outside of the village proper do not receive the same percentage of benefit as those residing in it. It seems rather out of place that such an argument could possibly be advanced or advocated at the present day, certainly everything that tends to improve our village, or give security to life and property within its limits, is of the greatest possible benefit to the entire township, as such security or improvements are the best possible arguments to induce others to settle here, and a steadily increasing population means improvement in the value of all property and all business; aside from the fact, if the equipment of the department is made a question of tax, those living in the village, owing to the higher valuation of their property, pay the lion's share. However, it is not our intention to urge the citizens to wait until the next Spring election, but to call for immediate action on their part in a matter that is deserving of their interest. Unless greatly mistaken we think there are enough citizens of liberal views to take hold of the subject, find out the best way to act upon it and carry it through to completion at once. The present general State law gives all the authority needed. The recommendations of a committee appointed by the citizens, following the disastrous fire of 1873, are well worth considering. This committee with its sub-committees went thoroughly over the subject of furnishing the best fire protection, and the different ways by which such protection could be secured and cost of different plans. While not agreeing fully with any one of the several plans then offered, it would not be difficult for a new committee to select some one that would answer every purpose. The present engine is nearly worn out, and may break down at any time when most needed. Think of this citizens, for no one knows who will need the services of the department next. Our own views are that at present, a "Champion" double retort engine with adjustable ladders, would answer all purposes, and could be easily handled. With the funds already in the hands of the department, and perhaps the sale or exchange of the present apparatus, the amount additional needed to secure the outfit, would not be large.

Three Questions.

What is the reason that in spite of the fact that we have a City Physician, the Council is called upon to pay the charges of another medical practitioner for his attendance upon the poor? What is the City Physician appointed for and in return for what services is he paid $300 a year? If others are employed by him to do his work, why not abolish the office of City Physician and empower the Overseer of the Poor to decide when medical attendance is needed and thereupon engage such assistance? We pause for the Common Council's reply.

Oh! will those Rep. journals ever give us a rest on the Governor's nominations. We know they don't suit the Rep. party, but the Governor has a mind of his own, the men are capable and have been appointed. That ends it. Shut up!

THOSE who were compelled or desired to change their places of residence this year had a disagreeable day last Friday to perform that duty. The weather was cold, raw and rainy, and the roads out of town muddy.

THE only business firms changing their location in our city on April 1st, were Messrs. M. Estil, stationer, and Wm. H. Williams, news dealer. They are now comfortably and pleasantly located in their new quarters, No. 7 Park Ave.

TWO more of our townsmen, soldiers in the late war for the Union, received handsome amounts for pension arrearages last week through lawyer Butts, who has passed over all other claims remaining in his hands to Gen. J. F. Rusling, at Trenton.

THAT giver of enjoyable balls, the Ancient Order of Hibernians, intends to make its Fifth Annual on the evening of the 18th inst., at Laing's Hall, the best of the season. Extraordinary efforts are being put forth, and all who attend will be rewarded to an unusual extent by the amount of fun and happiness set forth.

THE Sabbath School of the Trinity Reformed Church, 2d street, will hold its first Annual Anniversary next Sunday evening, April 10, 1881, at 7½ o'clock, in the church. In addition to other exercises, addresses will be delivered by Hon. Lewis A. Brigham, of Jersey City, Rev. Dr. R. Lowry, of this city, and the pastor, Rev. A. V. V. Raymond. Friends of Sunday Schools are invited to be present.

FOR several weeks past considerable excitement has existed in Morris and Sussex counties on account of the number of mad dogs running at large in those sections, and the authorities have ordered the killing of all dogs found unmuzzled in the streets. Now, we notice that the Mayor of our neighboring city, Rahway, has issued his proclamation to the same effect. There are many worthless curs in Plainfield.

IF any of our readers have an idea that the butter they eat is adulterated or contaminated with beef fat, they can easily convince themselves by saturating a cotton wick with a suspected sample and setting it on fire, let it burn a moment or two. At the end of that time blow it out, and if the butter is artificial there will be an odor like that given out by a tallow candle, when its flame is out. We are informed that this test is infallible.

MISS Kate A. Sanborn, Professor of English Literature at Smith College, Northampton, Mass., will deliver a Lecture on "Thomas Carlyle," Friday afternoon, April 8th, at four o'clock in the Y. M. C. hall. The lecture is under the auspices of the Plainfield branch of the Chautauqua Literary and Scientific Circle. Tickets may be obtained at Mr. Reynolds' drug store and at the office of the C. L. S. C. Those who heard Miss Sanborn's lectures on English Literature last year, will be glad to improve the opportunity again offered.

THE Public are hereby cautioned against purchasing any so called preparations of "Tolu, Rock and Rye," all of which are counterfeits or base and worthless imitations of the Genuine article which is only prepared by Lawrence & Martin of Chicago, Ill. Beware of all parties offering goods claiming to be the same or similar compounds; as the Formula of Tolu, Rock and Rye is only known at the Patent Office at Washington, D. C., by the proper authorities, and is held there as a secret of such value as to warrant them in issuing to Lawrence & Martin's Proprietary Stamp for Tolu, Rock and Rye. There has been an outlay of over $100,000 to make these goods known to the Public, hence the attempt of unprincipled parties to palm off other cheap imitations upon the Trade and Public generally. The genuine article can always be identified, as it bears the U. S. Government Stamp with our name on each lable. Signed Lawrence & Martin.—*Chicago Times.*

E. P. Thorn, of the Mansion House, is the authorized agent for the above article. It is also on sale at Reynold's Pharmacy.

WE'LL miss this weather in a few months.

THE country roads were never in better condition at this season of the year.

A WEEK's vacation for both teachers and scholars, in our public schools, has been enjoyed by all concerned.

A SNOW squall, covering the earth with a mantle of white, was one of the peculiar features of Wednesday, April 6th.

THE fools are not all dead yet, and their special day was celebrated on Friday of last week, in the usual imbecile manner.

ROBERT C. VAIL, an old and esteemed citizen, residing on the road leading from this city to Rahway, died on Sunday, April 3d.

THE B. and O., after a short communion with the C. R. R., said farewell on Sunday, with the intention of returning in about twelve months.

THE Randolph Pond nuisance (?) has well-nigh faded from memory since the man-dam-us business became the burden of the Councilmanic mind.

GOV. Ludlow, on Wednesday, appointed Henry C. Kelsey Secretary of State for one year. Mr. Kelsey immediately reappointed Joseph D. Hall as Assistant Secretary of State.

NEXT Monday occurs the election of two Fire Commissioners to serve three years. Polls open at Laing's Hall from 2 to 7 p. m. All taxpayers within the fire limits are entitled to vote.

SOUTH avenue, although macadamized but a few years ago, is in a wretched condition in places between Richmond street and Terrill road, all the result of not repairing the road bed properly when it needed it.

BY the way, Easter is coming and Swain has such lovely "Easter Cards" that you should call and see them. We are sure you will be delighted, and well repaid for the trouble which will cost you nothing.

THE Messrs Huff Bros., at No. 57 Park avenue, are establishing an enviable reputation as first-class grocerymen. They keep constantly on hand a large assortment of everything in their line at prices as low as the lowest.

SERVICES were held in the room over Vermeule's store on Front street, last Sunday evening. Mr. Paul J. Loizeaux preached upon the occasion to an interested gathering. It will be repeated next Sunday evening.

THAT popular Front street merchant, Bachman, is offering a fine line of ladies' Spring and Summer cloakings etc., besides making a new departure in the laying in of a complete stock of carpets, oil-cloths and mattings.

THE Catholic Young Men's Union is not unknown as a promoter of the pleasures of social entertainments. Its Easter Reception on the 20th of this month at St. Mary's Hall, is consequently one of the most attractive occasions that is promised upon the expiration of Lent.

ONE of the most eagerly sought for of periodicals, by the little ones—and, their elders, also—is Harper's Young People. Its present serial "Toby Tyler, or ten weeks in a circus," is a bright and interesting story, of a healthy tone, and just suited to the forming characters of the coming generation.

THE election of Fire Commissioners to fill vacancies occurring, will take place at Laing's Hall on Monday next from 2 to 7 o'clock p. m. The candidates are Messrs. Gilford Mayer (the present Secretary of the Board) T. J. Gillies and Solomon Flaig.

The New York *Daily Graphic* of Wednesday, publishes a full page life and business career of our esteemed citizen Silas C. Herring Esq., illustrated with that gentleman's portrait. It is one of that journal's biographies of the "Architects of their own Fortunes."

THE removal of the passenger and freight traffic of the Baltimore and Ohio, from the C. R. R. to the Pennsylvania, made no noticeable change in our time table except in relation to a few Philadelphia trains. We publish the new schedule in another column.

THE entire hotel furniture and fixtures of the Dunellen Hotel, lately occupied by Mr. John Miller, will be sold at public auction Friday, April 8th, together with a quantity of stock and other material. The goods must be sold without reserve. Sale commences at 10 o'clock a. m.

THE First Annual Sociable of the Parnell Land League No. 1 of Plainfield, is naturally looked forward to with intense expectation by the friends of the organization. The pleasant event will occur on the evening of April 27th at St. Mary's Hall, and great success is sure to result.

THE motive power in the *Orange Chronicle* office is an "Otto" Gas Engine, of which brother Baldwin is very proud. The motive power for the presses in THE CONSTITUTIONALIST office is steam. The boiler and engine, manufactured by our townsman, John N. Schenck, works to perfection.

THE Middlesex Courts at New Brunswick on Tuesday, granted, among others, the following licenses: Ellis A. Campbell, inn and tavern at Piscataway; Loyd B. Nelson, inn and tavern at New Market; Wm. L. Dean, inn and tavern at Dunellen, and John S. Melbourne, inn and tavern at New Market.

MR. WM. DEAN has leased the Dunellen Hotel from its owner, Alonzo De Camp, and will open the same the latter part of this month, after renovating and making repairs and improvements to the building. Mr. Dean well understands how to conduct such a hotel, and his many friends will undoubtedly patronize him.

A RARE treat for lecture-goers has been prepared by the Deliber Society of this city. In "Michael Angelo" is chosen a subject of intense interest; and by the selection of so fluent and intellectual a speaker as the Hon. Wm. Parsons, a thoroughly instructive treatment is assured. Tickets are for sale at all the drug stores of the city.

A MOST satisfactory temperance revival is in progress in this city and vicinity, as a result of the efforts of the Sons of Temperance. In continuance of such endeavors, Mr. Jonah Boughton, a fluent advocate of teetotalism, addressed a large gathering at Van Deventer Hall on last Sunday afternoon and evening. Ex-Mayor Harper presided, and fully one hundred and twenty signers of the pledge, resulted from the day's work.

Professor Bard's Music Class

For Young Ladies and Misses, will be permanently formed at the close of a free lesson in the art of reading music at sight, Saturday afternoon, April 9th, at 4½ o'clock, in the Y. M. C. A. Hall. All those wishing to avail themselves of this opportunity to secure thorough instruction at a trifling cost, are requested to be present on the above date.

An Appeal.

The Plainfield Relief Association in consideration of the extra demands made upon the Treasury during the unusually inclement season and by the extension of their work, and also in consideration of the fact that the supply has been much smaller than in past years, find it necessary to make an earnest appeal for contributions from such friends of the Association as have not already assisted them, and for additional gifts from those who may be able to add to their charities in this direction.

By order of the Board.

EPHRAIM CARNEY, colored, aged 75, dropped dead while sawing wood at Matawan on Monday morning of last week. Now we may expect to hear of all the boys refusing to saw wood.

Consulting for the City's Good.

Present and prospective mandamuses having locked up whatever of the city's monies are in hand or will come into the Treasurer's possession during the year, and as thereby funds for the current expenses are not forthcoming nor possible to be obtained for many months, the Common Council of Plainfield finds itself in a most unfortunate predicament. The police, the street-light companies and the street laborers can not be paid except by warrants drawn on the future, which may be taken by the merchants, for a time, to a small amount but will eventually become valueless for purposes of trade and the city's credit thereupon disgraced. Feeling the necessity of taking some action towards relief, and desiring the counsel of others interested in the good repute of the city, its continued prosperity and future success, the Common Council and the Mayor invited a number of the most prominent and representative men of the city to meet them at the Council chambers on Thursday evening of last week, to consult informally upon the matter.

There were present Mayor Randolph, Corporation Counsel Kimball, Dr. Chas. H. Stillman and Messrs. Joseph W. Yates, Isaac W. Rushmore, Wm. J. Leonard, J. Evarts Tracy, Samuel P. Huntington, Chas. F. Goddard, John W. Murray and Jacob Kirkner. The Council was represented by President Whiton and Messrs. H. Smith, W. S. Darling, A. H. Smith and W. McD. Coriell.

A list of delinquents on the City, Poor and School tax list, was presented for reference and examination. Mr. John M. Whiton on being called upon to assume the chairmanship of the meeting, stated that members of the Council had thought best to call for a consultation with a number of the citizens in regard to the financial condition of the city. He then asked the Corporation Counsel for a review of the present monetary difficulties that lie upon them.

Mr. Kimball gave in substance, as follows, the position of affairs in their legal aspect: "A mandamus has been served upon the City Treasurer commanding the payment of something over $9,000. The basis and reasons on which this order is made are these: The Court holds the city bound to make up any deficit in the full amount of State and County taxes, provided the Treasurer has received from all and any sources sufficient so to do. The Treasurer has received sufficient, and the sum not having been applied to the purpose, the Court holds that the amount is still in hand and peremptorily commands its payment. At the time the mandamus was served, there was in the possession of the Treasurer about $1,400 on account of licenses and about $1,000 each in the poor and general funds. As a matter of personal protection and an act of obedience, I advised him to hold the amounts until the matter was more fully considered and understood. Upon an examination of the charter and consultation with the Law and Ordinance and other Committees, I was of the opinion that certain taxes—the Poor Fund for instance, being levied by the Council for the support of the poor—cannot be used except for their special purposes. But I since find that the Supreme Court takes a different view, and holds the necessity of paying the State and County tax out of the first monies received, no matter for what purpose, provided the Treasurer receives them in his capacity as custodian of the funds. A decision has been given in regard to the matter, affecting the city of Rahway. A certain tax was levied for the use of the Fire Department, which was not made upon the city entire but only on a certain district within the fire limits; and yet the amount so raised, upon property in a particular section and for a special purpose, was held as available and to be used towards the payment of the State and County tax. In consequence of such rulings, I feel most decidedly our inability to draw upon the funds in hand for the expenses of the city. This trouble arises out of the non-payment of taxes, and the question is naturally asked 'why are they not collected?' The truth is, it has never been finally settled as to what *can be* collected. There has been no test of the power of the City Judge to issue his warrants for the enforcing of payment. At the present time there is no reason why that official cannot issue such for the City taxes of 1880—which will soon be done with, I hope, great desired effect. But the authority under which it will be done has no application to the State and County taxes. It remains to be ascertained whether they can be collected through the same agency. We are hoping that the Court of Errors and Appeals will decide that the City Judge can issue warrants for previous years. It has also been considered whether to bring suit at common-law with the same result in view, and I have so advised; but none of these measures can give immediate relief, and to discover the means toward such is, I suppose, the main object of this meeting. An attempt is making to have a rehearing in the mandamus case, and I hope for a ruling very soon. But we should assume that the present mandamus will stand, as a Court is always reluctant to reverse its decision. However, no decision can be had before the first Tuesday in June, at least."

Chairman Whiton gave the aspect of affairs as it presented itself to the Common Council: "We cannot pay even the simplest current expenses of the city," he said. "Even the care of the small-pox patients taken charge of by our Board of Health, has not been settled for. No money is available for the relief of the poor or the payment of police salaries. The Council is brought face to face with the fact that unless immediate relief is found, we will have to discharge the police, put out the lights and cease work on the streets."

Mr. Kimball, in answer to Mr. John W. Murray, continued: "There is no trouble about paying any judgments against the city by levying an assessment, but the mandamus is not a judgement. The Court considers the money to be in the Treasury, and if not, that the fault is the Treasurer's. The County Collector can continue each year to issue like mandamuses. The case I have mentioned relating to Rahway is a startling decision; but I have not yet heard if it is to be appealed. A stay of proceeding in relation to the mandamus can only be obtained from the Court. If the Collector would consent to release any monies, well and good; but he most decidedly refuses to allow any funds to be used by this city. I think, however, that no arrangement of the kind should be made, as such would be a confession on our part of the obligation and we don't wish, as yet, to so recognize it."

Mayor Randolph could not see but that the Court and the Collector, in view of the facts of the case as presented, although not possibly just and equitable, yet had acted perfectly legal and right under the circumstances of the Charter. He also thought it would be inconsistent to make any attempt to collect the State and County taxes while the city was denying its obligation for such; and more prudent to confine its action to the collection of its own. In relation to the bill that had lately passed for the relief of cities in a similar predicament, the Mayor said: "I had understood that the Governor had vetoed several bills that depended for their final effect upon a vote of the people. Acting on such information, I did not propose the insertion of such a clause in the original bill. It had to be prepared within a week of the adjournment of the Legislature, and was simply for the purpose of bridging the difficulty and furnishing immediately means to go on while the matter of the mandamus was pending. The bill gives power to borrow at once, in anticipation of the taxes to be raised, an amount not exceeding 80 per cent. of the whole. It also expressly provides that the money so raised should not be subject for any purpose but the city's expenses. That bill was amended so as to require the vote of the people and passed on the last day of the session. The amendment may kill the measure."

Mr. Murray thought the only loop-hole of escape open was a hopeless one, and that was to call a money election to vote sufficient funds to pay off the mandamus. He knew of no other relief to be obtained.

Mr. Joseph W. Yates said: "Even if the Governor signs the bill, there is not the slightest possible chance of the people of Plainfield endorsing it. There are two classes of citizens among us. Those who pay their taxes and those who do not. The former having paid, think the others should do likewise. The latter do not desire their obligations increased. What hope is there of getting the people to vote money under such circumstances? If we have a Charter under which we cannot collect our taxes, then we should have another—but there is, unfortunately, many residents among us who do not want a Charter under which the taxes can be collected."

Mr. Whiton called the attention of those present to the fact that the percentage of uncollected taxes in Plainfield is no greater than in any other city in New Jersey. "The trouble is," he continued, "that there is no allowance made for bad debts. We are only permitted to assess $10,000 and collect out of it as much as we can."

Mr. Goddard objected to any further discussion that did not look towards a means of relief. "The only plan suggested," he said, "is by way of the bill now before the Governor, and that depends, if signed, upon the will of the people. I would like to add another class who do not pay their taxes and that is the liquor sellers." This bringing of the temperance question into the city's financial difficulties was generally objected to; and the Mayor offered a resolution to the effect that a Committee of seven be appointed by the chair to consider the tax question; confer thereupon with the Council; discuss what measures, if any, should be adopted for the collection of arrearages; consult the expediency of calling a public meeting in relation to the matter, and decide what means are available or obtainable and in what way. Mr. S. P. Huntington seconded the resolution which was unanimously adopted.

A motion being made to adjourn, Mr. Whiton first asked what the Council were to do—he thought it "might as well shut up shop."

Mr. Murray felt that an informal meeting like the present one could not give the Council any direction. It was not called to express an opinion as to what that body should do.

Mr. Darling disagreed with Mr. Whiton. "There are many," he continued, "who owe taxes they will not pay until the city takes some action towards their collection. When such action is taken a great deal will be paid; and the taxes of '79 and '80 are ample to pay everything. I do not charge the Council with lack of duty, but the delinquent lists that have been turned over have never been acted upon."

After some further discussion on this point the meeting adjourned. The Committee as provided for by the resolution passed, will not be appointed until some future time.

Gentle Spring.

It was not a pleasant Spring amusement to look out of the window these mornings and see the promise of another December day in the beginning of April. The dust has been flying thick and fast, the thermometers "way down," and everybody is uncomfortable. It continues just such weather as prevailed the day before, and the day before that, and several preceding days, only it is worse than any of them. The gentleman who remarked to himself, as he drew aside the curtain, that it was "a beastly day," was hardly to be blamed, for no other term really did justice to the weather, or what the signal department is pleased to call weather. These days of misery merely fill in the space where weather ought to be. The man who tried to find out which way the wind was blowing Tuesday morning had a hard task on hand. In some streets it blew straight from the north, in others straight from the south; in some streets from the east, in some from the west, and in some from all four points at once, changing from one course to another with all the freedom of a "Readjuster" politician. But whichever way it blew, it blew harder, and it gave some of the streets a sweeping that will not hurt them. There will not be any complaints about the dirt thus swept up being thrown into the houses either, for it was all carefully carried away in pedestrians' eyes, and afterward wiped out in handkerchiefs. The English language is weak and tame when you try to describe such a day as Tuesday. It was dark, dirty, dusty, raw, bleak, cold and altogether miserable. It would be easy to execrate the general weather still further, but the first sunny morning will fortunately drive it from our memories forever. The table given below will allow of a comparison as to the temperature of April 5th for the past eight years.

FIRE MATTERS.

The Fireman's election took place at new Brunswick on Monday and resulted in the selection of John Harkins as Chief Engineer; Milton Ross as 1st Assistant, and John Tallman as 2d Assistant.

The house on the farm near Basking Ridge, N. J., lately purchased by Dr. Voorhees, known as the Bolell property, was destroyed by fire Sunday night. The loss is $5,000; insurance, $2,000.

An alarm at about ten o'clock p. m. on Friday last, called out the department to give its attention to a fire that was occurring in a barn next to the P. H. S. The whole interior of the structure was threatened by the flames at one time, but their progress was arrested by laymen before the fire-laddies arrived. No appreciable damage resulted.

Warren Eng. Co. No. 3 is off duty for awhile to allow of necessary repairs.

Another false alarm of fire on Sunday night last, about half past ten o'clock, brought out the entire Department.

The handsome residence of Mrs. H. J. Hunting, at Madison, N. J., was totally destroyed by fire on Sunday morning last, and other valuable property in the vicinity seriously endangered in consequence of the high wind prevailing at the time. The fire is supposed to have originated from the kitchen furnace. The loss is about $30,000, on which there was no insurance.

A false alarm at about 10 o'clock p. m. on Wednesday, gave the firemen just enough of a run to cause their sound sleeping afterwards and unprepare them for the working fire of the next morning. At ten minutes before four a. m., on Thursday, private-watchman Wright discovered the presence of flames in the interior of W. F. Adams' paint shop at 17 East Front street. He woke up the Chief, notified the Engine Companies and endeavored to find a policeman. The bell was rung and a small portion of the Department and a sprinkling of citizens gathered around the scene of excitement. No. 1 and 2 Engine Co's succeeded in laying their hose at about the same time; but the latter, owing to the ring of the Somerset St. well-cover being broken off, was unable to open the well, while the former dropped its suction in the Second street well, and "got first water." This was the only stream that was put on the fire, extinguishing the flames in a few moments. In the beginning, every prospect of a most dangerous conflagration appeared. The fire started from some unknowable reason in a window-glass box full of packing straw. Alongside of this were two wooden barrels (one containing putty) the sides of which were slightly charred, while rows of cans containing the most inflammable liquids lined the room. Had not the faithful Bee discovered the danger, the surrounding circumstances of adjacent frame buildings, direction and velocity of the wind, and other causes would have united in effecting terrible loss of property. The damage that did result is but slight and mainly by reason of water. It adds another to the list of buildings saved by the intervention of Watchman Wright.

The Board of Fire Commissioners met in regular meeting on Wednesday evening. All members present. Mr. Jones from the Committee on Wells reported that he had made an examination of the state of the brook at the Grove street bridge, and found it so washed out as to contain a depth of water of about six feet. He thought no improvement could be made. Alert Hose Co., presented the names of Messrs. J. U. Fraley, R. J. Livingston and J. R. Johnson as new members. Warren Eng. Co., presented Messrs. Jno. Harding and P. Casey and asked for the reinstatement of Mr. Geo. Hartfelder. All laid over as provided. Messrs. Benj. R. Haines, J. Marc Martin and Tell A. Beguelin were all unanimously elected members of Alert Hose Co. The action of Zephyr H. & L. Co. in the expelling of three members for non-payment of dues &c., was approved by the Board. The bills of J. F. Hubbard for assessing fire tax, which had been referred to the Treasurer for examination, were reported correct, by that officer. Mr. Morris held that the assessor was designated as an officer of the corporation by the charter, and that the Board was not allowed by the charter to appropriate any money for the remuneration of any officer of the corporation. The claims were again laid over. Bills of the P. G. L. Co., for 1879, $287 60 and 1880, $342 20 were referred to the Chm'n of the Com. on Repairs and Supplies for examination. Claims of Nathan Rogers $150 and P. M. Assurance Co., $16 80 were ordered paid when funds were in the treasury. A communication was received signed by a number of residents in the vicinity of Franklin Sq., asking for permission to build a fire well at that point at their own expense, the amount to be credited against their fire tax. Ref'd to Com. on Wells for consideration and advice. The matter of the application of D. W. Littell for exemption papers, was again before the Board. President VanWinkle thought the question to be considered in relation was whether it was necessary to serve seven consecutive years or seven goose-you-please. After some discussion, assisted in by numerous outsiders, the application was tabled. The annual report of the Treasurer was received, read, accepted, filed and ordered printed. By resolution the President and Treasurer were authorized to borrow an additional $1,000 in anticipation of taxes. The question as to who is entitled to vote at the coming election of Monday, having been unnecessarily brought up, it was argued at some length. The charter expressly states that every citizen living within the boundaries of the Department, who owns goods, wares or merchandise liable to be damaged by fire, has a right to vote upon such occasion. In spite of this clear and explicit provision, a number of conflicting opinions and suggestions were given, and the matter finally laid over to be ruled upon by "counsel" at the next meeting. Mr. Mason J. Leland presented himself as a new member for admittance into Zephyr H. & L. Co. Mr. Benj. A. Mumford, personally—as the agent of another—increased a former offer for the truck of Zephyr H. & L. Co., to $125. He felt authorized to a certain extent to promise that the apparatus would not be taken out of the city but "form the nucleus of a new company." The Board then adjourned until this evening, to meet at the parlors of Alert Hose Co.

Rec'd and placed on file.

Mr. Hamilton reported for the special committee appointed to draft resolutions of regret appropriate upon the death of a member. The following was read by the Clerk:

WHEREAS, It has pleased Divine Providence in the dispensation of his wisdom to remove from this life Mr. Wm. Flanders, who has for the past year been identified with this board, it is

Resolved, That in the death of our associate we, the Common Council of the city of Plainfield, in common with the community at large have sustained a severe loss—a loss which reaches us not only in our official but our social relations. In this board we knew him as a man of the utmost integrity—keen, vigorous and competent in all business matters—the uncompromising advocate of temperance, which cause he so ably advocated and sustained as to command the admiration and respect of those who differed with him. Socially we knew him as a courteous, considerate, Christian gentleman and an intelligent, zealous and prudent friend. His loss, which is felt through a community which knew and honored him, strikes heaviest in the home where he was so unfailingly kind and generous.

Resolved, That we tender to the family and relatives of the deceased our profound sympathies in their great affliction.

T. B. HAMILTON,
W. S. DARLING,
W. McD. CORIELL.

Rec'd, ordered to be entered in full on the minutes and a copy sent to the family of the deceased.

Mr. Finch from License Com., reported favorably on the application of Mr. J. B. Miller to keep an inn and tavern and sell liquor therein. Report rec'd and license granted. Messrs. Coriell and H. Smith voting no.

By Mr. Hamilton, from Police Com., as correct claims of C. W. Dodd, $58 34, and R. Randolph, $42 17. Ref'd to Aud. Com.

By Mr. Guion, from Printing Com., as correct, claim of Mace & Chamberlin, $18.90. Ref'd to Aud. Com.

By Mr. A. Smith, from Salary Com., as correct claims of City Treasurer, City Clerk, and Mr. J. S. Cutter for rent of Council chamber. Ref'd to Aud. Com.

The same reported the name of Mr. Geo. W. Moore to fill the vacancy caused by the resignation of Constable Ten-Broeck. Laid over until regular order.

By Mr. Coriell, from Street Com., as correct, claims of Shotwell, $12.02, and Thickstun, $29.52, for crosswalks. Ref'd to Aud. Com.

The same stated that he was not prepared to report favorably, as instructed, upon the claim of Wm. Hand for work done on Park avenue. The resolution provided that it was to be done under the supervision of the Street Com., and he, with Mr. Hand, had ridden over the section and agreed that $15 would do all that was necessary. The avenue was in ten times a better condition than any other street in the city, and he felt it was unjust to expend so large an amount upon it when the condition of the city's finances was considered. He, also, thought the Street Commissioner had no right to exceed the amount the Street Com. had directed, and referred the bill back to the Council.

Mr. Finch moved for a suspension of the rules to allow action upon the matter without the endorsement of the Street Com. Seconded by A. Smith.

Mr. Coriell stated that if the Council saw fit to pass the bill, he would feel called upon to decline acting on the St. Com.

Messrs. Darling, Finch and Hamilton spoke in favor of the claim, and advised a reconsideration by Mr. Coriell of his proposed action.

The rules were suspended—Mr. Coriell voting no.

Mr. Finch moved the bill be referred to the Aud. Com., with instructions that it be reported on that evening. Carried.

The rules were again suspended to allow Mr. Guion to present claims of W. C. Boone, for attendance in Ashton small-pox case, $115, and H. H. Lowrie, public vaccination, $80.50. Ref'd to Com. on Public Health.

Mr. Finch stated that he understood there were funds to the amount of about $2,500 in the City Collector's hands, which were drawing no interest. He would move that that officer be instructed to hand the same at once to the City Treasurer to be paid over to the County Collector on account of the mandamus. Not seconded.

The election of Mr. Geo. W. Moore, as constable was, on motion, made by acclamation.

Mr. Guion asked if any further action was necessary before the publication of the names of delinquent taxpayers was made.

The Clerk informed him that the date for such action provided by a previous resolution had passed, and no authority was at present vested in him to proceed in the direction referred to.

Mr. Guion then moved that such list be published in the official papers during the coming week. Not seconded.

The rules were once more suspended and Mr. A. Smith, from Sals. Com., reported as correct claim of H. Hamilton, $28.50. Ref'd to Aud. Com.

Mayor Randolph, who was present, said in answer to Mr. Darling, that he should be happy to communicate anything further that had arisen in relation to the financial question, but could furnish nothing of any interest not already known.

Mr. Coriell stated that he had called upon the Corporation Counsel that evening, but that official had nothing new to present regarding the matter spoken of. He sent to the Clerk's desk to be read an act of the Legislature of '78 authorizing the proper city official to issue warrants for the collection of State and County taxes.

Mr. H. Smith, from Aud. Com., as correct claim of W. Hand, $79.26. On motion of Mr. Darling, laid on the table.

The chair called the attention of the Council to the fact of it being necessary to fill the existing vacancy caused by the death of Mr. Flanders, before the 27th inst.

On motion of Mr. Hamilton the Council adjourned for one week.

A REPORTER'S INVESTIGATIONS.

A Full Account of the Whole Affair—Facts which the Public ought to Know—The Mayor Ignorant in the Matter—Will the same State of Affairs Continue in the Future—How it was Done—Who the Parties are—How they came to be in this City—The Chief Leader in the Operations—His Present Whereabouts—Full Details, etc.

About a year and a half ago, certain parties living in an adjacent city, concluded that they would begin their operations in this city, and without the consent or knowledge of the Mayor or City Council, or any of the authorities here, they quietly secured suitable quarters and made the necessary arrangements to carry out their designs. The two principal actors in the scheme deemed it best that they should not be personally active at the headquarters in this city, and therefore they took in league with them a man who they felt was fully able to carry out their plans. This individual was the only person that our reporter could gain any information from, and he found him to be equal to every emergency; in fact he was a host within himself; full of chit-chat, polite and accommodating to the last inch of endurance, and quite handsome withal, though he displays some silver threads among the gold, or rather brown.

The other two and the main instigators of the affair could not be found anywhere in the city, and our reporter learned that one of them very seldom came here at all, only on special occasions, he being a person of peculiar mind and habits. The other one, however, was seen here frequently, sometimes as often as two and three times a week. Our reporter thinks that he saw him once, and was about to approach him and venture a self introduction, but when he got where he was, he wasn't there, and the reporter felt a little uneasy in regard to the dexterity of the ubiquitous gentleman and never made a second attempt.

How well they have succeeded in carrying out their plans is left for the public to decide.

Although beginning their operations but a little over a year and a half ago, Edsall & Files have succeeded in arousing a public sentiment in their favor, which places them to day the most popular and successful merchants in our city, with a grand prospect of a long and prosperous term in the future. Their arrangements for the Spring and Summer trade is on a more enlarged scale than heretofore, and their numerous patrons may expect unprecedented opportunities to supply their various wants at the least possible cost during the coming season.

Those who have not yet made the acquaintance of this popular establishment should call at once upon the genial manager, Mr. Geo. L. VanEmburgh, and he will give full particulars concerning the whole matter. He will always be found at his post as usual. And thus endeth the first lesson.

THE POWER OF THE PRESS.

In no way is the power of the press more surely shown than in the universal knowledge that has, in less than a year, been diffused throughout the millions of people of the wonderful curative properties of that splendid remedy Kidney-Wort. And the people from the Atlantic to the Pacific have shown their intelligence and their knowledge of what is in the papers, by already making Kidney-Wort their household remedy for all diseases of the kidneys, liver and bowels.—*Herald.*

THE NAME OF JENNER

makes a draw lancet pointing to fight a loathsome disease; and the name Harvey signifies the circulation of the blood. And the time is coming when the name of Dr. David Kennedy will be indissolubly connected in the public mind with the purification of the blood; a deed only less important than the discovery of its motion through the human body. This Dr. Kennedy accomplishes by means of his new medicine called "Favorite Remedy." ap8w2

A Paterson manufacturer, having about a hundred girls in his employ, all of whom were working over time, recently left it to them whether they would work on Wednesday night, that being the night generally devoted to courtship. The girls consulted and found that only one in the whole hundred kept company with a young man, and she did not care enough for him to remain away from her work. The motion to work on Wednesday nights as well as other nights was accordingly unanimously carried.

HOW TO SECURE HEALTH.

It seems strange that anyone will suffer from the many derangements brought on by an impure condition of the blood, when SCOVILL'S SARSAPARILLA AND STILLINGIA, or BLOOD AND LIVER SYRUP will restore perfect health to the physical organization. It is indeed a strengthening syrup, pleasant to take, and has proven itself to be the BEST BLOOD PURIFIER ever discovered, effectually curing Scrofula, Syphilitic disorders, Weakness of the Kidneys, Erysipelas, Malaria; all Nervous disorders and Debility, Bilious complaints and all Diseases indicating an impure Condition of the Blood, Liver, Kidneys, Stomach, skin, etc. It corrects indigestion. A single bottle will prove to you its merits as a health renewer, for it ACTS LIKE A CHARM, especially when the complaint is of an exhaustive nature, having a tendency to lessen the natural vigor of the brain and nervous system.

In several up-country ponds, particularly in Bergen and Passaic counties, it has been found upon the disappearance of the ice that all the fish had died, the bottom being literally covered with thousands of the dead fish.

An old Warren county farmer says that those who left their corn standing out will find it dangerous husking this spring, as the shocks will be full of snakes, which are said to gather in them for Winter quarters. Does he mean corn whisky?

CHAPTER CVI.

An act to amend an act entitled "An act to establish a system of public instruction" [Revision], approved March twenty-seventh, one thousand eight hundred and seventy-four.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That section seventy-seven of the act entitled "An act to establish a system of public instruction" (Revision), approved March twenty-seventh, one thousand eight hundred and seventy-four, be and is hereby amended so as to read as follows:

77. And be it enacted, That for the purpose of maintaining free public schools there shall be assessed, levied and collected annually upon the taxable real and personal property in this state, as exhibited by the latest abstracts of ratables from the several counties, made out by the several boards of assessors, and filed in the office of the comptroller of the treasury, a state school tax equal to four dollars for each child in this state between the ages of five and eighteen years, as exhibited by the next preceding school census, which tax shall be assessed, levied and collected at the same time and in the same manner in which other taxes are assessed, levied and collected; but if the monies received by any township from the tax imposed by this act shall not be sufficient to maintain free schools for at least nine months in each year, then the inhabitants thereof may raise by township tax such additional amount as they may need for that purpose in the same manner as such taxes have heretofore been raised.

2. And be it enacted, That section seventy-eight of said act be and is hereby amended so as to read as follows:

CHAPTER CXIII.

An act in relation to encumbered cities.

Whereas, Some of the cities in this state are encumbered with municipal indebtedness to so great an extent that the annual interest thereon payable by such cities, together with the annual taxable charge upon the taxpayers of such cities, amounts to more than can be readily raised by taxation therein; and whereas, it is expedient that in such cases the governing powers of such cities and their respective municipal creditors should have power to arrange such settlements as shall be for the mutual interests of such cities and their creditors.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That whenever any city in this state shall be unable in the judgment of the city council or other legislative body of such city to raise and pay the annual charge upon the municipal indebtedness of such city, which judgment shall be expressed by the resolution of such city council or other legislative body passed by the votes of three-fourths of the members of the same, it shall be lawful for such city council or other legislative body to issue the bonds of such city for such amounts as they may deem expedient, not exceeding the total amount of the indebtedness of such city, which bonds shall be issued by ordinance of such city council or other legislative body thereof passed by the votes of three-fourths of the members thereof, and shall be applicable for purposes of arrangement of such indebtedness with the creditors of any such city, and for no other purpose as hereinafter provided.

2. And be it enacted, That such bonds shall be executed in the manner provided for the execution of the bonds of such city by any existing law of this state, shall bear such rate of interest not exceeding the legal interest, and be payable at such time or times, and in either registered or coupon bonds as shall be determined by such city council or other legislative body by the votes of three-fourths of the members thereof.

3. And be it enacted, That it shall be lawful for such city, through the finance department of the same, to exchange such bonds when so issued, for any evidences of indebtedness of such city, held by the creditors thereof, with whom such finance department may agree for that purpose, either in whole or in part, upon such terms of exchange as shall be ordered by such city council or other legislative body by a resolution of the same, passed by the votes of three-fourths of the members thereof.

4. And be it enacted, That the annual interest on such bonds as shall be so issued and exchanged shall be raised by taxation by the proper authorities of any such city for that purpose, together with such sum as shall be levied by such city council or other legislative body for application to the payment of the principal thereof, if any; such interest and sum for principal, if any, shall be raised by taxation and paid by the proper municipal authorities of any such city before the interest on any bonds or other evidences of the indebtedness of such city in existence at the time of the issue of the bonds authorized by this act.

5. And be it enacted, That all sums which shall be so raised by any such city for the purpose of application to the payment of the principal of such bonds shall be invested by the sinking fund commissioners or other proper officers for that purpose, and shall not be borrowed by or appropriated by such city for any purpose except the payment or purchase of such bonds.

6. And be it enacted, That the city council or other legislative body of such city by the votes of three-fourths of the members thereof may arrange with any person or persons for a settlement of such indebtedness, and employ such assistance as they may deem necessary, and provide for their compensation and the necessary expenses attending the same by the issue of bonds under this act, or otherwise in their discretion.

7. And be it enacted, That all acts and parts of acts inconsistent with the provisions of this act be and the same are hereby repealed, and that this act shall take effect immediately.

Approved March 17, 1881.

CHAPTER CXIV.

An act to afford a just compensation for work or materials, or both, furnished for municipal corporations on contracts which have been adjudged beyond the power of such corporation to make.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That if heretofore any person or persons shall have entered into any written agreement with any municipal corporation of this state, for the construction of a sewer or other public work for the said municipal corporation, and shall have furnished work or materials, or both, in part performance of said contract, and afterwards said contract shall, upon certiorari, have been adjudged by the supreme court of this state to have been beyond the power of said municipal corporation to make, said person or persons so having furnished work or materials, or both, as aforesaid, shall be entitled to recover from said municipal corporation just compensation for all such work or materials, or both, by him or them furnished respectively before the service upon him or them of said certiorari, and may recover the reasonable value of such work and materials, or both, in any action at law now depending, or to be brought by him or them respectively; and in said action neither the fact that said contract has not been completed, nor the fact that the same was beyond the power of said municipal corporation to make shall be a defence.

2. And be it enacted, That this act shall take effect immediately.

Approved March 17, 1881.

And be it enacted, That whenever any testator shall have made in his lifetime any investment of money on bond secured by mortgage or in the bonds or stock shares of any corporation, and the same bonds, mortgages or stock shares shall come, or shall have come, into the hands of the executor or trustee of such testator to be administered, and such executor or trustee may in the exercise of good faith and a reasonable discretion have continued such investment, or may hereafter continue the same, he shall not be accountable for any loss by reason of such continuance; provided, that nothing in this act contained shall apply to cases where the deed of trust, or the last will and testament of any testator, or the court having jurisdiction of the matter, specially directs in what manner the trust fund shall be invested.

3. And be it enacted, That this act shall take effect immediately.

Approved March 17, 1881.

An act to authorize the boards of chosen freeholders of the respective counties of this state to issue bonds to raise money for state or county purposes, in anticipation of the arrearages of state or county taxation.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That if in any county of this state there shall now exist, or hereafter shall exist, arrearages of state and county taxes, owing and unpaid to the county collector by the different cities, towns or townships in said county, by reason of any appropriations and levy of taxes for state or county purposes, heretofore made or hereafter to be made, then it shall be lawful at any time, and from time to time, for the board of chosen freeholders of any county of this state to borrow such sum or sums of money as they may deem necessary for the payment of any floating debt of such county, or for the payment of any temporary loans based upon such arrearages, or for the payment of any state or state school tax, which may be due from such county to this state, and to cause, by resolution, the bonds of such county in the name of the board of chosen freeholders of such county, to be issued for the same in such sums each as they may deem proper; provided, that said board of chosen freeholders of such county shall not, in all, borrow to an amount exceeding the amount of arrearages of taxes owing to the county collector by the different cities, towns and townships in such county; and such bonds shall be made and such bonds issued only in anticipation of the collection of such arrearages of taxation; provided also, that the first monies realized from such bonds shall be paid into the state treasury in payment of such state taxes as may be then due.

2. And be it enacted, That the bonds authorized to be issued by the first section of this act may be either coupon or registered bonds, as the board of chosen freeholders may determine; and the same shall be made payable, both principal and interest, at the office of the county collector of such county, and said bonds shall be sold by the board of chosen freeholders of such county, upon the orders and regulations thereof, either upon bids for the same, duly advertised for, or otherwise; provided, the same shall in no case be sold at less than par; the director and county collector shall sign said bonds, and the same shall be sealed with the seal of the county, and the county collector shall number and register the same, and registered bonds may be exchanged for coupon bonds, and coupon bonds exchanged for registered bonds, at the option of the holder thereof; provided, that the board of chosen freeholders by resolution, shall consent to such exchange, and said bonds shall bear such interest as such board shall determine, not exceeding six per centum per annum, and said interest shall be paid semi-annually, and such bonds shall have such time to run as said board of chosen freeholders may, at the time of such issue thereof by resolution determine, not exceeding thirty years.

3. And be it enacted, That the said board of chosen freeholders shall, each year, place in the tax levy for such county, for such year, so long as such bonds shall run, a sufficient sum to pay all interest on said bonds during such year; and also a sufficient sum to pay the principal of said bonds falling due within the year; the same to be levied and raised in the same manner as other county taxes are levied and raised.

4. And be it enacted, That whenever bonds shall be issued by any board of chosen freeholders under the provisions of this act, it shall be the duty of said board of chosen freeholders to first apply all sums thereafter received on account of said arrearages of taxes, in anticipation of which any bonds have been issued, to the final payment of such bonds, and for no other purpose whatever, until a sufficient sum has been provided for the payment of said bonds.

5. And be it enacted, That this act shall take effect immediately.

Approved March 18, 1881.

1. Be it resolved by the Senate and General Assembly of the State of New Jersey, That in order to ascertain and quiet the title and rights of all parties and persons who have purchased, leased or acquired any lands under the waters or shores of this state by virtue of the authority of any of the enactments of the legislature of this state, and to ascertain and secure to such persons or parties the enjoyment of the same, and the products thereof, against any alleged claim of attempted sale thereof by the board of proprietors, or their representatives, or agents or agent, either heretofore or hereafter, and in order to restrain and prohibit all and every person or persons or association or board of proprietors from interfering with the right and property of the State of New Jersey, and of any person or persons enjoying possession of any part of the same, by authority of any of the acts of the legislature of this state, in said waters, and in said lands under or adjacent to said waters, and the products thereof, and from doing or to do any act which will in any way cast any cloud on the title of the state, or of any of such other persons or parties having or lawfully or equitably claiming any right, or title, or property therein by lease, deed or contract of any kind from the state; that the attorney general of this state is hereby authorized and required, in the name of the state of New Jersey, and at the expense of the state, speedily to institute and prosecute in the proper court or courts such proceedings as he may deem necessary and proper to accomplish the objects and purposes above set forth, against the board of proprietors, their representatives or agents, or any of them, who have attempted or may attempt to enforce any such sale conveyance of, in or to any of said lands, or the products thereof, and as will determine and secure to the state of New Jersey, and to the proper respective parties rightfully and lawfully claiming by deed, lease or contract under, by, through, or with the state of New Jersey, title and property in said waters and the lands and products aforesaid, or any part of the same, and full and perfect title and enjoyment and use of the same.

Some rascal attempted to destroy Dupont's powder works near Gibbstown, a few days ago. He laid a train of powder near one of the buildings and with it a parlor match, which might be exploded by any one happening to walk in that direction. It was discovered in time.

James Walsh, who on the 3d of January last stabbed and killed Barbara Groenthal, an orphan girl in Brooklyn, because her foster mother had forbidden him the house on account of his bad character, was convicted of murder in the first degree last week, and on Monday last sentenced to be hung on May 20th.

When James T. Brady, the eminent lawyer, first opened a lawyer's office in New York, he took a room which had previously been occupied by a cobbler. He was somewhat annoyed by the previous occupant's callers, and irritated by the fact that he had few of his own. One day an Irishman entered. "The cobbler's gone, I see," he said.

"I should think he had," tartly responded Brady.

"And what do you sell?" he said, looking at the solitary table and a few law books.

"Blockheads," responded Brady.

"Be gorra," said the Irishman, "ye must be doing a mighty fine business—ye hain't got but one left."

The Rev. Dr. Broadus, an old Baptist parson famous in Virginia, once visited a plantation where the darkey who met him at the gate asked him which barn he would have his horse put in.

"Have you two barns?" asked the doctor.

"Yes, sah," replied the darkey; "dar's de ole barn, and Mar's Wales has' jes build a new one."

"Where do you usually put the horses of clergymen who come to see your master?"

"Well, sah, if dey's Metodis's or Baptis's, we gen'ally put 'em in de ole barn, but if dey's 'Piscopals we puts 'em in de new one."

"Well, Bob, you can put my horse in the new barn; I'm a Baptist, but my horse is an Episcopalian."

STONES IN THE KIDNEYS
and BLADDER Expelled—Long Suffering of One of TROY'S Best People.
A LUCKY MAN.

It is by no means a strange thing that Dr. Kennedy should have received the following letter. By reading it you will see in one minute why James Andrews was thankful:

TROY, N. Y., April 8th, 1880.
Dr. D. Kennedy, Rondout, N. Y.:
DEAR SIR—Until within a recent date, I had for several years suffered greatly from gravel, called by the doctors the brick-dust sediment. For about a year past this sediment has not passed in the usual quantity, but has accumulated, causing me untold pain. Having heard of "Kennedy's Favorite Remedy," I tried it in my case, and after using about one and one-half bottles, I voided a stone from the bladder, of an oval shape, 7-16 of an inch long, and rough on its surface. I send you the largest piece that you may see of what it is composed. Since then I have felt no pain. I now consider myself cured, and cannot express my thankfulness and gratitude for so signal a deliverance from a terrible disease. You have my consent to use this letter, should you wish to do so, for the benefit of other sufferers.
Yours truly,
JAMES ANDREWS.

When we consider that the medicine which did this service for Mr. Andrews costs only one dollar a bottle, it would seem that persons afflicted in like fashion can afford the expense of testing its virtues. FOREST TAR & JUNIPER
KIDNEGEN,
THE GREAT KIDNEY REGULATOR AND DIURETIC.
KIDNEGEN is highly recommended and unsurpassed for FOUL KIDNEYS, DROPSY, GRAVEL, BRIGHT'S DISEASE, LOSS of ENERGY, NERVOUS DEBILITY or any OBSTRUCTIONS, arising from KIDNEY or BLADDER DISEASES. Also for BLOOD and KIDNEY POISONING, in infected malarial sections.
By the distillation of a FOREST LEAF with JUNIPER BERRIES and BARLEY MALT we have discovered KIDNEGEN, which acts specifically on the Kidneys and Urinary Organs. It can be taken at all times, in all climates, without injury to the system. Unlike any other preparation for Kidney difficulties it has a very PLEASANT and AGREEABLE taste and flavor. It contains POSITIVE DIURETIC properties and will NOT NAUSEATE. LADIES ESPECIALLY will like it, and GENTLEMEN will find KIDNEGEN the best Kidney Tonic for its purposes ever used!
NOTICE! Each label has the Signature of LAWRENCE & MARTIN, and each bottle has a GOVERNMENT REVENUE STAMP (without name), which permits KIDNEGEN to be sold as a Proprietary article (without license) by Druggists, Grocers and other dealers everywhere.
PUT UP IN QUART SIZE BOTTLES FOR GENERAL AND FAMILY USE.

TO LOVE OR TO BE LOVED.

There are many great goods in life among which we may count as best of all this triplet of twins—to love and to be loved, to give and to receive, to forgive and to be forgiven. Take the first. Of all the joys open to humanity, none is greater than that of loving and being loved. In fact, there can be no true happiness outside the affections. There may be, and is, a placid contentment in the faithful performance of duties, especially if they are disagreeable, whereby the moral nature gains a victory over the baser part of us; the spirit is cheered by the elaboration of noble thoughts; and the acquisition of knowledge gladdens the intellect, and puts a soul into the day of gain. But love alone gives real personal happiness, and love alone enables one to meet the ills of life with a light heart and a calm countenance. Vulnerable as it is in itself—ah! what else is so easily wounded?—love makes an impenetrable shield against every other sorrow. Though troubles fall thick as hail, they but leave us love and the beloved, we can bear them without wincing; but if they strike us through the beloved, or take from us love, nothing can make up for the loss, and henceforth our life is but a broken one, with all its sweet music turned to discord. Hence love, besides being delightful in itself, blunts the stings and arrows of angry fortune, and wraps us in a panoply which nothing but itself can pierce.

But of the two, which is the better; to love or to be loved?

It is very sweet to be loved—to know that one's coming rejoices the heart and brightens the eyes, and that when we go where we are beloved we scatter light and joy, and make the dark chambers of the soul radiant with sunshine. The reserve imposed on us by society, forces us to control any very turbulent expression of our feelings, even the most innocent; but, for all the artificial coat of ice in which it is considered the correct thing to wrap our words and looks, those must be mightily stupid who cannot see clearly where they are loved; and if they do not take pleasure from the knowledge, they must be as hard as so many nether millstones, or the traditional brickbats which fly about an author's stock of similies; and, if so, they are of no account to us. But the greater number of fallible mortals do take pleasure from the knowledge. Besides, to feel *one's self loved by people who are not* disagreeable to us is pleasant as a kind of tribute paid to the inner worth which every man and woman is conscious of possessing, no matter what the world thinks, or what his deeds may have justified the world in thinking. We are all intimately acquainted with our own merits, if not always with our own faults; and only the exceptionally humble accept the admiration of outsiders as beyond their deserts. To the great mass of mankind no admiration seems excessive, and no amount of love ill-bestowed, when they themselves are the objects. So that, in every way we take it, being loved is very delightful. But, again, it is odd how many people are loved, and no one but the lover knows why; while others are passed over whom it would seem so much more natural to adore. You sometimes see in a family the family favorite, whom every one agrees to love and every one conspires to spoil. And you, not being of the family, cannot understand why; and think others, who are passed over disregarded, much more fit to be adored. For the favorite, as a rule loves no one, but simply offers himself or herself as a kind of domestic deity without taking any trouble to deserve attentions which more often bore than charm. And almost always he or she is selfish and exacting as well as cold and what we mean by "spoilt." What might have been originally a fine nature, and what would have been a good heart if not choked with a surplusage of love, has got put all wrong, and family favorites, though demanding by long right the homage which all those dear, affectionate simpletons have been eager to pay, return not even so much as a farthing rushlight for the floods of love with which they have been deluged and buoyed artificially ever since the beginning. Those floods do not make them happy; but those who love are in the courts of Heaven, and never see, dear souls, that they are doing their best to ruin the pretty creatures they adore and that, while they think they are only loving, they are in point of fact destroying.

Of the two misfortunes, to love and not be loved in return is a better state, if so infinitely sad, than to be loved by one you cannot love. Nothing in life is much more painful than this; for few people are able to receive unwelcome affection stoically, indifferently, not caring whether it is giving or withheld, but for the most part break out into a savage hatred for those who bore them with their undesired love, or else fall into a sickening repulsion, which embitters their very existence. *Women who are what is called* "good matches" know this better than any one else. Ask them what they think of the pleasure of being loved by men they do not care for, or actively dislike; ask them how they feel while they are crawled after with that abject humility which nothing can affront or beat off, or persecuted in a more determined manner with that off-handed obtuseness to rebuffs that pertinacity of assurance, which sends the more sensitive of them half mad. Sometimes men have to undergo the same thing from women; but not often; save by their own fault of fickleness when they have ceased to love and the woman has not, *and does not mean to relinquish her* hold, but sticks like a burr, and drops none of the endearments born of the day of hallucination. But sometimes, if very rarely, they are besieged by a love-lorn damsel for whom they have no more tenderness than they have for Beatrice in marble, and against whom they must protect themselves if they would not be entrapped. Well, it is very bad for the love-sick damsel, but it is ten times worse for the unloving man!

WANTED TO BE AN EDITOR.

"Have you had any experience in the business?" we asked of a verdant-looking youth, who applied for an editorial position the other day.

"Haven't I, though," he replied, as he shoved one foot under his chair to hide the unskillful patching of a backwoods cobbler. "I should say I'd had some experience; have corresponded with the Pumpkinville *Screamer* for six weeks. Hain't that experience enough?"

"That will do very well," we replied, "but when we take young men on our editorial staff we generally put them through an examination. How much is twelve times one?"

"Twelve. Why, any little boy ought to an—"

"Hold on, please; don't be too fast. How many bones are there in the human body?"

"Well, I forget now, but I yust to know wunst."

"What! don't you know that? Why, there are 7,482,644,921,444 bones in an ordinary man. A man that snores has one more bone than other people."

"What bone is that?"

"The trombone. It is situated somewhere in the nose. You will not forget that, will you?"

He said he wouldn't.

"Have you got a good constitution? How long do you suppose you could live on raw cotton and faith, and do the work of a domesticated elephant?"

"Lord, don't believe I could live more'n a week."

"Well, that is about as long as you'd want to live if you got an editorial position on this paper. You appear to be pretty well posted; we shall ask you one more question, and if you prove equal to it you can take off your coat and sail in."

"Let me have 'er, squirer; I didn't correspond with the Pumpkinville *Screamer* six weeks for nothin'. Let her come; I'm on deck, I am."

"Well, sir, if two diametrical circles with octagonal peripheres, should collide with a centrifugal idiosyncracy, or, to put it plainer, we say a disenfranchised nonentity—what effect would the catastrophy exert on a crystallized codfish suspended by the tail from the homogeneous rafters of *the empyrean?*"

As the full force of this ponderous problem broke upon his bewildered brain he slowly dragged his artistically cobbled shoe from under his chair and started from the room. We then placidly resumed our duties, regretting that so promising a youth should have been "weighed in the balance and found wanting."—*Exchange.*

For "The Constitutionalist."

BRESLAU, March 18th, 1881.
[Province of Silisia, Prussia.]

Some time since I have seen the Westfield Wisps, and therefore I want to increase its news. As you can see I am in Breslau, a very old city with very many remarkable buildings; the old City Hall and its cellars built in the twelfth century, churches in all styles with massive walls from six to eight feet thick, with their high towers, some of which we climbed; one we had to climb 375 steps and could look around the whole city. Each church has its history; in one is the celebrated "Poor Sinner's Bell" that the apprentice cast, and when the master heard of it, fearing that it was spoiled, in his rage slew the boy; then he found the bell perfect, but repentance came too late, the boy was dead, the master was tried, and when led to his execution, his last request was to ring the bell that cost the life of two persons, and ever since it has retained the name of "The Poor Sinner's Bell." Another Church and Monastery we visited was full of shell and ball that it received in the thirty year war. In another Gustav Adolph (the swedish King) kept his horses. In the Cathedral the sexton at one time set fire to the church and stuck his head through the small hole in the dial plate of the clock to see if anybody was around that would see him when he left the building, but found that he could not withdraw his head again, and so was compelled to yell fire and help save the building from destruction, yet he himself suffocated and his head had to be severed before his body could be removed. Another, the steeple fell over and killed a cat which was buried under the tower, and so each church has its history. Then the many curious old buildings each telling its story, where Princes, Kings and Emperors used to stop. The Iron pillar near the City Hall, where criminals, before execution, were fastened and held for public gaze and abuse. The different implements of torture block and axe. The Hall where in years gone by the Fathers of the city would meet and deliberate over the welfare of the city; the dark steps through which the criminal was led, by which he knew he was sentenced to death; another where he became free. The old Beer Cellar with its tunnel of 16 miles in length, to the city of Schweidnitz, which was made, so the Host could get his beer and not pay duty when coming inside the city limits. I also visited the University and the Observatory; the different Casernes as they are called and witnessed the drilling exercises of the different troops, and now shall remain until after the 22d to see the celebration of "Kaisers' Birthday." C. W. W.

A prominent member of Warren County Board of Freeholders, in speaking of the bridges throughout the county stated that the iron bridge at Hughesville, was by far the best built bridge in the county; that during the last freshet, although the water nearly ran over its top, it was not stirred a hair's breadth, and that it was now as firm and strong as when it was erected.

The catch of frost fish has been less this season than ever before. Their entire disappearance in the Raritan river is only a question of time if a law is not passed prohibiting the fishermen from catching them for two or three years.—*New Brunswick Times.*

A good wife is a home aid.

Attempt at Escape.

Some days ago an attempt was made by a gang of prisoners incarcerated in the State Prison to escape from that institution, and the particulars have just been published. It seems that the prisoners were all aware of the change to be made in the Keepership, and believing that with the new Keeper, there would also come in new subordinates, laid plans for a break, hoping that the incapacity of the new men and good fortune might combine to crown their efforts with success. Five of the worst criminals in the institution, all of them for long terms, for the most heinous of offences, it seems, were at the bottom of the affair, and easily induced others to join. Cell bars were sawed through and other preparations made for a clear avenue when the time came for the break, but an old underkeeper gained the confidence of some of the prisoners and informed the Keeper before the plans were fully matured. The principals were immediately placed in dungeons, thus frustrating their plans.—*New Brunswick Fredonian.*

Signed.

The Governor has signed the supplement to the act to facilitate the collection of certain premiums for the benevolent funds of fire departments which provides that all moneys now in the hands of the Secretary of State, received from fire insurance companies on account of the license and two per cent. tax, and of all payments in lieu of said tax shall be by him divided in equal shares among the treasuries of the several fire department relief funds on or before April first. No fund shall be entitled to receive such money unless they shall file a roster of names with the Secretary of State.

And be it enacted, That the board of directors shall annually make a statement, in writing, of the condition of the association, setting forth the amount of the capital stock, the number of shares issued, and the par value thereof, the number of stockholders, together with the greatest number of shares held by any one stockholder, the amount and character of the property of the association, and of its debts and liabilities, and said statement shall be signed and sworn to by a majority of the directors, including the treasurer, and the same shall be recorded in the office for the recording of deeds, in the proper county, and immediately thereafter a copy filed in the office of the chief of the bureau of statistics of labor and industries; the chief of the bureau *of statistics of labor and industries* shall, if he has reason to doubt the correctness and truth of the statement, or upon a written request of five stockholders of such association, either in person or deputy, immediately make an examination of the books and affairs of such association, and render a correct statement to its stockholders, and every member or creditor of, or any depositor in any such association, shall be entitled to receive from the secretary or treasurer of such association a copy of such annual statement, without making any payment for the same; and every such association which shall not make such statement and file the same as aforesaid, in the office of the bureau of statistics of labor and industries, and of the county as aforesaid, shall incur a penalty of not less than fifty dollars nor exceeding one hundred dollars for each such offence; and every person who makes, or orders to be made, any false statement or any omission in any such return, with intent to deceive the chief of the bureau of statistics of labor and industries, shall incur a a penalty not exceeding five hundred dollars for each return so dealt with.

14. And be it enacted, That any member or other person having an interest in the funds of any association incorporated under this act, may inspect the books and the names of the members, at all reasonable hours, at the office of the association.

15. And be it enacted, That there shall be such distribution of the profits or earnings of such association, among the workmen, purchasers and stockholders, as shall be prescribed in the articles of association, *at such time as therein prescribed*, as often, at least, as once in twelve months; provided, that no distribution shall be declared and paid until a sum equal, at least, to five per centum of the net profits, shall be appropriated for a contingent or sinking fund, until there shall have accumulated a sum equal to thirty per centum in excess of such capital stock.

16. And be it enacted, That a member of any such association, may by writing, under his hand delivered at the office of the association, appoint any person being the husband, wife, father, mother, child, brother, sister, nephew or neice of such member to whom his or her shares in the association, shall be transferred at his or her decease; provided, that the sum credited to the account of such member in the books of the association does not exceed the sum of two hundred and fifty dollars, and may from time to time revoke or vary any such nomination by a writing under his or her hand, and similarly delivered, and the secretary of every such association shall keep a book wherein the names of all persons so nominated shall be transferable to the nominee, although the article of association declare the shares to be generally not transferable; provided, nevertheless, that the association may, in lieu of making such transfer, elect to pay to any nominee the full value of the shares comprised in the nomination to him or her, and shall pay him or her the full value of any such shares, which, if transferred into his or her name, would increase his or her interest in the association to an amount exceeding one thousand dollars.

17. And be it enacted, That any association, incorporated under this act, may be dissolved or wound up, either by the court of common pleas or voluntarily, in the manner and under the same circumstances under which and in which any other corporation may be dissolved or wound up under existing laws for winding up corporations; provided, however, that the court having jurisdiction in the winding up, shall be the county court of the district in which the office of the association is situated.

18. And be it enacted, That in case of the dissolution of any such association shall, nevertheless, be considered as existing, and be in all respects subject to the provision of this act, so long and so far as any matter relating to the same remain unsettled, to the intent that such association may do all things necessary to the winding up of the concerns thereof, and that it may be sued and sue under the provisions of this act, in respect to all matters relating to such association.

19. And be it enacted, That in the event of an association incorporated under this act being dissolved, every present and past member of such association shall be liable to contribute to the assets of the association, to an amount sufficient for the payment of the debts and liabilities of the association, and the costs, charges and expenses of the winding up of the same, and for the payment of such sums as may be required for the adjustment of the rights of the contributors amongst themselves, with the qualifications following, that is to say:

First, no past member shall be liable to contribute to the assets of the association *if he has ceased to be a member for a* period of one year or upward, prior to the commencement of the winding up;

Second, no past member shall be liable to contribute in respect of any debt or liability of the association contracted after the time at which he ceased to be a member;

Third, no past member shall be liable to contribute to the assets of the association unless it appears to satisfy the contributions required to be made by them in order to satisfy all just demands upon such association;

Fourth, no contribution shall be required from any member exceeding the amount, (if any), unpaid on the shares in respect of which he is liable as a past or present member.

20. And be it enacted, That the articles of association, and all amendments thereto, shall bind any association incorporated under this act, and the members thereof, to the same extent as if each member had subscribed his name and affixed his seal thereto, and there were in such articles of association or amendments thereto contained, a covenant on the part of himself, his heirs, executors and administrators, to conform to such articles of association and amendments thereto, subject to the provisions of this act, and all money payable by any member of the association, of such articles of association or amendments thereto, shall be deemed a debt due from such member to the association.

21. And be it enacted, That the words "co-operative association limited" shall be the last word of the name of every association incorporated under the provisions of this act.

22. And be it enacted, That this act shall take effect immediately.

Approved March 22, 1881.

The Constitutionalist.

A THRUST BACK.

Massachusetts has a Senator by the name of Dawes, small in stature, but large in partisan animosity toward the South.

Mr. Dawes thought he had inflicted a terrible blow the other day when asking Senator Vance—"whether the abolishment of the power to make slaves work for nothing was the reason why North Carolina had compromised her State debt."

That was a Nihilist bomb in the imagination of Mr. Dawes, who, after firing it, sank back in his chair looking like the concentrated essence of Puritan sanctity.

The North Carolina Senator at once shot back the inquiry—"whether the ancestors of the Senator from Massachusetts had not grown rich by owning ships and importing negroes as slaves into this country."

That struck straight between the eyes, Dawes saw stars, wanted to adjourn, but wisely said no more.

Happily, negro slavery has ceased to exist on American soil, and with its extinction should go all bitter memories of the institution. Still, if such irrepressibles as Mr. Dawes will persist in throwing stones, they must not object if a rock or two comes whizzing around their heads.

It is a dark and truthful page in our national history that when the South earnestly protested against the further importation of slaves from Africa, the men of Massachusetts contended for and prolonged the inhuman traffic, because they were amassing wealth from its prosecution.

And it is furthermore a discreditable fact that when Massachusetts citizens could no longer profit by the slave trade, the most vituperative opposition to Southern slave holding came from their lips and pens.

Senator Dawes lives in a glass house and there he should prudently abide. If he does venture out to glorify Mahone, safety counsels that his eulogy be a silent floral decoration—like Garfield's.

THE FALSE AND TRUE.

A Republican paper published in Milwaukee, Wis., recently remarked—"It is the misfortune of Senator Conkling that his name is constantly associated with wrangles over the distribution of patronage and rarely with measures or principles."

That is the truth, and it shows distinctly to what a low grade modern statesmanship, so called, has been reduced.

The honor and welfare of country is of no account.

The filling of offices for the purpose of furthering selfish partisan ends is the all important duty of men hypocritically wearing the badge of statesmen.

Every measure of real public utility must be thrust aside for the carrying out of some corrupt political bargain, having for its special object the disreputable division of spoils and the strengthening of party power.

The good of the people is totally ignored.

Principles are a myth.

Integrity and ability things of the past.

Patronage for a sordid purpose is now the day and night thought and effort of statesmen by name, but mousing politicians in practice.

They are frauds in disguise and a stigma on representative government. To remand them into retirement would be a public blessing.

True statesmanship is a noble calling. It delves not in the slimy pool of partisan intrigue, but looks abroad over the whole country, seeks to know and advance the best interests of all the people and every section, makes honor its guiding star and honesty its support.

It will be a glorious day when statesmen of that school are re-invested with ruling authority, and imposters exiled to where they rightfully belong.

POLITICAL MUD.

With every natural advantage to secure cleanliness, New York is one of the dirtiest cities in the world. The foul condition of her streets is a public disgrace, and not only destroys comfort and impedes business, but breeds disease and death.

Money annually goes out of the City Treasury, ostensibly for street cleaning purposes, much more than sufficient to keep her thoroughfares as tidy and healthy as are those of London and Paris, yet they remain covered with filth, which, when occasionally scraped into heaps, is again scattered by passing wheels, or blown into clouds of noxious dust.

Tax-payers groan under heavy assessments for the cleaning of streets, and are compelled, year after year, to wade through slime and inhale all manner of offensive trash, in order that political scoundrels may thrive.

Official thieves, large and small, from boss to deputy, pocket the money and let the streets remain a fitting type of their own individual and associated corruption.

New York is fortunate in having at the present time a Mayor of unspotted personal reputation and great practical business ability.

He promises to have the streets cleaned and kept clean, and is willing to take the responsibility, but properly conditions that legal authority for so doing shall be vested in him exclusively, and not be shared by a gang of plundering politicians.

Citizens of New York, irrespective of party name, knowing what a priceless boon clean streets would prove, are anxious to give the Mayor a chance, and accordingly beg the Legislature to pass a needed law.

The Senate meets their request. The bill goes into the House, and then the political vultures flock Albanyward to scratch out its life with their ravenous claws.

Kill it the plunderers cry.

It will injure the Republican party?

The Police Commissioner now principally charged with street cleaning duty is a valuable Republican partisan, *and it will lessen his patronage and power?*

Mayor Grace is a Democrat, and if he should do what he declares he can under the bill, it will make him the most popular man in the city?

It won't do! Kill it! And kill it they did.

A sufficient number of Republican members of the House were whipped in, the bill was amended to death, and political mud surged triumphant.

It is of honorable record that every Democrat in the Assembly voted for clean streets and an honest expenditure of the peoples' money.

When partisanship reaches the point of sacrificing an urgent local public good at the behest of political venality, it is time for honest citizens to think and decisively act.

The charter election in New Brunswick on Tuesday last, resulted in a sweeping victory for the Democrats. Mr. William S. Strong was elected Mayor by 1,083 majority.

Mayor Beatty, the well-known organ manufacturer, was Tuesday last re-elected Mayor of Washington, N. J., by about 85 per cent. of the popular vote. This is his third term.

The Democrats of Rahway gained a substantial victory in their charter election on Tuesday last, re-electing Mayor Savage and other important officials. Of the four Freeholders elected, two of them, William Mellick and Mr. Clark are Democrats.

The Democrats won a substantial victory in Trenton, Tuesday. Mr. G. D. W. Vroom, (Dem.) was elected Mayor by about 712 majority; and Dr. Cornelius Shepherd (Dem.) elected School Superintendent by about 277 majority. The next Common Council will stand 12 Democrats and 9 Republicans; at present 11 Republicans and 10 Democrats. This makes a clean sweep for the Democrats.

We would suggest to Common Council the propriety of calling a public meeting of the citizens of Plainfield, at which time and place the subject of the proposed money election be thoroughly discussed. The question of adding an additional $15,000 taxation, is a grave one, and we believe the people should fully understand the matter before they are called upon to vote for or against the measure.

The Elizabeth City Council, at their meeting on Monday evening, decided to accept the second plan proposed for the settlement of the city debt. It is to issue 50-year bonds for $5,400,000—the total indebtedness—with 1 per cent. interest the first 10 years, 2 per cent. the second decade, 3 per cent. the third, 4 per cent. the fourth, and 5 per cent. the fifth. The plan contemplates the placing of one-half of 1 per cent. per year in a sinking fund, and will make the annual tax on the property valuation of $12,000,000 for the first 10 years 2½ per cent., leaving a margin of $39,000 for unpaid taxes.

It was a quick and terrible retribution which overtook the blackmailer who attempted to rob a Mr. Strasberger, of New York. The plan began by a threatening letter, which required a large sum of money to be put into possession of the villain. The letter, or series which followed, was signed "Executive Committee," and purported to be Nihilistic work. Detectives were employed, and, rather by accident than design, the leader of the gang of blackmailers was shot dead in the act of perpetrating his scheme. The others were caught, and confessed. The occurrence is notable as showing to some extent the danger the public is running from the outlawry practiced under the name of Nihilism.

Martha Washington Tea Party.

One of the greatest successes of the season in the way of a church festival was that of the Martha Washington Tea Party given in aid of the Building Fund of the Congregational Church last Thursday night. There was a large attendance, and the occasion was one long to be remembered by all present, as one of enjoyment and pleasure. The character of Geo. Washington and Lady Martha Washington were ably represented by Mr. Peter M. Demarest (he sacrificing his whiskers and mustache for the occasion) as the former and Mrs. E. P. Curtiss as the latter. The rooms were tastefully decorated by the ladies of the church, and handsome waitresses solicited the patronage of visitors behind the well laden tables of refreshments. We learn that the Tea Party was a success financially as well as enjoyable. Mr. Clark W. Evans kindly rendered sweet music during the evening.

Personalia.

The many friends of Captain James Parker, a former resident of this city, and now of Perth Amboy, will learn with regret and sorrow of the sudden death, from pneumonia, of his oldest son Cortlandt, which sad event occurred on Sunday last.

We are glad to see our friend, J. C. Pope once more about our streets after a severe illness of several weeks' duration, of inflammatory rheumatism.

Mrs. Farragut, widow of the late Admiral Farragut and mother of Mr. Loyal Farragut of this city, has accepted an invitation from the President and Mrs. Garfield to be a guest at the White House during the ceremonies attending the unveiling of the Farragut statue.

Mr. A. Winter, of the firm of Schepflin, Baldwin, Tweedy & Co., of this city, started on Monday last for several weeks' trip in the interior of Texas. He will combine pleasure with business in his journey.

Release of Hart Moore.

In the Court of Errors and Appeals at Trenton on Monday an opinion was delivered in the case of the State vs. Hart Moore, late Collector of Middlesex County, charged with embezzlement of the County's funds. At the time of the embezzlement the period within which an indictment could be brought was limited to two years. After two years had elapsed the Legislature passed an act that in all cases of official embezzlement an indictment could be found any time within five years from the commission of the crime. Under this latter statute Moore was indicted and convicted in the Middlesex Oyer and Terminer. On a writ of error to the Supreme Court the statute was held to be valid and the conviction legal. On a writ of error on this judgment the Court of Errors on Monday, by a vote of 7 to 4, held the statute to be unconstitutional and void, and consequently Hart Moore, who is now undergoing sentence in the State Prison, will be liberated. The votes on the four following questions were taken separately:

1. Whether the act of 1879 is unconstitutional as to Hart Moore as an *ex post facto* law? Affirmative, 6; negative, 5.

2. Whether the act applied to offences where the limited period had elapsed before its passage? 8—3.

3. Whether the act impaired the vested right of Hart Moore? 7—4.

4. Whether the judgment should be affirmed? Affirmative—Depue, VanSyckel, Green, Clement—4. Neg.—Dixon, Knapp, Magie, Parker, Reed, Dodd—7.

FIRE MATTERS.

Chief Voorhees says emphatically that he is not a candidate for re-election.

There was another false alarm of fire last Monday night.

There was a pleasant episode at the house of Alert Hose Co. No. 1 last Monday evening, the occasion being the presentation to the Company of a life-like portrait of Foreman Augusta Saltzman, painted by artist Julian Scott. After the presentation it was voted to extend to Mr. Saltzman an engrossed set of resolutions in acknowledgement of his handsome gift.

On motion adjourned.

LUTHER M. WHITAKER,
Town Clerk.

The late Linus Scudder's life was insured in the Manhattan and Mutual Life Insurance Companies to the amount of $8,000.

It is rumored that Mr. P. C. Pearsall, assisted by Miss Annie Van Arsdale, proposes to establish a merchant tailoring establishment here.

The sympathies of the community are extended to Mr. and Mrs. Albert A. Drake; in the loss of their daughter Millie, who died suddenly on Monday last.

The game of "Quoits" seems to occupy a large portion of the day in front of the store of one of Broad street's popular merchants. Winners not known.

Thos. Eustace asks for a portion of Westfield's patronage in the Fish, Fruit and Vegetable business beginning with this week, and is certainly entitled to his share.

Our appeal to the *chronic grumblers* on the condition of sidewalks, to advance the amount voted for repairs in the different districts, fails to meet with a prompt response.

The appearance of a genuine "Irish Jaunting Car" of American manufacture on our streets has attracted a good deal of attention. We learn that it is the property of Mr. Lewis Budell of Oakland.

Messrs. Herder & Prime have started on their separate careers as dealers in Rags, Junk, &c. This is a new departure here, and we have no doubt but that both will prosper and grow exceedingly wealthy.

At the annual parish meeting of the Presbyterian church, held on Tuesday evening last, the following officers were elected: Trustees to serve three years, Jacob S. Ring and James H. Towle; Auditors, Levi Cory, John T. Lawrence and James T. Pierson.

At the meeting of the Town Committee on Monday evening last, our late Township Treasurer, Mr. Evert M. Pierson, turned over to the present Treasurer, Mr. James Moffett, the balance of Township funds in his hands, $257.06, and to the Treasurer of the Health Board $8.92, being the balance on hand to their account.

The regular monthly meeting of Westfield H. & L. Co. No. 1., was held on Monday night last. We regret to say that no action relative to *improved apparatus* for the Department was taken at the meeting, although we understand that it is the intention of those interested, to call a special meeting of the company with reference to the matter.

In connection with the distribution this week, by our dairymen, of the able report of our late Township Physician, Dr. J. B. Harrison, with reference to the use of "Brewers Grain's" as feed for milch cows, we would call particular attention to the State Law, CXLI, passed by the last Legislature, entitled an act to prevent the adulteration of and to regulate the sale of milk. This law will be published in this paper.

The many friends of Mr. and Mrs. Geo. F. Gray, assembled at their residence on Prospect street on the evening of Tuesday last, to celebrate the Tenth Anniversary of their marriage, or "Wooden Wedding." The presents were many and appropriate. The pleasant gathering did not break up until an early hour, and the guests left behind them their well wishes for the later arrival of tin, silver, gold and diamond anniversaries. Messrs. Wilcox and Applegate furnished the music.

A horse, the property of our popular baker, Mr. John Darsh, securing his freedom appeared before the public on our streets Sunday afternoon, and gave a first-class circus exhibition. It has been stated that the exhibition was merely an advertisement on this gentleman's part, and that the elevation of the rear feet of the animal simply illustrated the rising qualities of the Yeast (Darsh's own manufacture) used in his bakery. We regret that space forbids publication of Mr. Darsh's denial.

At the annual meeting of the "Ladies' Mite Society" of the Presbyterian church, held April 5th, the following officers were elected for the ensuing year: President, Miss Phebe Pierson; Vice President, Mrs. Geo. W. Tice; Secretary, Miss Susie Pierson; Treasurer, Miss Emma Starr. The services of this Society composed as it is of less than 30 members, certainly deserves public recognition. During the past three years their contributions to church purposes have amounted to the handsome sum of our $1,100.

The concert at the Presbyterian church on Monday evening last, under the auspices of the "Ladies' Mite Society," proved a decided success both as to attendance and consequently financial results. The programme proved particularly attractive and all parts seemed to receive the highest approval of the audience. Miss Jennie Pierson fairly surprised her many friends here by her execution of two difficult solos on the organ as well as by her accompaniments with other instruments. The "Alpha Quartette" deserve praise for their artistic rendering of the music assigned them. Miss Pierson's friends presented her with a very handsome vase of flowers at the close of the performance as a token of their approval.

The frequent broils, fights or quarrels occurring in our village, disturbing as they necessarily do the peace and quietude of the town, have at last, to judge from public expression, awakened in the minds of our citizens the fact that a "Jail or Lock-up" is a pressing necessity; the only wonder is, that this fact was not long ago an established reality. Certainly our constables can hardly be expected "*without pay*" at late hours, (when these affairs generally occur), to travel to Elizabeth and pay their own and their prisoners' railroad fare, upon the chance of the following Grand Jury finding an indictment. In half the cases that need attention in our village, a night's lodging in—*our village jail*—would answer all purposes, and its establishment would prove in itself a sufficient warning to the majority of the laws' transgressors.

The citizens of the city of Plainfield are in considerable of a muddle in regard to their city finances, not enough money having been received by the Treasurer the past year to meet current expenses. The police, the street-light companies and the street laborers can not be paid except by the warrants drawn on the future, thus disgracing the credit of the city. What they need in Plainfield to make things work smoothly is a good Democratic Mayor and Common Council.—*Somerset Messenger.*

Too true, too true. Let us live in hope that such a blessing will fall upon us.

LOCAL DEPARTMENT.

Official Paper of the State, the County and the City, and has the Largest Circulation of any Weekly in Union County.

MONEY election May 2d.

READ Council proceedings.

PAY your taxes like a man.

THE days are getting longer.

LENT is expiring and our butchers rejoice thereat.

AND now the Council asks you to give them $15,000.

EASTER cards are the latest drafts on your pocket books.

THE vernal house-cleaning is provocative of the "big big D."

FIVE Sundays in this month. May the coming ones be as pleasant as the past.

WE shall talk (with type) about the coming money election in our next issue.

COUNCILMAN Samuel St. John McCutchen is now the title to address him by.

MAYOR Randolph addresses the people of Plainfield in this issue of THE CONSTITUTIONALIST.

ONCE more the delinquent tax-payer trembles in his boots for fear of seeing his name in print.

MESSRS. Flaig and Gillies, the two newly elected members of the Fire Board, will hold office for three years.

MEN are no longer allowed to "treat" in Wisconsin. Printers, however, will still continue to "set 'em up."

CURTAINS of fine lace and linen cleaned and done up at Thorn's Steam Laundry in the most careful and satisfactory manner.

THE grade of the Seventh street sidewalk at its junction with Park avenue, has been lowered to correspond with the general level.

CORPORATION Counsel Kimball is accredited with being a "smart man" by those officials directly interested in the mandamus business.

WE invite comment on the approaching Money Election from citizens. Our columns are open for discussion on the important question.

NEXT month the firemen of our city will elect a Chief and two Assistant Engineers. Boys, make good selections, you have the material among you.

SOMETHING has to be done regarding the financial status of our city. What is to be done, and how will it be done are grave questions under consideration.

PLAINFIELD ought not to be frightened over one little mandamus. Rahway and Elizabeth think nothing of having one served on them every year as a sort of desert.

MR. C. M. Fine, of No. 20 Park ave., keeps one of the finest and varied stocks of cigars, cigarettes and smoking tobaccos. His prices are as low as can be desired.

ON Friday evening of last week, the Rev. John C. Bliss gave a most interesting account of his personal experience of the wonders of the Mammoth Cave of Kentucky.

MONEYLESS managers of theatrical troupes have no business in Plainfield. The last one making a call here has a *Thorn* in his side planted there with considerable *Force*.

WHAT has become of the Randolph Pond nuisance? Has the mandamus business laid low the malaria and deprived the reporter of a chance of writing up a sensational article?

AT the Crescent Avenue Presbyterian Church, Easter services, 10:30 a. m. Sermon by the pastor. The choir will consist of 16 voices. At 3:45 p. m., Sabbath School floral exercise in the church.

THERE will be preaching of the Gospel by Mr. Paul J. Loizeaux next Sunday evening at 7:30 o'clock, in the meeting rooms over Vermeule's hat store, Front street, opposite Somerset. All are welcome.

GOOD FRIDAY service will be held in the Lecture room of Trinity Reformed Church, commencing at 7:45 p. m., at which time the pastor, Rev. A. V. V. Raymond, will preach a sermon appropriate to the occasion.

THE campaign of '84 is already opened. Gen'l James B. Weaver starts his own particular and personal boom by an address at Elizabeth on next Monday evening. The Greenback Labor (?) Party of Plainfield will drive up in a buggy.

THE official statement of the Treasurer of the Fire Department appears in this issue of THE CONSTITUTIONALIST. The statement is a concise and clear one. Mr. Depew makes an able Treasurer and we trust he will again accept the position in the Board of Fire Commissioners.

THE Parnell Land Leaguers of Plainfield do not hold their first sociable until the evening of the 27th inst. Upon that date we may expect to see St. Mary's Hall crowded with the young and old of both sexes, intent on fun and fancy.

A NEW plan for the adjustment of the city of Elizabeth's indebtedness has been proposed by the Council of that city. It is one per cent. interest for 10 years; 2 per cent. for the next 10 years; 3 per cent. for the next 10 years; 4 per cent. for the next 10 years; 5 per cent for the next 10 years.

A LARGE seal, of the hairy species, was shot and killed in the Shrewsbury river last Sunday, by Capt. Chas. Throcmorton. The seal, which was a rarity in the latitude where captured, measured four and a half feet in length and had a head larger than that of a Newfoundland dog. The hair on the seal was an inch long.

AT a meeting held on Monday evening, April 11, 1881, in the Lecture room of the Trinity Reformed Church, this city, the following Sabbath School officers were elected for the ensuing year:

Superintendent—Henry Lindsley.
Ass't " —Theo. Mace.
Sec'y and Treas.—A. Swalm.
Librarian—Fred. VanEmburgh.
First Ass't—Harry Lindsley.
Second " —J. F. Mundy.

Miss Nagle, who took the character of Phoebe Fairleigh in the Comique Opera of "Billee Taylor," or the Reward of Virtue, sustained the high reputation which she has deservedly earned. She, too, is one of the best ballad singers in this country, and no doubt those who visit Van Deventer's Hall on Saturday evening to witness the second rendering of the above named opera, will hear something extra from this well known artist.

THE company that performed the opera of "Billy Taylor," at Van Deventer's Hall in so admirable a manner on Tuesday last, by the particular request of a number of our leading citizens have been induced to reappear here on Saturday evening next, April 16th, when this delightful opera will be repeated. In recommending as we do this company to the patronage of the citizens of Plainfield, who were disappointed in not witnessing the performance on Tuesday last, we feel assured that we bespeak the sentiments of the majority who are aware of the disadvantageous circumstances which surrounded them when last here.

THE 1st anniversary of the Trinity Reformed Sunday School, held in their edifice last Sunday evening, was a very interesting occasion. The school, which at its inception, consisted of 40 scholars, now numbers over 200. The large assemblage present on the occasion was addressed by ex-Congressman Louis Brigham, of Jersey City, Rev. R. Lowrie, Superintendent Henry Lindsley, and Pastor Raymond. The singing was especially fine. This church is to be congratulated upon its growing strength in membership.

No change in Postmaster yet.

NEXT Sunday is Easter Sunday.

Two Spring days—Sunday and Monday last.

THE honey bees are out in their Spring suits.

SEE advertisement of Brick for sale in another column.

MANY farmers have commenced plowing in this section.

NOW approaches the winter of discontent with the housekeeper.

COUNCILMAN McCutchen is now the proper title to address one of our fellow citizens.

MAYOR Randolph's message to Common Council is worth perusal. It appears in another column.

TO-DAY is Good Friday, and the digestive organs of the populace are at work on "Hot -|- Buns."

MR. Street Commissioner, there is plenty of mud on the streets that ought to be cleaned off.

PROF. Vennor predicts that April will end wet and cold, and be altogether a disagreeable month.

THE last call. "In next week's issue of THE CONSTITUTIONALIST the names of delinquent tax-payers will appear.

MR. G. G. Haven has been elected 1st Vice President of the Central R. R. Co., with Mr. John Kean as 2d Vice President.

THE Crescent avenue young people—and their elders—unite in the enjoyment of a church sociable in the parlors of the edifice, this evening.

THE Board of Freeholders of Union County held a meeting Thursday of last week. Full proceedings will appear in our next week's issue.

FARMERS and others desiring a superior article of phosphate should purchase of Hyde Bros., whose advertisement appears in another column.

WE are still progressing. Ice is now made by artificial means at a cost of only fifty-seven cents per ton, and photographs transmitted by telegraph.

OUR policemen say they will be compelled to resign their positions if they are not paid up. The Council say there is no money to pay them with.

SHOULD you desire a handsome gilt frame with which to inclose your portrait, deal with R. Waldron, whose advertisement you will find in this issue.

LADIES who desire dressmaking in style and finish (and who among that class do not) should call upon Mrs. Fine, in Dr. Stillman's old residence on Front street.

JEREMIAH Manning, Esq., has purchased the Republican Wigwam building for $100 and is tearing it down. The lumber in it will be used for other building purposes.

MR. Jonah Boughton and wife, the temperance advocates, are doing good work among the drinkers of our city by their exhortations in the Warren Mission Chapel building, North Plainfield.

THE Metuchen *Enquirer* has been enlarged and has a "patent inside." We admire the pluck of the managers in attempting to successfully print a paper in Metuchen. We trust they will succeed in their enterprise.

LADIES desiring fancy goods, notions, Butterick Patterns, &c., should call on Mrs. Warner, next to the Post Office, where they will always find Mrs. W. in attendance to wait upon them. All the latest styles of goods on hand.

IT is rumored that the Central R. R. Co. have made a "new deal" and will shortly have facilities for opening a through route to the West. Fifteen new locomotives and other rolling stock are being built in anticipation of the event.

THE dry leaves and underbrush on the mountains back of our city were set on fire Saturday last by some means. The flames made a brilliant sight Sunday evening. No great damage was done by the fire, which was extinguished by the rain storm of Tuesday night.

NEXT Sunday, special Easter services will be held in the Methodist Episcopal Church. In the morning Rev. Dr. Vincent will preach an Easter sermon, and in the afternoon, at 3 o'clock, a responsive service entitled "The Broken Seal" will be given by the Sunday School.

THE Catholic Young Men's Union Easter Reception, which occurs on the evening of Wednesday next at St. Mary's Hall, is to be an occasion of general merriment and particular happiness. A large number of tickets are already sold, showing the popularity of the society's entertainments.

DUNHAM & Miller is the name of the new druggist firm at the former stand of Kilgore, on Front Street. Mr. Miller has had long experience in the business as a clerk in Shaw's Drug Store, and has many warm friends in Plainfield. Undoubtedly the new firm will meet with the success they deserve.

THE fact that Common Council voted last Monday evening to appropriate $800 toward a public library when there is a mandamus hanging over that body's head to pay some $9,000 due to County Collector Sheridan, and the people are asked to vote for an additional taxation of $15,000, is not very flattering to their credit as financiers.

A KEEN student of human nature must have written the following: "When you see a young man sailing down the street shortly after midnight with his collar mashed down his neck, you can make up your mind that there's a young girl crawling up stairs not far distant with her shoes under her arm and an extinguished lamp in her hands."

IT is unfortunate that the City Ordinance prohibiting the erection of wooden structures within certain prescribed limits, does not extend farther. Were it so the unsightly addition to the dwelling house on the corner of Second and Peace streets, now in course of construction would not be allowed. Such structures not only tend to decrease the valuation of property in the immediate vicinity, but are dangerous as fire traps. We hope the Council will pass an Ordinance extending the limits wherein such "improvements (?)" are allowed.

Failed to Conpect.

Last Monday evening a personage purporting to be agent of the "Standard Opera Comique Company" called upon one of the proprietors of the CONSTITUTIONALIST and stated that his company of 40 persons would visit Plainfield the next night, (Tuesday,) and give an entertainment at VanDeventer Hall, the play to be "Billee Taylor" or "The Reward of Virtue." He wanted bill posting done immediately, and exhibited a contract signed by Mr. J. and A. VanDeventer, agreeing to rent the Hall for the night. Being informed that the notice was very short to bring him a full house, he stated that the troupe did not expect to make money here, but rather to lose it. They were compelled to "lay over" some where on their contemplated route that night, and had selected Plainfield as their "resting place." As a general rule we can tell in a few moments whether an advance agent of a "show" is a fraud or a gentleman, but this fellow has taken the conceit out of us; for it was he, by his childlike and bland ways, who induced us to cover up 'live' advertisements on our bill boards with his attractive posters of the famous "Billee Taylor," at an expense to us and considerable inconvenience. Then, also did this advance agent of "Billee Taylor," induce friend Ed. Thorn, proprietor of the Mansion House to agree to take charge of the troupe of 40 persons composing the Standard Opera Comique Company, for that night, and give them their breakfast, dinner and supper the next day, at usual expenses, which said agent declared would be promptly paid upon the bill being presented to the proprietor, Mr. C. E. Norton, at the box office the night of the "show." The troupe arrived, dined, acted in a decorous manner, and went to the Hall Tuesday night to perform their various parts. As was anticipated, in consequence of the short time the troupe were advertised, less than 200 people assembled in the building to witness the performance. When the bills for bill posting, hotel expenses and hall rent were presented, the proprietor (?) coolly said that he had only taken in $11.50 and his creditors could take that and "divide up." Messrs. Dunham & Miller, druggists, who have the leasing of the Hall, thereupon ordered the lights turned out. This was partially done, but at the suggestion of other parties interested, the gas was again lighted and the play allowed to proceed. By the time the performance was over, three attachments were issued against the property of the troupe by Justice Wadsworth, through the advice of Suydam & Jackson, who were retained by the parties interested to secure the money due them by the proprietor. The executions were placed in the hands of Constable Amos Moffett, who attached several trunks as soon as they arrived at the depot, taken there by Mr. James Donohue in his elegant express wagon, the members of the troupe intending to take the 11:21 p. m. train for parts unknown—probably Rahway. A large crowd had assembled at the depot, and as Constable Moffett announced that he had an attachment against the goods, one of the leaders of the company seized a trunk and declared it to be his private property and—he was going to take it with him. He had not dragged it over ten steps, when it seemed as though there was an earthquake in the vicinity. Some member of the company struck a citizen over the head with a cane or club, cutting his hat to pieces and raising a large lump on the side of his cranium. In another second "Loney" had that chap in chancery and—well, we guess he wishes by this time he had never seen Plainfield. Another fellow gave citizen No. 2 a sockdologer in his left eye, but the blow had hardly landed, when the sender found himself lying between two trunks at least ten feet away, propelled thither by "Jack's" good right hand. Then for a few moments there was a wild scene. One of the members of "Billee Taylor's" crew, made the best time toward Peace street, closely pursued by the aroused citizens, that has been heard of since the demise of the P. A. C. Finally peace reigned once more and the baggage remained in Amos' hands. The proprietor (?) failing to pay the fare of the members of his troupe, among whom there were some 15 females and two little children, they were compelled to go out into the street after the depot was closed about 1.30 o'clock a. m. Some compassionate fireman finally opened the doors of No. 1 Engine house, on Second street, and admitted some of the members of the Company, both male and female, where they sat up until day break. No satisfactory terms were made regarding a settlement of the troupe's indebtedness until in the afternoon, when Mr. Thorn agreed to release certain goods of members of the troupe, and hold the remainder until Saturday, when he is promised the payment of his claim in full. The other creditors were also promised a small percentage of their claims, and they generously allowed a release of the captured chattels. Philanthropic citizens purchased tickets for the female members of the troupe to allow them to reach their homes, and also paid for their meals at hotels and restaurants. The leader of the orchestra, Mr. Spencer, agreed to be responsible for the payment of the above mentioned amount to the creditors, and announces that he will return to Van Deventer Hall next Saturday evening, with the troupe and play "Billee Taylor" as well as pay his bills. In justice to the members of the troupe we would say that they played the piece exceedingly well, and those who visit Van Deventer Hall next Saturday evening will be well repaid for the money invested.

Fire Commissioners' Election.

The election for two Fire Commissioners to fill the vacancy in the Board caused by the expiration of term of office of Messrs. Gilford Mayer and John Steiner, on Monday last, passed off very quietly, a very small vote being polled, contrary to the expectations and predictions of those directly interested. There were three candidates in the field for the office, Messrs. Gilford Mayer, T. J. Gillies and Solomon Flaig. Mr. Steiner refused to be a candidate for re-election. The result of the election at the closing of the polls, which were open from 2 to 7 p. m., was as follows:

Solomon Flaig	- - - - -	333 votes
T. J. Gillies	- - - - -	324 "
Gilford Mayer	- - - - -	196 "

The total number of votes cast was 520. Of these there were four votes for M. W. Schenck, which were undoubtedly cast by voters who thought Mr. Schenck was a candidate, he having refused to run as such. Mr. Joseph A. Hubbard was elected Assessor of the Board for one year with 517 votes, he having no opposition. There were 333 votes cast in favor of giving the Board of Fire Commissioners authority to pay legal fees to the Assessor. 498 votes were cast in favor of raising $7,000 for the expenses of the Fire Department the current year. In justice to Mr. Mayer, who received the smallest number of votes, it is right to state that he was defeated solely on account of his advocacy of a resolution presented by him to the Board at a recent meeting, making the Chief Engineer of the Department an appointee by the Board, at a yearly salary. The firemen justly think they have the right to elect their chief officer themselves. Mr. Mayer has made a very acceptable official during his term of office. The incoming new members of the Board are in every way capable of the position assigned them and will no doubt fill the same satisfactorily to the firemen and citizens generally. To illustrate the lack of interest taken in this election by the voters of our city, we would state that in times past, when the limit prescribed by law only allowed the polls to remain open for two hours—2 to 4 p. m.—there has been over 700 votes cast for Commissioners at an election. The new members of the Board will take their seats at the organization of the Board the first Wednesday in May next. Mr. Mayer was the nominee of "Alert Hose Co. No. 1." Mr. Gillies is an exempt member of Engine Co. No. 2. and Mr. Flaig an exempt member of Zephyr H. & L. Co. No. 1.

By Mr. Whiton, a com'n from His Honor, Mayor Randolph:

GENTLEMEN—At the instance of several members of your honorable body, I beg to submit a resumé of the present embarrassments of the city's finances, the troublesome details of which have of late been much discussed, and occasionally misunderstood.

1. The Treasurer of the city of Plainfield has been served with a peremptory mandamus, issuing from the Supreme Court of the State of New Jersey, and based on papers and arguments submitted to it in 1880, commanding him to pay about $9,200 to the collector of Union county for taxes claimed as due the State and county from the city, for the years 1878 and 1879, and payable by the treasurer out of the first moneys in his hands.

2. Proceedings are in progress to compel the city treasurer to pay a further sum of State and county taxes for 1880. The balance claimed for 1880 approaches $9,000, toward which the collector reports as received and available about $2,400.

3. No portion of the State and county tax money has ever gone into the hands of the city treasurer.

4. The State, of course, has power to enforce the collection of taxes in arrears due the State and county, and these taxes have constituted a lien (in each case) on the property on which they were assessed. The power of the city, under its charter, to enforce the State and county taxes is called in question, and this question is one to be determined by the courts. It has been thought best to have the question of the city's responsibility specially tested, and carried, if need be, to the court of last resort, in view of the strong probability that its power to collect these taxes would be reviewed by the same judicial authorities. If the city is held, by these authorities, accountable for every deficiency, then in that case the city must look to them to uphold it even in the severest measures against delinquents. This seems to be a natural and almost necessary order of adjudication.

5. Steps have already been taken for the purpose of securing a rehearing of the case on which was issued the peremptory mandamus to pay State and county arrearages—this mandamus being the more immediate occasion of the city's present embarrassment. All that can be done to protect the city's interests in this connection is in course of being done, and with the utmost promptitude. The ultimate judicial decision may, however, not be reached very soon.

6. Besides the State and county taxes in arrears, there are city taxes (assessed for the purpose of providing for the necessary current expenses of the municipality) and poor fund taxes in arrears for a long period, to the sum total of something over $10,000. Under an opinion of the Supreme Court, given last year, the city judge is debarred from issuing warrants for the collection of such of these taxes as were returned delinquent prior to 1880—that is, his process is confined to such delinquencies as were returned by the collector to him, the present city judge. The list for the issuing of these warrants has recently been completed and covers over $3,000 delinquent city and poor fund taxes of 1880.

7. The disposition of the Council has certainly thus far been to urge forward such measures as are available for the prompt collection of taxes. The preparation of the list of names and amounts in arrears has occupied more time than was expected, and the publication of delinquencies has thus been delayed.

8. The city owes $3,500 to the bank, and the bank has on deposit city funds to an amount somewhat larger. This includes money received from tax and license fees. It is claimed by the county prosecutor that all the money under control of the city treasurer is held subject to the mandamus of the Supreme Court. Thus, granting that the State and county arrearages must be paid by the city, the deficiency is not far from $15,000, a sum which could not be met even by appropriating to it the ordinary city fund of a whole year.

9. With all the city treasurer's means locked up under the writ of mandamus, (including provision for the poor) important interests are suffering. Expenses in good faith have been incurred during the past quarter, including care of public health, streets, etc. The servants of the public, who depend on their well-earned wages, are unpaid, and there is not a dollar to pay for lighting the streets and other necessary purposes. This seems a pitiful state of facts in a prosperous community, almost without debt, and in which nearly ninety per cent of taxes have heretofore been paid with tolerable promptitude, a result more satisfactory than in most other places. It may, indeed, be urged with truth that if the remaining ten per cent were also paid there would be no trouble; but pending this, I know you will be most reluctant to see the city neglected or left unprotected for want of a sum which, even superadded to that ordinarily raised for city purposes, makes a total equal to but a small proportion of the whole sum required by law to be raised for all purposes as tax in this community.

10. The Legislative bill intended to relieve the distress of the present situation, by placing at the disposal of the Council a small fund specially dedicated to meeting expenses of the city, and not liable to diversion from that purpose, has failed to become a law, the Governor declining to sign it as finally passed, owing to an amendment, or "rider," which had been added, requiring a popular vote to approve the bill as such before it could become operative. He had vetoed a previous bill because of a like constitutional objection.

11. A careful examination of the list of tax delinquents shows the names of some who can and ought to pay, and of many (mostly owing small amounts) from whom it will be difficult to collect what they do not possess. There are also debits to not a few transient "inhabitants," persons who come and go, who, meantime, are assessed and afterwards can not be found. Again, for the years to which the present mandamus relates, the tax liens on real estate were subject to the mortgage liens. The bulk of the assessment was on real estate, and, in some of these cases, there has been no margin of value above mortgage liens.

Even were it clear that the city should attempt instant and urgent measures to collect State or county taxes, (the onus of which it does not now admit) it would certainly be found impossible to meet the necessary expenses of the city out of the husks and refuse of the State and county delinquencies. This fact might as well be understood now as later.

What possible courses are then open to the city government? I mention the following:

1st. To ask the people to vote an additional sum of money under the charter. This will not avail for present expenses unless the sum likely to be collected from such a special levy is large enough to cover the demand of the court for State and county taxes—that is, such special levy must cover this demand, otherwise the ordinary means of the city can not be released from mandamus and availed of for current necessities. If the money were voted, then, on the faith of its being paid some kind of financial accommodation might be arranged for current purposes, though the power of the city to borrow is, by the charter, limited to a point only $1,500 in advance of what it now owes to bank.

2d. Under an act approved on the 18th of last month, bonds may be issued by any city for all its floating indebtedness actually existing at that date, provided that the bonds bear not above the legal rate of interest, and are sold at par. For several reasons I should not recommend that this act be availed of.

3d. The city can go on issuing its warrants to parties who may possibly be found willing to receive them for services or supplies. I suppose that these warrants might ultimately be converted into judgments against the city, and included, perforce, (as authorized by law) in subsequent tax levies. This would be a circumlocutionary, expensive and vexatious process of obtaining means which it would be better for the people to vote voluntarily.

4th. The Council can refuse to incur further expenses. This means dismissal or non-payment of police, dark and neglected streets, and no provision for care of the public health or for the poor of the city. No money is provided for paying the bills of the last two months incurred for purposes upon which the very life of the community depended.

Whilst I have endeavored to set forth the circumstances of our embarrassments, and certain methods (none of which can be pronounced very satisfactory) which may be used in trying to take care of the city, I am not prepared to urge the adoption of any one of these methods. I may, however, express my personal preference in favor of the first mentioned. Certainly, many, perhaps most citizens in this prosperous community, free as it is alike from bonded debt and heavy taxation, would prefer to vote a special tax for this year, equal to ¼ or ⅓ of one per cent on the assessed value of their property, rather than see adopted the policy which entails suffering, neglect, and what might seem temporary repudiation, that is, failure to provide for certain just and pressing obligations.

Very respectfully,
L. V. F. RANDOLPH,
Mayor.

By the same, the following from the Health Board:—

To the Honorable the Common Council of the City of Plainfield:

GENTLEMEN: The Board of Health has to report that there are now no cases of small-pox in the city, all traces of the disease having disappeared.

Of the persons attacked, one has died and the others have recovered. All bed-clothing and garments used by or for the sufferers, have been burned or buried, and the premises and dwellings have been thoroughly fumigated and disinfected.

The total expenses to the city for physicians, nurses and incidentals has been less than two hundred and fifty dollars ($250).

It is a matter of gratitude and congratulation that although the disease appeared simultaneously at several different points, it did not spread in any instance. The greatest care was exercised not only by the Board but by co-operative physicians.

Respectfully,
L. V. F. RANDOLPH, Mayor,
JOHN M. WHITON, Pres't Council,

By Mr. Waring, from Lamp Com., as correct, two claims of Plainfield Gaslight Co. (one corrected) and one from N. Y. & N. J. Globe Gas Co. Ref'd to Aud. Com.

Mr. Tyler, from Law & Ord. Com., did not think that the claim of Dr. Boone, $10, came under the jurisdiction of Law & Ord. Com. On motion, the claim was referred back to Council and tabled.

By Mr. Finch, from License Com., reported favorably upon petition of John Rafferty for a saloon license, and moved that the license be granted. So agreed to by the following vote: Ayes—Darling, Finch, Guion, Hamilton, A. H. Smith, Waring, Whiton—7. Nays—Coriell, H. Smith, Tyler—3.

By the same—petition of James H. Force for a saloon license. Ref'd to License Com.

By Mr. Hamilton, from Police Com., as correct, claims of Chas. W. Dodd, $16; R. J. Walker, $41 67. Ref'd to Aud. Com.

By Mr. Coriell, as correct, claims of Dr. Lowrie, Dr. Boone, R. Hapeny and A. Kilgore. Ref'd to Aud. Com.

Mr. Whiton called from the table the ord. for raising of money by tax for the year 1881.

Mr. Tyler offered as an amendment an additional section for the raising, by tax, of the sum of $800 for the support of a Public Library. On motion, amendment adopted. The ord., as amended, was read 3d time and passed. All aye.

Mr. Whiton asked if it was the desire of the Council to take any action relative to filling vacancy?

Mr. Tyler moved that we now go into nomination and election of a Councilman to fill vacancy caused by the death of Mr. Wm. Flanders. Carried.

Nominations being in order, Mr. Tyler nominated S. St. J. McCutchen; Mr. Coriell nominated M. M. Thorn. Upon a ballot being taken, Mr. McCutchen received 7 votes, and Mr. Thorn 3. The Pres. thereupon declared the former gentleman elected, and instructed the Clerk to give the proper notification.

By Mr. Guion, the following:

WHEREAS, The Collector has prepared a list of delinquent tax payers for publication, as directed by the Common Council.

Resolved, That the President appoint a Committee of three, who with the Collector, shall revise said list, and cause said revised list to be published in the official papers, in the second or third issue of said papers after the passage of this resolution.

This resolution was the occasion of considerable discussion. Mr. Coriell did not favor the plan. He thought the proper plan would be to issue warrants and proceed to collect taxes at once, as was done in township affairs. Mr. Guion thought the delinquents should be advertised, and the taxes collected. Mr. Darling was of the opinion that the "scare" was over. He did not believe in the advertising of the names. Mr. Tyler thought the taxes should be collected and the delinquents advertised. After some further discussion by members of Council the res., on motion, was adopted. Messrs. Coriell, Darling and A. H. Smith voting in the negative.

The Pres. appointed Messrs. Guion, Tyler and Waring as Com.

By Mr. Guion, the following res:

WHEREAS, Policeman Charles W. Dodd, has been designated as the officer to take the warrant of the City Judge, with authority, to execute the same and to collect taxes; therefore

Resolved, That the said officer is fully authorized and is hereby instructed and directed to proceed at once to execute the said warrant, and to use all lawful means to enforce the payment and collection of taxes, now due without any delay whatever.

Mr. Hamilton thought that Mr. Dodd had enough to attend to at present without this further acquisition to his duties.

Mr. Coriell remarked that Mr. Dodd's salary was raised to perform just such work as that called for by the resolution. On motion, the res. was adopted.

By Mr. Coriell, the following:

Be it *Resolved*, That the Corporation Counsel be and he is hereby requested to furnish the Common Council, at its next meeting, with his opinion in writing as to the proper legal steps necessary to be taken in order to collect as speedily as possible the State and County tax, now past due, (and to draw such papers as are in his opinion necessary to affect that object.)

At the request of Pres. Whiton, Mr. Hamilton took the chair, and spoke at some length relative to the resolution, giving it as his opinion that no hasty action should be taken by the Council.

Mr. Coriell wanted the opinion of the Corporation Counsel as to the legal steps to be taken in the premises.

Mr. Tyler moved as an amendment, the striking out of the sentence—"and to draw such papers as are in his opinion necessary to affect that object." With this alteration, the res. was adopted.

Mr. Coriell moved that when Council adjourn it adjourn to meet one week from to-night. Carried.

Mr. Whiton, before taking the chair called the attention of the Council to the claims of Plainfield Relief Ass'n. This Association, he said, were very much in need of funds; and unless the money was forthcoming, the Ass'n would have to stop. Taking these things into consideration, he would move the rules be suspended and the Aud. Com. report this evening on the claims of the Ass'n in their hands, and that warrants be drawn for the same, (including also those already reported correct and lying on the table.)

Mr. Coriell wanted to be informed if it was legal to issue these warrants when no money was in the Treasury?

This matter being explained, (but not satisfactorily to Mr. Coriell, who was excused from voting) the res. was adopted.

By Mr. Tyler, the following:

WHEREAS, Owing to the peremptory mandamus of the Supreme Court of this State, this Council is without available means to provide for the necessary expenses of the city, the sum raised and to be raised in the usual way being held by the court to be subject to a claim for State and County taxes for 1878 and after.

Resolved, That in the opinion of this Common Council a greater sum of money than $10,000 is necessary to be raised for the uses of the city of Plainfield, in and for the year 1881, and that for such sums it is in this emergency necessary that the sum of $15,000, in addition to said sum of $10,000, be so raised.

Resolved, That an election be held between the hours of 7 o'clock a. m., and 7 o'clock p. m., on the 2d day of May, 1881, at the usual places for holding elections in this city, to vote the sum of $15,000, to be raised by tax in this city for the uses of the city of Plainfield in the year 1881, in addition to the specific sum of $10,000, authorized by the charter to be annually raised by tax; which sum of $15,000 is to be assessed and collected at the time and in the manner directed by the charter for the assessment and collection of other city taxes; And that the City Clerk be and he is hereby authorized and directed to give notice in the manner required by the charter that such election will be so held accordingly.

Resolved, That the Com. on Election, Officers and Elections be and they are hereby instructed and directed to make all necessary and proper arrangements for such election.

After considerable discussion pro and con, the res. was adopted. Messrs. Finch, Guion and A. H. Smith voting in the negative.

By Mr. Tyler, an Ord. relative to the issuing of warrants. On motion, read 3d time by its title; and ordered engrossed and to a 3d reading. All aye.

Council then adjourned.

The A. S. T. Co. were the first to make a specialty of protecting the toes of children's shoes from wear, by which millions are saved annually to parents; and they now offer their A. S. T. Co. Black Tip in place of the metal, as they wear as well, and are not objectionable on the finest shoes.

THREE ELIZABETH (N. J.) GENTLEMEN.—Messrs. Ely Bros., Druggists, Owego, N. Y., your Cream Balm differs from all other preparations, as it does all you claim for it. I have been cured of Catarrh of several years standing by its use, and my sense of smell has been restored. For cold in the head it works like magic. E. H. SHERWOOD, National State Bank.

My experience is similar to the above, and would recommend the remedy to all sufferers from Catarrh. G. S. DAVIS, First National bank.

Ely's Cream Balm gave me immediate relief. I recommend it. FRANK C. OGDEN, 17 Broad street.—See Adv't. apbw

REMEMBER THIS.

Dr. Kennedy, of Rondout, N. Y., would have you remember that you will avoid mistakes by bearing in mind the name of his new medicine is "Favorite Remedy," and the price One Dollar. For the cure of Urinary difficulties, Kidney Complaints, Constipation of the Bowels, etc., there is positively no medicine offered to the public at all equal to it. For sale by all Druggists, One Dollar a bottle. apbw

THE NAME OF JENNER

means a draw lancet putting to flight a loathsome disease; and the name Harvey signifies the circulation of the blood. And the time is coming when the name of Dr. David Kennedy will be indissolubly connected in the public mind with the purification of the blood; a deed only less important than the discovery of its motion through the human body. This Dr. Kennedy accomplishes by means of his new medicine called "Favorite Remedy." apbw

RESCUED FROM DEATH.

The following statement of William J. Coughlin, of Somerville, Mass., is so remarkable that we beg to ask for it the attention of our readers. He says: "In the fall of 1876 I was taken with a VIOLENT BLEEDING OF THE LUNGS followed by a severe cough. I soon began to loose my appetite and flesh. I was so weak at one time that I could not leave my bed. In the summer of 1877 I was admitted to the City Hospital. While there the doctors said I had a hole in my left lung as big as a half dollar. I expended over a hundred dollars in doctors and medicines. I was so far gone at one time a report went around that I was dead. I gave up hope, but a friend told me of DR. WM. HALL'S BALSAM FOR THE LUNGS. I laughed at my friends, thinking that my case was incurable, but I got a bottle to satisfy them, when to my surprise and gratification, I commenced to feel better. My hope, once dead, began to revive, and to-day I feel in better spirits than I have the past three years.

"I write this hoping you will publish it, so that every one afflicted with Diseased Lungs will be induced to take DR. WM. HALL'S BALSAM FOR THE LUNGS, and be convinced that CONSUMPTION CAN BE CURED. I have taken two bottles and can positively say that it has done more good than all the other medicines I have taken since my sickness. My cough has almost entirely disappeared and I shall soon be able to go to work." Sold by druggists. 1 3

HABITUAL COSTIVENESS

is the bane of nearly every American woman. From it usually arises those disorders that so surely undermine their health and strength. IT was Artemus Ward who said that there are two things in this world for which no one is ever prepared—twins.

"HOW ARE YOU MY OLD FRIEND?"

Asked a bright looking man. "Oh! I feel miserable, I'm bilious and can't eat, and my back is so lame I can't work." "Why in the world don't you take Kidney-Wort? that's what I take when I'm out of sorts, and it always keeps me in perfect tune. My doctor recommends it for all such troubles." Kidney-Wort is the sure cure for biliousness and constipation. Don't fail to try it.—*Long Branch News.* a18w1

Wonderful successes like those of Stewart, the Vanderbilts, or the Astors are seldom reached by luck or accident. It is the result of something within that commands success; and it is only time that proves them as such. While new discoveries are daily brought forward how few remain as monuments of their worth. It is the merit that lasts—ALLEN'S ELIXIR OF SULPHUR for Coughs, Colds, Consumption, etc., first discovered and originated after long years of study by a patient Massachusetts chemist, has gradually proved itself a success from Maine to Oregon, and to-day no more successful preparation for the cure of Throat and Lung complaints can be found in the world. STONES IN THE KIDNEYS

and BLADDER Expelled—Long Suffering of One of TROY'S Best People. A LUCKY MAN.

It is by no means a strange thing that Dr. Kennedy should have received the following letter. By reading it you will see in one minute why James Andrews was thankful:

TROY, N. Y., April 8th, 1880.

Dr. D. Kennedy, Rondout, N. Y.:

DEAR SIR—Until within a recent date, I had for several years suffered greatly from gravel, called by the doctors the Brick-dust Sediment. For about a year past this sediment has not passed off in the usual quantity, but has accumulated, causing me untold pain. Having heard of "Kennedy's Favorite Remedy," I tried it in my case, and after using about one and one-half bottles, I voided a stone from the bladder, of an oval shape, 7-16 of an inch long, and rough on its surface. I send you the largest piece that you may see of what it is composed. Since then I have felt no pain. I now consider myself cured, and cannot express my thankfulness and gratitude for so signal a deliverance from a terrible disease. You have my consent to use this letter, should you wish to do so, for the benefit of other sufferers.

Yours truly,
JAMES ANDREWS.

No. 10 MARSHALL ST., IDA HILL.

When we consider that the medicine which did this service for Mr. Andrews costs only one dollar a bottle, it would seem that persons afflicted in like fashion can afford the expense of testing its virtues. Get it of your druggist, or address Dr. David Kennedy, Rondout, N. Y. "Dr. Kennedy's Favorite Remedy" for sale by all druggists. a1w4

LAWRENCE & MARTIN'S

TOLU ROCK AND RYE

For COUGHS, COLDS, SORE THROAT, BRONCHITIS, ASTHMA, PNEUMONIA, CONSUMPTION, and all Diseases of the THROAT, CHEST and LUNGS.

BALSAM OF TOLU Has always been one of the most important weapons wielded by the MEDICAL FACULTY against the encroachments of COUGHS, COLDS, BRONCHITIS, ASTHMA, SORE THROAT, CONSUMPTION in its incipient and advanced stages, and all diseases of the THROAT, CHEST and LUNGS, but it has never been so advantageously compounded as in the celebrated TOLU, ROCK and RYE. In addition to its soothing Balsamic properties, it affords a diffusive stimulant and tonic to build up the System after the cough has been relieved.

Over 1,000,000 Bottles Consumed Annually.

Extract from Report of Com'r of Internal Revenue.

TREASURY DEPARTMENT, OFFICE OF INTERNAL REVENUE, Washington, D. C., January 25, 1880.

MESSRS. LAWRENCE & MARTIN, Chicago, Ill.,

GENTLEMEN: This compound of BALSAM TOLU, ROCK and RYE, compounded according to the formula, has a sufficient quantity of the BALSAM OF TOLU to give it all the advantages ascribed to pectoral complaints, and rendering it an agreeable remedy to the patient. It may properly be classed as a Medicinal Preparation under the provisions of U. S. Revised Statutes, and when so stamped may be sold by Druggists, Grocers and Other Persons WITHOUT RENDERING THEM LIABLE TO PAY SPECIAL TAX as liquor dealers. Yours Respectfully,

(Signed) GREEN B. RAUM, Commissioner of Internal Revenue.

CAUTION! Don't be deceived by unprincipled dealers who try to palm off upon you Rock and Rye in place of our TOLU, ROCK and RYE, which is the ONLY MEDICATED article made—the genuine bearing the signature, LAWRENCE & MARTIN, on the Proprietary Government Stamp on each bottle.

PUT UP IN QUART SIZE BOTTLES FOR FAMILY USE.

LAWRENCE & MARTIN, Prop'rs, Chicago, Ill., and No. 6 Barclay Street, New York.

Sold by DRUGGISTS, GROCERS and DEALERS Everywhere.

For sale in Plainfield, N. J., by EDWARD P. THORN, Agent, and at H. P. Reynolds' Pharmacy. 6janlyeow

THE NEW SOCIETY REPORTER.

"Well, how did you get along at the party last night?" asked the city editor of a new reporter, whom he had engaged the day before, and whom he had sent to write up a social occasion.

"Not very well," responded the new reporter, gloomily. "I dont think Brooklyn society is the top notch racket anyhow."

"What's the matter?" demanded the city editor. "Didn't they use you well?"

"I can't say they did," rejoined the new reporter. "Now, I went up there last night and waded right into the fun. I asked for the chairman of the party, and told him we were laying out to swell their heads in to-day's issue, and he'd better skip in and introduce me to some of the high bugs if he calculated to have his name mentioned in the report."

"What did he say to that?" asked the city editor, with a calm gleam in his eye.

"He wanted to know who sent me. I told him the main guy of this literary band fired me in there, and that when I'd got through shaking a leg I'd like some facts about the lay out. If he couldn't give 'em, I told him, he'd better get the secretary to heel up pretty lively or I'd give the old outfit a deal in the paper that would make him think every hair in his head a band of music and all playing different tunes."

"And what did he say to that?" inquired the city editor, a gleam deepening ominously.

"Oh, he said he would do what he could for me. I told him he'd better hop right at it, and first I wanted to meet the gals. If he calculated to hold the friendship of the Eagle, I said he didn't want to waste much funny business before he had me bumping around in the mazy. He said if I'd go up stairs and take off my hat and overcoat he'd see me later."

"Did you do it?" asked the city editor, in a constrained tone.

"No. I said I wanted some grub first. So he took me down in the front kitchen and asked me if I liked boned turkey. I told him I'd take a leg and some breast. What do you think he gave me? Head cheese! If he didn't you can lick me. I couldn't eat that, and so I asked him for a glass of beer and a cheese sandwich. He said he had some wine, so I drank a bottle and put a couple in my pocket."

"What did you do then?" interrogated the city editor, fingering a length of gas pipe.

"I went up to the parlor, and he said I'd better take a description of the scene before I danced, and he gave me the names. Here they are: Mary Monroe, red frock, white sack, and hair bunched; Emma Latrobe, yellow dress and high heeled slippers; Marion Willoughby, some kind of thin stuff, white, and tied up with tape, and hair frizzled; Jennie Murchison, black clothes, and a feather in her hair; Ella Wexford, red hair and gray suit, flat in front and stuck out behind; Pauline Tresley—I tell you boss, she was a daisy. Bigger'n a tub, and dressed to the top branch. She had on a velvet outfit a mile long, and sixteen rows of teeth on her gloves. Her hair was a dead yellow, tied up like a bun, and a lot of vegetables in it. Florence Ross, green dress, flipped with velvet, and hoisted up at the side with a white check rein; Vinnie Hammersley, white net work with red straps, walked with a limp, and hair frescoed. That's all I got. There was a lot of old pelicans there, but I know you didn't care for them, and as for the men, I told 'em it would cost 'em a dollar apiece to get in, and as they wouldn't put up I shoved 'em. I can state that they were a cheap lot, who don't know any more about society than a fig does of politics, and that'll teach 'em a lesson. And I say, we'd better give the chairman a rub. He didn't introduce me to a solitary hen. Better say he hasn't paid his gas bill for seven months, and that day before yesterday his accounts were found short. What do you think?"

"Got any more about the party?" demanded the city editor, rising slowly.

"Nothing only that the grub wasn't fit to eat, though furnished by that popular caterer Mr. Trapkagener. I told him I'd give him a puff. You might say too that the whole party was a dead failure on account of the villainous treatment to which our new society reporter was subjected when he asked for a handful of cigars. Say, what have you got for me to do to-night?"

"Not a thing!" yelled the city editor, as he brought the gas pipe across the new reporter's ear. "You infernal reptile don't you know that was one of the best houses in town, and the affair the finest of the season?"

"I'm going back to St. Paul," groaned the new reporter as he fell down stairs. "If that's Brooklyn society, I'm going where they have some style," and he struck off towards the Northwest, largely afoot.

A Commendable Act.

On Tuesday of last week, Governor Ludlow approved and signed Assembly Bill No. 292, entitled "An act to prevent gaming and the use of gaming instruments in places where alcoholic drinks are sold." The act provides that it shall be a misdemeanor for the keeper of any place of this kind to permit minors (under eighteen) to play at cards, dice, billiards, pool, &c., and fixes the following penalties: First offence, a fine of not less than $10 nor more than $25, or imprisonment in the County Jail not exceeding ten days; second offence, a fine not less than $25 nor more than $50, or imprisonment not exceeding 30 days; subsequent offences, a fine not less than $50 nor more than $100 or imprisonment not exceeding three months at the discretion of the Court. This is now a law and those affected thereby should govern themselves accordingly.

It won't make your corn stop aching when some one steps on it.

It won't keep the nails in your new boots from running into your foot.

It won't make a train come back for you when you are one minute and thirty seconds late.

It won't ease your shins any or make your wife stop laughing, when you fall down with a bucket of coal.

"There is no disgrace in being poor," we are told. And we're howling glad of it, for there are enough other disadvantages about it, without that one.

We know a man so cross-eyed that he put his hand into another man's pocket and abstracted therefrom a watch. He wanted to learn the time. The Judge told him it would be three years.

The New York *Tribune* has had its Washington correspondent interview several Democratic Senators relative to various subjects, but more particularly in regard to the deadlock in the United States Senate about Riddleberger, etc. Among others our Senator was interviewed, with the following result:

"Senator McPherson of New Jersey spoke very hopefully of the success of the Democratic cause in 1884. He said that if his party should not be successful he would begin for the first time in his life to doubt the intelligence of the people. He argued that the people, who were ever watchful, would hasten to correct the faults of bad government. He spoke at length of what he called the blunders and want of harmony in the Republican party, which he claimed would go far in changing public sentiment, and said: 'Confronted as the Republicans are by the disasters resulting from the defeat of the Funding bill, which unnecessarily robs the taxpayers of a million dollars a month, together with the scandals which attend upon the Senate reorganization, with the Republican fight within their own ranks for party spoils and dominion, to which may be added the beautiful exemplification of party wisdom exhibited by a Republican majority a few days since in the Legislature at Albany, surrendering over the city of New York to pestilence and death rather than part with any portion of its patronage; the whole course of the party seems to me like testing human endurance to see how much it would stand. The people of this country are entitled to no better government than they make for themselves, and I feel hopeful that the sober second thought of the people will impel them to vote and act with that party which has never denied its responsibility to the people.'

"The conversation changing to the situation at Washington, the Senator was asked whether he thought the Democratic party was likely to recede from the position taken. He said, emphatically: 'Certainly not. The Democratic Senators have decided not to give their expressed or implied sanction to what seems to be a bargain between the Republicans and Readjusters, so called. I am not authorized to speak for the Democratic party, but as for myself I shall never consent to any compromise with wrong. We shall stay in Washington until the regular session in December, if necessary.'"

We hope that not only Senator McPherson but all the Democratic Senators will stand by their colors in this respect. If the Republicans have strength enough to carry out their bargain with Mahone, so be it, but it would be an eternal disgrace to any Democratic Senator to assist in the consummation of the infamous bargain and sale.—*New Brunswick Times.*

The Fremont (Iowa) *Herald* says: "A young Bohemian couple living near Glencoe met with a peculiar experience during the last snowstorm. They were living in a little shanty under the hill, which was covered in a drift, and the husband dug his way out and went over to one of the neighbor's. Another storm coming up he was unable to find his way back, as nothing of the house could be seen. It was three days before they could find the house, which was finally done by sounding with a pole. They dug through the drift and found the young wife as comfortable as could be expected for a girl, just married and her husband gone."

HERE is a new and good idea for Sunday schools, or common schools either. At a recent Sunday school anniversary near New York, the superintendent, instead of distributing chromos and bonbons, gave each scholar a package of ten varieties of flower seeds, with directions for sowing and care, and offered a prize to be awarded at a horticultural exhibition by the scholars next Summer, for the best results in potted or cut flowers.

POSTMASTER James was a printer by trade, and at one time edited a country newspaper. This is no good reason, however, for boys to desire to learn the printing trade, and does not afford a single grain of consolation to the country editors who have small fortunes represented on their books in subscriptions. If this shoe fits it is unnecessary to have one made to order. We are always "At Home" to a delinquent subscriber wishing to pay.

The farmers of Morris County are becoming somewhat disturbed by the report that much of the baled hay which is being sold is liberally mixed with Canada thistles, the seed of which they fear may become scattered over their lands. There is a heavy penalty imposed for the introduction of the thistle in this State.

A poor excuse is better than none. We hear of a man who justifies his meanness towards his wife by asserting that he and she are one, and therefore by refusing to furnish her with money he practices the heroic virtue of self-denial.

Laws of New Jersey.

CHAPTER CLVIII.

An act to provide for drainage where the same is necessary to the public health.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That any ten or more citizens who deem it necessary for the public health that any pond, artificial reservoir, marsh, swamp, bog, meadow or low or wet lands should be drained, may present a petition duly verified to the court of common pleas of the county in which such pond, artificial reservoir, marsh, swamp, bog, meadow, or low or wet lands lie, or if the same lie in more than one county, to the supreme court of this state, in open court in each instance, setting forth the acts and the names of all the owners of lands likely to be affected by the proceedings so far as known to the petitioners, and praying for the appointment of three commissioners for the purposes and with the powers hereinafter set forth; notice of the proposed application and of the day on which the same is intended to be made, shall be given for at least two weeks previous to the day of making such application, by advertisement in writing, under the hands of at least two of the petitioners, set up in three of the most public places in the township in which the premises proposed to be drained are situate, and if such premises are situate in more than one township, such advertisement shall be set up at three of the most public places in each township.

2. And be it enacted, That the said court to which such application is made, on due proof being made that the advertisements have been set up according to law, on which the judgment of the court shall be final and conclusive, and being satisfied that the petition is in due form, shall thereupon appoint three persons, who shall be freeholders in the county in one of the counties, wherein the premises proposed to be drained are situated, and who shall not be interested in said premises or any of them, and one of whom shall be a civil engineer or surveyor, to hear and determine, first, whether the drainage petitioned for is necessary to the public health, and second, through what lands it is necessary in order to drain the premises in question that a ditch or ditches, or other channels for the free passage of water should be opened; and to take such other and further steps with reference thereto as are hereinafter provided for.

3. And be it enacted, That the said commissioners, before they enter upon the duties of their office, shall make and subscribe and file an oath with the clerk of the court by which they are appointed, that they will faithfully discharge the duties of their office to the best of their knowledge and ability; the commissioners shall, with all convenient speed, after qualifying as herein provided, meet and organize by appointing one of their number as chairman and another as treasurer; the treasurer shall collect and be the custodian of all moneys to be collected or received by the commissioners under the provisions of this act, and shall pay out the same only upon the order of the commissioners signed by at least two of the commissioners; the treasurer shall give a bond or bonds with sufficient sureties to the township committee of the township where the premises in question lie; or if in more than one township, then to the township committee of each township; such bond or bonds to be approved by a judge of the court in which the proceedings were commenced, both as to sufficiency and amount, and to be filed with the clerk of the court.

4. And be it enacted, That the said commissioners shall, after notice to the petitioners and the parties named in the petition, in such manner as they shall order, proceed by personal view of the premises, or otherwise, to determine whether the drainage petitioned for is necessary to the public health.

5. And be it enacted, That the said commissioners shall file in the office of the clerk of the court by which they were appointed, their determination, signed by them, or by a majority of them if they do not all concur, and give notice of such filing to all whom it may concern, by publishing such notice at least two times in some newspaper published at the county seat of the county in which such premises are situated; and if they be situated in more than one county, in a newspaper published at the county seat of each county; any party feeling aggrieved by such determination may appeal therefrom to the court in which the proceedings were commenced, by giving written notice of such appeal to said commissioners within twenty days after the last publication of such notice; the said court shall thereupon, on motion of either party, on at least ten days' notice to the appellant or appellants, proceed to hear said appeal, in a summary manner and in accordance with the rules and practice of the court, and to determine the same; if either or both parties desire that testimony be taken to be used on the hearing such testimony may be taken orally, in open court, or in the form of depositions, as the court may direct.

6. And be it enacted, That if it shall be adjudged and determined by the said commissioners or by the court in case of appeal, that for the benefit of the public health such ditches, drains or channels, for the free passage of water, shall be opened, or that such pond, artificial reservoir, marsh, swamp, bog, meadow, low or wet lands, should be drained, it shall be the duty of said commissioners (unless the same shall be done by the owners of the lands to be thereby affected, to the satisfaction of said commissioners) to cause an accurate survey of the lands and premises in question, to be made, and a map thereof to be made, showing all the lands and premises that are proposed to be drained, the number of acres in each separate tract included in the district to be drained, the names of the owners and occupants thereof, so far as can be ascertained, and the relative levels of each tract, and the width, depth and slope of sides, shape and course of such ditch or ditches or other channels for the free passage of water, as they shall determine to be necessary for the drainage of the land and premises in question and for the purposes of this act, said commissioners are empowered to employ a competent civil engineer or surveyor, or to authorize such commissioner as may be a civil engineer or surveyor, to act as such, and to enter upon any and all the lands mentioned in the petition or deemed necessary by such commissioners, and survey the same, and take the levels thereof, and by themselves, their servants and agents, to do all things necessary for the construction and completion of all such ditches and channels for the passage of water, as they shall deem to be necessary for the complete drainage of said pond, artificial reservoir, marsh, swamp, bog, meadow, or low or wet land.

7. And be it enacted, That the said commissioners shall, upon the completion of the work, cause such map certified by them, to be filed in the office of the clerk of the court in which the proceedings are pending, which map, or a duly authenticated copy thereof, may be used in evidence in any suit or proceeding in this state.

8. And be it enacted, That the said commissioners shall be paid for their services three dollars each, for each full day actually employed in their said duties; they shall keep an account of all their expenses and of all the costs and expenses incurred in draining said lands and premises, including all the costs and expenses incurred in any proceeding under this act, or preliminary or incident thereto, and any land, damages, or awards as hereinafter provided; and in case it shall be necessary to raise funds for the construction of such ditches or drains or channels for the free passage of water, or land, damages or awards, before the assessment hereinafter provided for can be made and collected, the said commissioners are hereby empowered, from time to time, with the approval of the court in which the proceedings are pending, to borrow so much money as may be necessary therefor upon such evidence of indebtedness, as they may deem proper, bearing interest at the rate of six per centum per annum, payable upon the completion of such assessment and collection, and the interest accruing thereon shall be assessed as the other expenses for said construction; such evidence of indebtedness shall not be issued for less than par, and shall be receivable in payment of such assessments.

9. And be it enacted, That the said commissioners have power to construct such drain or drains, ditch or ditches, or other channels for the free passage of water, in accordance with the plans adopted, through and across any road or street in the township or townships in which the district to be drained lies, or through and across which it may be necessary in order to carry out the proposed drainage, and also through any private lands as shown on the said map, in which latter case they shall award the owner or owners of such lands just compensation therefor, and shall add the amount of such compensation to the cost of constructing such works; such compensation shall be awarded, and notice thereof given to the owner personally, if he be known, and a resident of the county in which the premises drained, or any part of them, are situate, and if not a resident of such county, then by mail, according to the best information that can be obtained as to his address, before commencing such work; and such award shall be final, unless the said commissioners shall reconsider the same and make a new award, or such owner shall appeal, as provided in section twelve of this act, and such award shall bear interest at the rate of six per centum per annum from the date of making the same until paid; and in case any valuable water rights or privileges shall be injuriously affected or destroyed by such drainage, the said commissioners shall award the owner or owners thereof just compensation therefor, and shall take the same proceedings in relation to such awards as in cases where land is taken.

10. And be it enacted, That in order to provide for the payment of the costs, damages and expenses of the work of any drainage undertaken under the provisions of this act, the said commissioners shall ascertain the whole amount of such costs, damages and expenses, and shall make a just and equitable assessment of the same upon the lands specially benefited by such improvement in proportion to the benefit received thereby, but not in any case exceeding the amount of such benefit; and in case the whole costs, damages and expenses shall exceed the amount of benefits to lands specially benefited thereby, such excess shall be assessed upon and raised by general taxation in the township or townships in which the drained district lies, to be assessed, levied and collected in the same manner as other taxes for township purposes are assessed, levied and collected; and in case the drained district lies in more than one township, the said commissioners shall apportion the amount to be raised by said townships to each township in proportion to the number of acres in each that are affected by the said drainage, as shown by the said map; and when the amounts assessed upon said township or townships shall have been levied and collected, they shall be paid over by the township collectors of the respective townships to the said commissioners for the purpose for which they were appointed under this act; before proceeding to make such assessment the said commissioners shall give at least ten days' notice in a newspaper or newspapers, published in the county or counties in which the drained premises lie, that they will meet at a certain time and place to hear the views of all persons interested in the proposed assessment, at which time and place said commissioners shall meet and give full and reasonable opportunity to all persons interested to express their views, may adjourn from time to time, and shall thereupon proceed to make a just and equitable assessment of the costs and expenses of said improvement, including damages for land taken or used and for water rights or privileges injured or destroyed upon the lands specially benefitted by such work, and upon the township or townships concerned, as hereinafter set forth, within ten days after making such assessment; a notice shall be sent through the post office to each owner of lands assessed, as nearly in each case as the name and address of the owner can be ascertained, and to the township committee of the township affected, stating the amount assessed against said land or against said township, as the case may be, and that said assessment will be open for inspection for the next fifteen days, and that the said commissioners will then meet at a time and place to said notice specified, to hear objections and to revise and correct, and finally confirm said assessment; at which time and place the said commissioners shall meet and give all parties appearing before them an opportunity to be heard, and may adjourn from time to time, and may reconsider said assessment, and shall make any alteration therein that they may deem just; and thereupon they shall revise, correct and finally confirm said assessment; and within ten days thereafter shall file said assessment, together with a detailed statement of the costs, damages and expenses incident to the work as ascertained by them, in the office of the court in which the proceedings in relation to the drainage in question were begun, and shall give notice of such filing by publication once a week for four weeks in a newspaper or newspapers published in the county or counties where the drained premises lie; and the determination of said commissioners, or a majority of them, shall be final and conclusive unless an appeal be taken as provided by section twelve of this act; and the said commissioners shall retain in their possession a duplicate copy of said assessment, and it shall be their duty to collect the amounts assessed and disburse the same for the purpose of carrying on and completing the drainage in question.

11. And be it enacted, That from and after the filing of the said assessment in the office of said clerk, the said assessment shall be and remain a first and paramount lien upon each lot of land or property assessed for the amount of such assessment, with interest thereon, and all costs and fees thereon, until the same shall be paid and satisfied, notwithstanding any devise, descent or alienation of such land, or any judgment, mortgage or encumbrance thereon, and notwithstanding any mistake in the name or names of the owner or owners thereof, or any omission to name the owner or owners thereof; and any assessment in which such mistake or omission occurs shall nevertheless be a valid and effectual lien as aforesaid upon the lands assessed; and if such assessment with interest thereon be not paid within six months from the time when the same is payable, then the land upon which the said assessment is a lien shall be sold by said commissioners to pay the same, with interest thereon from the time when the same became payable, and all fees, *charges and expenses of collection* and sale in the same manner as land is authorized to be sold for unpaid taxes in the township where said land lies.

12. And be it enacted, That any person or persons feeling aggrieved by the action of the commissioners in awarding compensation for lands or property taken or used or for water rights or privileges injured or destroyed for the purposes of drainage as contemplated by this act, or by the action of the commissioners in making the assessment pursuant to section ten of this act, or any township committee feeling aggrieved by reason of the action of said commissioners in the premises, may, within forty days after the publication of the notice of filing said assessment, appeal to the court in which the proceedings were begun by serving a notice in writing upon one of the said commissioners and filing a copy of said notice with an affidavit annexed setting forth the service thereof in the office of the clerk of said court; and the said court shall have full power to review the proceedings of said commissioners in the premises, and the same or any award or assessment or other action to confirm, alter, modify, set aside or reverse in whole or in part for errors either of fact or of law; and the said court shall have full power to hear and try the same in a summary way, and may summon a jury to determine any question of fact; and the said court may proceed in due course according to the power of the court in other cases, and if the said court deem advisable, may refer back any assessment to said commissioners for them to make a new assessment under the direction of the court, and the determination of the said court shall be final and conclusive in the premises, and the said court or any judge thereof, may, until such determination, stay all the proceedings in the matter in reference to which the appeal may be taken until such final determination.

13. And be it enacted, That whenever any ditch or ditches, drain or drains, or other channel or channels for the free passage of water shall have been constructed under this act, it shall be the duty of the township committee of the township in which the same are situate, to keep the same in repair at the expense of such township.

14. And be it enacted, That the time in which anything is required to be done in this act may be extended by the court to which the original petition was presented, for good reasons shown and on such terms and conditions as may be just, provided no rights are prejudiced thereby, and such extension may be granted after the time before limited has expired, and said court may make such other orders in the premises as they may deem just and reasonable according to law, and appoint a person to act as commissioner *in place of any commissioner* who shall die, resign or become otherwise disqualified to act.

15. And be it enacted, That this act shall take effect immediately.

OUT OF TIME.

There is a right time for all things, and truthful as that saying certainly is, we regret the necessity of charging Councilmen with its disregard.

We cannot imagine anything more out of proper time than appending to the regular tax levy for the present year *the sum of eight hundred dollars for the establishment of a Library*. Surely the Common Council by such a vote forgot the peculiar condition of financial affairs now existing, and why there was not a single member of that body to record his dissent appears strange.

No doubt a public Library is a thing needed, and would, if rightly conducted, be productive of public good, but, to tax the people for it when all city funds, present and prospective, are mandamused by the County Collector and in peril of being gobbled up by him, is, to say the least, very unwise action, and furthermore, exceedingly unpopular with the people. Councilmen would meet public sentiment by repealing the Ordinance in question and passing another minus the Library provision.

"A BIG PARTEE."

If Mr. Mahone, when electioneering for the United States Senatorship in Virginia, had avowed the bare possibility of his entering into a political *compact with Conkling*, Cameron and other Republican leaders at Washington, he never would have been chosen.

Few, very few of the delegates who voted for him imagined they were commissioning a man to antagonize Democrats in the National Senate.

Yet that is what he has done.

Mahone is now the dictator of the Republican party in the Senate, and it is a question whether disgrace attaches more to his apostasy than to the subserviency of his allies.

Mahone evidently bargains for a price, Conkling for power.

Republican Senators cannot elect officers distasteful to Mahone.

They cannot consider Presidential nominations until Mahone's bond is fully satisfied.

He holds them fast.

What a pitiable position for a great party to occupy?

A writer for the New York Sun puts it in verse after the following style:—

When I was a lad I held my place
As a gay young member of the dominant race;
I flourished and bloomed as bright as a rose,
And I walloped the nigger whenever I chose.
I walloped the nigger so strenuouslee,
That now I am the ruler of a big partee.

When I was a man I hastened to fight
For what my State declared to be right;
I showed the North of what stuff I was made,
As I fought at the head of Mahone's brigade.
I fought through the war so valiantlee,
That now I am the boss of a big partee.

The war being ended, I learned new tricks,
And took up the trade of politics;
I told my folks there was hope for us yet,
And showed them how to get rid of debt.
I taught this lesson so constantlee,
That now I am the ruler of a big partee.

I came to the Senate, and Conkling and those
Declared I should have whatever I chose;
I stilled, they said, the Republican heart,
And bravely and nobly had played my part.
My part I had played so successfullee,
That now I am the ruler of a big partee.

Rebellion still is the song I sing,
Repudiation the scheme I bring;
And they who needed and bought my aid
Can never go back on the bargain they made.
That bargain I clinched so carefullee,
That now I am the ruler of a big partee.

WESTFIELD WISPS.

Mr. Frank Earle proposes to occupy "View Lodge" during the coming year.

We regret to announce that no action has as yet been taken by the Fire Department in relation to Improved Apparatus.

The Rev. Henry Neil was duly installed as pastor of the Congregational church *on the 13th. The services were* particularly interesting and the attendance large.

The members of the Westfield Athletic Club unable to work off their superfluous energies in the Gymnasium, favored our citizens with a game of *Ball* in the *Park* on Saturday afternoon last.

The many attractions of Bayard's Pharmacy have received an addition in the placing on exhibition there of a very beautiful work of art in "wax fruit." We understand that it is for sale.

We regret to announce the serious illness from typhoid pneumonia of the Rev. Gordon M. Bradley, formally pastor of Christ's Episcopal church here, and learn with pleasure that the latest intelligence is favorable to his recovery.

The many friends of Mr. Edward Jones and wife, of Berkley Heights, favored them with a genuine surprise on Thursday night last. The pleasures of the occasion were continued until an early hour. Music by Messrs. Wilcox and Applegate.

It is rumored that the Westfield String Band, led by Prof. Wilcox and augmented by such soloists as Messrs. Davis and Moffett, contemplate making a short tour of the country. We can, in advance, almost assure them of a warm welcome at all points visited.

The "Westfield Checker Club" continues and prospers. Its rooms located centrally in Broad street afford the best possible opportunity for those interested to participate in the game. At last accounts the champion is one of our leading Town officials.

We understand that Dr. Harrison's report to be made to the Board of Health at their next meeting, relative to the alleged nuisance on the premises of Mr. Schwennforth, *is unfavorable to that* gentleman, and the board will probably order its abatement.

A burglary was committed at the residence of Ferdinand Ditzel, at Cranford, on Friday afternoon last. The loss included a watch and chain, money, &c. Detectives arrested the supposed burglar in Brooklyn, N. Y., on Monday last, and recovered the watch, chain and some other articles missed. He was a former employee of Mr. Ditzel.

The Fiftieth Anniversary of the marriage of Mr. and Mrs. J. S. Irving, was duly celebrated at their residence on the evening of the 18th. Their many friends were there to congratulate them upon reaching this state in "life's journey," and to wish them years of continuance. The pleasures of the occasion were protracted until an early hour.

The death, by poison administered by some fiend, of "Jim," the best known athlete in Westfield, will bring a large amount of sorrow to his many friends. His feats of climbing have hardly ever been equalled, and the many witnesses of them will recall with a thrill of horror the occasion of his appearance on the top of the Hotel, as well as "Jim's" total *indifference to their feelings. Jim* was a goat.

Considerable excitement was occasioned here on Tuesday last by the arrival of ex-Chief Keron, of Elizabeth, in search of a "Domestic Sewing Machine" Agent, who, it was rumored, had disappeared, wagon, horse, sewing machine and all. The gentleman in question had made our town his resting place for the night previous, but had left before Keron's arrival. He was lately heard of at Scotch Plains and Plainfield, and is probably, ere this, stopped in his wild career.

The report of the Treasurer of the Board of Trustees of the Presbyterian church, made at the late Parish meeting, shows a most gratifying state of affairs. The receipts including subscriptions to church indebtedness, amounted to $4,976.59, and the disbursements made $4,925.72, leaving a cash balance of $50.87. In addition to this the contributions to the Boards of the church were $900, Sunday school expenses $230 and Ladies' Mite and Sewing Societies together $525, making the total cash expenditure for the year $6,607. Every dollar of indebtedness has been discharged, and the property is in splendid condition. The total expenditures during the pastorate of Mr. Gill amounts to $16,800. This is indeed a desirable condition of affairs, and the future outlook is certainly encouraging.

THE NEW BUSINESS
OF THE
EQUITABLE
Life Assurance Society of the U. S.
FOR THE YEAR 1880, WAS OVER
Thirty-Five Millions of Dollars,
The Largest Business Done by any Company in the World.

REASONS FOR THIS RESULT.

The Equitable is the strongest Company in the United States.

Its policies are, by their own express terms, made incontestable after three years. (For precise terms see form of policy contract.)

ALL such incontestable policies are paid immediately after receipt of satisfactory proof of the death of the insured, and without even the customary delay of sixty or ninety days.

EACH ordinary policy provides for a definite surrender-value in paid up assurance, in case the policy is forfeited after three years from its date and is surrendered within a reasonable time thereafter.

BY THE TONTINE SAVINGS FUND plan of assurance, returns to policy-holders, after the expiration of what is called the Tontine period, are greater than are obtainable on any other system. Actual settlements of Tontine policies have been made in which policy-holders have withdrawn amounts varying from eighty to one hundred and twenty per cent. of premiums paid, besides enjoying a life insurance indemnity during the period. No other company can show such results.

THE TONTINE plan is the only one offered by which a person may withdraw from his insurance contract at specified periods, receiving the entire reserve and surplus accumulations in cash.

ALL the ordinary forms of insurance with annual dividends of profits, both cash and reversionary, are issued by this Society.

ASSETS, - $41,108,602.
SURPLUS, - $9,228,294.

Its business for the last ten years (represented by the new policies issued) has been larger than that of any other Company.

MESSRS. Marshall & Ball of Broad St. Newark, have become out of patience with the competition that many of the other clothiers have forced by reducing the prices of their goods. The above firm have consequently marked their enormous stock way down to "hard pan" and defy any to undersell them.

ONE of the Ericsson Caloric Pumping Engines having been placed in the residence of Lawrence Myers Esq., by its agent Mr. Wm. Addis, a test of its abilities was made on Tuesday. 425 gal's. of water were raised to the tank in one hour and twenty-six minutes, using 20 cubic feet of gas at a cost of six cents.

A NEW addition has been made to the list of enterprising clothiers of Newark in the establishment of the firm of Roberts & Co., at No 797 Broad street. The members are men of experience, determined to please their patrons, and will undoubtedly build up a valuable trade by means of the inducements they are offering.

THE city of Newark is to be treated to an exhibition of brilliancy this week that will far surpass anything of the kind ever attempted. The entire length of Broad street, where are situated the clothing stores of Marshall & Ball, Roberts & Co., and others will be illuminated with innumerable and powerful electric lights.

THE heavy freshets occasioned by the breaking up of winter, caused a deep hole to be washed out below the Grove street bridge over Green brook, which, while it afforded excellent facilities for the procurement of water for the fire engines in case of a fire in the neighborhood, seriously threatened to undermine the abutments of the bridge. The authorities have therefore filled up the hole with stone.

WEBER vs. Schorb was tried Thursday before Squire Wadsworth, and a jury of twelve, of which Common Councilman C. S. Guion was foreman. Craig A Marsh Counsel for Plaintiffs, M. L. Trimmer for defendants. The suit was brought for damages for entering plaintiffs' rooms and taking a kettle and washtub in the day time in the presence of the plaintiff. Defendants also claimed to own the kettle. The jury rendered their verdict in favor of the plaintiff for seventy-five dollars. The value of the articles was about one dollar, the rest of the verdict was for the insult.

The World's Fair.

A sub-committee has been appointed by and from the Executive Committee of the World's Fair Commission, which will report at a meeting on next Wednesday as to the prospects of any advancement of the interests and purposes of the scheme. On such report depends the life or death of the World's Fair as far as its completion in 1883 is concerned.

Union County Medical Society.

The Union County Medical Society met at the Court House, Elizabeth, on Wednesday of last week, and elected the following officers for the ensuing year: President, Dr. J. B. Probasco, of Plainfield; Vice-President, Dr. J. H. Grier, of Elizabeth; Secretary, Dr. W. A. M. Mack, of Elizabeth; Treasurer, Dr. Coles, of Scotch Plains; Reporter, Dr. V. Mravlag, of Elizabeth.

The Whole Thing in a Nutshell.

The Common Council want to raise $15,000 additional to the present appropriation granted them, in order to meet *the demands of the County Collector.* The City Collector, through the order of Common Council, gives us a list of names of those who have not paid their taxes, as they should do. Now let the reader of this look over the published list of non-tax-payers, and decide how he will cast his vote at the coming money election.

An Evening Dance.

The members of the Saengerbund and their wives and ladies, held one of their pleasant little hops in the society's hall on Monday evening. The affair was informal and not intended to be at all public, but it was none the less a happy occasion and enjoyed immensely by the large attendance. Prof. Guttman and assistant furnished just the right kind of music in a commendable manner, and as there were plenty of young and graceful partners of both sexes, the dancing was kept up until morning.

A Neighborly Disagreement.

The suit that for some time past has been pending between Messrs. Chas. Hyde and John Taylor Johnston of this city, was decided recently in favor of the former for the second time. Mr. Hyde claimed for his property—formerly the Force estate—certain water privileges which Mr Johnson had interfered with by misdirecting the course of the mill-race and in other ways. The first decision was given by the Chancellor in the plaintiff's favor, and upon the case being carried to the Court of Errors and Appeals by Mr. Johnston, the ruling was re-affirmed.

"Put Salt on his Tail."

A foreclosed mortgage induced the issue of a warrant of ejectment against a householder of this city, some time ago, but our own officers had been unable to enforce it on account of the belligerent attitude assumed by the party it was intended to bounce. Constable Salt of Elizabeth, however, had no sympathy with anything fresh, and one day last week endeavored with an assistant to drive the bird out of his cage. They would undoubtedly have succeeded, but they were at the wrong end of the gun, knew it was loaded and sensibly ran away to live to fight another day. When such time arrived the scene was revisited by the constables reinforced by a detachment of the Plainfield Free-Lunch Guards. They fearlessly entered the house and after a fierce struggle with the furniture stood it on its head in the street.

"Easter Reception."

The C. Y. M. U., on Wednesday added more laurels to its noble brow. The Reception given by this organization on that evening at St. Mary's Hall, was a thing of beauty and a joy forever. All the pretty girls were there, all the finest dancers among the men and the music lead by Cahill beat the man that invented it. The arrangements were in charge of Messrs. Thos. Carty, Thos. Marley, Dan. McCarthy, Thos. Harding and John Duffy. The Reception Committee was composed of Messrs. James Whalen, Thos. Harding and Michael Fields. While Messrs. Thos. Marley, John Kenney, Daniel McCarthy and James Keegan had their hands full and their time occupied introducing couples, forming sets and keeping the evening's pleasures at fever heat. It was almost daylight of Thursday before the affair dissolved into the past.

The Free Church of Italy.

The powers of Alessandro Gavazzi the distinguished Italian reformer and orator are too widely known to need additional introduction by us. Signor Gavazzi will address a union meeting of the churches of this city on next Monday evening in the Trinity Reformed church at 8 o'clock. The following letter to its pastor speaks for itself:

PLAINFIELD, N. J., April 18.

DEAR MR. RAYMOND:

I am glad to hear that you have succeeded in securing Signor GAVAZZI for an evening in Plainfield. Our citizens owe you a vote of thanks. No name has been more intimately associated with Italian freedom—civil and religious—for the past forty years than that of ALESSANDRO GAVAZZI. Nearly thirty years ago I heard him in New York, I went to his lectures again and again. He was a man of matchless eloquence with more of the magnetic endowment than I ever found in a public speaker. My friends tell me that he has the old fire and intensity yet, and that he is as attractive as ever. I have engaged him for Chautauqua the coming season and am glad that he is to be here.

Truly Yours,
J. H. VINCENT.

The A. O. H. Ball.

Even the great expectations of the managers of the Fifth Annual Ball of the A. O. H. No. 4, of this city, were surpassed in the complete success of that affair, on Monday night, at Laing's (Miller's) commodious and comfortable hall. Manahan's justly celebrated band arrived shortly after nine o'clock to find the dance room already occupied with a large number of the society and St. Mary's parish, which was increased every minute until there seemed hardly room for even one more. The music had been anxiously awaited, and its beginning for the evening brought forward scores of happy couples who seemed to allow themselves no cessation from the whirl of the many dances until far into Tuesday morning. Many visitors from other places were present, including about fifty from Elizabeth. The floor managers were Messrs. P. Casey, T. Walsh and J. Conneely. The reception committee was composed of Messrs. J. Barry, Ed. Conners and T. Dorgan; while the arrangements were superintended by Messrs. James Conneely, Hugh O'Donnell and John Shay. Father Morris was present, whose stern eye overlooked with pleasant appreciation the enjoyments of his flock. No larger ball in point of numbers was ever given in this city, nor one more completely and thoroughly successful in every particular.

Election of Vestrymen and Wardens.

The Annual Parish meeting of Grace Church was held on Easter Monday. The usual election of church officers resulted in the selection of the following persons to serve for the ensuing year:

WARDENS.—John B. Dumont, Wm. E. Lowe.

VESTRYMEN.—Thos. H. Pittis, Chas. Tweedy, E. N. Erickson, Gideon Mayer, O. T. Waring, E. L. Finch, W. R. Cock.

DELEGATES TO CONVENTION.—John B. Dumont, Wm. E. Lowe, Thos. H. Pittis.

ALTERNATES.—W. R. Cock, E. N. Erickson, J. H. Fulton.

DELEGATE TO CONVOCATION.—Thos. H. Pittis.

The report of the Treasurer was read from which it appeared that the income of the church had been sufficient to meet all the expenses, and had left a small balance in the treasury. The offerings of the congregation on Easter day amounted to nearly $600, towards reducing mortgage on adjoining lots.

The usual Annual meeting was held at the Church of the Holy Cross Tuesday evening. The following persons were elected:

WARDENS.—W. Rockhill Potts and William F. Humbert.

VESTRYMEN.—James Lyon, Frank S. Browne, Mason W. Tyler, George F. Dupee and Geo. Ed Long.

DEPUTIES TO CONVENTION.—Wm. J. Leonard, Ed Long, Dr. H. B. Lowrie.

ALTERNATES.—Frank S. Browne, Wm. F. Humbert, George F. Dupee.

DELEGATE TO CONVOCATION.—E. J. Olsen.

The treasurer of the Rectory Fund, Theo. Ellis, reported that a lot had been purchased costing $1,100 and a house contracted for at a cost of $3,800. He also reported a liberal subscription collected to meet the sum proposed to pay down for the property, the rest to remain as a small mortgage.

Common Council Proceedings.

MONDAY EVENING, APRIL 18TH.

The Council was called to order by President Whiton, in special meeting. Present—Messrs. Guion, Waring, Coriell, Finch, Tyler, H. S. Smith and Whiton.—Messrs. Darling and A. H. Smith coming in later and voting on the passage of the Ordinance. Mr. Hamilton was absent.

The President stated that as an Ordinance had been introduced allowing of the issuing of interest-bearing warrants, and as parties stood ready to cash such obligations if they bore interest, he had considered it advisable to call the present special meeting. He asked the voice of the Council as to whether the Ordinance should be read a third time.

Mr. Tyler would be desirous of waiting for an official opinion from the Corporation Counsel if it would ease the mind of any member, but without hesitation moved the Ordinance to its third reading. Seconded by Mr. Guion.

Mr. Coriell considered the proposed authority sought was one of doubtful legality, and refused to vote affirmatively until the Council was in receipt of advice on the matter from its legal advisor.

The Ordinance was then read a third time; all voting to that effect excepting Mr. Coriell.

The President stated that its provisions would apply to all warrants issued and unpaid. The Clerk then called the roll on its passage. All aye excepting Mr. Coriell.

The meeting then adjourned.

MONDAY EVENING, APRIL 18th.

The Council met pursuant to adjournment. President Whiton in the Chair—all present excepting Mr. Hamilton.

Minutes of previous meeting read and approved.

The President presented a communication from Mr. S. St. J. McCutchen, declining an election to a vacancy in the Council. Received and filed.

By Mr. Guion, claim of E. Hapenny for fumigating house and "various articles used during sickness of Mr. W. McNabb," $15. *Referred.*

By the President, a communication from Corporation Counsel Kimball giving his opinion that no legal steps could be taken for the collection of State and County taxes, and none would be proper until the Council were prepared to accept the obligation to make good the arrearage of all State and County taxes.

After some discussion by Messrs. Tyler and Coriell, the communication was *received* and filed.

Mr. H. Smith, from Alms Com., reported as correct claim of Malcolm Thompson, $7.70; Peter Lagenbahn, $3, and J. Donohue, $8. Referred to Aud. Com.

The same, from Aud. Com., as correct the claims of A. Killgore, $1.75; E. Hapenny, $15; W. C. Boone, $115; H. H. Lowrie, $80.50; Wm. Hand, $62.13; R. J. Walker, $41.67; C. W. Dodd, $16; Mrs. J. Wilkins, $9; John P. Hand, $16; Malcolm Thompson, $33.14; P. G. L. Co., $250.68, and N. Y. & N. J. Co., $125.03. No motion for their further progress was received and they remained on the table.

The President called the attention of the Council to the vacancy existing, and on motion of Mr. Waring seconded by Mr. Finch the Council proceeded to elect.

Mr. H. Smith proposed Mr. Alex. Gilbert who subsequently received the unanimous vote of the body. The Clerk was instructed to inform the gentleman of his election.

Mr. Darling moved that all bills for salaries and those for the relief of the poor be taken from the table; Carried. The Clerk then read the following:

Chas. W. Dodd, $58.34; R. J. Walker, $41.67; R. Randolph, $42.17; Henry Hamilton, $28.50; G. M. Angleman, $50; Geo. P. Suydam, $27.97; O. B. Leonard, $104.75; J. W. VanWinkle, $75; T. J. Gillies, $29.35; H. H. Lowrie, $62.50; S. E. Young, $4.75; J. DeLong, $30; John P. Hand, $16; Malcom Thompson, $33.14; P. M. Demarest, $245.95; D. Hand, $180.28; P. Langenbahn, $12; Mrs. J. Wilkins, $12; A. T. Shotwell, $25; F. Concha, $14; G. Townley, $20; A. Warnock, $3.65; T. J. Pruden, $60 and G. Mehl, $26.

Mr. Guion moved that warrants be ordered drawn for the above.

Mr. Coriell protested strongly against the drawing of warrants bearing interest, and Messrs. Tyler and Darling in favor. The motion was then passed, all voting aye excepting Mr. Coriell who ~~entered~~ in addition his protest.

Mr. Darling presented a resolution to the effect that a Committee of three be appointed which with the Corporation Counsel should confer with such legal adviser as they might select and procure an opinion as to the means for the collection of State and County taxes that could be used. The opinion not to cost over $25 and report to be made at the next meeting of the Council.

The resolution was carried and Messrs. Darling, Tyler and Waring appointed as the committee.

Mr. H. Smith presented a resolution calling for a public meeting on Tuesday the 26th inst., in relation to the coming money election; passed.

By Mr. Tyler a resolution requesting the Finance Committee to confer with the City Collector in regard to the measures he had previously taken towards the collection of State and County taxes, and to urge him to use every means in his power for the speedy collection of those now owing; passed.

The Council then adjourned.

Taxes.

The financial dilemma in which the City of Plainfield has been placed by the serving of a mandamus at the instance of the County Collector on the City Treasurer, ordering that official, who by the way never handled a dollar of State and County tax-money, to pay over a large sum alleged to be due for back taxes, is seriously embarrassing, because it effectually blocks the wheels of local government.

If all those in arrears for taxes, both City and County, would at once make a determined effort to liquidate such just public demands and clear the record, the difficulty would be overcome and further trouble avoided.

Taxes must be collected. There is no use in trying to dodge the question, and the proper authorities cannot move too earnestly in the matter.

Very many of our citizens who have fully paid their share of taxation, reasonably object to voting for the heavy additional levy of $15,000 *to make good a deficiency caused by delinquents.* They say—"that every possible means should be exhausted for the collection of past due taxes before an extra assessment is imposed upon the shoulders of those who have not faltered in honoring the legitimate obligation of citizenship." Their argument is sound. Have such means been exhausted?

Easter's Ecclesiastical Emulations.

Easter Sunday dawned upon our city with a beauty and brightness as acceptable and appreciated as it was unexpected and unusual. Our streets were crowded throughout the morning and afternoon with an army of church goers unprecedented in numbers and kaleidoscopic in its combined appearance of silk, flower and feather. The pulpits of all the churches—excepting the Methodist Episcopal's, which was honored by the Rev. J. H. Vincent—were occupied by their respective pastors; who delivered appropriate discourses—from the midsts of floral bowers, across banks of buds and blossoms, past graceful callas and between crosses of warm reds and cool whites blended into fragrant masses—into the hearts of their congregations arrayed in all their glory. It is impossible to judge which divine dwelt most fluently upon the Resurrection of Christ; it would be unjust to publish which House of God was most beautifully decorated; it is beyond our powers to compute the number contained in the largest audience, and it would be unsafe to state which bonnet was the prettiest or which overcoat the most stylish. All the sects and sexes strove faithfully to outdo each other in the different lines of beautification and adornment—and they each succeeded. No greater result could be achieved or desired.

Of the especial features each particular church offered for the delectation of its members, Sunday-school scholars and visiting friends, but more mention can be made.

The Crescent avenue Presbyterian Sunday School held a floral service in the afternoon, whereat an enormous cross was constructed flower by flower, as the members contributed one after another their bouquets towards its completion. Beautiful programmes tied with white ribbon, and containing the hymns and recitations of the afternoon, were convenient references, and appropriate tokens of the day. The Rev. A. V. V. Raymond spoke.

At Grace Church the day was made particularly memorable by its financial gifts. Blanks, distributed in the pews, on which "Easter Offerings" towards the reduction of the mortgage on the lot at Seventh and Sycamore streets, could be registered, resulted in inducing a donation that was most flattering and satisfactory. At the S. S. exercises in the afternoon beautiful services were read and sung, and an address from the pastor attentively listened to.

Most entertaining and interesting ceremonies and beautiful rites were carried out by the Park avenue S. S. in the afternoon as well as by the schools of the First Baptist, Congregational, Trinity Reformed, Holy Cross, Methodist, First Presbyterian and other societies.

There was five small fires in New Brunswick on Saturday last. Fortunately none of them proved serious.

Bound Brook's Disastrous Conflagration.

The visit of the devouring element fire, to our neighboring village Bound Brook, on Tuesday afternoon last, has left its mark in the centre of that thriving little place. Where once stood the principal hotel, stores and post-office is now one of those unsightly stretches of blackened ground, charred timber and general ruin that designate a "burnt district." There is a sort of brotherly feeling and sympathy among the inhabitants of Bound Brook that is always observable and to be admired. When one family is attacked with malarial fever the whole city shakes in unison; so on Tuesday, when one building would burn and fall another would follow, until the firemen of Plainfield and Somerville succeeded in checking the course of the flames. The fire started at about half-past four in a frame barn owned by Mr. John Ramsey of Flemington and used by Mr. Wm. Lair, on the south side of Main street, just west of the depot. A brisk south-west wind carried the flames to Lair's house fifty feet away whence they sped from building to building down Main to John street with astonishing rapidity. Five minutes after the discovery of the fire in Ramsey's barn the row of two-story buildings in front on the south side of Main street, consisting of Delsart's barber shop, Lair's meat shop, Chickener's confectionery store, and occupied by several families, were in a blaze. Next came the Post Office building and express office, with four families in the top story, from which the flames jumped to Frank Link's saloon and dwelling, Limburger's butcher shop and Acker's dwelling and cigar factory. The Misses Mount's millinery shop and dwelling came next and was rapidly consumed. The dry goods and grocery store of A. C. Mollison, on the opposite corner of Main street, then took fire, and that and all the houses on the block bounded by Main, Elizabeth, Frost and Hamilton streets, were entirely destroyed. These consisted of M. H. Close's dwelling, B. Bodine's tin shop, Dunn's liquor store, John G. Smith's barber shop, Brokaw & Bros., drugs; D. O. Bergen, clothing; P. L. Bergen, jewelry; A. S. Coriell, dry goods, and the Bound Brook Hotel and stables. The dwellings were occupied by the families of Mrs. Allen, Richard Grieves, James Hollan, John Koehler and Mrs. Huntoon. On the west side of Elizabeth street, a barn belonging to A. C. Mollinson was the only building destroyed.

Telegrams were sent to this city and Somerville asking assistance. The word was received here at about half-past five when Chief Voorhees immediately ordered No. 2. Engine Co. and steamer to the scene of the fire. Locomotive 30 drawing a flat-car on which were the Engine and its men, made the run from the gas-house to the Bound Brook siding in about nine minutes. Here the steamer was quickly unloaded, run down to the river, its hose stretched between the ties and under the rails of the Packer and Central railroads, and in less than twenty minutes after reaching the scene No. 2 was playing on the roof of Ramsey's hotel. Members of No. 2 claim that they were at work on the flames in 21 minutes from the time they left Plainfield. The Somerville Engine which had arrived some minutes before did not get to work until afterwards. The Somerville Hook & Ladder arrived and did noble and effective work. So fierce was the flames, however, and to such an extent of territory were they raging over, that *it seemed as if even the two steamers* would be unavailing to save the lumber yard of L. D. Cook & Co., and the brick building at the corner. At one time the cornice of the latter caught and it was thought the roof would follow, but the flames were checked and the changing of the wind precluded any danger. Not only was the work done by the firemen effective but a number of our citizens generously contributed their services in helping to rescue household goods from the burning buildings. Messrs. J. Gavett and P. B. Vail of the Plainfield Bicycle Club who were coming from New Brunswick on their machines, saw the smoke and arrived on the scene just in time to save the old Presbyterian church which had been standing since 1725. The athletes found the roof had caught from falling sparks, and that the crowd around were standing stupidly gazing with sorrow on the prospect of the buildings' annihilation. They succeeded in gaining the exterior of the building through a hole in the roof and soon put out the starting fire.

Nineteen stores and dwellings and two barns with most of their contents were totally consumed from the single spark of a R. R. locomotive, which is said, with every probability of reason, to have started the first of the fire. Twenty families who were in their houses at the time of its beginning were in two hours homeless. Over two acres of ground are laid waste. The scene as the sun set Tuesday evening was one of the most utter desolation. The streets were full of household goods and merchandise lit up by the glowing embers. Only one person was injured and he a colored man of the place named David Brokaw. When the side wall of Ramsey's Hotel was pulled down he was crushed beneath it, but fortunately escaped with bones intact. This hotel was quite a large two-story building 70 by 60 feet, and filled with guests who lost the principal portion of their effects. A force of twenty men was sworn in at eleven o'clock by Squire Sutton, and, under charge of State Detective Manning C. Crow, patroled the streets all night. At half-past seven, when the fire was under control, the firemen were invited to the residences of Messrs. Cook and Giles, and the ladies of the village were soon busy furnishing them with refreshments. Mr. John Talmage, nephew of T. De Witt Talmage, was also very attentive to their needs. The Misses Bessie Brokaw and Annie Fatzinger with Messrs. J. S. Bishop and Fatzinger rendered efficient aid to the families in serving their guests. All the Atlantic and Pacific, the American Rapid and the Continental telegraph companies' wires, numbering nineteen, are down, the poles having been burned. Mr. Littell, the post master, reports there was considerable mail matter destroyed and some *express property,* but *the evening train* not having arrived the loss is not very heavy. About $196 in money was also lost by Mr. Littell, who had hard work to escape from the building through a window.

The usual difficulty of a lack of hose was felt by the engine companies. The stretch from the river was a long one, and as the Plainfield company out of its 1,000 feet of hose lent a portion to the Somerville company which had 1,350 feet but burst a number of lengths, it was found that if the fire continued further westward it could not be reached. Elizabeth and this city were telegraphed to for more, and the Alerts and their carriages were ordered to the depot but by such time the wind changed and its presence at *Bound Brook* was no longer needed. Chief Voorhees at one time sent to the Woolen Factory situated a half-mile from the fire requesting the loan of a part of the 2,000 feet of hose contained in that building, but it was refused.

The total loss was about $80,000 with an insurance of nearly $50,000. The Plainfield and American Mutual Fire Insurance Companies of this city loose $2,000 each. The German American of N. Y., had placed $500 through its agents Messrs. Pope & Co., of this city. It was paid the next day by cash in full. We are indebted to the *Somerset Unionist* for the following partial list of losses:

H. K. Ramsey estimates his loss on the hotel property and contents at $18,000; Insured for $10,000.

Chief Voorhees of our fire department as well as Chief Abbott of the Somerville department received hearty congratulations from the citizens for the masterly and efficient manner in which the fire was handled.

THE Magnolia Lodge of Brooklyn paid a fraternal visit to the Plainfield Lodge I. O. G. F. on Monday evening last. Our esteemed citizen S. Alphonso Smith, Esq., one of the officers of the Grand Lodge presided. A bountiful banquet was served at the Mansion House.

Personalia.

Col. Hoy, of Elizabeth, has been appointed Aide-de-camp to Gov. Ludlow, with rank of Colonel.

The approaching nuptials of an admired Baptist belle of Rockview Avenue, are expectantly looked forward to by her many friends as an occasion upon which both the contracting parties should be congratulated upon.

The talented powers of Mr. McGee as an Elocutionist, were greatly enjoyed by those who attended the Crescent Avenue Church Sociable on Friday evening last.

Miss Jennie Pratt, of the Plainfield Vocal Society, executed an organ selection at the Church of the Holy Cross on Sunday afternoon last, in her usual skillful style and able manner.

Mr. and Mrs. R. H. Davis, of North Plainfield, leave on the first of May for their Summer residence at Portchester, New York.

Miss Dickie Forrett, of Jersey City, has been visiting friends in North Plainfield.

By the resignation of Mrs. Belle Pagels-Collier, the choir of Grace Church loses a voice it will be unable to more acceptably replace.

Miss Minnie Richards who has been spending the past Winter in this city, left for her home at Galveston, Texas, on Monday of last week. She will visit friends in New York State, *en route.*

Mr. Chas. Dewey was unanimously elected S. S. (Superintendent of Stamps) at the Plainfield Post Office, recently, by a large majority. The choice is a worthy one and the position will be honored.

Mr. Henry P. Tallmadge is building himself a mansion at Netherwood, destined to far surpass in size and beauty anything even now existing in that colony of handsome residences.

Mr. and Mrs. Wm. Roome will shortly occupy their newly erected brick house on the corner of Sycamore and Rockview Avenues. The gentleman's recently widowed mother and sister will reside with him.

Mr. Wm. Hand's efficient labors on North Avenue, enable us to speak from experience as to his abilities as a Street Commissioner. When the city again has funds to expend, such portion as is appropriated for the streets will be most satisfactorily laid out by the officer we refer to.

Mr. Jeremiah Van Winkle our City Treasurer, has proven himself during the past year so capable a President of the Board of Fire Commissioners, as to insure his re-election to such office.

Mr. H. P. Reynolds' courteous attention and willing services are again given the public at the Chautauqua Pharmacy. That gentleman has returned from Atlantic City as successful in regaining his health as he has been in pleasing his patrons.

Dr. J. B. Probasco was elected President of the Union County Medical Society on Wednesday of last week. Which shows that although the physicians give us the worst kind of doses, they choose the best kind of men for the officers of their fraternity.

The high esteem in which is held Mr. Alexander Gilbert, leads many to believe he will not accept the election accorded him by the Common Council on Monday evening. It is hoped by the members that they will add this very courteous and efficient gentleman to their body.

The singing of Mrs. Alex. Butts was one of the most enjoyable features of the Easter service at the Methodist Episcopal church.

Gov. Ludlow has given up his Trenton residence, and removed to his home in New Brunswick, but visits the State Capitol almost daily.

Captain James Parker, ex-Councilman of this city, was an unsuccessful candidate for Councilman at the Perth Amboy election last week. The Republican ticket was elected.

Mr. Henry L. Elnstern will remove from this city to Bound Brook shortly, occupying the house of Mr. Jas. M. Thompson of that place, who has decided to move to Newark, much to the regret of the citizens of Bound Brook.

It is but recently that we recorded the death of Mrs. Wm. Much on the mountains some distance back of North Plainfield, of inflammation of the lungs. The deceased at the time showed premonitory symptoms of small-pox, and it was within a day or two of its breaking out that death resulted from the cause stated above. On Wednesday morning at six o'clock, her grandson, a lad of about nine years of age, died from virulent small-pox and was buried the next night by the authorities. Mrs. Stiles, a daughter of Mrs. Much and mother of the boy, now lies dangerously ill of the same dread disease.

I HAVE BEEN A SUFFERER for years with Catarrh, and under a physician's treatment for over a year, have tried a number of "sure cure" remedies and obtained no relief. HER DAUGHTER'S STORY.

"My mother residing at Stamford, Conn., is 83 years of age, and for four years has suffered from Rheumatism; so much so that she was unable to move about the house. A lady friend induced her to try your 'Favorite Remedy.' She did so and found great relief." The above is a quotation from a late letter addressed to Dr. David Kennedy, of Rondout, N. Y. "Kennedy's Favorite Remedy" not only cures Rheumatism, but is the popular specific for all diseases of the Blood and the like incident to females.

A miraculous escape from death is an oft quoted remark in our newspapers, and yet, how many such occurrences happen every day and are unchronicled, unheard of and unappreciated except by the few who are closely interested. There is probably no larger collection of such facts than in the correspondence of S. P. ARTHUR & Co., whose Elixir of Sulphur has caused many a grateful heart to express its thanks for help in time of danger. This preparation is a certain cure for all diseases of Throat and Lungs—Coughs, Colds, Consumption, Catarrh, etc., and is sold by A. Killgore, Druggist.

It will cost you only a Dollar to put the sentinel on duty, and for his faithfulness thousands can vouch. Ask your druggist or write to the Doctor at Rondout, N. Y.

ADULTERATIONS

Of Food and Medicines have been confined to no age or land, yet it always has been and is now, possible to obtain genuine goods by paying what they are worth; for Adulteration is only the game played by dishonest sellers to get even with greedy buyers. A favorite field of practice is the line of "Package Goods," such as Ground Coffees, Spices and Condiments, Soda, Cream Tartar, Baking Powders, etc. These Package Goods a careful buyer will reject in favor of the real articles sold "In Bulk."

THE WICKED PRINTER.

The Vineland *Independent* says an attorney of that place, not long ago, was deploring the sad fact that in cases of foreclosure on bond and mortgage, a large proportion of the cost was for fees to the Wicked Printer. To show how much cause there may be for complaint, the *Independent* takes a recent chancery case of foreclosure and gives the actual cost of the fees paid in the case. The whole cost of suit was $128.26, divided as follows:

Solicitor and Counsel	$48 20
Sheriff	41 45
Chancery Clerk	20 78
Chancellor	6 73
Master	4 80
Wicked Printer	6 30

It is easy to see that the wealth of the nation is surely moving into the pockets of the W. P.

Ex-Senator F. A. Potts, Senator Hobart, William O. McDowell and other Jerseymen are managers of a new railroad from Bay Ridge to Coney Island connecting with the new iron steamers and the Palace Hotel.

A number of old cannon that had seen hard service in the late war, were received at the White Hill machine shops last week. They will be beaten into plowshares and the like.—*Trenton True American.*

There are 330,685 school children in the State, to educate whom the State tax will be collected this year of $1,322,740 on property valuation of $518,617,518.84. In addition to this sum an appropriation is made from the School Fund, while the balance required for the support of free schools is made up of local taxation.

A new trial was granted Tuesday, by the Supreme Court at Trenton in the case of Hermon W. Gedicke, a member of the Newark Common Council of 1880 and a well-known Republican politician, who was convicted of malpractice last Fall and sentenced to two years in the State Prison. Gedicke has been in the State Prison since he was sentenced.

A proclamation was issued at Frankford, Pa., ordering the destruction of "all males or females" found running at large within the limits of the township, except such as were properly muzzled with a wire muzzle, securely fastened about the nose. There was some consternation until it was explained that the order referred to dogs, but that, through some inadvertence, the word "dogs" was left out.

The Stevens battery is being demolished rapidly at Hoboken by the contractor who purchased its remains for $55,000, and the iron and steel will figure hereafter in less costly but more useful enterprises. The battery might be called a business man's romance. It had just enough practicability to excuse the projector from the charge of mental weakness in conceiving the idea, and it did a kind of good in giving employment to many expert workers and in furnishing food for innumerable gossippy paragraphs. The removal of the battery will occupy several months, and the large plot of harbor frontage it has occupied will then be devoted to docks for the German steamships.

STONES IN THE KIDNEYS

and BLADDER Expelled—Long Suffering of One of TROY'S Best People. A LUCKY MAN.

It is by no means a strange thing that Dr. Kennedy should have received the following letter. By reading it you will see in one minute why James Andrews was thankful:

TROY, N. Y., April 8th, 1880.

Dr. D. Kennedy, Rondout, N. Y.:

DEAR SIR—Until within a recent date, I had for several years suffered greatly from gravel, called by the doctors the Brick-dust Sediment. For about a year past this sediment has not passed off in the usual quantity, but has accumulated, causing me untold pain. *Having heard of "Kennedy's Favorite Remedy,"* I tried it in my case, and after using about one and one-half bottles, I voided a stone from the bladder, of an oval shape, 7-16 of an inch long, and rough on its surface. I send you the largest piece that you may see of what it is composed. Since then I have felt no pain. I now consider myself cured, and cannot express my thankfulness and gratitude for so signal a deliverance from a terrible disease. You have my consent to use this letter, should you wish to do so, for the benefit of other sufferers.

Yours truly,
JAMES ANDREWS.

No. 10 MARSHALL ST., IDA HILL.

When we consider that the medicine which did this service for Mr. Andrews costs only one dollar a bottle, it would seem that persons afflicted in like fashion can afford the expense of testing its virtues. Get it of your druggist, or address Dr. David Kennedy, Rondout, N. Y. "Dr. Kennedy's Favorite Remedy" for sale by all druggists.

Kidney Wort.

THIS GREAT REMEDY

In either Liquid or Dry Form acts at the same time on the diseases of the

Liver, Bowels and Kidneys,

This combined action gives it wonderful power to cure all diseases.

WHY ARE WE SICK?

Because we allow these great organs to become clogged or torpid, and poisonous humors are therefore forced into the blood that should be expelled naturally.

Kidney-Wort Will Cure

BILIOUSNESS, PILES, CONSTIPATION, KIDNEY COMPLAINTS AND NERVOUS DISORDERS,

by causing free action of these organs and restoring their power to throw off disease.

Why Suffer Bilious Pains and Aches?
Why Tormented with Piles, Constipation?
Why Frightened over Disordered Kidneys?
Why endure Nervous or Sick Headaches?
Why have Sleepless Nights?
Use KIDNEY-WORT and rejoice in health.

It is put up in Dry Vegetable Form, in tin cans one package of which makes six quarts of medicine.

Also in Liquid Form, very Concentrated for the convenience of those who cannot readily prepare it. It acts with equal efficiency in either form.

GET IT AT THE DRUGGISTS. PRICE, $1.00

FOREST LEAF & JUNIPER
KIDNEGEN,
THE GREAT KIDNEY REGULATOR AND DIURETIC.

KIDNEGEN is highly recommended and unsurpassed for FOUL KIDNEYS, DROPSY, GRAVEL, BRIGHT'S DISEASE, LOSS of ENERGY, NERVOUS DEBILITY or any OBSTRUCTIONS, arising from KIDNEY or BLADDER DISEASES. Also for BLOOD and KIDNEY POISONING, in infected malarial sections.

By the distillation of a FOREST LEAF with JUNIPER BERRIES and BARLEY MALT we have discovered KIDNEGEN, which acts specifically on the Kidneys and Urinary Organs. It can be taken at all times, in all climates, without injury to the system. Unlike any other preparation for Kidney difficulties, it has a very PLEASANT and AGREEABLE taste and flavor. It contains POSITIVE DIURETIC properties and will NOT NAUSEATE. LADIES ESPECIALLY will like it, and GENTLEMEN will find KIDNEGEN the best Kidney Tonic for its purposes ever used!

NOTICE! Each label has the Signature of *LAWRENCE & MARTIN*, and each bottle has a GOVERNMENT REVENUE STAMP (with our name), which permits KIDNEGEN to be sold as a Proprietary article (without license) by Druggists, Grocers and other dealers everywhere.

EUTOEPEER.

THE ISLAND IN THE MEDITERRANEAN WHERE NEARLY EVERYBODY RIDES THE BICYCLE.

It is probably not as well known to bicyclers as it ought to be that, between Turkey and Greece, the blue Mediterranean contains an island which is a perfect bicyclers' paradise, and on which bicycling has been more fully developed and popularized than in any other place in the world.

Eutoepeer is an island having about the same area as the State of Massachusetts. It is hilly, rising high out of the sea, and possesses a climate unequaled in salubrity.

Rain falls in gentle showers, only during the night, and the thermometer varies only about forty degrees in the year, running from fifty degrees to ninety degrees. These conditions, and the nature of its soil, make its roads wonderfully smooth and hard, and its inhabitants being wealthy, cultivated and enterprising, it is not strange that the bicycle was early introduced; and it has grown into almost universal use, so that with a population of about 200,000, there are 53,000 bicycles and tricycles in use by all classes for all purposes.

The island is an independent kingdom, governed at present by King Cettarp, a mild-mannered man, of great intellectual attainments, beloved by his subjects, a patron of literature, art and science, and himself an enthusiastic bicycler.

This delightful little kingdom is not widely known, for its inhabitants—direct descendants of the ancient Greeks—have for hundreds of years lived quiet, peaceful lives, undisturbed by the conflicts of nations about them, but growing in wealth and culture, if not in power.

With this introduction, we quote from the letters of two American bicyclers who are now there:

It was a beautiful September morning when our little steamboat ran into the harbor of Tumwaha, the principal city of Eutoepeer, and we gazed upon a scene to make a wheelman shout. The wharves swarmed with bicyclers, dashing to and fro, or what mystified us greatly, sitting still on their wheels as easily as one would sit on horseback, watching our movements or chatting with each other. We had formed a high idea of the Owen-like skill of these people, when we discovered that from the handle-bars hung a small steel rod, on which the wheel leaned firm as a tripod. When the rider starts off, the rod telescopes up until only a foot or so in length, and it is then pushed into the hollow handle-bar. These attachments are universally used. As we neared the wharf, several fellows in scarlet uniforms wheeled up to the edge, and in a moment bags were thrown from our boat, which were caught by men on the wharf, who threw two over the shoulders of each scarlet-coated rider, who then shot away through the crowd at a rattling pace—only there was nothing to rattle. These, we were told, were mail carriers, who would have the mails at the central postoffice before the boat landed.

Almost the entire business of the post-office department is done on bicycles. Letters are gathered from the street boxes by men on wheel, and bicycle postmen distribute the mails into boxes placed in front of each private or business house at the edge of the sidewalk. The dexterity of these carriers is remarkable. The letters are arranged in their proper order in frames carried upon the handle-bar, and the postmen ride along near the curbstone, thrusting them into the boxes without stopping at all. All postal bicycles went scarlet—a color forbidden by law to any others—and they have always the "right of way."

As we landed, we were besieged by men with bicycles, who shouted: "Bicycle to the hotel!" "Have a wheel?" "Fifty-two-inch nice wheel y'er, sir," etc., and most of the passengers rode off on their machines, which would be called for by their owners later.

The doctor took his Harvard, and I my Columbia, and mounting on the wharf, which was as smooth as a floor, we took our first ride in Eutoepeer.

Such roads! Chestnut Hill Reservoir road is cobble-stone to them! And such riders! Men, women and children dash about on bicycles, as much at home, apparently as if sitting in a chair.

The ladies—and ladies they are, too!—ride in modest costumes of the bloomer style, the full pantaloons gathered below the knee; and a Eutoepeerean lady would not dream of any impropriety in displaying the limbs below the knee, either on the bicycle or on the promenade.

But you should see the children ride! Little tots, from five years upward, dash around, not on the three-wheeled things common to city sidewalks, but on regular bicycles, with twenty-five-inch wheels, and from that all sizes up to seventy-two inches are seen.

There is as much variety in styles as in sizes; and as everybody rides, from the laboring man to and from his work to king himself, for pleasure, you can imagine that all grades of machines are represented.

There is not a stone-paved street in Eutoepeer. The roads are in charge of roadmasters, each one of whom is responsible for ten miles, and the finding of a loose stone in any one's section is punished by loss of place, and imprisonment for not less than thirty days.

Dogs are not allowed to run loose in this kingdom, but must be led by a rope or chain not over three feet long.

Horses are not allowed upon the best roads, and are seldom seen, except for cartage or for agricultural pursuits. Upon telling a native—an officer of the Eutopeer Bicycle Union—that bicycles were not allowed in many of the parks of America, because they might frighten horses, he said: "But how should horses be in parks?" "Why, they drive in parks," we answered. He looked at us incredulously, and exclaimed: "What! permit horses in parks where people go for safe pleasure! What recklessness! Why, the least thing, the sudden flight of a bird, a wind-blown leaf, may scare a horse, and endanger the lives of scores of women and children. Mercy! what an idea to let horses into parks!"

They have magnificent parks here, but no horse is ever allowed inside the gates.

A story is going the rounds of a boy with a hand so highly charged with electricity that he is able to lift a coal scuttle by the attraction. There is something singular about this. There are thousands of boys in the country who have a great attraction for all the old iron they can carry to the junk shop, but when it comes to the coal scuttle they are positively unable to lift. A boy who can lift a coal scuttle, especially when it is filled with coal, is a real bonanza.

A TEXAN MOTHER-IN-LAW.

A tall woman, wearing a sun-bonnet, came into the office of the Galveston Chief of Police yesterday morning, and, sitting down hard on the end of a bench wiped her nose, batted her eyes a time or so at the chief of police, and asked in a voice that reminded one of sharpening a saw:

"Be you the galoot what locks folks up?"

"I regret to say that I am occasionally obliged to resort to such extreme measures with refractory persons."

"I know all that; but be you the galoot?"

"Yes, madam."

"Why didn't you say so when I asked you."

"I did."

"You are a liar; and if you don't treat me like a lady I'll fold you up and sit down on you," and she batted her eyes some more like a terrier.

"What do you want?" asked the official, looking as if he needed reinforcements right away, and plenty of them.

"I want that dirty little whelp what married my darter. I want to talk to him on business, but he evades me. If I could only get a chance to caress him once more!" and she breathed hard and gritted her teeth until the official felt in his pocket for a police whistle.

"What did he do?"

"He told my darter that he would give 200 acres of land, with a gold mine on it, to anybody who would amputate my jaw with a bootjack. He said my mouth was like the gate of the Fair Grounds."

"He meant, I suppose, it was never shut. I don't see how he came to make any such ridiculous comparison as that. Did you remonstrate with him?"

"You bet I did. I drawed him across the kitchen table by the hair with one hand, while I basted him with a long-handled skillet, and you should have heerd him calling me 'mother darling' and 'pet;' but Providence was agin me. His har gave way, and he lit out before I could reason with him any more. Just as like as not we will never meet again," and she sighed heavily.

"Be calm, madam, do not excite yourself too much."

"I am calm. I like to talk about these family secrets. It calls up sacred recollections. It makes me think of my darter's fust husband.—It was real fun to remonstrate with him. His har didn't give. He was game. He sassed back, but Lord! what a time they had holding the inquest. That was at Arkansas, before I moved to Galveston. There was some of his remains in one corner of the yard and a few more remains hanging on the fence, and there was right peart of him wrapped around the axe-handle. The jury knew me, so they brought in a verdict of justifiable suicide or homicide, or something like that. And now to think of the pesky, little worthless, spindle shanked, goggle eyed whelp getting clear off, except in a few pounds of har. I want you to find him for me. You can know him by the brands I made on him with the hot skillet. Wanted to amputate my jaw, the little brassy whelp! Said my mouth was like a gate, did he?"

[illegible] and let her know. As she went out she batted her eye significantly at the official and remarked:

"You had better find that prodigal son, or thar'll be music at these headquarters."—*Galveston News.*

SHE WAS "BOSS."

Topnoody made up his mind to-day that he was not going to be bossed any longer by his wife, so when he went home at noon, he stalked in and called imperiously: "Mrs. Topnoody, Mrs. Topnoody!" Mrs. T. came out of the steaming kitchen, with a drop of sweat on the end of her nose, a dish rag tied around her head, and a rolling pin in her hand. "Well, sir," she said, "what'll you have?" Topnoody staggered, but braced up. "Mrs. Topnoody, I want you to understand, madam,"—and he tapped his breast dramatically—"I'm the engineer of this establishment." "Oh, you are, are you? Well, Topnoody, I want you to understand I"—and she looked dangerous—"am the boiler that will blow up and sling the engineer clear over into the next county. Do you hear the steam escaping, Topnoody?" Topnoody heard it, and he meekly inquired if there was any assistance he could render in the house work.

Senator Bruce of Mississippi, says that while in Italy three years ago, he went into a barber shop at Pisa to have his hair dressed. "You know," says Mr. Bruce, in describing the incident, "that the hair of my peculiar race, color and previous condition of servitude, is very singular; the longer it gets, the shorter it grows, and really outkinks every conception of curiosity. There was just enough of the black race dashed with the white to furnish my barber such a specimen of wool as he had never seen before. He toiled with it, and was puzzled. After running the comb through it he would press it down with his hands, but it wouldn't stay down; it persisted in jumping up like a jack in a box. He went out and called in another barber, who stood over my wool, wondering. Finally he got his scissors, clipped it off to suit himself, and carefully wrapped up the fleece for preservation as the greatest curiosity he had ever seen. I could not speak Italian or English, so he must wonder to-day what manner of man I am."

Laws of New Jersey.

CHAPTER CLXXIX.

A further supplement to the act entitled "An act concerning mortgages," approved March twenty-seventh, one thousand eight hundred and seventy-four.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That every chattel mortgage shall vest in the mortgagee, or owner thereof, the right to the possession of the chattels therein described, so far as may be necessary for the purpose of preventing the removal thereof out of the county wherein they did lie at the time of the execution or delivery of such mortgage, and of recovering such chattels in case the same shall have been removed out of such county.

2. And be it enacted, That when such chattels shall be so removed by any party and recovered by the mortgagee or owner of the mortgage by means of legal proceedings, or when the removal thereof shall be prevented by like proceedings, the court in which such proceedings are had may regulate the disposition of such chattels, and prescribe such terms for the possession thereof by the mortgagor or other persons interested therein as will protect the rights of such mortgagee, or owner of such mortgage.

3. And be it enacted, That the above provisions shall not apply to any vessel, rolling stock of railroads, or to any chattels which in the ordinary use thereof at the time of the execution of the mortgage, are taken from time to time, out of the county wherein they did lie when so mortgaged.

4. And be it enacted, That every mortgage or conveyance intended to operate as a mortgage of goods and chattels hereafter made, which shall not be accompanied by an immediate delivery and followed by an actual and continued change of possession of the things mortgaged, shall be absolutely void as against the creditors of the mortgagor, and as against subsequent purchasers and mortgagees in good faith, unless the mortgage be recorded as directed in the succeeding section of this act.

5. And be it enacted, That the instruments mentioned in the preceding section shall be recorded in the clerk's office of the county wherein the mortgagor, if a resident of this State, shall reside at the time of the execution thereof, and if not a resident of this State, then in the clerk's office of the county where the property so mortgaged shall be at the time of the execution of such instrument; provided, that in any county where the office of register of deeds exists, or hereafter may be created, such instruments shall be recorded in the office of such register.

6. And be it enacted, That no chattel mortgage or conveyance intended to operate as a mortgage of goods and chattels, shall be recorded unless the execution thereof shall be first acknowledged or proved, and such acknowledgment or proof certified thereon in the manner prescribed by the act entitled "An act respecting conveyances."

7. THE MONEY ELECTION.

As was first suggested in the columns of THE CONSTITUTIONALIST, a public meeting was held in Van Deventer Hall, Tuesday evening last, to discuss the question and advisability of raising $15,000 additional funds to meet the requirements of a mandamus issued against the City Treasurer, demanding back taxes due. A full report of the meeting will be found in our columns, the remarks of the speakers, especially those of Mr. Kirkner covering the ground so completely that it is unnecessary to re-print them in an editorial. The general opinion of our citizens seems to be that the vote on Monday next will be largely "no money," because it is their opinion that all efforts have not been made by the proper authorities to force the payment of back taxes. It does certainly seem to us that there is some law that will meet the case, if the Council will cause a mandamus to be served upon the City Judge requiring him to at once take steps to collect these back taxes. A test case will be the only means of solving the question.

THE IRON COLLAR.

If Republican Senators think they can continue to manufacture party capital out of such violent "bloody shirt" speeches as Mr. Frye, of Maine, recently delivered, and the brazen calumny against Southern citizens which Mr. Dawes, of Massachusetts, is wont to utter, they are much mistaken.

To call such an exhibition of malice and falsity designed partisanship, is warranted by the fact that not a single Republican Senator raised his voice on behalf of truth and decency, even when the assertions of their radical spokesmen where clearly proven to be disreputable and unworthy the countenance of honest men.

The republican leaders have heretofore made much by keeping sectional animosity alive among the people of the North, but that game is, to use a current phrase, about "played out." No doubt individuals can be found so darkened by ignorance and thoroughly saturated with the gall of bitterness as to imagine slavery still an open question, and that hostility to everything Southern is a mark of loyalty to the Republican party. The great majority of Northern men, both Republicans and Democrats, scorn the continuance of sectional agitation for political purposes, they are sick of senseless turmoil, they well know that the bone of contention was buried long ago, and that their own and the general prosperity of a re-united country demands fraternity instead of hate.

It is strange that among the thirty odd Republican Senators at Washington, convened in extra session for the special object of considering Presidential nominations, and not to bargain with Mahone for a miserable mess of pottage, no one can be found ambitious for the honor of a patriotic statesman and sufficiently independent to spurn, even for a brief season, the iron collar of partisan servitude.

THE GAME LAWS OF NEW JERSEY.

[illegible] and consolidate the Game Laws of this State in a proper manner, so that they would be in unison and accord with laws of the same nature in adjoining States. But after the introduction of many bills bearing on the subject, that one finally passed differs but little from the law in force previous to its introduction. The only difference is that Summer woodcock shooting is allowed during a short period. We believe it would have been much wiser to have let the law remain as it stood in that respect. Although many papers of the State have published statements purporting to be the true text of the amended game laws, not one such statement has been correct. Starting originally in some small and obscure news (?) paper, whose editor certainly could not tell a jay bird from a ruffed grouse, the statement was made that quail, *ruffed* grouse and rabbits could only be legally killed between the 1st of October and the 16th of December. The act itself, as published officially in the papers, contains an egregious error, as it implies that while quail and ruffed grouse may be killed between the last day of October and the last day of December, rabbits shall only be taken between the last day of October and the *first* day of December. We have written to the Secretary of State for a certified copy of the law and have received the following, *which is the correct law* on the subject:

[redacted]

SENATORIAL.

The Democrats in the Senate of the United States have a rightful majority of one, but owing to the "readjusting" statesmanship of Mahone the body is equally divided, with Vice President Arthur to give the casting vote for party every time.

The Republican leaders are also divided, Conkling assuming to dictate appointments at one end of the avenue and Blaine at the other, with President Garfield to toot the party machine.

Under such circumstances the Democratic vote for confirmation or rejection is a very important matter, and bland are the smiles of rival Republican factionists because thereof.

We hope the Democratic Senators will stand severely aloof and let the happy family wash, dry and iron its own soiled garments.

Unless a nomination is clearly repugnant to every sense of propriety, the Democrats should vote to confirm, regardless of what Conkling, Cameron, or other spoilsmen may say or do. Duty counsels the Democratic side of the Senate to battle firmly for principles and, if necessary, to remain at Washington until, as Senator Vest, of Missouri, remarked—"the ice again gorges the Potomac and the snows of December wreath the hills in their winding sheet."

THAT HOSE.

We would state in justice to ourselves and in reply to the denials that have been published, that Chief Eng. Voorhees of the Plainfield Fire Department still adheres to the statement made to us by him, that there was a refusal of the loan of any portion of the hose belonging to the Woolen Factory at Bound Brook, during the late fire in that town.

The World's Fair.

The Executive Committee of the World's Fair Commission met on Wednesday last, but the sub-committee on the continuance of the scheme was not yet ready to fully and finally report. On next Wednesday, however, it is understood that arrangements looking towards the success of the affair will be consummated, prominent capitalists will enter the project and the Fair of 1883 will be assured. A change of site will probably be made.

The City's Jurisdiction Over Private Grievances.

On Saturday last, Captain of Police Dodd, informed Mr. Asa Vail that his presence was required at the office of the City Judge to answer a sworn complaint charging said Vail with having violated sections one and two of the ordinance relating to the peace etc., of the city. Vail pleaded not guilty, and his trial was set down for the 23d inst.

Craig A. Marsh, Esq., was retained as counsel by the defendant, and raised an important question of law at the trial, which though decided against him by the City Judge, is confessedly an open question, which a higher court will be asked to pass upon at the first opportunity. An appeal was rendered unnecessary in this case as the defense was successful on another point. The first point referred to was as follows: The city had proved that a rather turbulent affair, involving no breach of the peace, however, had taken place in the house of defendant, and that only the prosecutrix and defendant were present. The motion of the defense at this point was to dismiss. This was a private inquiry in which the city as such had no interest. Other courts were open for the redress of private wrongs. The city could not be called upon to bear the expense of such suits. One construction of the ordinance undoubtedly would give the court jurisdiction, but that construction would render the ordinance unconstitutional and hence should not be adopted.

The Court ruled that the Ordinance was so sweeping as to include cases like the present, and if unconstitutional the highest courts only should pass on that question. The defense then interposed was on the facts, and on these the defendant succeeded in obtaining a decision of "Not Guilty."

THE firm of Butts & Trimmer was yesterday dissolved by mutual consent. Mr. Trimmer will open an office in a few days.

THE Hackensack *Republican* says: "Now is the time when the sensible merchant utilizes the newspapers in order to let the people know that he was not frozen up last Winter."

WESTFIELD WISPS.

A fine display of flowering plants, in bloom, can be seen in the Post Office window.

Rev. A. G. Blauvelt, of Roselle, occupied the pulpit of the Presbyterian Church on Sunday last.

Mr. D. W. Lucas will occupy the "Kimball house" on Mountain avenue, during the ensuing year.

We hear complaints that the Westfield advertiser. Is this true?

The crossing at Broad street and Central avenue will be improved by raising it to a level with the sidewalk.

Question: Has "Old Hickory" anything to say about sidewalks this week?

Answer: Probably, as he has little else to say.

Mrs. Laura Wilcox has removed her Dressmaking Establishment to the "Hetfield Building," on Broad Street near Elm.

If the saying "we're saddest when we sing" is true, the birds in this section of the universe must indeed be sad. This is a Goak!

Road Overseer Pierson has been hard at work improving Elm Street, between Broad Street and the depot, during the past week.

The presentation to all purchasers of the "Parabola" cigarette of a *fac simile* of the "Obelisk," will certainly receive popular approval.

A very handsome exhibition of druggists' glass-ware, including sets of cologne, bay-rum and camphor bottles, can now be seen at Bayard's pharmacy.

Attention is called to the opinion of the Town Counsel, as reported in the minutes of the meeting of the Town Committee, with reference to Road Overseers' duties.

The intelligence of the death of Mrs. Sylvester Cahill of Cranford, on Friday last, was the cause of the deepest regret and sorrow on the part of her many friends here.

Our popular hotel and livery stable proprietor, Mr. A. W. Moffett, is already busy re-furnishing his stable, in order to be in readiness for the summer season. If present indications are a criterion, he will undoubtedly be in a position to furnish his patrons with the finest class of turnouts.

The following is a subscription list now being circulated in our village that deserves the support of its residents, viz.:

"We, the undersigned, residents of the town of Westfield, pledge ourselves to pay the sum set opposite our names toward the purchase of street lamps for our village."

A valuable dog the property of one of our citizens, returned to his home after an absence of several days, with the remains of the rope that he had been tied with about his neck, and which he had separated by the use of his teeth. The scoundrel who tied him up will undoubtedly be found out.

The Westfield string band under the leadership of Prof. A. E. Wilcox, left upon an early train on Monday morning last intending to make a tour of this State. It is the Professor's intention to combine the giving of concerts, with the proper introduction to the public of his justly renowned grease extractor.

The agent of Pennock's Patent Road Machine, who has been in our town for a day or two, gave an exhibition of the ability of the machine to perform all work claimed for it, on South avenue opposite the depot, on Monday afternoon last, and certainly made a successful exhibit. It is truly a wonder in its rapidity of operation.

Mr. William Blackie, author of "How to get strong and stay so," will deliver a lecture on Thursday evening, May 5th, at Lyceum Hall, subject: "Vigorous Men and Women." The proceeds will be for the benefit of the Westfield Athletic Club, an organization certainly deserving the greatest encouragement. We trust to see a full attendance.

An attempt was made to rob the out-buildings of Mr. Ed. Chamberlain, on Westfield Ave., during the night of the 20th. The burglars were surprised by the owner, but escaped without arrest or injury. They were, however, successful at the residence of Mr. Martin Clark and succeeded in securing two sets of harness, which, probably owing to fright, they left upon the road near Robert Woodruff's. The stolen goods were recovered by Mr. Clark the following day.

"DEATH LOVES A SHINING MARK."

The sympathies of our community were profoundly stirred on Tuesday morning by the announcement of the sudden death of Miss Lizzie D. Stitt, daughter of William Stitt, who three days before was upon our streets in all the brightness of health and hope. A lovely girl just blooming into womanhood, the only unmarried daughter of devoted parents, the light of the household and the prospective joy and stay of their declining years. With sincere sorrow for their great loss, we tender to her parents and family our earnest sympathy, and that of all their friends in the heavy affliction, which has cast so dark a shadow over their lives.

The continued attacks upon the Road Overseers of this township, in relation to repairs of sidewalks, made by "Old Hickory," are exceedingly unjust to these gentlemen and only calculated to defeat his certainly desirable object. We have hither to called public attention to existing laws governing this subject and would urge their careful perusal and consideration. If fault is to be found with any one the present or past Town Committees are the proper persons to complain of or bring complaints before upon the question of road work or sidewalk repairs. As far as the Road Overseers are concerned they are in no respect to blame. We venture to state that the different Road Overseers will, long before they could be justly called upon to do so, complete a good portion of their yearly work. While joining heartily in the correspondent's views regarding the necessity of immediate attention to the sidewalks, it is only fair that the responsibility for non-attention to it should be properly placed. For the information of those interested we give below the law in relation to the matter:

"*Revised Statutes 1868 in relation to Roads, Sec. 22d.* The moneys necessary for defraying the costs, charges and expenses of opening, clearing out, making, working, amending, repairing and keeping in good order the highways and procuring materials for the same, and also the compensation allowed for the services of the Overseers thereof, shall be granted, assessed, collected and raised in the manner prescribed by the act entitled "An act incorporating the inhabitants of Townships, designating their powers and regulating their meetings," and it is hereby enjoined upon the said townships that they be careful to have money in hand, ready to advance sufficient for the objects and purposes specified in the act."

This being the existing law, how can any one claim that the road overseers should advance money necessary to do this work especially when the late township counsel gave it as his opinion that a charge of interest for money so advanced was not proper or legally collectable.

Proceedings of the Board of Chosen Freeholders of the County of Union, N. J.

[OFFICIAL.]

ELIZABETH, N. J., April 7th, 1881.

The Board of Chosen Freeholders of the County of Union met at the Court House in the city of Elizabeth, on Thursday, April 7th, 1881, at 11 o'clock a. m.

Absent—Freeholders Miller, Roll, Smith—3.

The minutes of the last meeting were read (omitting bills ordered paid) and on motion approved as read.

COMMUNICATIONS.

A communication from the County Physician was read, notifying the Board that on March 29th inst., Robert Philips was run over and killed on the P. R. R., in Middlesex county, and brought into Union county and buried. Attached to the same was a certificate of death from the County Physician to be forwarded to Middlesex County.

On motion of Freeholder Hubbard received and placed on file.

A communication from John K. Roll, Esq., offering his resignation as member of the Board, from the township of Linden, was read by the Clerk.

On motion of Freeholder Forsyth, received and placed on file.

The following communication from the County Collector, together with an opinion from the County Attorney, was read.

To the Board of Chosen Freeholders of the County of Union:

GENTLEMEN:

I herewith submit the opinion of the County Attorney and the amounts of interest in question in accordance with a resolution passed at your last meeting requesting me to "consult with the County Attorney as to the amounts of interest charged up to the various cities and townships and report back to this Board at its next meeting such amounts of interest respectively as the decisions of the Supreme Court in mandamus suits decided were uncollectable."

The charges against Elizabeth from time to time amount to $4,666.89; the first charge is April 20th, 1877, and the last one May 1st, 1879. Against Plainfield the charge is $1,433.36; the first one is May 1st, 1878, and the last on May 1st, 1880.

These are the only amounts in dispute on the books.

All of which is respectfully submitted,
P. SHERIDAN,
County Collector.

April 7, 1881.
To P. Sheridan, Esq., County Collector of Union County:

Dear Sir:

I have examined the question of arrears of interest due from certain cities and townships in this county, and report that in my judgment where the principal of the debt has been paid by any city or township and accepted by the county, interest cannot be collected on the principle that interest is merely an incident to a debt, and when the latter is satisfied the former becomes merged. Until the recent decision of the Supreme Court in Sheridan, Collector vs. Van Winkle, Treasurer, of Plainfield, the prevailing impression in this State was that counties were not entitled to interest on balances due from cities and townships for State and County taxes, and when application has heretofore been made to the Courts for the enforcement of the payment of the debt, the principal has been demanded and allowed. But the rule to be followed now is well defined in the case cited by me, and there need be no difficulty in its application hereafter. As to the arrears of interest referred to me by the Board of Chosen Freeholders, I do not think it advisable to attempt their recovery, believing that we could not succeed in sustaining such a claim.

Very Respectfully,
P. H. GILHOOLY,
County Attorney.

On motion of Freeholder Hubbard, received and ordered spread upon the minutes.

A communication signed by the Township Committee of Linden Township, notifying the Board that Edward S. N. Newberry had been appointed Chosen Freeholder from the Township of Linden to fill the vacancy caused by the resignation of J. K. Roll was read.

On motion of Freeholder Briant, received and placed on file.

Freeholder Randolph moved that Mr. Newberry be invited to take the seat formerly occupied by Mr. Roll.

Which was carried, and Mr. Newberry took his seat.

The question having arisen as to the necessity of the oath of office being administered to Mr. Newberry, he did not sit with the Board until later in the meeting.

Freed from suffering and from pain,
From sorrow and from care;
Dear sister thou dost rest in Him
Whose love has brought thee there.
Sheltered beneath the blood,
Thine is eternal rest;

May be forever blest.

Through the merits of Him who died;
And all who receive God's precious gift
May enter and abide.

THE wheat throughout the country looks well, and the crop will probably be a good one, all prophecies to the contrary notwithstanding.

Is it not pertinent to ask how the—dickens the extra $15,000 is to be collected (if voted) when what is now due seems unobtainable?

THE first floor of Adam's Paint Store on Front street, has been lowered to a level with the sidewalk, and the front otherwise improved.

A LAW of much importance to Firemen's Relief Associations, Chapter CLXXXV, will be found on one of the outside pages of this issue.

THUNDER and lightning Monday night, and an imitation storm the next day. But where are those proverbial "April showers that bring May flowers?"

BAY windows have been put in front of Thos. Worth's Harness Manufactory, on Somerset street, wherein to display the handsome work made by him.

Plainfield is an "aristocratic" place, but all the same it has 380 names on its delinquent tax list.—*Rahway Times.*

Yes, but all the same it is not cursed with a heavy bonded debt like Rahway is.

NO opposing candidates for the office of Chief Engineer of the Fire Department, are in the field. "Doc" Voorhees retires and "Doc" Vail to all appearance will have a full vote, a free ballot and a fair count.

CORPORATION Counsel Kimball should be set right regarding an opinion recently quoted. He thinks there are no proper legal steps that can be taken by the Common Council towards the collection of State and County Taxes, but that the City Collector can go on and issue his *warrants.*

IT is illegal to take black bass from any of the waters of this State stocked by the Fish Commissioner, in any manner, except between the 1st day of July and the 1st day of November of each year, and then only with hook and line. The fine for violating the law on this subject is $25 for every fish so taken. The full law, Chapter CLXXXVI will be found in this week's CONSTITUTIONALIST. Cut it out for future reference.

THE *Banner* of Morristown, in speaking of the Bound Brook fire, says:

> The firemen, from Somerville and Plainfield, broke into a liquor saloon, got villainously drunk, and kicked up a high old row before they left.

The above is a libel on the members of both *Departments and is untrue. The* members of both the Plainfield and Somerville Departments, are composed of a different class of men than those whom a stranger reading the above paragraph, would imagine them to be. Not only are they gentlemen, but they are "workers," as every one who saw them at work on the Bound *Brook* and other fires, will attest.

THAT enterprising and successful merchant, *Mr. R. R. Fairchild* the furniture dealer, has just added to his establishment a brand new horse, harness and delivery wagon. The entire turnout presents a most attractive appearance.

ON Saturday next the many friends and patrons of Mr. Chas. Smith at the corner of Front and Somerset streets, will be gratuitously favored with bockwurst, bock-beer and sauer-kraut. For a few days, bock-beer will be kept on draught.

THE more commodious quarters now occupied by Mr. Mulford Estil at No. 7 Park avenue, enables him to display a most varied and attractive stock of fine stationery, birthday cards, children's carriages and bicycles and other articles in his line.

A TRIAL of the manner in which cleaning, scouring &c., is done at Becker's steam dye works on Front street, below *the post office, will* convince anyone of the uselessness of taking such work to New York or elsewhere. The prices charged are most satisfactory.

THE premises lately occupied by John M. Schorb Jr., is being divided into two stores, one of which will be for rent and the other occupied by *Mr. Schorb in his* business as a custom clothier. While the alterations are in progress, the above merchant may be found over the First National Bank.

AT the late monthly meeting of the Board of Governors of the Muhlenberg Hospital Association, of this city, it was reported that the Hospital building would soon receive its finishing touches. It is to be hoped that the balance of funds necessary to the completion of this desired institution will speedily be forthcoming.

A FIRE-proof vault six by ten feet, with a steel burglar-proof safe inside, is to be built in the First National Bank by Herring & Co.. Work will be commenced next week and although its completion will be at an expense of many hundreds of dollars, the entire protection of the Bank's property then secured is sure to be appreciated by its customers.

A CERTAIN Park avenue merchant recently came to grief upon arriving on *terra firma* from the top of his bicycle. (Of course it was no Jocke and we would not Gav-it away.) In consequence of such example a certain Front street merchant is importing a machine with *the little wheel in front.* No need then to "take a header and down you go."

THE lecture given under the auspices of the Deliber Society, by the Hon. Wm. Parsons on Michael Angelo, was not as extensively patronized on Thursday evening of last week as the exertions of the young managers and the eloquence of the speaker justly claimed. Those who did attend, however, were intensely interested and entertained by the graphic review given of the "great master's" accomplishments and career.

An Important law to Firemen.

Among the laws of New Jersey published in this issue of THE CONSTITUTIONALIST, will be found one of great interest to firemen, as under its provisions they are entitled to a remission of $5 taxation. The law is number CLXXIV.

Sudden Death.

Robert G. Van Duyne, a well-known resident and Justice of the Peace of Bound Brook, died suddenly from heart disease on Tuesday last. Mr. V. D. had attended Court at Somerville in the morning, and, upon his return was suddenly *prostrated as he was nearing his home in* the cars. He breathed his last in a few moments after his attack.

Died at the Age of Eighty-two.

Mme. Velazquez, wife of the late Prof. Mariano Velazquez of Columbia College, *died in this city, on Thursday of last* week. She was born in New York in 1799, and had spent her entire life in that city until ten years ago, when she came to Plainfield to live with her daughter, Mrs. Anastasia Azoy. She was the daughter of John W. Livingston, an officer of the Revolutionary War. Funeral services took place on Monday, and the remains were interred in Trinity Church yard, New York.

The Growth of Netherwood.

As Netherwood steadily attains growth in the way of new residences and expansion in the way of increased population, that little suburb does not neglect to add the conveniences of modern times. Following the establishment of a Sunday School which now numbers over eighty, comes the completion and furnishing of a chapel wherein sacred worship will be held so soon as the Hotel shall be opened. If our offshoot continues such rapid strides towards the dimensions and conditions of a city, it will soon be big enough and old enough to have a charter and a common council and all the modern improvements—including a mandamus.

The Hotel Netherwood.

Many additional rooms have been added to the Hotel Netherwood by the dividing of twelve of the largest, each, into two smaller but more available and serviceable rooms. Thus a family can *secure the same suite as last year* with extra apartments, for the same amount of money. By the building of an extension to the kitchen for the ranges, broiling furnaces and other cooking apparatus, and the erection of the chimneys on the outside of the building, those rooms that have formerly been unpleasantly warmed by the heated wall through which the flues passed will now be as cool and desirable as any in the Hotel. All these changes plainly show that a large patronage is expected during the coming season, and accommodation accordingly is being secured.

The Bound Brook Fire.

Plans and specifications are already out for the erection of a row of handsome three story brick store buildings on the site of the burned district facing the depot at Bound Brook, by the owners of *the land—Mr. John D. Voorhees owning* the largest share. Mr. Ramsey will commence at once the erection of a handsome brick hotel building and stable. The Brokaw Brothers, druggists, have erected a temporary wooden structure on the site of their former place of business, which they will occupy until the construction of their new brick *building* commences. Negotiations are being made to sell to the Central Railroad Company the land lying next to the Railroad, on which stood the buildings where the fire originated, with a view of turning the property into a Park, the same as around our depot. Such an event would be a great benefit to Bound Brook.

The Last of the Balls.

The season of many treading and light fantastic tripping, was closed in a most happy and joyous manner by the Plain*field Land League*, No. 1, at St. Mary's Hall, on Wednesday evening. Everybody was there dancing to the melodious music of Kerrigan's "polpies" and his assistants' instruments. Mr. Walsh favored the assemblage between dances with a display of his accomplishments, and an intermission during the evening was occupied *with the pleasures that appeal to* the digestive organs. Mr. Edward Bermingham as Floor Manager, and Messrs. John Martley and James C. Keegan as the Floor Committee, ably provided for the entertainment of all. The Committee of Arrangements can not be too highly praised for the entire success of the affair. It consisted of Messrs. John Martley, Edward Bermingham, Michael Quinn, Michael Moss, and James Keegan. The last order on the programme, "We part to meet in 1882," was consummated during the early hours of the following morning.

The Free Church of Italy.

The large gathering of all denominations that assembled in the Trinity Reformed Church on Monday evening last, was something unprecedented. Every pew was filled to its complete capacity, occupied camp stools were ranged along the aisles and many stood at the back of the room awaiting a vacancy. The pulpit was occupied by the Rev's. Bliss, Yerkes and Raymond; the latter of whom, after an opening hymn and prayer, introduced the speaker of the *evening whose appearance, eloquence and* cause had drawn together the large attendance. *Few foreigners* are better known by reputation in this country than Father Alessandro Gavazzi, the distinguished Italian reformer and orator. But a few years ago his name was on *every* tongue, and thousands flocked to hear his words as he made a second tour through the United States. Now for the third (and undoubtedly the last) time he is visiting America, and has just returned from the Pacific coast. Though over seventy years of age his great eloquence has not subsided, his fiery eye is *undimmed and his natural force unabated.* A review of his experiences and battles in the cause of free christianity against the *romish* church, was most interestingly related and attentively listened to; while the progress of reform in Italy and the results thus far achieved, met with *the appreciative sympathy* of the entire audience. A collection was taken up at the close of the discourse, with—so far as could be computed by observation—most desirable effect. The public are to be congratulated upon the opportunity afforded them, by the endeavors of the Rev. A. V. V. Raymond, to hear the great Italian reformer and to contribute towards the continuance of his work.

WHAT WILL YOU DO ABOUT IT?

The VanDeventer Hall Caucus—Money or No Money—Many Men of many minds—Many schemes of many kinds—Views of the City Authorities, the Legal Profession, the Clergy and the Citizens on Plainfield's Financial Condition.

The meeting called by the Common Council for Tuesday evening at Van Deventer Hall, did not bring together as large an assemblage as it was reasonably supposed would attend. At eight o'clock the gathering numbered nine, but grew as the evening advanced until it had reached thirty-six a half-hour later, when the meeting was called to order by President John M. Whiton. Mr. Samuel P. Huntington was nominated as chairman by Mayor Randolph and so chosen; the reporters being selected as the secretaries of the occasion.

Mr. Huntington on taking the chair stated that he believed the meeting was called to review the financial condition of the city, which at the present time was somewhat critical. He then called upon any gentleman who might be present, *that was informed as to the particular* object of the meeting, to come forward.

Mr. John Dietrich arose and said: "I have no desire to appear conspicuous, but I have a great desire to be informed as to how it is that the city has become involved to such an extent. I shall vote against all raising of extra monies unless some better reason can be given for such demand than has been made public. I have paid all taxes and legal assessments made upon me, and therefore expect the protection of the State, County and City; but I do not understand why after paying such we should be called upon for $15,000 *additional. What assurance have I but* that even if such be granted we may be called upon again, on account of delinquents, for $15,000 more?"

Mr. Jacob Kirkner presumed that some member of the Common Council might be possessed of the information asked. He called upon any such if present.

Mr. Wm. M. McCutchen amended the request of Mr. Kirkner by calling for the Mayor.

His Honor replied: "Gentlemen and citizens I would be glad if I had anything to say in addition to what I have already said to the Council. This is a meeting, as I understand it, at which we as neighbors and citizens may compare notes, see who is at fault and see what we can do to place ourselves on a firmer basis. I think it was the purpose of the Council to obtain at such a meeting whatever useful suggestions might be made for their adoption in the future. They have no particular axe to grind. *It is of no sort* of personal consequence to the members of the Council, or to me, or to any of you—as I know—whether money is voted or not. It is supposed by some that three years ago, when one or two laws were passed, that just there and then, in the passage of either or both, there was a re*sponsibility that was fastened upon the* city of Plainfield in regard to the State and County taxes. If so, it was done with a purpose—it was intended to be done! If the act means that, it was meant to mean that! If it was done intentionally I would be glad to see the man who did it, or helped to do it, stand up in this assembly and present a good, sound and substantial reason for fastening upon the municipality of Plainfield and its little tax of $10,000 the responsibility of a tax averaging about $30,000, or any deficiency thereof. I do not believe there is any gentleman in this room *or any gentleman in this city*, that ever assisted in placing the responsibility of the $30,000 upon the $10,000. We shall be called upon next Monday to vote for or against the raising of an additional sum of money—and therefore we may as well look upon the state of the case. The taxes of the city of Plainfield are paid better than in any other town. *I feel a* grievance against the people who do not pay their taxes, but it is fair to say that only about ten per cent., is not paid. I grant that the percentage should be less, but taking the other cities of the State there are few that are paid even as well as ours. The taxes you will find—leaving out the year 1880—are collected to the extent of 91 per cent. Including 1880, to the extent of about 89 per cent. Observe then our $10,000 a year is responsible for the $30,000 a year or any deficiency thereof, and the deficiency is 10 per cent., then there is $3,000 to come out of our $10,000 *each year. Three years' deficiency will* consequently absorb our whole $10,000. I am informed that the deficiency arising during the last three years has reached the amount of $15,000—but speaking generally, there is enough at the end of every third year to consume our entire levy. What shall we do about this? It seems to me that we ought to have it definitely settled about the responsibility of this $10,000 for the deficiency in the $30,000. We are advised by excellent lawyers that points have arisen whereon which we are justified in denying such responsibility. Supposing the Supreme Court *reaffirms* what it *has* already said, then there is another court, the Court of Errors and Appeals, to which it should be taken. Supposing we assume the responsibility, take up the burden and go on in endeavoring to collect the State and County taxes as it would under those circumstances be our duty to do. The Constable goes to Mr. A. B., and says, 'please pay up your taxes like a man.' Mr. A. B. says, 'I don't propose to pay any taxes in this town.' The Constable replies, 'then I shall proceed to sell your property.' Mr. A. B. says, 'when I want my property sold I will sell it myself.' That is all the satisfaction the Constable gets, and he subsequently sells the delinquent's property. The buyer wants possession and goes to the Court to get it. The case finally gets into the Court of Errors and Appeals and it says the proceedings are all wrong and the property owner is right. If the responsi*bility rested upon me I should* go forward with the defence and carry it to the court of last resort. I would do this because I should not only feel that I have no right to vacate any of the privileges of the people, but because also, it would be my duty in view of the probability that it was not intended to fasten the responsibility where it has been placed. We have an honest and equitable case before the Supreme Court, and whatever its ruling may be, we need such decision even if against us in order to know what is our position when in future we must deal with the question. Owing to another decision that has come down *from* this same Court, the warrants of the City Judge are confined to the years when he served or during which the delinquents were reported to him. I must express a hope that this ruling will also be set aside. You say 'why does not the city proceed to collect what it can—why *does it not sell some one's property for* the unpaid taxes of 1880?' I am prepared to say that even within the very narrow sphere in which we can travel, it is the duty of everyone connected with the city government to collect all the taxes they can possibly control. I do not think we should assume the responsibility of the State and County taxes, while the matter is pending, but it is our duty to collect what we have the power to. I hope that those who are delinquent *will have their property sold* [applause]. Anything I can do in that direction I am desirous of doing, and anx*ious for your advice in the matter.*" (Continued applause).

Ex-Judge P. P. Good asked the speaker: "During the continuance of the line of defence you propose to take, what help do you intend to provide for the city in its present financial trouble?"

The Mayor *referred* his questioner to the Common Council, whose business he said, was to provide the best means obtainable in its power. "I will say," he continued, "that there are a number of ways. One is for the people to vote for money if they *will*, and if they *will*, to vote for enough to allow sufficient to be *set aside* to satisfy the mandamus, which must be done or we cannot go on. Another thing that can be done is to issue bonds to cover the floating debt. I want to be thoroughly understood on this (as on every other) point, as wishing to express my entire dissent, as an humble citizen, against any such action. The Council also have a right to issue warrants, let the people take them and get judgment against the city, and force them into future assessments. But this I may say is objectionable—possibly dishonest." Being asked when the indebtedness was first incurred and who was *responsible for it happening*, the Mayor stated he felt his inability to answer such interesting and pertinent questions, and called upon Councilman W. McD. Coriell, as a member of the Town Committee, for an explanation.

That gentleman said the Collector had told him that there was sufficient uncollected taxes in 1878 and 1879 to take the mandamus off the city. After the Township had been abolished the Town Committee had issued warrants on which $10,000 had been collected.

Ex-Judge Good wanted to know whether the Common Council had ex*hausted every legal method to collect* the delinquency. He asked that body, he asked the Corporation Counsel and he asked the Mayor.

President Whiton begged leave to inquire of Mr. Good, why—if the arrears of taxes were so easy to collect—*he* didn't collect them when he was in office.

The gentleman replied, "My duty was simply to issue the warrants. When I was City Judge there were two governments, and no order came to me from either the Town Committee or the Common Council to issue warrants. I had no power until so ordered. During my term of office *I collected over $3,000 a* year of the School fund, of the Poor fund and of the City fund. *The salary of the* City Judge never cost the city one cent. The fines of the Court paid his salary. Where in the annals of history is told a story equal to it? And I am proud of it!"

Mr. Coriell asked information concerning the legality of the Common Council to authorize the collection of the State and County taxes. *If they were collected* the mandamus could be met.

Mr. Good advised that a mandamus be procured against the City Judge, ordering him to issue his warrants for the collection of the State and County taxes. *If he then refused*, the matter should be taken to the highest court and a decision obtained defining the officer's power.

Mr. Whiton replied: "Such was done in the case of City and Poor taxes and it was ruled that the City Judge had no power although the charter expressly states that he has. How is it then, that there is any *possibility of the court deciding* that the City Judge can issue warrants for the collection of the State and County taxes which the charter says nothing about, when it has decided that he cannot issue warrants for the collection of the City and Poor taxes which the charter expressly provides he shall do?" *In reply* to an assertion of Mr. Good's to the effect that certain members of the Council were aiming to bond the city, Mr. Whiton said: "Mr. Good knows as well as he knows his right hand, that no member of the Council would desire or vote to place a single bond upon the city."

Corporation Council Chas. W. Kimball also arose to correct a misstatement, he said, of Mr. Good's. "I expressed to him that I had grave doubts whether the City Judge has power to issue warrants for the collection of State and County taxes. I think so yet. As he [Mr. Good] has *told something I didn't say*, I will tell something he *did say*. He told me that he had been advising his clients not to pay their taxes." (Laughter and applause.)

Mr. Good not at all discomfited, acknowledged having done so. Until the authorities took some legal measures to *force the collection*, he considered the delinquents right in declining to volunteer a payment of their indebtedness.

Mr. Mc Cutchen said he understood Mr. Good's theory to be, that a man should be just as honorable as the law compels him. (Laughter)

The Rev. Dr. D. J. Yerkes then spoke at some length, saying among other things "I look at the matter as vitally effecting the prosperity of the city. If matters continue in their present state our property will depreciate, our streets will be uncared for and the growth of our population will cease. There have been many ways out of the difficulty suggested this evening, which if carried out will succeed in doing nothing. There are people among us who enjoy the privileges of lighted streets and the protection of the police, yet do not pay for such. That is something I would not care to do. But I do not propose that the city should *be disastrously effected while* the matter of the mandamus lies in abeyance. I shall do my part and shoulder my share of the burden by gladly paying an additional tax. I stand here to-night to say that for the sake of the honor of Plainfield and for the sake of the people of Plainfield, although they may not work at the pumps, I will do all *I* can to save the ship."

Dr. Allen counseled the payment of the present indebtedness and the taking of measures to prevent any like situation arising in the future.

Mr. B. Frank Coriell said he did not see how in voting the $15,000 *the people* were getting themselves out of the difficulty. "We want to know," he continued, "whose place it is to collect the State and County taxes. So long as money is voted to the city, just so long will the Common Council shirk the responsibility of collecting the State and County taxes."

Mr. Kirkner followed: "It is plain that the Councils of '78, '79 and '80 have been very derelict in their duty in not collecting the State and County taxes, and it also strikes me that the Council of '81 is also likewise to blame for not finding out its power, in that direction. In my mind the power is somewhere—no act was ever passed to do away with taxpayers. Common sense dictates to me that the city government has the same powers as the late Town Committee."

Mr. John Simpson most emphatically objected against being charged with any *lack of duty. He said that when he was* in the Council he had nothing to do with the State and County. He considered that he was placed there to look after the interests of the city.

Chairman Huntington at this stage very sensibly remarked that there was no end to be reached by the present discussion—it might go on until there was only one man left in the Hall. He suggested that a motion to adjourn would be in order.

Mr. E. C. Morse moved that the Common Council be requested to test the legality of the power of the City Judge to collect the State and County taxes.

Mr. Good thought such test was an impracticable measure at the present time.

The Mayor asked Mr. Morse's permission to substitute the following resolution for the latter gentleman's motion, which was granted:

> *Resolved*, That in the opinion of this meeting the duty of the City Government, and its legal adviser, is to defend, to the best of their opportunity and ability, in all the Courts, the interests of the city involved in the case now in the Supreme Court, in which a claim is made against the City for State and County taxes.

Mr. James E. Martine said: "There is probably no one in this city that has a deeper or more heartfelt sympathy with its prosperity than myself. I have always been and will always be opposed to a system of bonds. When Judge Good said that in the event of a man having a counter claim against the city he should first pay his taxes and then seek redress *by legal methods, I would have known* it was a lawyer speaking if I had had my eyes closed. In this way of seeking relief the lawyer sees a consequent fee. I believe in the case of a just and valid off-set against a man's taxes; it is the duty of the Common Council to consider it. The way out of the city's present difficulties seems to me to be by a course of the most strict and rigid economy. Not by indulging in such luxuries as one Councilman has advocated and the body has ordered—an appropriation of $800 for a public library—"

The speaker was interrupted by the demand of a gentleman present that the discussion should be confined to the subject of the resolution before the meeting. The chair so ruled, and upon Mr. Martine's request that as a matter of privilege he be allowed to continue, the ruling was sustained. The resolution was then passed by a show of hands, re*sulting in 26 for and 4 against.*

Mr. Martine began again, but a motion to adjourn was carried before he had fairly commenced what promised to be a most interesting speech but one that some of the authorities seemed to fear.

Mr. Peter V. R. Voorhees—Deceased.

The New Brunswick *Times* of Saturday last thus speaks eulogistically of the father of Chief Engineer Wm. H. Voorhees of our Fire Department:

The many friends of Mr. Peter V. Voorhees, who resided at No. 1 Oliver street, will be pained to hear of his un*expected decease, which occurred yesterday* afternoon, after an illness of only one week. The cause of death was remittent fever, and from the time of his first sickness until he breathed his last he had not partaken of a mouthful of food. Mr. Voorhees was almost a life-long resident of this city, and until the breaking out of the *Rebellion* followed the occupation of a bookbinder, working almost entirely on spelling books destined for the Southern trade and printed by thousands from stereotype plates *by* John Terhune. The breaking out of the war ruined this industry, and since then Mr. Voorhees has followed the business of making paper boxes for the Novelty Rubber Company.

The Largest in the World.

The Equitable Life Assurance Society announces this morning that it is doing the largest business done by any company in the world. To *lead* all the insurance institutions of the United States and Europe is a position of which any company may be proud. The Equitable Society has won its position fairly; for it has never been backward in its efforts to make life insurance popular and safe. Its *Tontine policies have met with great* favor; since they offer to the insured not only an indemnity, but also the privilege of stopping his insurance without loss to himself at a certain time of his own selection. In the course of events there are many persons who find themselves no longer in need of life insurance; and the privilege of withdrawing from it without loss is a valuable peculiarity of the Tontine plan. The Society shows examples of persons being insured for ten years, and then terminating their Tontine policies, and receiving cash in some instances equal to the whole of the pre*miums paid; in others, nearly all.* Tontine life policies may be issued on the ordinary rate, which is much lower than the endowment rate, and is the lowest rate charged. The Equitable has no arduous conditions in its policies which are incontestable after three years, and payable at maturity, without rebate of interest, immediately after the receipt of satisfactory proofs of death. This is a fact which cannot be too much appreciated.

It is reported that in the contest of Mr. E. L. Morris for the "Councilmanic *seat" now occupied by Mr. E. L. Finch*, the former has been defeated.

Personalia.

Col. Milton Cogswell, who is so kindly remembered by the many friends who met him during his late residence in this city, will be relieved from his present position as Superintendent of the Soldiers Home at Washington on June 1st. Col. *Cogswell is on the retired list* after faithful service during the war, and his present position is the only one where such officer is entitled to receive the pay of his rank. He has filled his place efficiently and acceptably but is superseded because of his sympathy with Gen'l Hancock. Such is "Civil Service Reform" *a la* Garfield.

The many friends of Mr. Geo. L. Haley, will learn with regret of his removal from this city, to his property at Scarborough, Westchester County, N. Y., where he will remain this summer.

The change of residence of Dr. J. H. Vincent from this city to New Haven, Conn., will necessitate no removal of the headquarters of the Chautauqua Literary and Scientific Circle. The correspondence and other business of the organization will be transacted in Plainfield as usual, under the efficient superintendence of Miss Kate F. Kimball.

Mr. John Egberson, formerly proprietor of the Park House livery and the stables at the corner of Second street and Park avenue, was in Plainfield on Monday last. He reports business good, and looks every inch a successful and prosperous man.

The reception to have been given by Mr. & Mrs. E. H. Depew at their residence on the 26th of April, in commemoration of the Fiftieth Anniversary of the marriage of Mrs. Depew's parents, Mr. & Mrs. Abraham S. See, has been postponed on account of sickness in the family.

Mr. and Mrs. Augustus M. Laing have now a little life to look after and a character to form and train in the way it should go. It arrived on Sunday evening, is a little heiress and weighed 9½ lbs.

Miss Ella Whitehead, one of the most prominent evangelists of the State—whose labors at the Ocean Grove camp meetings in the past have been productive of so much good—has been visiting in North Plainfield.

It is understood that Mr. Alexander Gilbert will occupy the vacancy to which *he has* been elected in the Common Council. His consent to do so if chosen, was obtained before his name was presented for consideration.

The sympathies of the public are with Mr. John A. Clare in his recent affliction, that of the loss of his daughter, Mrs. Harriet A. Eckhardt, notice of which appears under head of "deaths" in this issue.

We regret to learn of the indisposition of our fellow-townsman, Silas D. Herring, Esq., who has been confined to his home the past week with rheumatic difficulty.

It was Mr. Thos. Jones, who so opportunely located No. 2 Engine on the river bank at the Bound Brook fire, that the apparatus got to work in so short a time. Tom is a member of No. 2.

The Rev. Mr. and Mrs. A. V. V. Raymond left Plainfield early in this week *for Middleville, Herkimer Co., N. Y.*, the former home of the lady; whereat she intends making a visit extending over a few months. The Rev. Mr. Mosher assistant at the M. E. Church, is announced to occupy the Trinity Reformed pulpit next Sunday morning and the Rev. Dr. Lewis in the evening. Mr. Raymond expects to return by the Sunday following.

Mr. D. J. Marshall is suffering severely from an attack of inflamation of the bowels, but although exceedingly ill his speedy recovery is earnestly hoped for.

Our courteous baggage-master, Mr. Jeremiah F. Garretson, is again confined to his house by reason of illness. Our best wishes for his speedy recovery are offered.

NORTH PLAINFIELD PARAGRAPHS.

The Somerset County Courts have granted a re-license to the Hotels of Geo. Dembe ("Notch House"), Stephen Staats ("Rock House"), and Joseph A. Blatz, ("Blatz's Hotel"). A license to Mr. J. Hughes ("Somerset House") was not granted. There were no remonstrances against the same, according to the state*ment given us, the reason of the rejec*tion of license being that it was stated before the Court that one Hotel in North Plainfield was sufficient.

A very handsome magnolia tree in full bloom in the grounds of Mr. C. E. Dunham on Emily street, is attracting considerable attention and admiration.

Mrs. Joseph Stiles whose illness was reported last week, died on Monday and was buried by order of the Township authorities the next night. Others of the family are considered to be in some danger from the same disease of which she died.

A LITTLE OF EVERYTHING.

Ladies take great comfort in telling how small a shoe they can wear, but they don't say how many bottles of German Corn Remover are up stairs.

Parents should remember that the A. S. T. Co. Black Tip under children's shoes protects the shoe from wear as well as the metal tip, and is not objectionable in any way.

RESCUED FROM DEATH.

The following statement of William J. Coughlin, of Somerville, Mass., is so remarkable that we beg to ask for it the attention of our readers. He says: "In the fall of 1876 I was taken with a VIOLENT BLEEDING OF THE LUNGS followed by a severe cough. I soon began to loose my appetite and flesh. I was so weak at one time that I could not leave my bed. In the summer of 1877 I was admitted to the City Hospital. While there the doctors said I had a hole in my left lung as big as a half-dollar. I expended over a hundred dollars in doctors and medicines. I was so far gone at one time a report went around that I was dead. I gave up hope, but a friend told me of DR. WM. HALL'S BALSAM FOR THE LUNGS. I laughed at my friends, thinking that my case was incurable, but I got a bottle to satisfy them, when to my surprise and gratification, I commenced to feel better. My hope, once dead, began to revive, and to-day I feel in better spirits than I have the past three years.

"I write this hoping you will publish it, so that every one afflicted with Diseased Lungs will be induced to take DR. WM. HALL'S BALSAM FOR THE LUNGS, and be convinced that CONSUMPTION CAN BE CURED. I have taken two bottles and can positively say that it has done more good than all the other medicines I have taken since my sickness. My cough has almost entirely disappeared and I shall soon be able to go to work." Sold by druggists.

IF YOU ARE SICK, READ

the Kidney-Wort *advertisement in another* column, and it will explain to you the rational method of getting well. Kidney Wort will save you more doctor's bills than any other medicine known. Acting with specific energy on the kidneys and liver, it cures the worst diseases caused by their derangement. Use it at once. Its dry and liquid form. Either is equally efficient, the liquid is the easiest, but the dry is the most economical.—*Interior.*

I HAVE BEEN A SUFFERER for years with Catarrh, and under a physician's treatment for over a year, have tried a number of "sure cure" remedies and obtained no relief. I was advised to try Ely's Cream Balm. It gave me immediate relief. I believe I am now entirely cured. G. S. DAVIS, First National Bank, Elizabeth, N. J., Aug. 14, 1879.

DURING THE PAST FIVE YEARS I have suffered from Catarrh and have used without relief remedies prescribed by various physicians. I was advised to try Ely's Cream Balm, am using it with beneficial results, and feel confident I shall be completely cured of a disease that has seriously affected not only my nostrils but also my eyes and hearing. HER DAUGHTER'S STORY

"My mother residing at Stamford, Conn., is 63 years of age, and for four years has suffered from Rheumatism, so much so that she was unable to move about the house. A lady friend induced her to try your 'Favorite Remedy.' She did so and found great relief." The above is a quotation from a late letter addressed to Dr. David Kennedy, *of Rondout, N. Y. "Kennedy's Favorite Remedy"* not only cures Rheumatism, but is the popular specific for all diseases of the Blood and the ills incident to females.

The Morristown Common Council is considering the advisability of introducing the fire alarm in that place.

Statistics often prove unwelcome *facts and none more so than that twenty per cent. of the* people of this State die from consumption and kindred diseases. The great question how to reduce this terrible mortality has engaged the minds of our most eminent scholars and physicians. From the testimonials of thousands who have used [illegible], nothing in the way of medicine has ever done so much toward this end. In all affections of the throat and lungs its remedial effect is simply wonderful. Once introduced into every household it would banish the terror of this disease from the land. Sold by A. [illegible], druggist.

AN OLD DOCTOR'S ADVICE.

It was this: "Trust in God and keep your bowels open." *For this purpose many an old* doctor has advised the habitually costive to take Kidney-Wort—for no other remedy so efficiently overcomes this condition, and that without the distress and griping which other medicines cause. Don't fail to use it.—*Translated from the New Yorker Zeitung.*

The resignation of Col. John C. Rose, of the Third Regiment, has been received at headquarters.

KILLS THE PLEASURE

Illness in the house affects the whole family in some manner. When the sickness is serious, the children's laughter must be hushed, footsteps must be softened; all goes amiss and wrong. Dr. David Kennedy's 'Favorite Remedy' stands in your door way and says to sickness: "Keep out!" It will cost you only a Dollar to put the sentinel on duty, and for his faithfulness thousands can vouch. Ask your druggist or write to the Doctor at Rondout, N. Y.

Laws of New Jersey.

CHAPTER CLII.

An act to authorize the abatement of nuisances in cities, and to make the cost and expense of such abatement a lien upon lands wherein such nuisances existed.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That whenever a petition, signed by at least five freeholders, residents of any city in this state, stating that a nuisance exists upon any lots or lands within or adjacent to the boundaries of any such city, by reason of stagnant water or because such lots or lands are not dried so sufficiently to make them dry and healthy, or because buildings are in danger of falling for want of proper foundation, shall be presented to the grand jury of the county in which such city may be situate, it shall be the duty of such grand jury to investigate the matters contained in such petition forthwith, and for that purpose such grand jury shall have power to call and examine witnesses, and to view the premises whereon such nuisance is alleged to exist; and if such grand jury shall be of the opinion that a nuisance does exist, they shall forthwith make a presentment to the court of oyer and terminer of such county, that in their judgment and opinion such nuisance does exist and should be abated.

2. And be it enacted, That as soon as said presentment shall have been made, it shall be the duty of the prosecutor of the pleas of such county to apply to said court of oyer and terminer to fix a time for the trial of the matters contained in such presentment, and such time having been appointed, the said prosecutor shall serve a notice upon the owner of the premises whereon such nuisance is alleged to exist, informing such owner of the time and place when and where the trial of the matters contained in such presentment will be tried, and notifying such owners to appear and make defence; which notice shall be served personally upon such owner, if found in the state, and if not so found, then said notice shall be served in such manner as the court shall order, either by publication or personal service out of the state.

3. And be it enacted, That said court shall also award a venire to summon a jury, as in other trials of issues in said court; and on the day fixed for trial the said matter shall be tried, unless adjourned by order of the court, whether the owner of such premises appear or not, and such trial shall be conducted in all respects as other trials by jury in said court; and the court shall have full power and authority to make all necessary orders of rules for the speedy and expeditious determination of the matters contained in such presentment.

4. And be it enacted, That if such jury shall determine that the nuisance exists as set forth in such presentment, judgment shall be entered accordingly, and the costs be paid by the parties [illegible], and execution may be issued therefor; but if such jury shall determine that such nuisance does exist, then the court shall give judgment against the owner of the premises whereon such nuisance is found to exist, and also that the nuisance be abated by such early day as the court shall appoint; and if it shall appear to the court by affidavit that such nuisance has not been abated by such day, then it shall be the duty of the clerk of the court to certify the judgment of the court to the municipal authorities of the city wherein such nuisance is found to be, and such authorities shall thereupon proceed to abate such nuisance in the most practicable and economical manner.

5. And be it enacted, That as soon as such nuisance shall have been abated, a complete statement of the cost and expense of such abatement shall be presented to the corporate authorities of such city, and if they approve thereof such cost and expense shall thereupon become a first and paramount lien upon the lands and premises whereon such nuisance has existed, in the same manner that taxes are a lien under the charter of such city; and they shall transmit the same to the collector or receiver of the revenues of such city, who shall proceed to collect the amount of such cost and expense, as taxes and assessments for improvements are collected.

6. And be it enacted, That if such cost and expense [illegible]

[illegible]

3. And be it enacted, That the said trustees shall receive no compensation for their services, but the expenses necessarily incurred by them in the discharge of their duties, shall be paid upon the approval of the governor.

4. And be it enacted, That all acts or parts of acts inconsistent herewith are hereby repealed, and this act shall go into effect immediately.

Approved March 24, 1881.

CHAPTER CLXVI.

A further supplement to an act entitled "An act concerning evidence" [Revision], approved March twenty-seventh, one thousand eight hundred and seventy-four.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That any public record of any foreign state, county or city, or of any court therein, or any copy thereof, which is admissible in such state, county or city, or in any court therein, to prove the facts therein contained, shall be admitted in evidence in the courts of this state, and shall be evidence of the facts therein contained, to the same extent as though the original papers, of which the record thereof is a copy, had been produced and proved; provided, that whenever a copy of any such record shall be offered in evidence, the same shall not be admitted, unless the same shall have been first exemplified according to the laws of the United States of America.

2. And be it enacted, That this act shall be deemed a public act, and take effect immediately.

Approved March 24, 1881.

CHAPTER CLXVII.

A supplement to an act entitled "An act to define and suppress tramps," approved April nineteenth, one thousand eight hundred and seventy-six.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That the second section of the act to which this is a supplement, be and the same is hereby amended so that the said amended section shall be, and read as follows:

2. And be it enacted, That if any person shall be found offending in any county, city, township, borough or district in this state, against this act, it shall and may be lawful for any constable or police officer of such place, and he is hereby enjoined and required, on notice thereof given him, by any of the inhabitants thereof, to apprehend and convey such person to a justice of the peace or other magistrate of such place, who shall examine such person, and may commit him or her, being thereof legally convicted before him by the oath or affirmation of one or more credible witnesses, other than the officer making the arrest, to labor upon any county farm, or upon the streets, roads and highways of any city, township or borough, or in any house of correction, poor house, work house or common jail, for a term not exceeding six months; and shall forthwith commit him or her to the custody of the steward, keeper or superintendent of such county farm, house of correction, poor house, work house or common jail, or to the supervisor or overseer of highways, street commissioners, or any other officer or officers having in charge the repairs of any street, road or highway, or overseers of the poor of the respective county, city, borough or township wherein such person shall be found, as in their judgment shall be deemed most expedient.

2. And be it enacted, That this act shall take effect immediately.

JUSTICE TO McCLELLAN.

The *Saturday Review*, an English publication, in a recent number spoke thus justly:

"Every man who has studied with average candor the history of the Confederate war knows that the North owed at least as much to the patient wisdom, the organizing genius, the temper, the forbearance, the enduring good faith of General McClellan as to the daring and strategic skill of Sherman, or the stern resolution and capacity for extensive command displayed by General Grant. But for McClellan the North would never have had an army; and McClellan's work was done at the most critical moment of his country's fortunes, in despite of a factious, spiteful, persistent opposition from nearly every member of the Cabinet. Opposed to the greatest general and the best army of the South in its prime, unsupported by his own Government, McClellan achieved at the head of a hundred thousand men, turned by himself into an army, almost as much as General Grant, with thrice that number in the field, accomplished, with the full confidence and eager support of his own Government, against the mere wrecks of the army of Northern Virginia."

That is a tribute to General McClellan honorably expressed and fact sustained.

There was not in the entire military service of the Union a more skillful commander and braver soldier than George B. McClellan, and had not political intrigue and venom at Washington blocked his efforts in every possible way, because he was a Democrat, the war would have been ended by him long before it was, and thousands of lives and millions of treasure saved to the country.

THE ANTI-TREATING LAW INOPERATIVE.

MILWAUKEE, April 16.—In a test case to-day to determine the legality of the celebrated anti-treating law of Wisconsin, it was found that the law was inoperative because of an error in the text of its supposed enactment, the bill as drawn specifying the repeal of an old law that was dropped when the State statutes underwent their recent revision. Judge Mallory held the law to be inoperative and void.

Change of Signals.

The Elizabeth *Journal* is responsible for saying that an entire change of signals will go into effect on May 1 next on the Central Railroad of New Jersey. They will be directly opposite to the signals now used. Two blows on the whistle will mean to start—before it meant to stop. One blow on the whistle will mean to stop—before it meant to start. The signals on the bells will be the same as the blows on the whistle. The raising and lowering of the arm will mean to go ahead—before it meant to stop. Other signals, known to railroaders, have also been changed.

It is surprising how easily some of *our business men are duped by wandering* sharpers into "advertising" in various patent shapes, of benefit chiefly to said sharpers. Men who hesitate to invest a few dollars a year in newspaper advertising, will give these strangers five to twenty-five dollars for space on a card, a few of which will be posted and seldom read, or on the pages of a hotel register or around a calendar to be given away, and imagine they have bought a prize. The same amount of money paid to a popular newspaper would command the attention of at least twenty purchasers where the obscurely placed card referred to would be seen by one. There is no advertising like newspaper advertising and none so cheap in proportion to the number of eyes reached. But this is a free country and men have a right to be fooled if they like it.

The great immigration of 1880 seems likely to be surpassed by that of 1881. For the first three months of 1880 the arrivals in New York numbered 26,520; this year, with one week's return of the first three months yet to come, the arrivals number 37,418, an increase of more than 10,000. The growth of population during the decade will be very great if immigration should continue for ten years at this rate. Between 1870 and 1880 there were only about three years of large lists of arrivals, the panic putting an end, for the time being, to the great westward movement of the people of Europe.

The Utica *Observer* has made the discovery that the Mayors or Mayors-elect of the ten largest cities in the Union—New York, Philadelphia, Brooklyn, Chicago, Boston, St Louis, Baltimore, Cincinnati, San Francisco and New Orleans—are Democrats. The municipalities thus under Democratic control have a population of 4,658,478 souls —or nearly one-tenth of the entire population of the country.

Professional marksmen have been ruled out of the rifle matches at Creedmoor for this year, except when handicapped ten per cent. of the possible score. This will give the amateur riflemen a fair chance of success, and will, doubtless, increase the attendance at matches.

Sergeant Bates, who made himself notorious by marching through the Southern States and part of Europe carrying the American flag, is reported to be dying in abject poverty in Saybrook, Illinois. He has a wife and six children.

By the late township elections, the Board of Chosen Freeholders of Union County, will be composed of eleven Democrats and five Republicans, and one Independent. There is one vacancy to be filled from Elizabeth by Mr. Bell's death.

O'Brien, the man who swore that he knew "H. L. Morey," the man to whom, it was alleged, President Garfield had written the Morey forgery, has been sentenced to State Prison for eight years for perjury.

THE NEW BUSINESS
OF THE
EQUITABLE
Life Assurance Society of the U. S.
FOR THE YEAR 1880, WAS OVER
Thirty-Five Millions of Dollars,
The Largest Business Done by any Company in the World.

REASONS FOR THIS RESULT.

The Equitable is the strongest Company in the United States.

ITS policies are, by their own express terms, made incontestable after three years. [For precise terms see form of policy contract.]

ALL such incontestable policies are paid immediately after receipt of satisfactory proof of the death of the insured, and without even the customary delay of sixty or ninety days.

EACH ordinary policy provides for a definite surrender-value in paid up assurance, in case the policy is forfeited after three years from its date, and is surrendered within a reasonable time thereafter.

BY THE TONTINE SAVINGS FUND plan of assurance, *returns to policy-holders*, after the expiration of what is called the Tontine period, *are greater than are obtainable on any other system*. Actual settlements of Tontine policies have been made in which policy-holders have withdrawn amounts varying from eighty to one hundred and twenty per cent. of premiums paid, besides enjoying a life insurance indemnity during the period. No other company can show such results.

THE TONTINE plan is the *only one* extant by which a person may withdraw from his insurance contract at specified periods, receiving the entire reserve and surplus accumulations in cash.

ALL the ordinary forms of insurance with annual dividends of profits, both cash and reversionary, are issued by this Society.

ASSETS,	-	$41,108,602.
SURPLUS,	-	$9,228,294.

Its business for the last few years (represented by the new policies issued) has been larger than that of any other Company.

STONES IN THE KIDNEYS
and BLADDER Expelled—Long Suffering of One of TROY'S Best People.
A LUCKY MAN.

It is by no means a strange thing that Dr. Kennedy should have received the following letter. By reading it you will see in one minute why James Andrews was thankful:

TROY, N. Y., April 25, 1880.

Dr. D. Kennedy, Rondout, N. Y.:

DEAR SIR—Until within a recent date, I had for several years suffered greatly from gravel, called by the doctors the Brick-dust Sediment. For about a year past this sediment has not passed off in the usual quantity, but has accumulated, causing me untold pain. Having heard of "Kennedy's Favorite Remedy," I tried it in my case, and after using about one and one-half bottles, I voided a stone from the bladder, of an oval shape, 7-16 of an inch long, and rough on its surface. I send you the largest piece that you may see of what it is composed. Since then I have felt no pain. I now consider myself cured, and cannot express my thankfulness and gratitude for so signal a deliverance from a terrible disease. You have my consent to use this letter, should you wish to do so, for the benefit of other sufferers.

Yours truly,
JAMES ANDREWS.
No. 10 MARSHALL ST., IDA HILL.

When we consider that the medicine which did this service for Mr. Andrews costs only one dollar a bottle, it would seem that persons afflicted in like fashion can afford the expense of testing its virtues. Get it of your druggist, or address Dr. David Kennedy, Rondout, N. Y. "Dr. Kennedy's Favorite Remedy" for sale by all druggists.

Kidney Wort.
PERMANENTLY CURES
KIDNEY DISEASES.
LIVER COMPLAINTS.
CONSTIPATION and PILES.

Dr. R. H. Clark, South Hero, Vt., says, "In cases of Kidney Troubles it has acted like a charm. It has cured many very bad cases of Piles, and has never failed to act efficiently."

Nelson Fairchild, of St. Albans, Vt., says, "It is of priceless value. After sixteen years of great suffering from Piles and Costiveness it completely cured me."

C. S. Hogabon, of Berkshire, says, "One package has done wonders for me in completely curing a severe Liver and Kidney Complaint."

IN EITHER LIQUID OR DRY FORM
IT HAS WONDERFUL POWER!
WHY?

Because it acts on the LIVER, BOWELS and KIDNEYS at the same time.

Because it cleanses the system of the poisonous humors that develope in Kidney and Urinary Diseases, Biliousness, Jaundice, Constipation, Piles, or in Rheumatism, Neuralgia and Nervous Disorders.

It is put up in Dry Vegetable Form, in tin cans one package of which makes six quarts of medicine.

Also in Liquid Form, very Concentrated for the convenience of those who cannot readily prepare it. It acts with equal efficiency in either form.

THE PREMIUM COLT,

SPARTAN, JR.

Is a bright bay, 16 hands, foaled May 1st, 1877, of superb style and action, with the appearance and finish of the highest type of the gentleman's roadster. Spartan, Jr. took first Special Prize at N. J. State Agricultural Society in 1878; he also took first premium at Somerset Co. Fair in 1878 and '79. Gentlemen wishing to raise stock either for speed, road or coach, will find the three combined in this promising young horse. We claim he has the best crosses of blood for speed, road and coach of any horse in the State. Spartan, Jr. was sired by Spartan, he by Ethan Allen whose record is 2:15, and I think has never been beaten in double harness. His first dam by Nelson, noted for coach and road; 2d dam by Fiddler who has a record of 20 miles in 60 minutes. 3d dam by Monmouth Eclipse, 4th dam by Bellegrah, also noted as a road and coach horse. For further pedigree see bills.

RYE

For COUGHS, COLDS, SORE THROAT, BRONCHITIS, ASTHMA, PNEUMONIA, CONSUMPTION, and all Diseases of the THROAT, CHEST and LUNGS.

BALSAM OF TOLU Has always been one of the most important weapons wielded by the MEDICAL FACULTY against the encroachments of COUGHS, COLDS, BRONCHITIS, ASTHMA, SORE THROAT, CONSUMPTION in its incipient and advanced stages and all diseases of the THROAT, CHEST and LUNGS, but it has never been so advantageously compounded as in the celebrated TOLU, ROCK and RYE. In addition to its soothing Balsamic properties, it affords a diffusive stimulant and tonic, to build up the system after the cough has been relieved.

Over 1,000,000 Bottles Consumed Annually.

Extract from Report of Com'r of Internal Revenue.

TREASURY DEPARTMENT, OFFICE OF INTERNAL REVENUE,
Washington, D. C., January 26, 1880.

Messrs. LAWRENCE & MARTIN, Chicago, Ill.

GENTLEMEN: The TOLU, ROCK and RYE, compounded according to the formula, has a sufficient quantity of the BALSAM of TOLU to give it all the advantages ascribed in pectoral complaints, and rendering it an agreeable remedy to the patient. It may properly be classed as a Medicinal Preparation under the provisions of U. S. Revised Statutes, and when so stamped may be sold by Druggists, Grocers and Other Persons WITHOUT RENDERING THEM LIABLE TO PAY SPECIAL TAX as liquor dealers.

Yours Respectfully,
(Signed) *GREEN B. RAUM*, Commissioner of Internal Revenue.

MISCELLANEOUS READING.

TWO PLAYING AT THE SAME TIME.

"My dear!"

"What will you have, Darius, darling?"

"Hem—I want to tell you something."

"Well, go on."

"Amelia, my dear, the long winter evenings pass off slowly with us, as you know, and a friend has been learning me a new game, which I desire you to learn, and I have purchased a bran new pack of cards for the occasion, and—"

"Oh, no!"

"What on earth is the matter, Amelia?"

"Why, Darius Botch, I wouldn't have a pack of cards in the house for the world."

"Amelia, there is nothing harmful about cards, and you know it. I have—"

"Been out till ten o'clock every night since October, Darius, you cruel, cruel man."

"Well, my dear, if you will learn to play the game, I will stay at home three evenings in the week, sure as you live."

"Oh, dear, those awful cards, but I'll play just to please you, and keep you at home, but it's awful wicked."

The young man drew a shining pack of the criminal things from a side coat pocket, explained the game, dealt out the *required number of cards with the ease* of an old miner, turned up a trump, looked his hand over, and said:

"What will you do?"

"Do? Why, you wanted me to play with you, and I'm going to."

"Yes, my dear, but you have the right to beg, if you choose."

"I am no beggar, Darius Botch, and you know it."

"But, my dear—you don't understand; if you haven't lots of cards like the trump, you can say 'beg,' when I shall deal off three more cards apiece, turn up a new trump, and you may hold a much better hand, you know."

"I tell you I won't beg, Darius—so there."

"Well, play away, then, and let me beat you, when there is no need of it."

Mrs. Botch bit her lips and threw down an ace.

"That is a trump, Amelia, you must keep them back to catch game with."

"Not according to 'Hal,' my dear Darius."

"Hoyle, you mean, Amelia."

"Have it your own way, sir—but I calculate I know what I'm talking about."

They played all the cards out, Mrs. Botch hauling in every trick till the last, when Darius put on his Jack and smilingly scooped in one.

"Here, sir, that trick is mine; you denied trumps."

"But you have the right to hold back a Jack, Amelia."

"Not according to 'Hal,' my dear Darius."

"There you go again, Amelia—the name is Hoyle."

"What authority, Mr. Botch, have you to prove that it is right to deny trumps?"

"Authority! authority! Mrs. Botch! The very best in the world—Mrs. Mina Crimp!"

"Oh, you false hearted bear! and that is where you have been spending your evenings? I am—"

"And pray give me your authority, Mrs. Amelia, for saying that I have no right to 'nig' my Jack—you, who never handled a card before in your life?"

"The very best in the world, Mr. Darius—no less than Mr. 'Hal' Crimp, your card teacher's own husband."

"The wretch! Has he been spending his evenings with you, and his wife told me confidentially that he was engaged every evening in his counting-room! I'll burn these cards, Mrs. Botch. I always knew there was lots of harm in cards, and I'll burn 'em!"

"It always takes four to have a game of 'old sledge,' Darius, and if you are satisfied, why, I am."

CURRENT TOPICS.

"I was always a Dimmycrat," said one of a pair of tramps, as he sat on the curbstone driving a ten-penny nail through the toe of his boot to make the sole stick. "I voted the Dimmycratic ticket since I was eighteen years old, but if any Republican was to win I'm glad it's Garfield. What did yer find in the bar'l yonder?"

"Some pertaties. Why wos yer glad about Garfield?" asked the second.

"Gimme one. I'm glad about Garfield 'cause he ain't no temperance fakir. I hear that he wos goin' for to have wine at the White House dinners. The other bloke didn't have nothin' but Seltzer water."

"That's so," responded the second. "What this yer country wants is wine at the White House when they feeds," and the speaker bit a chunk off his potato. "We don't want so much wetoes; we wants wine."

"I wos told by Mike Caffrey, at the wake last night, that the other fellow had wetoed the Fundin' bill. What's his name agin?"

"I dyn't know rightly. Yer means him as wos jist turned out for to pasture. What had he to do with it?"

"Nothin' at all. He had some lallygaggin' about the banks, and he says three cent apiece for thim bonds is too much. Why don't he lave the banks to the people? 'Deed we'd look after them."

"Better than him. Here's goold gone up to par in spite of him, and he to be honeyfooglin' with the finances whin the country is prosp'rous. Will ye have another pertatie?"

"I will. I see we're goin' to have great times with thim telegraphers."

"Wot's the matter with thim?"

"Didn't you hear Casey tellin' about it? They've bought all the poles, and divil a telegraph is there lift if yer was to want one."

"Wot'll they do with 'em?"

"Hide the wan of me knows. And it's worse with the railroads. They have 'em all snowed in so you couldn't ride if yer had the money."

"Who did this? Was it the felly wot's gone out?"

"Faith, he had a feet in it, him and his wetoes. That's wot made the stocks go up, and that's wot kapes us poor," and he broke off the nail and clamped it underneath.

"Bad scran to thim all. The Dimmycrats wouldn't have done that."

"Not they. Did ye hear that the Dootchmen had bate the Britishers?"

"I did not. Wos it in Ireland?"

"It wos, and they killed Gineral Collie, and pulled the legs off his troops."

"And did they? Well, now, they wos in great luck. I suppose the Britishers wouldn't lave thim kape open their *saloons after twelve o'clock.*"

"I don't know the rights of it only from Kinnifick. He says the Britishers wos tryin' to drive away their boars."

"It's good for them. Haven't they enough to do without sogerin' after the pigs?"

"I suppose very well they have. I'm told Parnell is no longer ladin' the Irish."

"Wot happened him? Is he ladin' the Dootchmen?"

"Faith, he's not; He's ladin' a quiet life, him and the rest. Are ye workin' now?"

"I'm not. How'd I work till the country's moore settled?"

"True for you! Lave us go and stand back of the Court House till we hear the news. Casey has a couple of dollars and he'll set 'em up. Is there more pertaties in the bar'l?"

"Divil a wan. How many d'ye want; you've had foor? Where did Casey git the money?"

"From the boss, I think."

"Which boss?"

"The both of them. A dollar apiece. Sure Casey's a politician. He have more of it in his head than all of thim put together."

"How many votes was this Casey got when he ran again the Dootchman in Gowanus?"

"I don't know rightly. It was a matter of about foor hundred. He'd as well had three thousand, but the box was too small. He ran the same time of a man Tilden and I'm told they're both great men. Will that shdo do?"

"Deed it will. Pity you haven't another nail for your coat."

And the two statesmen wandered off to the Municipal Building to take a hand in the regulation of affairs.

AN ACCOMMODATING ROAD.

Several days ago a stranger made his appearance at the Union Depot and asked Officer Button how long before the Grand River Valley train would go out.

"In about ten minutes," was the reply.

"Then I'll have time to get a drink, won't I?"

"You will."

"That's good. I always prefer to travel on a stiff horn of whisky."

He returned in five minutes, wiping his mouth on the back of his hand, and asked:

"Has my train gone yet?"

"No, sir; you still have fourteen minutes to spare."

"That's good, and I guess I'll go back for a little brandy."

When he again returned he felt in good spirits, and, ascertaining that he still had six minutes to spare, he said:

"Now that's what I call liberal, and I'll lay in one more drink."

The last one proved more than he could bear up under, and he was not seen again for three hours. Then he came around with a wabble in his gait and an uncertain look in his eyes and asked:

"Shay, what time does that Gran' River Valley train go out?"

"*In about four hours.*"

"Fo' hours? Why, that'll give me time to get drunk agin; mos' 'commodatin' railroad I ever saw, shay."

"Yes."

"Shay! I doan't want to be mean. Go'n tell 'er Superintendent he needn't wait for me any longer, 'cause 'tmay delay others. He's a zhentleman, he is, an' I'm a zhentleman, I am, but when a zhentleman holds a train for me mos' half a day I can't impose on him any longer! Shay, do you ever cry when you get shrunk? I do, and if you're no jockshums I'll cry now."

No objections being made, he cried.

"NE PLUS ULSTER."

The ulster for the coming Summer speaks for itself on sight. It can be worn with tails or without. The tails can be lowered by means of hinges to drag on the walk, or they can be raised or slewed around to form extra pockets for holding four clean shirts apiece. The collar is fitted with a rubber tube to hold any sort of drink fitted for the occasion. A quart of hard cider can be carried to a Sunday School picnic, and slyly imbibed at the convenience of the wearer without any one being the wiser. All the man has to do is to turn his head to the left, slip an amber mouth-piece into his jaws, and slowly get away with his tonic, while he seems to be lost in amazement at the *wonders of nature. The ulster as a whole* is a life-preserver, and when blown up will sustain the weight of three schoolma'ams and a lecturer from Japan. If occasion requires it can be quickly converted into a water-proof tent capable of sheltering a small family. The right hand pocket is sheet-ironed for use as a kettle in which to make tea or boil eggs, and the left hand is a sort of refrigerator in which to store perishable goods. Each sleeve is provided with a secret pocket for the benefit of those who want to get four aces into a poker hand, and a sheath for a bowie-knife is stitched into the back in the most secure manner. Folded one way the ulster forms a jib-sail, and can be attached to any boat in five minutes. Folded one other way you have a stretcher on which to carry off the fat woman who fell from a tree and broke her leg.

It is the ne plus ulster. It contains good looks with a right smart of convenience. It hides a hump between the shoulders, covers up a stoop, and a bow-legged man is made to appear as graceful as an antelope. There are seven different spots on which to scratch matches, three flaps on which to wipe the nose, and a Texas steer may play with the wearer all day and not be able to spoil the set of garments. Send in your orders before the rush begins.—*Detroit Free Press.*

And be it enacted, That it shall be lawful for the civil engineer or engineers appointed by the corporate authorities of any city to make plans and specifications for the sewers or other works or structures mentioned in the third section of the act to which this is a supplement, his or their agents and assistants, or others in their employ, to enter upon all lands or waters within the place or district as requiring to be drained as aforesaid thereto, for the purpose of exploring, surveying, leveling and laying out the route and location of any sewer or sewers, pumps, dykes, dams, tide banks, or such other works as may be necessary to secure sufficient and proper drainage of such place or district, doing no unnecessary injury to private or other property, and when the route or routes, or location *or locations of such necessary works or* structures shall have been determined upon, and a survey of such route or routes, location or locations deposited in the office of the clerk of such city, then it shall be lawful for the corporate authorities of such city by ordinance, to authorize the construction of a sewer or sewers, and the erection of pumps, dykes, dams, tide banks, and such other works and structures as may be necessary to secure sufficient and proper drainage of the place or district requiring to be drained.

5. And be it enacted, That it shall be lawful for the corporate authorities of such city, by their contractors, workmen and other persons in their employ, to enter upon, take possession of, have, hold, use, occupy and excavate any such lands, and to erect such pumps, dykes, dams, tide banks and such other works and structures, and to do all other things which may be suitable and necessary to secure the sufficient and proper drainage of the place or district requiring to be drained, subject to such compensation as is hereinafter directed; provided, always, that the payment or the tender of the payment of all damages for the occupancy of the lands through or upon which said pumps, dykes, dams, tide banks, ditches, drains, sluices, and such other works or structures may be laid out or located, be made before the corporate authorities of such city, or any person under their direction, or in their employ, shall enter upon or break ground in the premises except for the purpose of surveying and laying out said dykes, dams, tide banks, *sewers and other works or structures,* unless the consent of the owner or owners of such land be first had and obtained.

6. And be it enacted, That it shall be lawful for the corporate authorities of such city, or their officers or agents, to contract with the owners of any land that may be required for the purpose of this act for the use and purchase thereof; and in case they cannot agree with such owner or owners, or if, by reason of the absence or legal incapacity of such owner or owners no such agreement can be made, a particular description of the land so required for the erection and construction of such pumps, sewers, dykes, tide banks and other works and structures shall be given in writing, under the oath or affirmation of some engineer or proper agent of such city, and also the name or names of the occupant or occupants, if known, and their residences, if the same can be ascertained, to any justice of the supreme court, who shall cause the said city authorities to give notice thereof to the persons interested, if known, and in this State, or if unknown, or out of this State, to make publication thereof, as he shall direct, for any term not less than one week, and not more than one month; and to assign a particular time and place for the appointment of the commissioners hereinafter mentioned, at which time and place, upon satisfactory evidence to him of the service or publication of such notice aforesaid, he shall appoint three disinterested commissioners, freeholders of said county, to assess the price or value of said land and all damages sustained by the erection or construction of such works, which commissioners shall be sworn or affirmed faithfully to execute the duties of said appointment, and after like notice to said owners of the time and place of meeting of said commissioners, shall meet, view the premises, and hear the parties and evidence, if desired, and thereupon make such decision, award and report as to the value of said land and the damages sustained, as to them shall seem just and proper, and within ten days thereafter transmit such decision, report and award, together with a description of the said land and the quantity taken, in writing, under their hands and seals, or under the hands and seals of any two of them, to the clerk of the city wherein said lands are, together with the aforesaid description of the land, and the appointment and oaths or affirmations aforesaid, there to remain as a public record, and thereupon and upon payment or tender of payment, of the amount so awarded as hereinafter provided, the corporate authorities of such city are hereby empowered to enter upon and take possession of said lands for the purposes *aforesaid, and the said city shall thereby* become seized and possessed in fee simple of the land as valued and appraised as aforesaid.

7. And be it enacted, That if either party shall feel aggrieved by the decision and award of said commissioners, the party so aggrieved may appeal to the circuit court of the county in which such city may be situate, at the next term after such decision and award, by proceeding in the form of petition to the court, with five days' notice in writing to the opposite party of such appeal, which proceeding shall vest in said circuit court full right and power to hear and determine the same; and if required, said court shall award a venire, and direct a proper issue to be framed for the trial of said controversy, and may, in its discretion, order a jury to be struck, and a view of said premises to be had, and the said issue to be tried at the next term of said court, to be holden in said county, upon like notice, in the same manner as other issues in the said court are tried; and it shall be the duty of the said jury to assess the value of the said land and all damages sustained, and if the said jury shall find a greater sum than shall have been awarded by said commissions, then judgment shall be given against said city, with costs and execution awarded therefor; but if said jury shall be applied for by said owner or owners, and shall find a less sum than shall have been awarded by the commissioners, the costs shall be paid by said owner or owners, and either deducted out of said sum found by said jury or execution awarded therefor, as *the court shall direct, but such application* shall not prevent the said city from taking the said land on filing the report aforesaid, the value or damages being first paid, or upon a refusal to receive the same upon a tender thereof, or the owner or owners thereof being unknown or out of the State, or under a legal disability, the same being first paid into the circuit court of said county, and the party or parties entitled to receive the amount assessed by the commissioners, may, upon tender thereof being made, receive the same without being barred thereby from his or her appeal from the report of the commissioners.

8. And be it enacted, That this act shall take effect immediately, and that all acts and parts of acts, either general or special, inconsistent with the provisions of this act, or the act to which this is a supplement, be and the same are hereby repealed.

Approved March 25, 1881.

CHAPTER CCX.

An Act for the improvement of the sanitary condition of counties in this State.

1. Be it enacted By the Senate and General Assembly of the State of New Jersey, That whenever a petition, stating that any particular place or district described by metes and bounds in any county in this State is in a condition detrimental to the public health and signed by at least one hundred freeholders, residents of such county in this State, (the aggregate assessed value of whose real estate in said county shall be certified by the assessors *or other officers whose duty it is* to assess such property for taxation to be more than one million dollars), such assessed valuation not to include any property described in the aforesaid petition, shall be presented to the justice of the supreme court of judicature of this State, holding the circuit court in such county, such justice may appoint a competent civil engineer to make plans and specifications for the building of a sewer or sewers, the erection and construction of pumps, dykes, dams, tide banks and such other works and such filling and excavating as may be necessary to secure a sufficient and proper drainage of such particular place or district required to be drained.

2. And be it enacted, That upon receiving the report of such civil engineer, such justice of the supreme court holding the circuit as aforesaid shall certify what compensation in his judgment such engineer is entitled to for his services, which amount shall be paid by the board of chosen freeholders of the county in which said place or district is contained.

3. And be it enacted, That upon receiving such report the said justice of the supreme court holding such circuit shall appoint three freeholders of the county, in which such place or district is required to be drained and filled in, who shall in connection with the civil engineer, appoint as aforesaid, constitute a commission, under whose supervision and direction the plans of drainage and filling shall be carried out.

4. And be it enacted, That the commissioners appointed by the justice of the supreme court aforesaid shall not be entitled to receive any compensation for their services, and that said civil engineer shall receive such compensation as the said board of chosen freeholders shall deem proper.

5. And be it enacted, That, within fifteen days from the presentation of a report to them, said board of freeholders shall advertise for proposals for doing and constructing such works in accordance with said report, plans and specifications, which shall be placed on file for public inspection in the office of said board, and shall award the contract or contracts to the lowest bidder or bidders therefor, in the same manner as they advertise for proposals and award contracts for other public improvements in said county.

6. And be it enacted, That such board of freeholders shall have power to issue certificates of indebtedness or improvement certificates to the contractors of said works, or to issue registered or coupon bonds of said county, for the purpose of providing funds to pay for the said improvement, said bonds being payable in not less than twenty nor more than forty years, and bearing interest at the rate of six per centum per annum.

7. And be it enacted, That bonds issued under the last preceding section shall not be sold at less than their par value.

8. And be it enacted, That the costs and expenses of such filling and excavating, and the construction of such sewer or sewers, pumps, dykes, dams, tide-banks and such other works as may be deemed necessary for the public health, shall be assessed upon the estate especially benefited thereby, in proportion to the benefit received.

9. And be it enacted, That when the aforesaid improvement shall have been completed, the commissioners having charge of the same, shall report that fact to the justice of the supreme court aforesaid, who shall appoint and fix the compensation of three discreet freeholders of said county, whose lands are not liable to assessment for special benefits by reason of said improvement, to act as commissioners of assessment of said improvement.

10. And be it enacted, That said commissioners of assessment shall distribute the amount of the expense of said improvement for which lands specially benefited shall, in their judgment, be liable, and when said assessment shall be completed it shall be filed with the clerk of said board of chosen freeholders, who shall give notice by advertising in two or more newspapers printed and published in said county, of the fact that said report has been filed, and that said commissioners will meet at the office or meeting room of said board of chosen freeholders on a certain day, at least thirty days subsequent to the filing of said report, to hear remonstrances against the same.

11. And be it enacted, That the said commissioners of assessment shall meet at the time and place designated, to hear remonstrances against their report, and shall revise the same as shall seem to them proper in view of such remonstrances, after which they shall file their report with the clerk of said board of chosen freeholders; and the assessment shall constitute liens upon the lands so assessed for special benefits.

12. And be it enacted, That if the owner or owners of said lands so assessed for special benefits, shall neglect or refuse to pay said assessment with interest for the period of one year, the board of chosen freeholders in such county are hereby authorized and empowered to sell said lands for the least number of years that any person will take the same and pay the assessment, with costs and interest thereon; and the manner, time, place, and notice to resident *and non-resident owners of such* lands to be sold, shall be fixed and designated by the justice of the supreme court holding the circuit court in the county where such lands are situate.

13. And be it enacted, That upon receiving the amount of said assessment by sale as aforesaid, the board of chosen freeholders shall give to the purchaser a certificate of sale of the land for the term for which the same shall be sold, and thereupon said purchaser shall be entitled to immediate possession of said *land and to take the rents, issues and* profits thereof for the period or term aforesaid; provided, that the owner of the fee of said land shall be entitled to redeem the same at any time within the period for which they shall be sold, by payment to the purchaser of the term of the amount given for such certificate of sale, less the amount received as rent and profit as aforesaid, with interest, after the rate of twelve per centum per annum from the date of said sale.

14. And be it enacted, That in case the cost *of constructing such sewer or sewers,* and the erection and construction of such other works as are deemed necessary for the purpose aforesaid, shall exceed the benefits to lands specially benefited thereby, such excess of costs and expenses shall be raised by general taxation, to be assessed, levied and collected, in the same manner as taxes for other county purposes are assessed, levied and collected.

15. And be it enacted, That whenever bonds shall be issued by any board of chosen freeholders, and the proceeds applied for the purpose of carrying out any such improvement, it shall be the duty of said board of chosen freeholders to apply all monies received in payment of the assessment for said improvement to the final payment of such bonds, and for no other purpose whatever.

16. And be it enacted, That in case it shall be necessary in pursuance of the plan for said improvement, to erect pumps or other works which are required to be operated by steam power, or by other artificial means requiring an annual expenditure of money to operate the same, it shall be the duty of such board of chosen freeholders to operate a sufficient sum of money to run and operate such pump or pumps, or other works for the purpose of securing a proper drainage of the place or district required to be drained.

17. And be it enacted, That such civil engineer or engineers as may be appointed by a supreme court justice, and such commissioners as may be appointed by any board of chosen freeholders under the *provisions of this act, shall, before entering* upon the duties of their office, take an oath before a justice of the supreme court or a supreme court commissioner, faithfully to perform the duties of their office, a certificate of which fact shall be filed with the clerk of the county in which said lands are situate.

18. And be it enacted, That the justices of the supreme court holding the circuit court as aforesaid shall have power to remove any civil engineer appointed as aforesaid, and appoint another in his stead; and the board of chosen freeholders shall have the same power with reference to the commissioners or other officers appointed by such board.

19. And be it enacted, That any vacancy caused by the death, resignation or removal from the State of any officer or commissioner appointed under this act shall be filled by the appointing power.

20. And be it enacted, That whenever, in the progress of said improvement, it shall become necessary to give notice, for any purpose whatsoever, to property owners or others, the form and manner of service of such notice shall be prescribed and fixed by the justice of the supreme court aforesaid.

21. And be it enacted, That this act shall not extend to any lands flooded by the natural and complete flow of tidewater.

22. And be it enacted, That all acts be and are hereby repealed insomuch as they are inconsistent with the provisions of this act.

23. And be it enacted, That this act shall take effect immediately.

Approved March 25, 1881.

PARTY.

No detriment can befall a country because of political parties, but rather beneficial results are to be derived from them, provided, loyalty to constitutional government is the foundation of their organizations, and an honest and honorable difference of opinion as to men and measures the animating cause of their action. As storms clear the atmosphere and refresh nature, so may political parties invigorate the public mind and aid the wholesome growth of freedom.

That was once their repute and effect in the United States.

When, however, political parties degenerate from their legitimate purpose, and become seekers after arbitrary power and the spoils of corruption, evil dispels the good and the danger is at hand.

That, unfortunately, blurs our political history at the present time.

Party, blind and passionate, rules everywhere and everything, from the appointment of a policeman in Plainfield, through the partisan retained filth of New York streets, to the election of an officer of the Senate at Washington, it is party, party, party, without a thought of propriety or the people's welfare.

As an example of such political debasement, the recent attitude assumed by Republican members of the National Senate stands prominently forth.

That body was convened in extra session for the specific object of considering the nominations of a newly inaugurated President.

To give the Republicans party ascendency an additional vote was necessary, and to secure that, a bargain was made with a Senator of easy political virtue, who had been deputed to represent the State of Virginia and with the firm reliance that his national influence would be cast on the Democratic side.

A disreputable bargain was consummated, involving caucus selection of candidates for Secretary and Sergeant-at-Arms whom some Republican Senators heartily despised, and conditioned that their election by the Senate must precede all other public business, no matter how pressing.

All for party!
Naught for country!
Clay, Webster and Clayton are dead.
Conkling, Cameron and Logan are in the Senate.
That tells the tale.

County Collector Sheridan has submitted his report for the past year, which shows the receipts to have been from all sources $505,717.65, and the disbursements $503,686.60, leaving a balance on hand of $2,031.05. The amount of money passing through the Collector's hands for the past year has been over a million dollars. The report is clear and full, and will be read by taxpayers of the county with much interest when published.

WESTFIELD WISPS.

Mr. Robert Fairbairn returned from his trip to Tennessee on Friday last; we are glad to learn in greatly improved health.

Chief Dodd of Plainfield, visited Westfield on Friday last in search of Sarah Miller, accused of perjury in the Peterson case, but failed to find her here.

Mr. George Trimmer, for the past six years an employee of E. Miller & Sons, has transferred his valuable services to the store of Matthias Clark. Our well wishes follow him.

We regret to learn of the death on Monday last of Mrs. Nancy Wilcox, relict of Benjamin Wilcox. Our sympathies and those of the community are extended to the family.

The many friends of Mr. Charles H. Brocksmith, resident here, extend to him their sincere sympathy in the great loss he has sustained in the death of his wife, which sad event occurred on Monday last. A true wife, mother and friend will be the recollection of those who knew her best.

An alarm of fire at about four o'clock Tuesday afternoon called out our department to Clark's store building, corner Broad and Clark streets. The fire was confined to the roof and had evidently caught from sparks from a passing locomotive. It was quickly extinguished. Loss trifling.

The lot surrounding the new house erected by Mr. Hart, corner Broad street and Central avenue, was very perfectly filled in and graded this week. We understand that Mr. John R. Scudder was the artist; if this is true, Mr. Scudder can rely upon receiving many orders of a similar nature.

Henry Chevanter, a local celebrity here, came very near losing his life on the track at Bayonne last week; that is, it was reported that he was killed. Constable Marsh started to investigate the report, and found the alleged dead man at home and well. Henry says: "I was so glad to find out it was not me."

All owners of good horses are interested in the fact that Mr. H. C. Kugler, a celebrated Veterinary Physician and Dentist, has selected Westfield as the proper place to locate in. Mr. Kugler was a student of the celebrated Dr. House and has the highest testimonials as to his ability in this line.

A small breeze was raised in our usually quiet town on Monday night by the arrival of a belligerent person by the name of Whalen, a resident of Brooklyn, E. D., in search of her daughter who had fled from her owing to abuse, to the protection of her uncle, a resident of this place. War to the knife was the declaration, but a little judicious advice from Constable Marsh, including the information that she was liable to arrest by the Society for the prevention of cruelty to children, quieted Mrs. W. and she returned home.

The "Village Improvement Committee," of the Westfield Lyceum, were busy during Saturday last setting out new trees on the principal approaches to the depot and placing lamp posts in proper position to receive the lamps. About a dozen posts were located, and we understand it to be the intention of this Committee, not only to erect about 50 lamps in our village but to attend to them. A subscription list to defray this expense, attention to which was called in a previous issue, is still open for citizens of liberal views to subscribe to.

Regarding the question of repairs to sidewalks, already a matter of great interest to our citizens, it is only proper that the special act governing the question of extra tax on Road Districts, as applying to this Township, should be placed before the public. It is as follows:

A supplement to the act concerning roads.

1. Be it enacted By the Senate and General Assembly of the State of New Jersey, That the legal voters of any road district in the township of Westfield, Union county, at their annual meeting for the election of overseers, are hereby authorized to raise any such additional money over and above the township appropriation for the making and repair of roads in said district as they may deem necessary for the ensuing year; said tax to be assessed and collected in the same manner as other taxes are assessed and collected.

2. And be it enacted, That all overseers of roads in said township are authorized to pay any hired laborers or teams for repairing roads in said township the regular wages paid for similar kinds of labor at the time.

3. And be it enacted, That this act shall take effect immediately.

Approved April 15, 1868.

There can be no question but that the framers of this law understood the road to be from fence to fence, (including sidewalks). We have inquired of several persons who were instrumental in having it passed and that was certainly their understanding, and we include in this the gentlemen who drew the bill. Possibly a legal quibble may be raised by those opposed to improvement in our village over this question, but those who are responsible in the matter will do well to take a more broad and liberal view of the question. Their failure to do so will only result in injury to themselves.

Common Council Proceedings.

MONDAY EVENING, May 2d, 1881.

Council met in regular session. President Whiton in the chair, and all present.

Minutes of last special and adjourned meetings read and approved.

The Pres. announced the following changes in committees, caused by the death of Mr. Flanders and the election of Mr. Gilbert. All positions formerly occupied by Mr. Flanders will be hereafter filled by Mr. Gilbert except in the Street Com. to which Mr. Guion is transferred from Finance Com. and the latter completed by Mr. Gilbert.

Mr. Coriell presented a petition from Mr. I. W. Rushmore and others requesting the Council to allow them to repair and put in order Seventh street from Plainfield to Clinton avenue, at their expense, with the exception of a part in front of Mr. J. L. Brewster's. The work to be done under the superintendence of the St. Com.

Mr. Tyler moved that the petition be referred to the St. Com., with power to take such steps in the premises as it might think best.

Mr. Coriell thought that the Committee should not go forward until it knew how much it would be necessary to expend.

Mr. Gilbert suggested it would be as well for the Com. to examine into the probable cost and report upon such to the Council at a future meeting. He moved to amend so as to give the Com. no power to expend but merely to investigate and report an estimate before taking any further steps.

Mr. Coriell said it would be utterly impossible to carry out the provisions of such a resolution. He could not get at the cost without going to the expense of the services of a surveyor.

The chair ruled that it was provided that any expenditure not exceeding $250, necessary to carry out the instructions of the Council, was allowable.

Messrs. Tyler, Hamilton and Guion voted "no" on the amendment; and the motion as amended was subsequently carried. All aye.

By Mr. Hamilton, claims of C. W. Dodd, $58.34; R. Walker, $26.25, and R. Randolph, $27. Ref'd.

By Mr. Coriell, claim of Wm. Hand for salary, $50; ref'd. Also a bill of the same for $75.75, which Mr. Coriell stated was for work done that he had given no orders regarding. He had endeavored to find Mr. Hand and obtain an explanation, but had been unable to do so. He had instructed the St. Com'r to only repair such streets as if left would be of damage to any citizen. The bill was ref'd to the St. Com. for investigation.

By Mr. Guion, claims of P. G. L. Co., (April 15th to May 3d) $238.41; Morgan Bird, 3 bills, $94.50; F. Conchay, $4. Referred.

By Mr. Darling, the following statement of the City Treasurer:

J. VAN WINKLE,
City Treasurer.

On motion, received and ordered filed.

President Whiton presented a com'n from Assessor J. A. Hubbard asking the Council to define his duties. He (Mr. Hubbard) desired to know whether he was authorized to only assess the city's taxes or the State and county's as well. As the time for the performing of such duty was at hand, immediate decision was asked. Ref'd to Laws Com.

Mr. H. Smith from Aud. Com., reported as correct claims of J. Donohue, $8; P. Langesbahn, $3, and Bernard's Township, $7.70. No motion in relation being made, they were laid on the table.

Mr. Waring from Lamps Com., reported as correct bill of P. G. L. Co., previously passed upon. Ref'd to Aud. Com.

Mr. Finch from License Com., reported favorably on petition of Mr. J. H. Force for a saloon license. On motion, granted: Messrs. Coriell, H. Smith, Gilbert and Tyler voting no.

Mr. Hamilton from Police Com., reported as correct claims of police officers for past month's services, and bill for rent of station house. Ref'd to Aud. Com.

Mr. A. H. Smith, from Sals. Com., reported as correct claim of Wm. Hand, $50. Ref'd to Aud. Com.

Mr. Coriell from St. Com., reported as correct claim of R. Hapeny, $15. Ref'd to Aud. Com.

It was moved by Mr. Guion and seconded by Mr. Hamilton that the claims of Morgan Bird and Dr. W. C. Boone be taken from the table and warrants ordered drawn in settlement.

Mr. Darling moved as an amendment, that all bills passed by the Aud. Com., and now upon the table, be taken up. Seconded by Mr. Tyler.

The motion as amended was carried, Mr. Coriell voting against.

The clerk then read the following: N. Y. & N. J. G. L. Co., 2 bills, $343.03; P. G. L. Co., 408.50; J. S. Cutter, 27.11; M. Bird, 62.50; O. B. Leonard, 17.50; G. M. Angleman, 26.25; Est. D. Thickstun, 29.52; John DeBnay, 6; Jas. Maynard, 6; Runyon & Leonard, 45.55; Mace & Chamberlin, 15.90; Dr. Boone, 115; A. Killgore, 1.75; Dr. Lowrie, 136.30; R. Hapenny, 15; C. W. Dodd, 16; A. T. Shotwell, 12.02; Wm. Hand, 97.44.

On motion, warrants were drawn for the above; all voting in favor excepting Mr. Coriell.

Mr. Gilbert presented a resolution requesting the Com. on Laws & Ord. to consider the legality of an ord. allowing all warrants drawn by the Council to be received in payment of taxes. Carried.

Mr. Finch asked what had been done towards the collection of the taxes of 1880, by the officer in whose hands had been placed the warrants for such?

Mr. A. Smith replied that nothing had been done. Officer Dodd had told him that he (Dodd) had no time to attend to the matter.

Mr. Finch stated that the officer's salary had been raised with the distinct understanding that he should perform the service referred to. He moved that the City Clerk be instructed to notify the officer to go ahead and collect the taxes. Seconded by Mr. Guion.

Mr. Coriell considered that the notification had been already given. If officer Dodd had no time, the additional salary should be taken off and given to some one who would attend to it.

Mr. Gilbert thought that officer Dodd should be made to understand that there was a power directing him which he was forced to obey. If he did not do as instructed, his salary should be reduced at once and the difference paid to some other person.

Mr. Finch believed that the officer spoken of understood that his salary was raised in consideration of his serving the warrants for delinquent taxes. Mr. Dodd had told him that he was only waiting to find out what legal authority he had, before proceeding. He (Dodd) was to learn this from the Corporation Counsel.

Mr. Hamilton said that when officer Dodd's salary had been voted by this Council, nothing was mentioned regarding his collecting the back taxes. He thought that, perhaps, what was expected of the officer last year, had nothing to do with his duties at present. He considered that the Council should proceed to define officer Dodd's duties. Whether—as it was impossible for that person to do both—he should attend to the pursuing of the warrants and neglect his police work, or whether he should perform his duty as a policeman and give what little time was left to the serving of the warrants.

Mr. Coriell considered Mr. Dodd's time too limited to allow of his attending properly to the collection of the unpaid taxes.

The motion of Mr. Finch was then put and declared lost.

Mr. Gilbert moved that the chairman of the Police Com., be instructed to ascertain from officer Dodd his reasons for not serving the warrants now in his hands. Seconded by Mr. Guion.

Mr. Coriell very sensibly remarked that the Council had heard from a number of sources, this evening, what the "reasons" were. He moved as an amendment that the chairman of the Police Com. should "see Mr. Dodd and insist upon his collecting the taxes at once." Seconded by Mr. Tyler, and the motion carried as amended.

The Council on motion of Mr. Darling, adjourned for one week.

Relief Association.

The Relief Association would give notice that there is on hand and for sale, a stock of under-garments, at the rooms, corner of Madison avenue and Second street. The ladies are desirous of extending the department of ordered work, thereby aiding to make the organization self-sustaining and at the same time exhibiting true charity to worthy individuals. Any persons requiring plain or fine sewing done, can make satisfactory arrangements by applying to the Supt., Miss M. A. Coon, who is in daily attendance at the rooms, and who will personally and efficiently superintend the work.

By order of the Board.
MRS. H. D. BURLINGHAM
Secretary.

FIRE MATTERS.

On Sunday afternoon a small frame house in the Short Hills was consumed by fire caught from the burning woods adjacent. About eleven o'clock in the evening a barn on the premises was also burned, and the reflection of the fire on the sky induced some one to ring an alarm in this city and over-the-brook. The department—more or less—turned out, but was subsequently ordered home again.

The annual election of Department and company officers took place on Monday evening last, and resulted in the choice of those given below. Two tickets for Chief and Second Assistant were in the field, and the contest was close. Mr. Geo. Kesselring for First Assistant received no opposition. The vote in detail was:

FOR CHIEF.

Franklin W. Vail	67	Maj. 2
Wm. H. Voorhees	65	

FOR FIRST ASSISTANT.

George Kesselring	115

FOR SECOND ASSIS'T.

Stephen Davis	65	Maj. 8
Benj. F. Moore	57	

Total vote cast, 132. George Butcher receiving one for chief, and one blank.

Mr. Alex. Titsworth an old ex-Foreman of Gazelle Eng. Co. No. 1, was present at the first meeting of that body under its new officers, on Wednesday evening. He made a most eloquent speech to his old comrades and those who have since joined.

The usual alarm that follows the election of a new chief did not arrive until far into Monday night. It was false, of course, but succeeded in routing out some of the Department.

The outgoing Board of Fire Commissioners met on Wednesday evening. Present—President Van Winkle and Messrs. Jones, Mayer and Depew; Messrs. Morris and Steiner coming in later. Minutes of previous meetings read and approved. Notice of the resignation of Mr. Solomon Flaig as an active member was received, and his name, on motion, was taken from the rolls. In relation to the application of Mr. D. W. Little for exemption papers, the Secretary said that the member had served over seven years during different periods, and moved that the petition be granted. Seconded by Mr. Depew. The President spoke strongly against granting exemption except where the service had been during seven consecutive years. He cautioned the Board against establishing any other precedent. Messrs. Jones, Mayer and Depew voted in favor (Messrs. Morris and Steiner not being present) and the motion was declared carried. The President stated that in his opinion the Board had done a wrong thing. Mr. Robert L. Livingston was unanimously confirmed as a member of the Alert Hose Co. The Secretary read the record of the vote for Chief and Assistants as published elsewhere. By resolution Messrs. F. W. Vail as Chief, George Kesselring as 1st Assistant and Stephen Davis as 2d Assistant, were declared elected. List of officers chosen by the different companies were received, confirmed and placed on file. The new officers to begin their duties at noon of the 6th inst. The Board then adjourned *sine die*.

The new Board was then called to order by ex-Secretary Mayer. All present. Mr. Morris was chosen temporary chairman, and the following permanent officers unanimously elected: President, Jeremiah Van Winkle; Secretary, T. J. Gillies; Treasurer, E. H. Depew. The re-elected President made a short speech thanking the Board for the honor conferred, welcoming its new members and suggesting to the body much sound and pertinent advice for its future direction. On motion, the Rules and Regulations of 1881 were adopted for the government of the present Board until otherwise ordered. Messrs. Morris, Gillies and Flaig were appointed as the Committee on Repairs and Supplies, and Messrs. Jones and Depew on the Committee on Wells. The Auditing Committee of the previous Board reported through Mr. Morris, endorsing the yearly report and past accounts of the Treasurer. A communication was received from Gazelle Eng. Co. No. 1, presenting the name of Mr. John Cooper for confirmation as a new member. Laid over. Zephyr H. & L. Co., sent in an informal notification of the resignation of Mr. P. J. Kreitling. Returned for presentation in proper form. The following motions made by Mr. Depew were carried: That the Com. on Repairs and Supplies shall have printed separate forms for notification of application, resignation and expulsion. That no bills for repairs or supplies be received or paid unless ordered by the Com. on Repairs and Supplies, that no other party be authorized to make any purchases for the Department, and that the Secretary be instructed to inform the officers of the respective companies of such resolution. That all bills shall be presented on blanks furnished for the purpose, endorsed by the committee and sworn to by the party making the claim. And, also, that the orders of the Board in this respect be advertised in all the papers for the information of the store keepers and others interested. The Com. on Repairs and Supplies were instructed to attend to the locks of No. 2 and No. 3 Engine houses. A motion that all communications or resolutions hereafter presented be made in writing, was carried. The Board then adjourned for two weeks.

Friends of the Land League should make a note of the following, which we copy from a Trenton exchange: "A swindler giving the name of Patrick Hennelly, obtained a sum of money from Mrs. Parnell of Bordentown recently, by representing himself to be an Irish emigrant, evicted for non-payment of rent. The probabilities are that he will try the same game elsewhere, and parties should be on the lookout for him."

Two of the election officers guilty of fraud at the recent municipal election at Philadelphia were sentenced to imprisonment on Friday last. They had returned but seven votes in their precinct for King and Hunter, the Democratic candidates. Fifty voters were ready as witnesses to swear that they had voted for King and Hunter. Confronted with this testimony, the prisoners pleaded guilty and said "it was done to elect Stokley"—the Republican candidate. They were condemned to twelve months' imprisonment each.

A MOTHER'S JOY,
A Wife's Gratitude to Him who has Afforded her the means of once more Enjoying Life.

The following pleasant letter was recently received by Dr. David Kennedy, of Rondout, N. Y., and signed "Old Schenectady":

"I procured a bottle of 'Kennedy's Favorite Remedy' and my wife used it with the best results. She has no more headache or pain in the side. Indeed, the medicine seemed to have an almost magical effect, and she feels very grateful to you for your kind advice, and especially for the 'Favorite Remedy.' We shall be glad to recommend it to all women who may be suffering from any of the ills peculiar to the sex. It is all you claim for it."

It may be in place to mention, as pertinent to the above letter, that Dr. Kennedy, the proprietor of "Favorite Remedy," located in the City of Schenectady soon after his graduation, and went from there to the war. Some of the most cheering letters he receives are from his old acquaintances in that place, many of whom know from experience what "Favorite Remedy" can do for disease. There all the Doctor's old friends still believe him when he says that "Favorite Remedy" is a specific for Liver and Kidney Complaints, Constipation, Diseases of the Blood and Urinary Organs. Write to Dr. David Kennedy, Rondout, N. Y., and state your case, or ask your druggist for "Favorite Remedy," for sale by all druggists. my6w4

LOOKS BAD FOR HER

Damaging Evidence Against Mrs. Vandergrift.

HER SON IN THE WITNESS CHAIR

He Very Reluctantly Tells What He Knows of the Case.

Proved Almost Beyond Doubt That She Tried to Poison Him for Insurance Money—Eva Kane Testifies to a Circumstance That Goes to Prove the Accused's Guilt.

MT. HOLLY, N. J., May 1.—In the trial of Mrs. Vandergrift for poisoning her son with croton oil, Prof. Reese, of the Medical Chair of the University of Pennsylvania, gave expert testimony to the effect that the symptoms noted by young Norman's physician were those of croton oil poisoning.

Mrs. Eva Kane, who helped nurse Norman, testified that she substituted sweet oil for croton oil, but Mrs. Vandergrift noticed it and sent Mrs. Kane's daughter to buy more croton oil.

Young Norman was then called as a witness for the prosecution. He told his story cautiously, and seemed inclined to shield his mother. He was evidently a reluctant witness. The facts as to his illness were drawn from him, however.

The existence of a life insurance policy for $14,000 on the life of Frank C. Norman was proved conclusively by the officers of the insurance company in Philadelphia by whom the policy was issued. In the event of the death of Norman the blanket mortgage held by the company on the property of Mrs. Vandergrift at Burlington was to be cancelled. The amount referred to was paid to her when the policy was issued.

Norman in his testimony said he signed the policy, but did not receive a penny of the money. His mother got it all. When the premiums fell due she paid them. He had no interest in it whatever. He insisted that his illness did not date from his arrival in Burlington in March last, but existed while he was in Philadelphia. He had the same symptoms while in that city.

On being closely pressed he admitted that he bought croton oil for his mother in a drug store in Burlington since his return home and prior to his last attack of illness.

MINISTERS IN TROUBLE.

Successful as Revivalists They are Accused of Being Thieves.

READING, Pa., May 1.—It now seems that the apparently highly successful revival on the Welsh Mountains, in the haunts of the Buzzard gang of thieves, may, through association, had the effect of corrupting the ministers while they were making Christians of thieves.

Revs. P. H. Garrett and Z. C. Mower were the ministers whose united efforts at Mount Zion Church led many of the hardest sinners to the altar and did other successful work that had much to do with civilizing many of the roughest characters. To the intense surprise of everybody both clergyman are now accused of various forgeries. Rev. Mower is a fugitive from justice and Rev. Garrett is in jail.

Charges of forgery, embezzlement, lying and giving bogus checks are made by the church district officials against Rev. Garret. He claims he is innocent.

Trouble Over a Sale of Land.

NEW HAVEN, CONN., May 1.—Yesterday James W. Dorsey sold a piece of land and accepted a check to bind the bargain. Dorsey presented the check at the bank twice, the bank officials demanding an identification. Dorsey then got mad and returned the check to the maker and declared the sale off. Yesterday Dorsey again sold the farm to another party at a good advance in price. The original buyer then attached Dorsey and in lieu of property attached his body and had him jailed. Later he was released. Suits are likely to follow.

Lyons's Crooked Career.

BOSTON, May 1.—James R. Lyons, who was arrested here yesterday charged with being a fugitive from justice in Connecticut, was examined to-day and held in bail until to-morrow. He claims that it is a case of mistaken identity. After Lyons broke jail at Granby Conn., he married a wealthy lady at Nahant, but she procured a divorce when she learned his character. He has since then served time abroad for larceny, and is out on ticket of leave.

Boston's Reported Leper Case.

BOSTON, Mass., May 1.—The report of the landing of a Swedish woman, whose husband and children are said to reside in Waltham, from the steamship Cephalonia on her inward trip at quarantine, suffering, it is alleged, from leprosy, has just been reported to the commissioners and it is possible that the steamship company will be compelled to take her back to Europe.

Watterson Talks to Editors.

CHARLESTON, S. C., May 1.—Henry Watterson delivered an address last evening before the Southern Press Association, and the South Carolina Press Association. There was a large audience present and he met with an enthusiastic reception. Mr. Watterson's subject was "Money and Morals." He dwelt on the uses and abuses of money.

Underhill Sentenced.

NEW YORK, May 1.—John B. Underhill, the trustee of a Hoboken church who was convicted of abducting a young girl for immoral purposes, was sentenced to State prison for two and a half years.

A HEINOUS OFFENCE.

Nicholas Betsinger, the Bee Man of Syracuse, Under Arrest.

SYRACUSE, N. Y., May 1.—Nicholas M. Betsinger, a widely known bee keeper, proprietor of the Paradise Apiary at Marcellus Falls, a trustee of the Methodist church, an aggressive Prohibitionist, and a man who on his business cards and in his trademark has stamped the motto, "In God We Trust," is charged with a heinous offence upon two little girls in his employ, and he is now at large on $1,000 bail.

Betsinger is a married man and his wife is an invalid.

Four years ago Betsinger adopted a little girl named Zada Young, aged 11 years, from the Oswego Orphan Asylum, and last February he took another girl, Frida Grossley, aged 14, from the Orphan Asylum at Auburn.

Both girls have been kept in seclusion and the neighbors have seen but little of them.

Last Monday they ran away, and the stories that they told to the people who gave them shelter led to the arrest of Betsinger on a charge of assault.

The village is very much excited over the matter, and there have been threats of tar and feathers and even of lynching.

Betsinger himself claims that he is the victim of a conspiracy.

POWDERLY INTERVIEWED.

The K. of L. in Sympathy with the Eight Hour Movement.

SCRANTON, Pa., May 1.—General Master Workman Powderly, of the Knights of Labor, was seen at his home last evening by a reporter, and asked his views concerning the labor demonstration in New York and elsewhere to-day. He said that his position on this question was too well known to need explanation. He had always favored an eight hour law. The Knights of Labor had also endorsed it, adopting a preamble favoring it at the General Assembly in 1878.

As he understood it, to-day's demonstration throughout the country were to convince the public that the labor element was really in favor of shorter hours for the toilers. It had been alleged by many that the eight hour movement was simply for effect, and that the workman did not really favor it. After the demonstration of to-day it was to be hoped that there would be no untrue charges of the kind.

Mayor Grant's Letter to the Senate.

ALBANY, N. Y., May 1.—After Mayor Grant's letter to Lieut. Gov. Jones, asking for a special committee to investigate the charges made by Patrick McCann in his testimony before the Fassett Committee on Saturday, had been read in the Senate, Senator Cantor moved that Senators Robertson, Sloan, Erwin, Linson and Jacobs be appointed a special committee to investigate the charges as Mayor Grant requested. Senator Fassett opposed the resolution. He said the communication was an impudent one, and upon his motion the Mayor's letter was sent to the Committee on Cities, now investigating the departments.

The Baltimore to Go to Hayti.

WASHINGTON, May 1.—The report of the board of inspection on the United States steamer Baltimore has been received at the Navy department. The Baltimore will receive additional supplies of coal at Norfolk, Va., and then proceed to Baltimore, where celebration will be held in her honor, arriving there not later than May 10. After the celebration the Baltimore will proceed to Haytien waters as the flag ship of the North Atlantic Squadron.

For Misappropriating Funds.

PATERSON, N. J., May 1.—R. M. Winslow, a member of the Washington Commandery, Knights of Malta, was arrested in the lodge room, at 1 o'clock this morning, on a charge of devoting to his own use funds collected from his fellow members for the purpose of buying new uniforms. He was committed for the grand jury. He came here from Fall River, Mass.

Opposed to Postal Telegraph.

CHARLESTON, S. C., May 1.—At the meeting of the Southern Press Association resolutions were adopted opposing the scheme for a Government telegraph system as undemocratic, and as giving the Government a dangerous control over press and private dispatches; also favoring national construction and maintenance of levees on the Mississippi River.

Fast Horses Caused His Downfall.

NEW HAVEN, CONN., May 1.—William Moore, paymaster for the Farrell Foundry Company at Ansonia, is under arrest on a charge of embezzling a large amount from the company by manipulating the pay rolls. He has been living expensively and indulging a taste for fast horses.

Man and Money Missing.

KINGSTON, N. Y., May 1.—John A. Hunt, justice of the peace and a prominent citizen of Coxsackie, on the Hudson, has suddenly disappeared together with $8,000 to $10,000 of town funds. He is thought to have lost the money in stock speculations. His bondsmen will now make efforts to find him.

Celebrating Washington's Inauguration.

NEW YORK, May 1.—Hon. Warner Miller was the principal speaker at the banquet at Delmonico's in celebration of the anniversary of Washington's inauguration as President. Col. E. F. Shepard, Judge McAdam and others also spoke.

Girls' Friendly Society Meeting.

BOSTON, Mass., May 1.—The annual meeting of the Girls' Friendly Society is being held at Trinity Church. Encouraging reports were received from twenty-eight branches of the society.

EVERYTHING QUIET

A Peaceful May Day in the United States.

NO DISTURBANCES REPORTED.

The Carpenters Lead the Movement for a Shorter Working Day.

A Big Demonstration in Chicago—Fully Fifty Thousand Toilers in Parade—A Monster Meeting This Afternoon—Boston Carpenters Must Fight for Their Demands—Other Labor Intelligence.

NEW YORK, May 1.—May day, the day set apart two years ago by the American Federation of Labor on which to enforce the eight-hour work day, has arrived. There is, however, no great uprising of the workers in this city. Reports this morning from many cities throughout the United States shows a quiet state of affairs.

The Federation itself is responsible for the quietude of the occasion by having selected only one trade to enter the lists. The honor devolves on the United Brotherhood of Carpenters and Joiners of America to make the acquisition of the eight-hour boon easier for those who come after. Even that organization is not ready, however, to make the demand for an eight-hour work day general. Some of the unions will only ask for nine hours, as the following list will show:

For eight hours—Detroit, Boston, Winona, Minn.; Crowfordsville, Ind.; Portland, Ore.; San Francisco, Cal.; Oakland, Cal.; Louisville, Ky.; Knoxville, Tenn.; Worcester, Mass.; Jennette, Pa.; Pittsburg, Pa.; Seattle, Wash.; East St. Louis, Ill.; New Albany, Ind.; Springfield, Ill.; New York City, Alameda, Cal.; San Jose, Cal.; Omaha, Neb.; Duluth, Minn.; Dorchester, Pa.; and Bridgeport, Ohio—22 cities.

For nine hours—Bayonne, N. J.; Toronto, Ont.; Lafayette, Ind.; Youngstown, Ohio; Elmira, N. Y.; Binghamton, N. Y.; Fort Wayne, Ind.; Lancaster, Pa.; Salem, Mass.; Poughkeepsie, N. Y.; New Haven, Pa.; Rochester, N. Y.; Olean, N. Y.; Colorado Springs, Col.; Lincoln, Neb.; Washington, Pa.; Lowell, Mass.; Ottawa, Canada; Asheville, N. C.; Portland, Me.; Atlantic City, N. J.; Auburn, N. Y.; Punxsutawney, Pa.; New Rochelle, N. Y.; St. Joseph, Mo.; New Cumberland, W. Va.; Taunton, Mass.; Salt Lake City, Utah Ter.; Kearney, Neb.; Cleveland, Ohio; Yonkers, N. Y.; Vicksburg, Miss. (with eight hours Saturdays); Schenectady, N. Y.; St. John's, New Brunswick; Montreal, Canada; Leominster, Mass.; Scottdale, Pa.; Winnepeg, Manitoba (with eight hours Saturdays); Syracuse, N. Y.; Buffalo, N. Y. (mill men), and Bradford, Pa.—42 cities.

A GREAT PARADE.

Fifty Thousand Men in Line To-Day in Chicago.

CHICAGO, May 1.—Labor's annual holiday is being celebrated to-day by nearly every trade organization in the city.

The parade was a monster affair. The many that had spoken for places in it turned out full quotas, and it is estimated that no less than 50,000 men were in line.

The one significant feature of the parade is that it in a measure indicated the extent of the eight hour agitation, for nearly all the unions that participated will be found arrayed on the side of the men who are fighting for a shorter working day.

A monster mass meeting will be held on the Lake front this afternoon which will be addressed by Judges Tuley, Altgeld, Tuthill and Prendergast, Congressman Frank Lawler, Charles F. Seib, of the Cigar Makers Union, and W. H. Oliver, vice president of the Carpenters Council.

BOSTON CARPENTERS.

A Strike for an Eight-Hour Day Begun. Everything Quiet.

BOSTON, Mass., May 1.—There is but little excitement in labor circles here to-day. There will be no street demonstrations of any character.

All carpenters employed by firms which have conceded eight hours went to work as usual this morning, but all those employed by the Master Builders and the Carpenters' and Builders' associations did not report for work. Some of the non-union men also quit work.

The men are confident of success and say they will have the aid of the American United Brotherhood, the Amalgamated Society of Carpenters and Joiners of the American Federation of Labor.

Conferring With New Bosses.

CHICAGO, May 1.—At an informal conference between committees of the striking carpenters and the new bosses association, it was agreed to submit all points of difference to an arbitration committee, and representatives of each organization were immediately appointed to act. This arrangement, of course, does not include the old Master Carpenters' Association, whose members still refuse to treat with the carpenters as a union although having conceded the eight hour day and other important demands.

Masons Win; Carpenters Opposed.

TAUNTON, Mass., May 1.—The journeymen masons' demand for nine hours has been acceded to without dissent. Of 150 journeymen carpenters, twenty-three belong to the union, and so unanimous is the feeling against the nine hour demand that it is thought the union men will be given up or be crowded out of work, of which there is very little at the present time. A dozen hod carriers on the yarn mill at Weir village struck for twenty-five cents increase. They were refused, and others were hired at once.

—The strongly dramatic and emotional drama "Inherited," in which Maude Granger began a tour last Monday, presents such opportunities for the display of the great talent Miss Granger possesses beyond almost every woman of her line, that her success in it will surely result. Its initial performance at Music Hall, was viewed by a critical audience that included many professional theatrical people. Miss Granger's work received naught but favorable criticism.

A Peddler Plugged.

While Judge Codington was engaged at the station house this morning, a German peddler, whose name contains most of the letters in the alphabet, sauntered in, his face being covered with blood, and his clothing badly disarranged. The peddler claimed that he had been assaulted by a man named Dawe, who was at work on the Crescent Avenue chapel. Officer Sliter went to the chapel and arrested Dawe who subsequently pleaded guilty to the charge of fighting and disorderly conduct. Judge Codington thereupon imposed a fine of five dollars.

An Obstreperous Servant.

Rosa Droada, a Hungarian servant girl, imported from New York to work in Schorb's restaurant on East Front street, was arrested at that place by Captain Grant and Officer Cooney, last evening, on a charge of disorderly conduct. The woman fought and screamed on the way to the station house, but when she arrived there she became more docile. The whole matter originated from a dispute the woman had with her employer about wages. Judge Codington suspended sentence.

Fire at Westfield.

Brokaw's photograph gallery at Westfield, narrowly escaped destruction by fire at 4:30 o'clock yesterday afternoon. The proprietor was away at the time, and a lamp exploding in the drying room caused the flames to ignite with dry material and spread rapidly. Through the heroic efforts of Messrs John Dorval, L. M. Whittaker and Mat. Clark, the fire was extinguished after about $100 damage was done. No general alarm was sent out.

Fire in Justice Hardy's Office.

While Justice Hardy of North Plainfield and a friend sat conversing in the former's office on Tuesday evening, a fire kindled in the ceiling directly over their heads. The first intimation they had of the fire was when some sparks fell on the floor. The fire which started from a lamp, was easily extinguished.

RAYMOND—DORMAN.

Married Last Evening, and to Sail For Europe on Saturday.

The altar and pulpit of the Crescent Avenue church, last evening, was buried beneath a mass of cherry blossoms surmounted by Harrisii lilies. The occasion was the wedding of Miss Lillian Dorman and Mr Frank Raymond. The church was never more crowded, nor have more ladies in evening dress ever been seen within its walls.

The bride wore white faille francaise, rich in its simplicity. The corsage was cut low, but filled in from the lace trimmed edge to the throat with shirred tulle. The short sleeves met the gloves just below the elbow. She entered on the arm of her father, carrying a bouquet of lilies of the valley bordered with Niphetus roses. The bridesmaid was Miss Drake in white India silk. She carried pink roses.

The groomsman was Mr. Edward Raymond, the groom's brother. The ushers were Messrs John N. Moore, Andrew Mc Kinney, Howard Beale, and Harry L. Borden of this city; and Messrs John G. Elliott and Wm. P. Howe. The Rev. Asa Reed Dilts performed the ceremony—the Rev. Wm. R. Richards making the prayer of supplication.

A reception was held from six to nine at the home of the bride, which is adjoining the home of the groom on Central avenue. There was a large number of guests present. The supper was served by Mazetti, and the music was Landers. Mr. and Mrs. Raymond left Plainfield on a late train. They will sail for Europe on the "Aurania," Saturday afternoon at two o'clock. A large party of young society people of Plainfield will see them off.

Eulogy to the Dead Comrades.

Ex-Mayor L. V. F. Randolph, Past Commander of Winfield Scott Post, G. A. R., of this city, in speaking Tuesday evening of the dead comrades the Post had lost, said in part:

"To unworthy men life is but a funeral march. To the brave and true, the gate of death itself is but a triumphal arch under which they pass on to a higher glory. The glory of our Union army was that it was an army of volunteers. The World had never seen such a host. How the great uprising comes back to our thoughts! The student, the mechanic, the clergyman, the farmer, the lawyer, the merchant and the physician, all became soldiers almost in a moment. The occasion—because rebels had fired on our flag. What did that flag stand for? Independence, union, freedom, patriotism, national grandeur, human brotherhood.

"Those who have at last been called home were of those who rushed to the rescue of free institutions. It was much that they were spared to enjoy so long the country and the freedom for which they fought.

"Let us learn to bear ourselves manfully as they did; to meet bravely all our foes, even the last great foe, and so make even him our friend; and to stand shoulder to shoulder with all good men and true in life's battle. Especially let us stand up for our God and our flag."

Take Care There!

To-night the last two games in the Central Bowling tournament are to be rolled. They will be between the Fanwoods and the Mondays on the former's alleys. The latter have won two already from the Fanwoods, and if they win the other two to-night, the Crescents will be tied for second place.

A Westfield bowler told a PRESS reporter this morning that some of the members of the Fanwood team would stay away to night and let the games be forfeited. A large number of the Crescents will be present this evening, and keep their eye on the ball.

On the Tennis Court.

Yesterday afternoon the second match for the Tennis Championship of the High School, was played on the court of Mr. Smith, on Central ave. The Seniors were represented by Messrs Patterson and Simmonds. While Messrs Rockwell and Smith appeared for the Juniors. The Seniors won the first set by a score of 6 to 1. The second set was won by the Juniors, score 6 to 1. The Seniors then won the third set which gave them the match, by the same score, 6 to 1. The seniors lost the first match Tuesday by default. The final match is being played this afternoon.

Mr. Hibbits Denies the Statement.

Mr. Finton Hibbits, denies the statement published in another paper to the effect that a young man recently employed by him, threatened to kill him with a knife. Mr. Hibbits says that the man was taken sick while in his employ, some time since, but he never threatened to take his life, except to outsiders. The man is now boarding with a family in North Plainfield, and being treated by a physician.

To-Night's Programme at Reform Hall.

The programme for the regular Thursday evening meeting of the Reform Club, to-night, will include instrumental music by Miss Smith, readings by Mrs. Opdyke, songs by Miss Glen and a recitation by Miss E. Smith. The question to be discussed is "Does pride, extravagance and fashion separate more families than the drink habit?"

—To-morrow will be sentence day in the Somerset county Courts, when all prisoners who have either pleaded guilty or been convicted will be arraigned for sentence.

PARTICULAR MENTION.

Mr. and Mrs. B. A. Hegeman, Sr., of Sycamore avenue, Washington Park, left to day for Washington, D. C.

At Mt. Olive church this evening, at eight o'clock, will occur the marriage of Miss Alice White of this city, and Mr. John Cooley of Montclair, N. J.

The funeral of the late Dr. F. A. Kinch, who died at Westfield on Sunday, took place from his late residence yesterday afternoon, the Rev. Mr. Cadwell officiating. Interment was made in the family plot in Fairview cemetery.

The death is announced of Martin B. Westerfield which occurred at his home on New street, this morning, aged 46 years and 8 months. The funeral will take place from the house on Saturday at 10 o'clock A. M. Interment in Fairview cemetery, Westfield.

Ex-Mayor Cooley, Counselor Reed and Messrs Clinton VanVliet, Howard Emerson, M. A. Haven, C. P. Rogers, Chas. R. Thiers, L. M. French and James Jackson are the committee in charge of the promenade concert and dance of the Plainfield Crescent League, next Tuesday evening, in the French building on Somerset street. Is promises to be an enjoyable affair.

Another of the series of subscription musicales was given at the home of Mr. and Mrs. Harry G. Runkle, last evening. The appointments were exquisite in every way. Miss May and Miss Haines were the piano soloists. They were heartily encored, as was also every artist on the programme. The Mendelssohn Quartette and Mrs Clark were the vocalists. There were besides, the usual violin and 'cello soli.

A Pretty Home Wedding.

There was a houseful of relatives, kindred and friends, yesterday afternoon, at the home of Mrs. L. Prescott. They were gathered to witness the marriage of her daughter, Miss Emma U. King, to Mr. Theodore Hardy. The officiating clergyman was the Rev. Cornelius Schenck.

The parlor mantel was banked with apple blossoms, and potted plants and palms formed a back ground for the couple. The bride's gown was of white gloriosa trimmed with silver lace. She carried a magnificent boquet of lilies of the valley. Her maid was her cousin, Miss Lillian A. Force, and the groomsman was Mr. G. W. Moreton. The ushers were Mr. Will Williams and Mr. John Force. The presents were very many indeed. Miss Amy Colgate, of Brooklyn, played the Mendelssohn bridal march.

The happy couple looked unusually young and gratified, and the affair throughout was one of the most charming home weddings ever seen. A wedding supper was served that bountifully satisfied the tastes and appetites of all. Mr. and Mrs. Hardy left amid a shower of rice, and the well wishes of their friends, for Washington.

After the ceremony and congratulations, the guests had a merry dance on the spacious lawn. Prof. Jerry Blair led the orchestra in good old Southern style. So merry a wedding has not been enjoyed in this city for many months.

Unity Lodge Anniversary.

Unity Lodge, No. 102, K. of P., celebrated its seventh anniversary in the new lodge room in the Hand building, last evening, followed by a dance in Amphion Hall. The evening's programme consisted of parlor magic, selected readings, topical and sentimental songs, recitations, ventriloquism, the whole concluding with Mr. Foster's amusing farce, entitled "A Dollar for a Kiss." The entertainment was interspersed with piano selections by Miss Anna Fryer. The attendance was large.

His Sanity Questioned.

James Sherlock was committed to the city jail last evening, pending an examination as to his sanity. The man came from Ireland one year ago last Monday, and at times since his arrival here he has shown signs of mental derangement. He is but 23 years old and unusually large and strong looking for his age.

The Works Yet Closed.

The Shackelton car-heating works at Bound Brook remained closed yesterday. Some of the late employees called at Mr. Shackelton's house in the morning to interview him, but he was not at home. The men are enjoying themselves about town in all ways, but their feeling is very bitter against Shackleton. So far no trouble has taken place.

A correspondent would like to know if it is not about time that the dogcatcher started on his rounds. The city ordinance prohibits dogs from running on the streets without being properly muzzled, yet dogs wearing muzzles are as scarce as white mice.

NOW THEY'RE OFF!

The Crescent League's Ball Tossers Strike Their Proper Gait.

The judgment of the managers of the Crescent nine in opening earlier than usual in the season, is proven. They have already found out what stuff their team was made of, and by next Saturday will have all the weeds pulled out. Whereas the teams of Rahway, Somerville, Perth Amboy and other places in the State, start in next Saturday stiff and green.

The celebrated Columbia College team came to Plainfield, yesterday, and 300 people gazed in pity and pride on the visitors as the Crescents proceeded to roll their field with them. Livingston could not play, so Martin was put in the pitcher's box, and Gillis the new fielder played short. Martin opened the game by striking out the first three of the collegians. His drop was the most effective ever pitched on the grounds. It fooled every one of the Columbias, and every one of them struck out.

Gillis proved himself just what the Crescents have always needed—a batter. His first two hits were way out in deep centre, but Snedeker was waiting by the fence to pull them down. So when Gillis came to the bat for the last time he was bound nobody should get the ball. He "soaked" it over the fence into Richmond street. Then the same crank who had been complaining that the Crescents could not bat, got up and left because, he said, "the game is too onesided." He probably wants Gillis discharged now, for making a home run.

Everybody hit the ball yesterday except Lee, and the only error that cost anything was Jones' first passed ball of the season. It let the only college man to first that got there up to the fifth inning. There were no brilliant plays, but it was an unusually interesting game because of the Crescents' lively batting and spirited base running. The score was:

Another Lunatic at Large.

At four o'clock yesterday morning Officers Flanagan and Cooney responded to a call from the electric light station, and when they arrived there Andrew Nolan, the night fireman, told the officers that only a few minutes before a man bareheaded and in his shirt sleeves had run by the station as though escaping after a robbery. The man carried a bundle under his arm and he was seen climbing the railroad bank. Later he was seen sitting on the trestle work back of Mr. John A. Thickstun's coal yard, at Madison avenue and Third street, but notwithstanding the fact that a thorough search was made, the officers were obliged to return without their man.

Should your children be taken with the croup or whooping-cough in the night, they may die if not relieved at once. How important then to keep a bottle Hires' Cough Cure handy. Instant relief sure.

The Battle Told in Song.

A member of the Olympic bowling team, has written and sent THE PRESS for publication the following doomed poetical tribute to the Crescents' victory.

In Plainfield City there are two clubs,
"Olympics" and "Crescents" by name.
Who each with the other did slightly differ,
With regard to their skill and fame.

The Olympics considered themselves Plainfield's bowlers,
Said they "We will not lose that name,"
But on April 18, with the Crescents they lost it,
And never to hold it again.

The Crescents they are a jolly good club,
Who thought it not best to boast.
Little thinking that in so short a time,
They'd have such a beautiful roast.

"Two games we should take," the Olympics said,
"And one we will surely win."
But only some pointers in bowling they got,
And a few in the way to win in.

So now the big race is all over!
And the Olympics are out of the chase.
The Crescents by fine bowling have second,
While "Jay's quitters" have only sixth place.

Then hurrah for the Crescents, hurrah, boys!
The words though may strange to you seem.
But Plainfield's crack bowlers are our boys,
Plainfield's big Crescent League Team.

THE FIRST ANSWER.

"Why is it That First-Class Entertainments in Music Hall are Not Better Patronized?"

TO THE EDITOR OF THE PRESS:—You are good enough to say that the publication of the true answer to the above question may lead to the correction of the causes. It is not likely to do so. If by some means, it were possible to completely obliterate the present Music Hall and have an opportunity to rebuild, then we could talk about correction. If I remember rightly, when Music Hall was built, it was claimed that Wallack's (now Palmer's) Theatre, in New York, was the model. This idea was evidently carried out for we have a great barn, cold, desolate and forbidding, quite too large for a New York theatre and too uncomfortable for people used to ordinary comforts to appreciate. I have always considered Palmer's the least attractive theatre in New York, not excepting the Bowery. Perhaps the mistake was in the choice of the model, but I think not, for even Palmer's theatre is *furnished*. What we wanted was a cosy, pretty little playhouse, on the pattern of the New York Lyceum, comfortably furnished with carpets, cushioned chairs and some display of decorative art. We wanted quality, but we got quantity, instead, and it don't fill the bill. We are too near the metropolis to appreciate the rustic simplicity and rural beauty of a barn as a substitute for a theatre. Plainfield's theatre-goers are mostly business men and they, as a class, prefer spending their evenings at home, rather than on the hard, uncomfortable seats and in the draughty, cheerless atmosphere of our opera house.

No, the only way to make Music Hall draw a good house every time, is to tear it down, rebuild it on a scale to fit the town, make it cosy and comfortable, heat it and, above all, *furnish* it.

CRITIQUE.

The Amphion Hall Opening.

It has remained with the management of the above place, to be the first in the field to inaugurate a system of popular prices for a first-class entertainment. There can be no doubt that Plainfield's amusement patrons have often been overtaxed in this regard. The array of well known talent to appear Monday evening, in a vaudeville entertainment in The Amphion, together with its new scenery and stage settings, should guarantee a succession of crowded houses.

The great Crowley, who created such a sensation last year with Haverly's minstrels, and caused so many discussions regarding the sex of this phenomenon, is to be one of the features. The Healys, the Sisters Coulson, Geyer & Lord, and the boxing dogs, "John L. Sullivan" and "Jake Kilrain," are too well known to need any comment. A score of other artists are to appear, and as the profits are to be devoted to one of the local organizations, the public should respond most generously.

Don't Hawk, Spit, Cough,

Suffer dizziness, indigestion, inflammation of the eyes, headache, lassitude, inability to perform mental work and indisposition for bodily labor, and annoy and disgust your friends and acquaintances with your nasal twang and offensive breath and constant efforts to clean your nose and throat, when Dr. Sage's "Catarrh Remedy" will promptly relieve you of discomfort and suffering, and your friends of the disgusting and needless inflictions of your loathsome disease?

Some Queries for North Plainfield's Committee.

TO THE EDITOR OF THE PRESS:—We desire to ask the Town Committee of North Plainfield Township the following questions through your most valuable paper.

Why are our public roads neglected so long, and why are our road overseers not allowed to go to work as soon as elected? Why do they not have more crushed stone to use on the roads, and why is there not a certain amount of money allotted to each district for crushed stone? Why are the sections of certain districts (which have been made good by private individuals and taxpayers at their own expense) allowed to go to ruin, when a small sum spent in repairs will keep them good for years?

Answers to the foregoing questions are earnestly requested and will be thankfully received by

SEVERAL TAXPAYERS.

—The "Silenties," who will play the Crescents next Saturday, are all deaf and dumb, but they can play.

While you are here, look at our SLIPPERS and TIES for Ladies; also our $2.50 and $3.00 SHOES, made especially for us. This sale will commence

Wednesday, April 23, and Continue Until May 3.

TRY US ON REPAIRING.—We don't promise to make old shoes new, but we can and do make them almost as good as new, and give them a new lease of life. Many people do not have shoes repaired because they have a mistaken idea they look botchy and clumsy; but such is not the case with us, for we put in the finest leather that can be bought, and done by one of the best shoemakers in the State.

OZONE SOAP!

THE FINEST LAUNDRY SOAP EVER PUT ON THE MARKET.

WASHES EASILY. LATHERS FREELY. SAVES LABOR.

All the Manufacturers' request is simply ONE TRIAL, or still better, a COMPARATIVE TEST with whatever other soap it may be; THEN OZONE SOAP ITSELF will convince every one of its great superiority. It will be found to keep the hands soft and smooth, even where THE MOST EXPENSIVE "Fancy" Soaps roughen and are otherwise deleterious to them, and of COURSE if it is easier on the skin than other Soap, it must be EASIER ON THE CLOTHES than other Soap.

MAY DAY IN EUROPE

Several Cities Under Extra Military Protection.

GREAT EXCITEMENT IN PARIS.

Serious Trouble Looked for There Before the Day is Over.

The Banks, Public Buildings and the Residence of President Carnot Guarded. Anarchists Prepared to Sack the City. Berlin Troops in Readiness for a Hasty Summons—In Austria's Capital.

PARIS, May 1.—In addition to the regular garrison of Paris, which is being held in barracks to-day ready for action, eight cavalry regiments have been placed under the governor of the city. They were placed this morning on guard at the Palace of the Elysee, President Carnot's residence, the legislative chambers, and at other points where disorder is likely to occur.

The city is in great excitement but no disorders have yet occurred.

In the Faubourg St. James last night the police arrested three Italians who have been prominent in recent Anarchist movements.

When the police approached them the Anarchists drew knives, whereupon the police drew their swords.

A scuffle ensued, but the Anarchists were overpowered and locked up.

One of the Anarchists arrested had in his possession a manifesto, showing that he and his friends intended to devote themselves to sacking banks and shops in the riot which they had planned for to day.

The force of watchmen at the banks is doubled to-day and a strong detachment of police is guarding the Labor Exchange.

According to a number of the morning papers the royalists are preparing to take advantage of any turn in affairs, growing out of revolutionary movements, which might redound to the advantage of their cause. These papers assert that the Duke de Luynes will be arrested for complicity in the plot of the Marquis de Mores and others of the royalist faction to proclaim the monarchy with the young Duke of Orleans as King. In their domiciliary visit to the residence of de Mores the police are said to have discovered documents containing evidence upon which the arrest is to be made. Meanwhile, M. Mondacq, private secretary to the Marquis, who was also arrested as a suspect in connection with the alleged royalist conspiracy, has been released from custody.

The report that Louise Michel, the famous female apostle of anarchism, had been arrested at Lyons is confirmed.

The expulsion from France of the Italian anarchist, Cipriani, who was arrested for attempting to foment a revolutionary movement among the workmen, has been decided upon.

Vincennes has been garrisoned by five regiments of cavalry drawn from Fontainebleau and Melun.

La France (Republican) confirms the reports of the existence of a monarchist plot to overthrow the Republic.

Duke de Luynes has fled to Lausanne, Switzerland.

Excitement in Berlin.

BERLIN, May 1.—Excitement runs high in Berlin to-day but disorders are reported. Citizens are assured that the authorities can cope with the striking workmen, though at least 25,000 men are now on strike in Germany. Regiments have been supplied with ball cartridges, and instructed to load with them. The police are kept in the stations. All labor demonstrations so far to-day have been peaceful.

In Austria's Capital.

VIENNA, May 1.—Strikes are constantly occurring in the Austrian textile factories, some of which are under military guard. During the course of a riot, commenced at Frankstadt by incendiaries, the strikers sacked the [illegible] *Hoss factory and attacked* the troops with clubs and stones. The junior partner of the firm was captured by the rioters, who compelled his ransom by his mother.

Police and Workmen Come Together.

THE HAGUE, May 1.—A meeting of 4,000 workingmen was held here last night to agitate in favor of an eight hour-day. As the meeting was dispersing the crowd came into collision with the police, and in the fight which ensued several persons were severely hurt by blows from the officers batons.

The Eight Hour Move in Lisbon.

LISBON, May 1.—The workingmen have been summoned by their leaders to assemble in mass meeting on Sunday to formulate a demand for an eight hour day.

OUR exchanges are beginning to complain of unfair dealing on the part of another firm of butchers of advertising rates. We of course sympathize with our contemporaries, but if they followed our plan and refused to accept (as we do almost every day) advertisements offered by parties of no reputation, at starvation prices and with no security, fewer publishers would be called upon to complain.

BARCLAY'S popular Boy's Minstrels will give one of their "boss entertainments" at Van Deventer Hall on the 19th inst. In addition to the usual attractiveness of the company's programme, Messrs. The two houses will be ready for occupation in September. Messrs. *Melbourne and Manning have now bought* a lot on Park avenue adjoining Mr. E. L. Roberts, upon which they will build at once.

WHAT has been reported erroneously as the "farewell" sermon of the Rev. J. H. Vincent, was delivered on Sunday evening in the M. E. church. The place was literally jammed with listeners, and crowds were unable to get inside. The address was in the speaker's usual instructive and interesting style, and most favorably received—especially where he said that his absence would be but temporary. The Revs. Bliss, Yerkes, Hurlbut and Mecker, assisted in the services.

Family Longevity.

Among our death notices of this week will be observed a record of the decease of Mr. Henry Hetfield of Scotch Plains in the 88th year of his age. He was born among the Short Hills, has always lived in this section of the country and at the time of his death was a deacon of the Scotch Plains Baptist Church. He was the brother of Miss Hannah Hetfield of this city, who has nearly reached her 98th year; while another sister, Mrs. Lee, died at Short Hills recently, being past 92 at the time. Two brothers are still living within two or three miles of their birthplace—one Ezra, aged 85, and the other Daniel, aged 81.

Our next Agricultural Fair.

The annual meeting of the U. & M. C. M. A. A., held at its grounds on Monday evening, resulted in the election of the following Board of Directors which met for organization last evening. Messrs. John I. Holly, James S. Vosseller, J. Wesley Johnson, Jonas H. Platt, Nathan Robins, Orville T. Waring, Wm. H. Darling, Andrew H. Smith, Moses H. Acken, J. V. D. Cristopher, Edward C. Pearson and the Hon's. Chas. A. Campbell and James H. McPherson.

The dates selected for the holding of the Fair of 1881, are September 26th, 27th, 28th, 29th and 30th. The week chosen directly follows the Waverly Fair and immediately precedes that at Somerville.

Closing the Season.

Just one year ago last Thursday evening, the Plainfield Parlor Circle gave its closing sociable of the season 1879-80 at the residence of Mr. J. Fred MacDonald—then a pronounced bachelor. On Thursday evening of last week the same organization closed its past season of gay festivity with a most entertaining dance and convivial time in general, at the house of the same gentleman—now the better (?) half of a happy family. The members of the Circle and their friends were present in large numbers, and in the whirl of waltz and galop and the intricate figures *of quadrille* and lanciers the melodious strains of imported musicians were followed in movements harmonious and continuous.

"No Money."

The election on Monday last—called by the *Common Council* for the purpose of obtaining, if possible, the authority to make an additional tax levy of $15,000—resulted, as was expected, in the citizens most decidedly declining to grant the demand. Such verdict being assured, but little interest, active or passive, was taken and but a small vote cast. The following is the total by districts:

	Money	No money
First	15	118
Second	29	120
Third	33	62
	77	300
		77
Majority for "no money"		223

Total vote, 377.

Back Again.

We promised Callender's Georgia Minstrels after their performance at Van Deventer Hall on the evening of March 17, a hearty welcome if they returned, and the public will undoubtedly accord them such on Monday evening next at the same place. Crusoe, Smith, Devonear, Haycraft, Robinson and Taylor are masters of the bones and tambos, and their bright repartee, fantastic walk-arounds and popular songs, distinguish them as one of the first song and dance teams ever organized in this country. The company is made up of good singers and the harmony and sweetness of their airs have never been excelled by a travelling company. Their conundrums are new and their jokes fresh and entertaining. Don't fail to see them in their entirely new programme.

Children's Day.

The programme for the children's service to be held at the Crescent avenue Presbyterian church next Sunday morning, beginning at half-past ten o'clock, is as follows:

The singing will be almost entirely done by the children of the *Sunday* school, and their past and coming rehearsals will undoubtedly result in the beautiful rendition of the different selections.

Important Laws.

To be found on our outside pages. Chapter CC, relates to erection of fire escapes on public buildings. Chapter CXCII imposes a heavy penalty for manufacturing or dealing in adulterated lard. Chap. CXCVII tells what will be done with you if you deal in any manner with Canada thistle. Chapter CXCIX provides that the city of Plainfield shall be divided into wards. Read these laws carefully as well as all others published.

Honors to Foreman Saltzman.

That popular and esteemed gentleman, Auguste Saltzman, Esq., having been re-elected as Foreman of the Alert Hose Co., the members of that organization engaged the Plainfield Cornet Band on Monday evening last and proceeded to the residence of their admired officer on Central avenue, where a reception and serenade was had. Mr. Saltzman's experience as a bountiful host was brought into service, and the visitors were entertained in the royal manner for which the gentleman is so celebrated. These pleasant moments were duplicated on the evening following, when Mr. Saltzman was favored with a serenade by the Plainfield Saengerbund, of which Society he is a member. On Wednesday per steamer "Amerique" he sailed for Europe for a short vacation; and the following invitations to his friends issued by the Alerts, were most welcomely received by those who were so fortunate as to be favored with one.

The Seventh-Days' Sociable.

The young people of the Seventh-Day Baptist Society of this city, believe that if a thing is worth doing at all it is worth doing well. In consequence they infuse into all of their undertakings a spirit and energy that culminates in the unexceptional success of all their schemes. On Thursday evening of last week, one of their enjoyable social entertainments took place in the parlors of the church, at which a programme was rendered, most attractive by reason of its variety and most pleasing by reason of the efficiency and ability of those who lent their talents towards its fulfillment. Of course a large and appreciative gathering was in attendance—experience having taught members and friends the worthiness of the occasion—and the entire smoothness which characterized the evening's diversions, was remarkably admirable. Mr. Ettie Lewis, a son of the presiding "Elder," opened the programme with a praiseworthy reading of Will Carleton's "School Master's Guest;" which was followed by a vocal duett in which the pleasing voices of the Misses Jessie Utter and Sarah Randolph blended harmoniously. A tableau entitled "I am Grandma and you are Grandpa," was prettily interpreted by Mr. Harry Maxson and Miss Ernest Smith; while a dialogue founded upon the improbable supposition that a "school marm" could possibly have a secret, was participated in by a *coterie* "too numerous to mention," individually. The gem of the evening—at least of those participated in by the adult "artists"—was the singing of "Sweet and Low" by a quartette composed of Miss Nettie Potter, Miss Nancy Randolph and the Messrs. Arthur Titsworth and Orson Green. The elocution of Miss Annie Titsworth—always welcomed and enjoyed—was never more favorably displayed than in the reading of "The King of Denmark's ride." This was followed by a tableau, "The Picnic;" and the recreation of the occasion was closed by an exhibition of the vocal powers and talents of a party of Jubilee singers—creating an undoubted sensation if not appealing directly to the sense of melody. A solo by Mrs. Edw. Mosher of the Park *avenue Baptist church choir*, was also an enjoyable feature, and its mention should not be omitted. The next sociable of the Seventh-Days is announced to take place on the 26th inst.

Prize Speaking at the P. H. S.

We had occasion in June of last year to speak favorably of the modes and methods followed by Miss Belle Bovee in the instruction of elocution, and to at that time presage future improvement on the part of the class that was then just entering upon the earlier degrees of advancement under the lady's tuition. At Assembly Hall on Thursday evening of last week, this class again gave a public exhibition of its talents and powers in general and particular, to a gathering admitted by card of invitation—a gathering that included teachers scholars and friends of the High School, and filled the capacity of the room to its utmost. The programme was a most interesting one, and showed by means of its variety that the teacher does not confine herself to any one style of rendition, but is able to instruct her pupils in the proper interpretation of the different sentiments, ideas and idioms desired to be conveyed by the many authors of diverse productions in prose and poetry. Of the class that spoke on June 4th of last year, all took part on Thursday evening with the exception of Miss May *Depew; and by those who remembered* the ability displayed upon the earlier occasion, a decided and desirable improvement was recognized.

The entertainment opened with a piano execution by Miss Mary Gardner, admirably performed, during which Miss Bovee and her scholars entered the Hall and occupied the seats that had been reserved for them in the extreme front. Mr. J. Heywood Cuthbert then appealed in verse to the audience for its attention, its consideration and its favor—delivering this so called prologue in a most pleasing and effectual manner. The performance proper was auspiciously begun by Miss Sadie Haynes, who spoke "The Drummer Boy" in a way that was both *well-judged and intensely graceful. During* none of the recitations that followed was more ease or appropriateness displayed in gesticulation. Mr. Harry Squires' selection, the "Ballad of an Oysterman," admirably served to show the speaker's fine appreciation and sense of the humorous. Miss Lulu Ross gave "The Curfew" in a pathetic and touching manner; and Miss Lillie Newman portrayed the annoyances and vexations of being "Too late for the train," in a style that took naught from the exaggerated satire of the composition.

A short intermission to the oral diversions was here filled acceptably by one of Miss Carrie Dewey's instrumental performances, which was followed by a decidedly eloquent recitation of "Damon and Pythias" given by Mr. Edward Lanson. The entire class under the direction of its teacher then exhibited the different movements and positions of hand and body that are so necessary for the complete suggestion of the many sentiments to be portrayed. The exposition was interesting and remarkably perfect—the ease and grace shown being a thorough evidence of the efficiency of Miss Bovee's instruction. Miss Rose Carter followed and spoke "High Tide," a piece calculated to show the young lady's power and command of the dialect melody included in the selection. Miss Bessie Shepperson's soft voice and quiet action was most appropriate for the correct rendition of the "Petrified Fern." Another musical solo by Miss Gardner preceded Miss Madge Sutphen in "A very naughty little girl's view of life." The perfection of this young lady's version of the subject gained for her the first encore of the evening, which she replied to in another line with less satisfaction. Miss Fannie Fasoures spoke Longfellow's "Legend of the Beautiful," and was succeeded by Mr. Bertie Stover in a poem of Browning's delivered with much force. Miss Nellie Sherwin gave "The Painter of Seville" with possibly more of that necessary adjunct, expression, than is general among beginners. Her efforts were commendable, as were also those of *Mr. Corydon Tyler* who spoke "King Robert of Sicily" with some fire and gave the accompanying chant of the Monks in an acceptable manner. Mr. Russell Clapp was particularly enjoyable in "Bijah and the posteses" and received a deserved encore. To the last, however, was left the best as witnessed by the flattering applause that was accorded Mr. J. Heywood Cuthbert's fluent, forcible and eloquent delivery of "How he saved St. Michael's." An enthusiastic recall was given at its close, and the honor in store for the young orator was plainly indicated.

While the Rev. Wm. Manchee, and Messrs. Samuel F. Kimball and Wm. Murray—the Judges selected to decide the respective merits of the speakers—were engaged in consultation, Mr. Corydon Tyler, on behalf of the class, presented Miss Bovee with a handsome volume as a token of their esteem for their teacher and their recognition of her efforts towards their improvement. The Rev. Mr. Manchee subsequently spoke a few words of praise regarding what had been done in the direction the individual members of the class were aiming, and closed by presenting Mr. J. Heywood Cuthbert with the prize of the occasion—a handsomely bound copy of Tennyson's Poems—and announced that the committee felt it a duty to make honorable mention of Miss Nellie Sherwin, Miss Madge Sutphen and Mr. Edward Lanson.

An epilogue to be delivered by Mr. Bertie Stover, was—owing to the lateness of the evening and the consequent withdrawal of the larger part of the audience—unfortunately omitted.

Prices for Ice.

8 pounds daily, per week,	42 cents.
12 pounds daily, per week,	49 cents.
16 pounds daily, per week,	56 cents.
20 pounds daily, per week,	63 cents.
25 pounds daily, per week,	70 cents.

Forty cents per 100 pounds to families. Twenty-five cents per 100 pounds to hotels, butchers, restaurants, etc.

Perjury that did not pay.

Mr. William Stevens (colored) probably begins to realize the fact that the way of the transgressor *is hard. It being discovered* that the witnesses in defence of John Peterson—sentenced to ten years at State Prison by Judge Magie on Friday last, for an assault upon Mr. Geo. Owens, of Liberty Corners—had given false testimony in endeavoring to prove an *alibi* for the accused, the officers of the law were put upon their track. Stevens was arrested by Captain Dodd in this city last Friday on a charge of perjury, and committed to the Somerville Jail by Justice Wadsworth, the same day. Peterson's wife and her mother, two others who swore falsely, have previously been arrested. Another colored woman charged likewise, has been impossible to discover, although the most strenuous search has *been made for her.*

Important Decision as to Postal Cards.

The following order declaring postal cards unmailable with anything but the direction on the address side was issued by Postmaster General James yesterday: "On and after June 1st, 1881, no printing or writing will be permitted upon the address side of postal cards, except that imprinted thereon at the manufactory, and such as may be necessary for the proper direction of the same. All postal cards bearing any other writing or printing upon the address side are declared unmailable and must be returned to the sender by the Postmaster at the office *where they may be mailed. Such cards* may be treated as "spoiled," and redeemed by any Postmaster upon application of the holder, as prescribed in section 171, Postal Laws and Regulations, 1879. Future supplies of postal cards will be printed on the address side with the words "Nothing but the address can be placed on this side."

A Flag Celebration.

A large meeting of the Aurora Singing Society of New Brunswick, N. J., was held last week in that city for the purpose of completing final arrangements in reference to the grand flag demonstration which will take place on Monday, June 20. *Officers to serve* upon the occasion were elected as follows: Grand Marshall, E. H. Becker; assistants, Abm. Rupp and Michael Rose.

The following gentlemen were also elected to serve as a Committee of Arrangements:

Messrs. Gebhart, Wahler, Becker, Schneider, Zahn, Cabrman, Mulfinger, Leutaeizer, L. Volkert, K. Volkert, Frank, Roth, Rupp, Broem, Lehn, Jakey, Seng, Turk, Peuchner, D. Kreyling, Rose, Voos, Voght, H. Zeuner.

This promises to be the grandest celebration of the kind ever held in that city. Singing societies will be present from all the principal cities of the State, each bringing with them their own music. The Aurora Singing Society have secured Prof. Voss's celebrated band of Newark.

A Grand "Send Off."

No resident of Plainfield, and we doubt of the State, ever had a more pleasant "send off" than our popular townsman, Mr. Auguste Saltzman, did on Wednesday last upon his departure for Europe in the steamer Amerique. The 7 o'clock morning train from this city to New York bore away some fifty of Mr. Saltzman's friends who were going to bid him god-speed on his ocean journey. Arriving at Communipaw ferry, the steam tug "Standard," Captain Christopher Nelson, was found in waiting to convey the party to the "Amerique," which lay at her berth foot of Morton street, New York. Here other friends from New Haven, Conn., New York and other places, joined the party. Proceeding to the elegant cabins of the fine steamer, a mammoth and beautiful basket of choice flowers greeted the eye, a gift to Mr. Saltzman from Alert Hose Co. No. 1, of which he is the honored foreman. The basket, made in oval shape, and composed of Lillies, Tea Roses, Marechal Niel, and other choice flowers, was the handiwork of Brower, the Broadway florist. On the face of the basket appeared the words "Bon Voyage," in red pinks. The flowers were presented to Mr. S. by Mr. E. N. Erickson, and responded to by Mr. Saltzman in a feeling manner. Scarcely had the friends ceased admiring this beautiful tribute, when Mr. Saltzman was captured by Miss Jennie Nepel, a charming young lady, daughter of Jacob Nepel, Esq., a prominent jeweller of New Haven, Conn., who gracefully attached to his manly breast an elegant gold badge, in a few well chosen remarks. On one side of the badge, which is shield shape, with pendant, appears the words "Presented to A. Saltzman, by his friends." On the reverse side is the coat of arms of the State of Connecticut, with date "New Haven, Conn., May 4, 1881." After drinking the health of their departing friend, the party embarked again on the tug and proceeded down the bay for a sail, with the view of intercepting the steamer on her way oceanward and give "Gus" a parting cheer. Mr. Saltzman's wife and two children, Auguste and Maud, remained on board the steamer until she sailed at twelve minutes past ten o'clock. The party who went down the bay numbered about fifty, and experienced a most delightful time. Plenty of eatables and drinkables were furnished, and with song and mirth the time passed rapidly away until the "Amerique" was seen approaching in the distance. The tug was then run seaward to a point where the pilot was to be relieved of his charge of the great vessel. Here the "Amerique" came to a halt, and the "Standard" *was run along side of her.* Cheer after cheer broke upon the air, the sides of the huge ship being crowded with passengers, who evidently imagined that some great potentate was on board. Answering cheers were given by the passengers, while Mr. Saltzman, standing on the deck of the "Amerique," flung into the waters his fireman's fatigue cap, which covered his head. The cap was picked up by the crew of the tug, and will be presented to "Alert" and preserved as a *souvenir* of the occasion. As the Amerique swiftly steamed away, the prow of the "Standard" was turned homeward and landed its passengers at the Battery about two o'clock, all unanimous in expression that the occasion had been a most enjoyable one.

During the trip between Communipaw and the steamer a handsome masonic emblem was presented to Mr. Saltzman by one of his friends and admirers. Mr. S. assured the donor that he should preserve it as a valued memento of the occasion.

Among officials of the Plainfield Fire Department who went down the bay in the tug boat, were President of the Board of Fire Commissioners, Jeremiah Van Winkle, Commissioners Gilford Mayer, Wm. E. Jones, John N. Steiner, E. H. Depew, Chief Wm. H. Voorhees, also Postmaster Wallace Vail, ex-Councilman R. M. Stover, Karl T. Polak, F. Green, R. M. Stelle, B. R. Haines, J. E. Turfill, Frank O. Herring, Samuel T. Varian, J. Cuthbert, Wm. H. Brower, W. A. Bass, Wm. P. Humbert, W. L. Force, of THE CONSTITUTIONALIST.

There were also present, Jacob Nepel, Esq., from New Haven, Conn., representing the Fire Department of that place, Col. W. H. Thompson, of Brooklyn, N. Y., Geo. Wheelwright, of Elizabeth, N. J., Howard Bird, S. P. Howard, J. Trogan, Charles Auxiaux, Chas. C. Vallette, N. Fries, Morris Bumbaum, Alfred Alexandre, L. Bonet, and Mr. Stephover of New York.

The officers of the "Standard," thorough gentlemen, are Christopher Nelson, Capt.; Frank Tertening, pilot; E. Haulenbeck, Engineer; Morris Saxton, fireman; E. Nelson, steward; Isaac Bearsley, deck hand. Going down the bay Messrs. Commissioners Mayer and Van Winkle, had the honor of manipulating the steering wheel, proving themselves thorough "salts" in the business.

Mr. Saltzman will be absent in Europe about two months. He carries away with him the best wishes of a host of friends for a safe journey and return. This will make his fifteenth trip across the ocean. His business is importer of watches, No. 15 Maiden Lane. Mmle. Sarah Bernhardt sailed on the same vessel for France.

SPORTSMEN'S CORNER.

On Tuesday last Governor Ludlow issued commissions to the following persons as Fish Wardens for the term of three years from the 26th of April, ultimo: Joseph W. Orr, Camden county; James M. Pierson, Gloucester; Andrew J. Scarborough, Hunterdon; Joseph Ashmore; Mercer; William Lawrence and James J. Manuals, Salem; John C. Kitchen, Warren; Lambert Speer, Essex, and William J. Conover, Monmouth.

FACILITIES, unequalled by any place of the size of Plainfield, are offered parties desiring bill posting, by Force Bros., *who in addition to their already large* number of desirable "stands" have just completed the erection of a mammoth bill-board, 12x120 feet in dimensions on North avenue, near the depot.

Personals.

Ex-Councilman D. J. Marshall, who has been lying dangerously ill at his home for the past ten days with inflammation of the bowels, is slowly recovering.

Mrs. F. W. Knowland, and daughters Jessey and Cad, are visiting friends in Pittsburgh, Pa.

Mr. S. C. Ryder has accepted a position at Bridgeville, Warren County, where he has charge of a gang of workmen in the construction of a new railroad at that point.

Russel Johnson, Esq., and wife, have returned for the Summer to their residence in North Plainfield. Their many friends will gladly welcome them back for the season.

Mr. John W. Murray Jr., will compete at Elizabeth on the 21st inst., in a special quarter-mile race for the championship of the Elizabeth Athletic Club of which he is now a member.

Mrs. Charles Hyde and two sons sailed for Europe on Saturday last, where they will join Mr. Dorsey Hyde, the eldest son of the family, who has been attending a university in Germany for some time past. Miss Clara Milliken of this city, also sailed at the same time.

Miss Josie Buel of North Plainfield will spend the summer at Byram Point, N. Y., returning early in October. No cards; and it is earnestly requested that flowers be omitted.

Mr. Orrin E. Runyon, of the *Central Times*, has accepted a position in Newark where the fluctuations of the grain market will in future interest him. Mr. Wm. Little of this city, a graduate of the New Brunswick *Home News*, has secured the position left vacant by Mr. Runyon's change of base.

The intimates and acquaintances (of both sexes) of Mr. J. Hervey Doane, are glad to be able to congratulate him upon his renewal of health and spirits.

Mr. S. De V. Burr—editor of a well-known scientific engineering periodical, and a former resident of the city—with his wife, *nee* Miss Eva Hart, have taken board on Second street for the coming season.

Col. Julian Scott has been spending some days past at Governor's Island, outlining from life the portrait of Gen'l Hancock which the artist is engaged in painting.

The sudden death of Mrs. Teil A. Begnelle during Tuesday night last, was learned with great sorrow and regret by the many friends the deceased lady had gained in this city.

Mr. F. Willetts Runyon has been chosen one of the editors of the Cornell College *Era*, by his class-mates in that institution.

Mr. S. J. Burr formerly of this city, and editor of a Dry Goods Journal in New York, intends spending the summer with his daughter Mrs. Dr. H. H. Lowrie on Park avenue. A serious sickness from which he has been suffering, it is hoped will be entirely cured by the health-renewing air of Plainfield.

We are glad to welcome back to Plainfield again, Mr. Wm. H. Brower, the Florist, who having leased his property at Scotch Plains to a New York party, has again taken up his residence at Mrs. Frazee's Boarding house on Fourth street.

We are informed that our old and respected friend, James Brand, went on a *fishing excursion to Delaware Water Gap* a week or two since, and returned to our city a few days ago, with not only glowing accounts of his adventures with members of the finny tribe, but with a helpmate for life. Brother Brand has the hearty congratulations of a host of friends on his "new departure."

Mr. and Mrs. Asa F. Randolph celebrated the 65th anniversary of their marriage, on Wednesday, at their residence in Randolphville near New Market. Among those present were children, grand-children and great grand-children, all joining in a happy reunion. The Rev's. Yerkes, Sarles and Brown delivered short addresses on the value of christian character in parents and its result on the generations that follow.

Mr. D. W. Rogers who for so many years has served Plainfield Eng. Co. No. 2 as its efficient foreman, was presented on Tuesday evening with an exceedingly handsome gold and silver badge. The decoration was given as a slight memento of the respect and regard felt for the recipient by his fellow firemen who have served so often under his command.

Mr. Robert Perry of this city, who some time ago was dangerously injured by falling from a painters' scaffold swung beneath the N. Y. Elevated R. R., was recently on our streets again for the first time. He is rapidly improving in general health and steadily growing accus*tomed to the use of his artificial limb.*

NORTH PLAINFIELD PARAGRAPHS.

Mr. John A. Thickstun has taken up the board walk formerly in front of his residence on Duer street, North Plainfield, and relaid it with stone flagging.

As is usual every year, the magnificent tulip-bed of Mr. Daniel G. VanWinkle at the corner of Duer street and Mercer avenue, is in full bloom and its loveliness is attracting the admiration of all who pass.

A LITTLE OF EVERYTHING.

A nice fitting shoe often makes a pretty foot, but it needs German Corn Remover to make it comfortable.

The expense of shoeing children can be reduced one half, by their wearing those protected at the toe with the A. S. T. Co. Black Tip. Every pair has A. S. T. Co. stamped upon the front of it.

"I DON'T WANT A PLASTER," said a sick man to a druggist, "can't you give me something to cure me?" His symptoms were a lame back and were a sure indication of kidney disease. The druggist told him to use Kidney-Wort and in a short time it effected a complete cure. Have you these symptoms? Then get a box or bottle to-day—before you become incurable. It is the cure; safe and sure.—*Knoxville Republican.*

HOW TO SECURE HEALTH.

It seems strange that anyone will suffer from the many derangements brought on by an impure condition of the blood, when SCOVILL'S SARSAPARILLA AND STILLINGIA, or BLOOD AND LIVER SYRUP will restore perfect health to the physical organization. It is indeed a strengthening syrup, pleasant to take, and has proven itself to be the BEST BLOOD PURIFIER ever discovered, effectually curing Scrofula, Syphilitic disorders, Weakness of the Kidneys, Erysipelas, Malaria; all Nervous disorders and Debility, Bilious complaints and all Diseases indicating an impure Condition of the Blood, Liver, Kidneys, Stomach, Skin, etc. It corrects Indigestion. A single bottle will prove to you its merits as a health renewer, for it ACTS LIKE A CHARM, especially when the complaint is of an exhaustive nature, having a tendency to lessen the natural vigor of the brain and nervous system.

BAKER'S PAIN PANACEA cures pain in Man and Beast. For use externally and internally.

DR. ROGERS'S VEGETABLE WORM SYRUP *instantly destroys worms and removes the secretions* which cause them. 2

WHAT AILS YOU?

It is a disordered liver giving you a yellow skin or costive bowels, or do your kidneys refuse to perform their functions? If so, your system will soon be clogged with poisons. Take a few doses of Kidney-Wort and you'll feel like a new man—nature will throw off every impediment and each organ will be ready for duty. Druggists sell both the dry and liquid.—*Knoxville Tribune.*

ELY'S CREAM BALM is the best remedy I have ever sold for the cure of Catarrh, Hay Fever, &c. It effects a cure in almost every case, and gives relief to all who use it. Without hesitation I tell my customers it is the best remedy in the market for what it is recommended. P. F. BRAKELY, Jr., druggist, Phillipsburg, N. J., Oct. 28, 1880.

HAVING BEEN AFFLICTED WITH CATARRH and cold in the head, I tried a great many remedies without any beneficial effects, at last I used Ely's Cream Balm, which effectually cured me. I consider it a duty I owe suffering humanity to recommend it to others suffering from the same, almost universal, American disease. W. H. I. HILLARD, dentist, Bordentown, N. J., Oct. 25, 1880. uidw4

Wonderful successes like those of Stewart, the Vanderbilts, or the Astors are seldom reached by luck or accident. It is the result of something within their [illegible] success; and it is only time that proves them as such. While new discoveries are daily brought forward how few remain as monuments of their worth. It is the merit that lasts—ANTHONY'S ELIXIR OF SULPHUR for Coughs, Colds, Consumption, etc., first discovered or originated after long years of study by a patient *Massachusetts chemist, has gradually proved itself* a success from Maine to Oregon, and to-day no more successful preparation for the cure of Throat and Lung complaints can be found in the world. FROM THE TROY (N. Y.) TIMES.

"Letters pour in daily, sometimes by dozens, scores and hundreds, to Dr. David Kennedy, of Rondout, N. Y., in grateful acknowledgment of the great benefit received from his "Favorite Remedy." And they illustrate the power of the medicine in some new and perhaps hitherto untested phase of operation. But it is when a sufferer comes in person to tell the story of his deliverance in person, to grasp the doctor by the hand and greet him as a true and valued friend, that the interest in his case deepens and multiplies." 8dw2

THAT'S A FACT.

A man can't work unless he feels well. The hard times have made plenty of people sick, simply by worrying them almost out of their wits about money and business. Trouble of mind has brought on trouble of body. There is indigestion, heaviness in the head and all that. Are you afflicted in this way? Go and invest One Dollar for a bottle of Dr. David Kennedy's "Favorite Remedy," and it will make a new man of you. It takes the bile out of the blood, and is worth a trip to Rondout, N. Y.—the Doctor's home—on foot, if you cannot get it more easily. First, however, see if your druggist hasn't got it. 8dw2

Of Food and Medicines have been confined to no era or land, yet it always has been and is now, possible to obtain genuine goods by paying what they are worth; for Adulteration is only the game played by dishonest sellers to get even with greedy buyers. CHAPTER CLXXXVIII.

An act to amend and supplement "An act relative to habitual drunkards," approved March third, one thousand eight hundred and fifty-three.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That section one of the act entitled "An act relative to habitual drunkards," approved March third, one thousand eight hundred and fifty-three, be and the same is hereby amended so as to read as follows:

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That it shall be lawful for the court of chancery to issue a commission in the nature of a writ de lunatico inquirendo, as heretofore practiced and allowed, and returnable thereto, to inquire into the habitual drunkenness of any person in this state, and in case of habitual drunkenness found, by reason of which such habitual drunkard has become incapable of controlling or managing himself or his estate, or is wasting his estate, the chancellor shall cause to be transmitted to the orphans' court of the county where such habitual drunkard may reside, a certified copy of all proceedings which may be had thereon, which shall be recorded and filed in the surrogate's office of said county, and thereupon the said orphans' court, upon application for that purpose, is hereby directed and required to appoint a guardian or guardians for such habitual drunkard, who shall have the same power over the person and estate of such habitual drunkard, and perform the same duties and be subject to the same liabilities, as are conferred on and required of the guardian or guardians of an idiot or lunatic, by the act entitled "An act concerning idiots and lunatics," approved April sixteenth, one thousand eight hundred and forty-six. 2. And be it enacted, That any agreement made by the said commissioners shall be in writing, and signed and sealed by the authorities of the state of New York and the commissioners of this state, but shall not take effect unless confirmed by the respective legislatures of the states of New York and New Jersey.

3. And be it enacted, That this act shall take effect immediately.

Approved March 25, 1881.

The C. R. R. Booming.

The Central Railroad has ordered 2,100 new cars. Twelve hundred are box cars of 40,000 pounds capacity, for the Western trade, and are to be built at the Stanton Car Works; 200 are short ore cars, to carry 40,000 pounds, or nearly double the capacity of the ore cars now in use, and 700 like the new Pennsylvania Railroad coal cars, with sides three boards high, and a double drop in the centre. These 900 are to be built by Gardiner & Son. All the 2,100 cars are to have a journal one-half inch larger than the ordinary journal, and the improved oil box with spring lid. Beside this, we have it on good authority from below that a number of new passenger and draught engines and passenger cars have been ordered. This would look as if the much talked about Western trunk line was a sure thing.—*Easton Sentinel.*

Afraid of New York.

We are uncomfortably close to New York, and not to fear here the effect of an epidemic there, would be foolish. The intercourse between the two cities, both for pleasure and business, is enormous, and it therefore behooves us to put Philadelphia in good order, so that our people may be able to resist the spread of disease when it shall have taken a firm hold upon filthy New York. A hundred miles is not sufficient space to warrant us in closing our eyes to possible danger.—*Philadelphia Press.*

How about Plainfield? We are nearer New York than the above very much worried city. Is the transformation of the bed of the Randolph Pond into a grain field a sufficient preventative of disease-breeding miasma?

English Sky-larks in America.

Mr. John Burroughs, in his "Notes of a Walker" in a recent number of *Scribner's Magazine*, described the delight with which he heard a stray English sky-lark, which had evidently either escaped from a cage, or was a survivor of those which were liberated in Long Island several years ago. He suggested that there was "no reason why the lark should not thrive in this country as well as in Europe." Acting on this suggestion, Mr. Charles R. Rowe, of Cornwall, England, an enthusiastic admirer of Mr. Burroughs's writings, has sent him a number of English sky-larks, which arrived in New York on Saturday last, and have been forwarded to Mr. Burroughs at Esopus-on-the-Hudson, where they will be set free.

He knew if he was editing a newspaper, he would give the public the "ins and outs" of the goings on of the public men. He would open the eyes of the people till they cried long and loud for reform. He tried it three days. Result: Five libel suits, two arrests for defamation of character, seven times called a liar by a contemporary, challenged to a duel once, horsewhipped three times; a daily reception of soreheads with murder in their hearts, fire in their eyes and mouths reeking with profanity, and the last we saw of that man he was trying to trade a puff in the paper for a bit of rope long enough to reach from the clothes hook round his neck.—*New Haven Register.*

The man who nominated Garfield has gotten his reward. He has been nominated to be Third Assistant Postmaster General. Greer is his name; Pennsylvania his home.

The general law affecting counties has been carefully looked over by Attorney-General Stockton and there are so many glaring inconsistencies in it, that its constitutionality has been impaired. Having so decided, Governor Ludlow has accepted the Attorney-General's conclusions and refused to make it a law. Consequently, county officers will be elected as heretofore.

Gov. Ludlow has made the following appointments upon his personal staff:

Aid-de-Camps, with the rank of Colonel, Wm. E. Hoy, of Union county; Edwin A. Stevens, of Hudson county; Eckford Moore, of Mercer county, and John W. Romaine, of Passaic county.

Inspector General of the National Guard, Willoughby Weston, of Middlesex county.

THE NEW BUSINESS
OF THE
EQUITABLE
Life Assurance Society of the U. S.
FOR THE YEAR 1880, WAS OVER
Thirty-Five Millions of Dollars,
The Largest Business Done by any Company in the World.
REASONS FOR THIS RESULT.
The Equitable is the strongest Company in the United States.
Its policies are, by their own express terms, made incontestable after three years. [For precise terms see form of policy contract.]
ALL such incontestable policies are paid immediately after receipt of satisfactory proof of the death of the insured, and without the customary delay of sixty or ninety days.
EACH ordinary policy provides for a definite surrender-value in paid up assurance, in case the policy is forfeited after three years from its date and is surrendered within a reasonable time thereafter.
BY THE TONTINE SAVINGS FUND plan of assurance, *returns to policy-holders, after the expiration of what is called the Tontine period, are greater than are obtainable on any other system.* Actual settlements at Tontine policies have been made in which policy-holders have withdrawn amounts varying from eighty to one hundred and twenty per cent. of premiums paid, besides enjoying a life insurance indemnity during the period. No other company can show such results.
THE TONTINE plan is the only one devised by which a person may withdraw from his insurance contract at specified periods, receiving the entire reserve and surplus accumulations in cash.
ALL the ordinary forms of insurance with annual dividends of profits, both cash and reversionary, are issued by this Society.
ASSETS, - $41,108,602.
SURPLUS, - $9,228,294.
Its business for the last ten years (represented by the new policies issued) has been larger than that of any other Company.

THE PREMIUM COLT.

SPARTAN, JR.
Is a bright bay, 16 hands, foaled May 1st, 1877, of superb style and action, with the appearance and finish of the highest type of the gentleman's roadster. Spartan, Jr. took first Special Prize at N. J. State Agricultural Society in 1879; he also took first premium at Somerset Co. Fair in 1879 and '79. Gentlemen wishing to raise stock either for speed, road or coach, will find the three combined in this promising young horse. We claim he has the best crosses of blood for speed, road and coach of any horse in the State. Spartan, Jr. was sired by Spartan, he by Ethan Allen whose record is 2:15, and I think has never been beaten in double harness. His first dam by Nelson, noted for coach and road; 2d dam by Fiddler who has a record of 2 miles in 40 minutes, 22 seconds, he by Monmouth Eclipse, 3d dam by Belcorah, also noted as a road and coach horse. For further pedigree see bills.

THE BRAKEMAN'S STORY.

A rough-looking man? Yes, perhaps I am. We ain't all of us responsible for our outside husk, no more than a horse-chestnut or a hazel nut is. The kind of life I lead can't be lived in white kid gloves and dress coats. I wasn't brought up with many advantages, and I'm only a brakeman on the Rensselaer and Saratoga line. Old Jones was telling you about me, was he, sir? He'd better hold his tongue. There's more profitable subjects of conversation than I am. But Old Jones means well enough, and if he told you to ask me how that stripe of white hair came on my black mane, I ain't the man to go back on him. Oh, you needn't beg my pardon, sir! I don't mind talking about it now, though the time was when I couldn't speak of it without a big lump coming in my throat.

We hadn't been married long, Polly and me, when it happened. Polly was as trim and bright-eyed a slip of a girl as ever you'd wish to see. She was one of the waitresses in the Albany lunch room; and the first time I ever set eyes upon her I made up my mind to make that girl my wife. So, when they raised my wages, I took heart and asked her if she would have them with me, with a wedding ring thrown into the bargain.

"Do you really mean it, Jake?" said she, looking me full in the face, with those dark blue eyes of hers, that are like skies in the night.

"I do really mean it, Polly," said I.

"Then," said she, putting both her hands in mine, "I'll trust you. I've no living relative to advise me, so I can only take counsel with my own heart."

So we were married. I rented a little one-story house, under the hill on the height that overlooked the Hudson—a cozy place with a good sized wood-pile at the rear, for winter meant winter in those parts and the snow used to be drifted up even with our door yard fence many and many a cold gray morning. And everything went smooth until Polly began to object to my mates at the White Blackbird, and the Saturday evening I spent with the boys, after my train was safely run on the side track at the junction.

"Why, Polly, girl," said I, "where's the harm? A man can't live by himself, like an oyster in its shell, and a social glass never yet harmed any one."

"No," said Polly, "not a social glass, Jake, but the habit. And if you would only put every five-cent piece that you spent for liquor into little Bertie's tiny savings bank—"

"Pshaw!" said I. "I'm not a drunkard, and I never mean to become one. And no one likes to be preached to by his wife, Polly. Remember that, my girl, and you'll save yourself a deal of trouble."

I kissed her and went away. But that was the beginning of the little, grave shadows, that grew on my Polly's face, like a creeping fog over the hills, and that she has never got rid of since.

It was a sore point between us—what the politicians call a vexed question. I felt that Polly was always watching me; and I didn't wish to be put in leading strings by a woman. So—I shame to say it—I went to the White Blackbird oftener than ever, and I didn't always count the glasses of beer that I drank, and once or twice, of a particularly cold night, I let myself be persuaded into drinking something stronger than beer; and my brain wasn't the kind that could stand liquid fire with impunity. And Polly cried, and I lost my temper, and—well I don't like to think of all these things now. Thank goodness they're over and gone!

That afternoon, as I stood on the back platform of my car, with arms folded and my eyes fixed on the snowy waste of flat fields through which the iron track seemed to extend itself like an endless black serpent, I looked my own life in the face. I made up my mind that I had been behaving like a brute.

"What are those senseless fellows at the White Blackbird to me," muttered I, "as compared with one of Polly's sweet, bright looks? I will give the whole thing up. I'll draw the line just here now. We shall be off duty early to-night. I'll go home and astonish Polly!"

But, as night fell, the blinding drift of a great storm came with it. We were belated by the snow which collected on the rails, and when we reached Earidale there was a little girl, who had been sent on in the care of the conductor who must wait either three or four hours for a way train in the cold and cheerless station, or be taken home across a snowy field by some one who knew the way.

I thought of my own little children. "I'll take her," said I—and lifting her up, I gathered my coarse, warm coat about her and I started for the long, cold walk under the whispering pines along the edge of the river. I honestly believe she would have frozen to death if she had been left in the cold station until the way train could call for her. And when I had left her safe in charge of her aunt, I saw by the old kitchen time-piece that it was ten o'clock.

"Polly will think I have slipped back into the Slough of Despond," I said to myself, with half a smile; "but I'll give her an agreeable surprise!"

Plowing down amid the snowdrift, through a grove of pine trees that edged a ravine at the back of my house, I sprang lightly on the door-step; the door was shut and locked. I went around to the front. Here I effected an entrance, but the fire was dying on the hearth, and little Bertie, tucked up in his crib, called out:

"Papa, is that you?"

"Where is mamma, my son?" said I, looking eagerly around at the desolate room.

"Gone out with the baby in her arms to look for you," he said. "Didn't you meet her, papa?"

I stood a minute in silence.

"Lie still, Bertie," said I, in a voice that sounded strange and husky even to myself. "I will go and bring her back."

And I thought, with dismay, of the blinding snow-storm outside, the treacherous gorges which lay between there and the White Blackbird, the trackless woods, through which it was difficult enough to find one's way even in the sunshine of noonday, and—worst of all—the lonely track, across which an "express" shot like a meteor at a few minutes before midnight. Oh, heaven! what possible doom might I not have brought upon myself by the wretched passion in which I had gone away that morning.

The town clock, sounding dim and muffled through the storm, struck eleven as I hurried down the hill. Eleven—and who knew what a length of time might elapse before I could find her? And like a fiery phantasmagoria before my mind's eye, I beheld the wild rush of the midnight express, and dreaded—I knew not what. For all that I could realize was, that the storm was growing fiercer with every moment, and Polly and the baby were out in its fury!

As steadily as I could, I worked my way down toward the track, but more than once I became bewildered, and had to stop and reflect before I could resume my quest. And when, at length, I came out close to a ruined wood and water station on the edge of the track, I knew that I was full half a mile below the White Blackbird.

And in the distance I heard the long, shrill shriek of the midnight train.

Some one else had heard it, too, for as I stood thus I saw, faintly visible through the blinding snow, a shadowy figure issue from the ruined shed and come out upon the track, looking with bewildered uncertain air up and down—the form of Polly, my wife with the little baby in her arms!

I hurried down to her as fast as the rapidly increasing snow drifts would let me, but was only just in time to drag her from the place of peril, and stand, breathlessly holding her back, while the fiery-eyed monster of steam swept by with a rush and a rattle that nearly took my breath away.

"Polly!" I cried, "Polly! speak to me!"

She turned her wandering gaze toward me, with her vague eyes that seemed scarcely to recognize me.

"Have you seen my husband?" said she; "One Jacob Cotterel, brakeman on the local express?"

"Polly! little woman! don't you know me?" I gasped.

"And I thought, perhaps," she added, vacantly, "you might have met him. It's very cold here, and—and—"

And then she fainted in my arms.

The long, long brain fever that followed was a sort of death. There was a time when they told me she never would know him again, but, thank God she did. She recovered at last. And since that night I never have tasted a drop of liquor, and, please heaven, I never will again. The baby, bless its dear little heart, wasn't harmed at all. It lay snug and warm on its mother's breast all the while. But if I hadn't happened to be close by them at that instant the night express would have ground them into powder.

And the white strip came into my hair upon the night of that fearful snow-storm. That's how it happened sir.

WISE WORDS.

He who seems not to himself more than he is, is more than he seems.

When anger rushes unrestrained to action, like a hot steed, it stumbles in its way.

Bodily labor alleviates the pain of the mind; whence arises the happiness of the poor.

The vanity of human life is like a river constantly passing away, and yet constantly coming on.

It is possible that a man can be so changed by love that one could not recognize him to be the same person.

When you talk to women you must choose between lying and displeasing them. There is no middle course unless you say nothing.

To pronounce a man happy merely because he is rich, is just as absurd to call a man healthy merely because he has enough to eat.

No man ought to complain if the world measures him as he measures others. To measure one with his own yard-stick may be hard, but is fair.

And when we are in prosperity we are ready to think our mountain will never be brought low, so when we are in adversity we are ready to think that our valley will never be filled up.

Happiness is evident to us in this life by deliverance from evil. "Happy is he who sees the day!" said a blind man; but a man who sees clearly does not say so. "Happy is he who is healthy!" said an invalid. When he is well he does not feel the happiness of health.

FEMININE FANCIES.

The new plush gauze comes in the lightest and softest tints, and has a silvery lustre that is very becoming.

Old Pekin striped basques are brought out, furbished up and worn as new striped garments, superseding the old brocade.

Collars of white linen embroidered with small dots to match the color in the dress are to be worn with gingham suits.

The shirrings at the upper part of dress sleeves sometimes run around the arm and sometimes from the shoulder to the elbow.

The black spun silk originally made for Jerseys is used for making draperies, and is combined with plain and brocaded grenadines.

Colored sweepers are not to be worn with long dresses this summer, and even with short dresses creamy lace will be preferred to any other border.

Six or seven two-inch tucks set above a side-plaited flounce are used to trim the skirts of white dresses, and the back draperies are also occasionally tucked.

The scoop hats are the best of the small shapes for summer wear. They really protect the eyes although they leave the cheeks and nose to be mercilessly tanned.

The half-pointed basques are now made very short, and are cut into ten or twelve points, and some times a full point of Spanish lace is added.

A substitute for the soft drapery at the back of a dress skirt is a succession of fan plaitings reaching from the edge of the basque to the hem. These plaitings are lined with crinoline and are stiff in effect.

Muslin embroidered with a color makes the prettiest of summer dresses. They have plaited underskirts, Grecian overskirts and surplice waists, and are trimmed with a great many satin bows matching the embroidery.

Side pouches and chatelaine bags for summer use are very dainty affairs, and are made of tinted satin, hand-painted in delicate sprays of flowers and trimmed with flutings of lace.

Elbow sleeves will continue through the spring and summer months, not only for evening but for afternoon dress. With out-of-door toilets very long gloves will be worn, edged at the top with lace ruffles.

Be it enacted by the Senate and General Assembly of the State of New Jersey, That whenever the board of health in any city of this state shall after due examination and consideration, determine, by resolution in writing, adopted or concurred in by two-thirds of the members of said board, that it is necessary for the preservation of the public health, or the prevention of the cause or spread of disease, that a sewer or drain, or sewers or drains should be constructed in any locality in said city, and shall certify to the common council or other legislative or governing body of such city, such resolution, and the reasons for which it was adopted, then said common council or other legislative or governing body, if in their judgment such sewer or drain, or such sewers or drains seem to be necessary, as a sanitary measure, may construct or order, direct and cause such sewer or drain, or sewers or drains to be constructed, although the limit of authorized expenditures for public improvements in such city, would thereby be exceeded; provided, that such excess or expenditure shall not, in any case, exceed the sum of fifty thousand dollars in any one year.

The Boston *Journal* relates that a certain ambitious artist had painted a string of trout, and was justly proud of his achievement. A lady and her young daughter came into his studio, and while the former inspected some drawings the latter wandered about at her own sweet will. Suddenly she exclaimed: "Oh, mamma, do look at this beautiful bunch of bananas!" The artist looked, too. Alas, it was the trout picture which had called out the exclamation.

NOT STATESMEN.

The Garfield administration bids fair to develope in glaring colors that most offensive feature of American politics—personal scrambling after the spoils of office.

It is disgusting to witness the fierce rivalry for the power of patronage between such political marplots as Blaine, the ruler in fact of the President, and Conkling, who assumes the role of Senatorial dictator; and furthermore, it is nationally disreputable that important public interests should be neglected to gratify the mercenary ambition or appease the resentment of mere politicians.

Blaine, Conkling, Cameron, Dawes, Frye and other prominent leaders of the Republican party unquestionably possess, to a greater or less degree, intellectual ability, but they clearly lack that essential qualification which should distinguish and control the actions of men holding the high positions they do—enlightened statesmanship.

They are partisans, not statesmen.

The land swarms with politicians, every village tavern, country store and ward head-quarters is alive with them. They have a proper place, but it is neither in the Cabinet nor the Senate.

A professional politician and a practical statesman are entirely opposite characters, one schemes for self, the other labors for country, one scents official plunder as a rich dainty, the other observes patriotism as a positive duty.

The time may arrive when popular sovereignty will reward statesmanship with honor and denounce its counterfeit as unworthy of confidence.

That will be a happy day for the honest people of the United States.

HOW INDIANA WAS CARRIED.

Murder will out. Criminals are prone to squeal, and one of the political species has just done so through the columns of the Indianapolis *Journal*. He is a Republican. Carefully read the first chapter of his confession. It is as follows:

"Since a few Republicans of Kentland have entered the arena to disrupt the Republican party and give aid and comfort to the enemy, I propose to have them cease taking lilliputian treatment and swallow heroic doses. To this end I invite the reader's attention to the secret history of the doings of the Republican party of Indiana during the last political campaign. Being Chairman of the Republican County Central Committee I was invited to the inner council at Indianapolis and witnessed the "expediting" process by which the Republicans captured the State. I conversed freely with John C. New, his secretary, and all of his clerks, and then met Joe Gray, the lieutenant of Senator Dorsey. After learning from Gray how double tickets were voted and counted, and being fully instructed, I was ushered into the presence of Senator Dorsey, who was Secretary of the National Republican Central Committee. I was presented to Dorsey by John C. New, the Chairman of the Republican State Central Committee, and after being introduced, Mr. New withdrew and left me. Senator Dorsey had his bankers in an adjoining room, upon whom he drew to furnish the money with which to corrupt and carry the election in Indiana. Senator Dorsey demanded of me 600 majority in Newton County. I told him we could not give it. He then said he would give me money to help us, and that being on the Illinois line we could colonize from Illinois and make the 600 majority. I told him frankly I was not zealous enough in the cause to engage in such disreputable business. As autocrat, he seemed greatly incensed, and dismissed me from his august presence with a promise to see me later. I met him again at an appointed hour, and he gave Joe Gray a piece of paper and waved us from the room. I was led into an adjoining room by Joe Gray (all this was in New Denison Hotel at Indianapolis), and there I met an old grey-headed man and a middle-aged man. Joe Gray gave them a paper he had received from Dorsey, when the bankers retired to an adjoining room and returned in a few minutes with a package of bills just printed for the business of carrying Indiana. I was informed that, my county being small I must be content with a half a thousand. I learned that large counties received from 1,000 to 5,000 of these new $1 and $2 bills—just printed to carry Indiana for Porter and Garfield. I then met United States Marshal Dudley and received many encouraging words from him. I felt that the Star-routes had all been "expedited," and that Garfield ought to reward Grier. John C. New did the work, and his influence at Washington brought the money, but the political ring gave the credit to Dorsey for carrying the States. Poor New was forced to silence, and Garfield refused to give him any office. Garfield rewarded Grier just as Hayes rewarded the Louisiana scoundrels who counted him in, but John C. New was crushed to silence and Dorsey walked off with the honor of having carried Indiana. Where the money came from I cannot tell. It was printed by Uncle Sam's presses, and may be it is the Star-route fund. Let Brady and John Sherman answer this. Every speaker brought to Indiana had his pockets stuffed full and sent out to work. Every county had a generous supply. It was new and just from the press, and somebody furnished it to carry Indiana, and it did carry Indiana for the Republicans.

"Chapter second will be furnished next week, and so on to the close.

S. P. CONNER,

"Chairman Republican Central Committee of Newton County, Indiana."

That reveals partisan profligacy of the darkest hue and shows how Indiana was carried for Garfield and Arthur. Further disclosures are promised. Let them come?

THE STAR ROUTE FRAUDS.

The Democratic press have frequently and persistently referred to the deficiency bills sent into Congress by Republican heads of department, and pointed to the fraud and profligacy practiced therein in the public service. On the other hand the Republican press have defended these same "deficiency" bills, pretending that they were rendered necessary by insufficient appropriations. The revelations now being made, however, of gigantic frauds in the postal service, furnish certain "explanations" of these "deficiencies," they being downright and outrageous swindling and robbery in said public service, and not caused by so called necessary or honest appropriations. The Democratic Congress of 1875 found that the appropriations were ample for economical and honest government, but the Republican heads of department, who had the expenditures under their control, would not retrench in any way that would stop the peculation and fraud and thus bring the expenditures within the appropriations. As a consequence there was a demand for a deficiency at the end of each year succeeding. A careful inquiry was instituted which brought out startling frauds in the postal service, which furnish one explanation of these "deficiencies."

In connection with the alleged star route irregularities a tabulated statement has been made, showing the manipulations of ninety-three of these routes, the total number being 9,225, whereby the annual pay of the ninety-three routes was raised between the lettings of 1878 and January 1, 1880, from $727,119 to $2,802,214, the increase being $2,075,095.

The regular appropriation for the star route service for the year ending June 30, 1880, was $5,900,000, and deducting from this the amount absorbed by the ninety-three routes mentioned there is left of the appropriation only $3,097,786 for the remaining 9,132 routes.

The advertisements were published in a pamphlet, which circulated chiefly among the Ring men. The offices on the route were given, as were also the distance, time of arrival and departure, and the number of trips per week. It was the object of the Ring to have the number of trips on any given route reduced in the advertisement to one trip per week in order to ward off competition, well knowing that having once obtained the contract they could, by the mere scratch of the Postmaster General's, or rather Assistant Postmaster Brady's pen, have the service increased and the pay doubled or trebled. The Ring contractors' accounts were marked "special," and take precedence in settlement, while the required certificates of service from the Postmasters at the termini are often forged in Washington and presented as from New Mexico or Colorado with the ink upon them scarcely dry. Sometimes the trips are made, but chiefly there is only a pretense of a trip and often none at all. The service is usually confined to distant territories, where there is seldom any use for mail service. On twelve of these contracts, located in Texas, New Mexico, Dakota, Wyoming, Arizona, Oregon and other far Western districts the original pay of $249,296 was increased to $1,184,286, though the distance on the routes was increased in only four instances and actually decreased in two. Second Assistant Postmaster General Brady was called upon to account for the money he had expended. The appropriation made by Congress for the star mail service for the fiscal year 1879-'80 was $5,900,000—every dollar the department estimated would be required, and every dollar asked of Congress. He had spent the whole of this sum in the first three-quarters of the fiscal year. This had been done by increasing the pay of the contractors. It was the old system. Contractors bid low for the service. The Department had prepared the way for this, by advertising for service less frequently than it was required, and at a slower speed than the mails had been carried the previous contract term. Then the contractors having obtained the contracts at low bids, got up petitions along the routes asking for more frequent deliveries of the mails and quicker time. On these petitions the increased speed and additional deliveries were ordered.

Of ex-Senator Dorsey nothing to his credit can be said. Aside from other complications with which his name appears connected with the star route schemes, the evidence adduced in one particular branch of the investigation is overwhelming against him. From the letters and telegrams which passed between Dorsey and his Oregon agent, Wilcox, it is shown that the former agreed to pay the latter a salary and his expenses for getting up petitions, and doing other work of a doubtful character, concerning certain star routes.

The investigations still go on, and it is hoped, will continue until "every rascal is hunted down."

WHAT NEXT?

Despite the fact that an opinion from a prominent legal light has been obtained through solicitation of Common Council, which distinctly says that the city is responsible for the collection of the State and County taxes due from Plainfield, there are members of the Council yet so blind or wilful as to refuse to act in accordance with the opinion, or acknowledge that the city is responsible for the collection of these back taxes, or even make a compromise with the County by the payment of a portion of the amount demanded through the mandamus issued against Treasurer Van Winkle, from the $9,000 and over lying in the hands of authorities and bank, without any interest accruing therefrom. What do these gentlemen propose doing now? The mandamus peremptorily commands the amount of back State and County taxes due to be paid by June 7th next. To wait until next Fall or longer to get a decision from the Courts will not help the matter. An answer must be made to the demand June 7th. What is to be the next scene in the comedy of "The Treasurer of the City of Plainfield *vs* The County of Union," which is now being performed by the Council of the city of Plainfield? The money is due and has got to be paid. Collect the back taxes.

Councilmen Darling, Finch, Coriell and A. H. Smith, take the same view of the matter that we do, judging from their vote last meeting night.

While the Democratic Board of Freeholders of Union County are accorded all honor for the efficient manner in which they have conducted the affairs of the County since the party came into power, we think they have acted rather parsimonious toward the press of the County in their appropriations for publishing the proceedings of the Board each year and also the Collector's financial statement. The sum of $50 is entirely too small for publishing their lengthy proceedings, while legal rates should be paid for the Collector's statement. Also, is it in accordance with usage or courtesy to the minority to fix the figures for such work in a party caucus, so that the minority can not have a voice in the matter? We think a mistake was made last Wednesday in that respect which should be rectified.

FIRE MATTERS.

There was a "still alarm" of fire about half-past eleven o'clock Monday night last, in consequence of a report that the match factory at Richmond street was on fire. No. 1 Eng. and No. 1 truck were turned out, but did not proceed far. The firemen claim they could not find any of the persons entrusted with a key to the tower so they could ring an alarm from the bell.

After a false alarm at about ten o'clock on Tuesday evening—to which no attention was paid except by Eng. Co., No. 2—a genuine one was rung a half hour later, which called out the entire Department of both sides of the brook. Word of a fire having started in the old freight house on Third street near Peace, was given by Mr. James Farley of the H. & L. Co., who was driving past the premises and saw the flames in the interior of the building. Gazelle Eng. No. 1 soon had an effective stream on, quickly followed by those of No. 2 and No. 3, but the contents of the building—dry salt hay—and its construction of weather-dried boards and flooring soaked with many spillings of oil and naptha which had been formerly stored therein by the R. R. Co., offered food for the spreading conflagration. Adjoining the premises was a one story frame structure occupied by Whitney's feather renovating establishment, the side of which subsequently caught fire but the building was saved by the efforts of the firemen. Being in great danger of destruction, the machinery it contained was taken out with a damage of about $150, which is a complete loss. The building itself owned by Mr. Benj. Mumford was fully insured and will be repaired at once. The freight house was used by Mr. John Tier the ice dealer, as a store house, and was entirely consumed. Some weeks ago the Superintendent of the Central R. R., not knowing of Mr. Tier's possession, ordered the Company's carpenters to tear down the structure, and the latter had so done, in part, when they were stopped by Mr. Tier. Upon the latter's claim being established, the building was at once being put back into its original shape and would have been finished in another day, when the flames wiped it out of existence. The fire is supposed to have been wilfully started by an incendiary.

About half-past two o'clock, Thursday morning, the families of Cornelius Willetts and Levi Bird, who occupy a dwelling belonging to John Willetts, on Harmony street, two doors North of Voehl's bakery, North Plainfield, were awakened by the cries of a family cat, and found the house filled with suffocating smoke. With difficulty the inmates groped their way out doors and gave the alarm of fire, which soon brought out Warren Eng. Co. No. 3, afterward followed by the entire department, as soon as the alarm was struck from the tower, which was some time after the fire had been subdued. Mr. Lewis CassTellier, who resides next door to Willetts, heard the alarm, and looking out of his bedroom window saw that the roof on the back part of the house was in a blaze. He, with the assistance of workmen from Voehl's bakery succeeded in extinguishing the flames after a hole about four feet in dimensions had been burned through. The origin of the fire is a mystery but is supposed to have originated among a quantity of old rags stored in the garret. It is supposed that the family cat, which had a litter of kittens in the garret, was endeavoring to rescue her young, when the fire got started, and with her loud cries awakened the inmates of the house, who might otherwise have been smothered by the smoke. "Warren 3" took possession on the fire well in Race street, and threw water through hose, but not on the building. Chief Vail was present, and stopped some of the Companies as they were on their way to the scene, as all danger was over.

WESTFIELD WISPS.

Mr. A. E. Wilcox has accepted the position of engineer at Irving's factory.

The Westfield Band gave the first open air concert of the season, in the *Park*, on Tuesday night last.

Mr. A. A. Drake proposes to occupy "Aldrada Villa," Westfield avenue, for the season, on or about June 1st.

The attention of our Board of Health is called to the suggestions of the State Board, as found on page 179, Report of 1880.

Mr. John Ingram our popular dealer in house furnishing goods, appears on our streets this week with a new business wagon.

An error of memory relative to the loan of a buggy, very nearly caused the arrest of one of our citizens last week. Fortunately the error was discovered in time.

Mr. Mathew Beller deserves credit for the possession of the finest heads of lettuce, of his own raising, that it has ever been our pleasure to see at so early a date.

The many friends of Mr. John J. Burke, resident here, extend to him their earnest sympathy in the great loss he has sustained in the death of his mother, which sad event occurred at Pittston, Pa., on Wednesday the 4th inst.

Mr. H. C. Kogler, Veterinary Dentist, will hardly need outside recommendations after his attention to the horses of Messrs. Moffett, Traynor, Scudder, Connett and Webb. All those desiring his services can communicate with him through the Post Office.

It is whispered that fears are entertained that the great expense attendant to a visit of our several milkmen to the circus at Newark on the evening of the 5th, may result in the addition of water to our milk supply. We look upon this rumor as a base calumny.

The introduction of steam at Irving's factory with the usual whistle connected with such establishments, furnishes our citizens with a veritable town clock of noise by its call of the hours of 7 a. m., 12 m. and 6 p. m. This timely introduction will do away with the necessity of the electric time ball, the placing of which was contemplated.

We are pleased to announce that at the regular meeting of Westfield Hook & Ladder Co. No. 1., held on Monday evening last, a committee of three was appointed to confer with our citizens as to the best means of securing assistance in procuring a new Engine and to solicit subscriptions. We shall be greatly disappointed if our citizens fail to respond liberally.

To Mr. William Stitts and family, by their friend, Rev. Valentine Buck.

IN MEMORY OF LIZZIE.

'Neath the shadow of the family bower,
There bloomed in beauty a fragile flower;
And tenderly nursed with a mother's care.
To the happy household it was always fair.
But before perfection it had fully gained,
Or its expected development attained,
The cold dew of death upon its petals lay;
And its virgin beauty quickly pass'd away.
Alas! that death such a precious life should blight,
And rudely extinguish so cheering a light!
Leaving a family nook so dark and still,
That no other form can so perfectly fill.
But, so deeply rooted in the smitten rock,
Her spirit survived the sudden shock.
And far beyond the rapid sweep of time,
Will live forever in the Eden clime—
Submissive to your Heavenly Father's will,
Confidingly, let your troubled hearts be still.
His grace is correspondent to your day—
He gave to bless—to bless He took away.

Westfield, May, 1881.

The regular annual meeting of the Westfield Game & Fish Protective Society, was held in the rooms of the Westfield Athletic Club, Lyceum Hall, on Tuesday evening last. The Secretary's report embodied the general correspondence with the Societies of a similar nature during the year, also covering the question of the endeavors of the Society to obtain quail with which to stock the property of members of the Society resident in the township.

The Treasurer reported the receipts and expenditures during the past year, and the desirable fact that a balance of $40.90 still remained in his hands.

The report of the Board of Directors as made by Pres. Willis, was replete with sound advice as to the future conduct of the Society.

Previous to the election of officers, a lengthy discussion ensued as to the question of amending the By-laws of the Society so as to provide for yearly dues; at this point some of the members appear to have forgotten the respect due to each other, and a good deal was said that might better have remained unspoken. The President unfortunately fell into the error of allowing matter unquestionably out of order, to be brought before the meeting. The following officers were elected for the ensuing year:

President—John J. Willis.
Vice " —Levi Cory.
Sec.—George Young.
Treas.—A. C. Johnson.
Directors—J. J. Willis, Wm. Dallas, George A. Young, Chas. E. Young, Levi Cory, A. C. Johnson, Chas. Hanaman.
Counsel—W. G. Peckham.

AN elderly lady residing at the corner of Central avenue and Front street, met with a most unfortunate accident on Saturday last. Falling at the top of a stairway her leg was broken in two places; which casualty—in consideration of the age of the person—is an exceedingly aggravating one.

THE second appearance in our city of Callender's Georgia Minstrels, was even more admirable and successful than the first. VanDeventer Hall on Monday evening was jammed upstairs and down—including the aisles, doorway and outside hall. One of the best programmes of minstrelsy was given by a combination of artists that have reached perfection in their seperate lines, and over two hours of continuous merriment was experienced by the audience.

THE true way to make a shad toothsome, and retain all its juiciness and richness of flavor, is to roast it as follows: After the shad is cleaned, split it lengthwise, cutting close alongside the spinal bone. Then salt, and put away for a few hours—over night is better. When ready to cook, wash off the salt, wipe dry, flour well, put each piece, inner side downward, into a greased pan, and then into a hot oven, and bake till nicely brown. Serve hot, and those who eat it will forever close their mouths about the delicacy of flavor of "planked" shad.

THE newly elected Board of Directors of the Union & Middlesex Counties' Mutual Agricultural Association, met at the Mansion House, this city, for organization Saturday evening last, and reelected the old officers as follows: President, John I. Holly; Vice Presidents, Hon. Chas. A. Campbell, Nathan Robins, J. Wesley Johnson; Secretary, James S. Vosseller; Treasurer, E. C. Pearson.

We learn that Mr. Vosseller will not accept the office of Secretary. We trust he will reconsider his determination, *for no man has done more toward making a success* of the two last Fairs than himself.

THE handsome plate glass show window in front of THE CONSTITUTIONALIST business room, came near being wrecked on Saturday noon last by a pair of runaway horses. A team of large work horses, belonging to Cook Bros., became frightened while standing attached to a heavy wagon loaded with lumber in the above firm's lumber yard, and breaking away from the wagon, *ran into the street* and onto the sidewalk in front of THE CONSTITUTIONALIST office, one of the animals falling just as they struck the base of the show window and kicking in the small fan-light window below the plate glass in his struggles to get up. The other horse dragged his fallen companion a few feet, and was then easily captured. The horses were not injured, and the damage done very light. The animals are considered perfectly gentle at all times.

A "GYPSIE" (?) encampment on Mountain avenue, between Plainfield and Scotch Plains, attracts numbers of visitors to see them. MR. JOHN CLARK, fruit merchant at the corner of Front and Somerset Streets, was recently engaged in building an addition to his establishment, when he was *stopped* by order of the city authorities. The lodge is in a flourishing condition and most efficiently officered. We are under obligations to the Committee, Messrs. J. S. Bishop, T. S. Clare and J. G. Smith for an invitation to be present on the occasion. There were many visiting brethren from this city.

Third and Last Vocal.

Preparation by the Plainfield Vocal Society for its last Concert, at the Park avenue Baptist Church, on Tuesday evening next, has been so thorough and complete as to assure a most satisfactory close of what has been a remarkable series of commendable entertainments. The principal rendition of the coming concert will be Gade's Cantata, "The Crusaders," a composition well calculated to charm *the musical senses* and reflect credit upon those who succeed in interpreting it correctly. The solos included in it are for soprano, tenor and basso voices, for which parts have been engaged—we understand—the artists who recently sang the same in Brooklyn. The chorus presents so many difficult vocalisms as to necessitate faithful and frequent rehearsal, in consequence of which the remainder of the programme will include nothing particularly new, although none the less attractive for that reason. "Spring's Message" by the same author as the Cantata, will undoubtedly claim sincere appreciation, and the other numbers are certain to be thoroughly enjoyed. There is some talk of again postponing the affair until the Thursday evening following, but such intention seems to be without foundation and the final rehearsal of Monday will undoubtedly be succeeded the next evening by the Concert.

Added Affliction.

Almost immediately following the death of a son of ex-Senator Frederic A. Potts, from Roman Fever contracted in Naples, come the tidings of the decease of another at Paris, from the same disease. It will be remembered that two of the Senator's sons while in Italy were taken down with the terrible malady, of which one of them died recently before the arrival from New York of their eldest brother who had hurried to their care. The latter attended to the transporting of the remains from Naples, and subsequently was able to convey his convalescing brother by easy stages to Paris, prior to sailing for home. From this city came last week to the afflicted parents, a cablegram stating that the eldest had been taken most seriously ill with the ailment—which whether contracted before leaving Italy, is not known. Mr. and Mrs. Potts sailed almost immediately for France, but had hardly left this country when news of the death of the latest one taken, was received by the family at home. The Senator and his wife will not learn of the additional burden they are called upon to bear until they reach Paris; meanwhile the attending physicians have been telegraphed to "*forward the body at once,*" as it is intended to bury the remains immediately upon their arrival and thus save the parents the harrowing experience of another funeral.

This last demise is that of George H., in the twenty-third year of his age. He was engaged in his father's office up to the time he sailed for Europe. The remaining son of the three is [illegible] as rapidly as can be expected when is considered the terrible scenes he has been called upon to witness.

Bauersachs on Sunday morning last about 5 o'clock a. m. Last seen in Feltville on Sunday afternoon. Any information of him will be kindly received by

A Little Wonder.

We noticed in a late issue the abilities of Ericsson's Caloric Engine, since which we have been able to personally examine its performances and become convinced of its remarkable achievements. The one inspected is at work in a private residence, where it raises over 400 gallons of water to the top of the house in less than an hour and a half and at a cost of only six cents. If the agent for the sale of these engines, Mr. Wm. *Addis,* would place one of them on public exhibition, we feel assured that hardly a house in the city would be long without one.

High Priced Cattle.

At a sale of choice Jersey cattle Thursday of last week, at the American Institute Building, N. Y., Mr. John I. Holly, of this city, was the purchaser of the following thoroughbreds:

Pet of Glyniliyn, heifer, 1 years	400 00
Black Bess of Glyniliyn, heifer, 3 years	400 00
Surprise of Maple Shade, imp. heifer, 1 yr	1,000 00
Flint, heifer calf	200 00

On "Holly Farm" near the Fair Grounds, this city, may be seen some of the finest and valuable imported horned stock to be found in the State. Mr. Holly is a lover of pure stock, and never has anything else on his farm.

Union County Freeholders.

The new Board of Chosen Freeholders of Union County met at the Court House, Elizabeth, for organization on Wednesday last. The Board stand politically ten Democrats to six Republicans, with a vacancy to be filled from Elizabeth, in consequence of death of Freeholder Ball. All the old officers of last year were reelected as follows: Director—C. W. L. Martine. Clerk—John L. Crowell. Collector—P. Sheridan. Attorney—P. H. Gilhooley; Physician—Dr. Chas. Terrill, Jr. The re-appointed officers of the Board have certainly proven their fitness to fill the various positions assigned them during their past terms of office. No change certainly was needed. County Collector Sheridan's detailed report of expenses and receipts will be published shortly.

Runaway Accident.

On Monday afternoon last as Mr. L. B. Mulford was returning to Stirling from Plainfield in company with a lady friend, his horse took fright at some workmen that were repairing a bridge near David Smalley's residence and ran away. Turning a short curve in the road the horse fell and the young lady was thrown out, striking on her shoulder and side and was bruised quite severely. The horse was on his feet again in no time, and away he flew with Mulford; when nearing the hill, (where Mr. Sanders was thrown out and killed some time ago by a runaway) the harness and reins broke and Mulford was thrown out, striking upon all fours and plowing the ground for a number of feet with his face, and blocking his "Derby" in the most unrepairable style. No bones broken but badly bruised. The horse and wagon *reached the foot of the hill, the latter a* total wreck.

Somerset County Freeholders.

The new Board of Freeholders of Somerset County met for organization at the Court House, Somerville, Wednesday, May 11th, and completed the same by the selection of Chas. Shepherd, of North Plainfield as Director; J. G. Cortelyou, of Hillsborough, as Clerk; *Alfred Berry, of North Plainfield, as* Collector; James L. Griggs, of Bridgewater, as Counsel to the Board, and Henry G. Wagner, as County Physician. The Board stands politically, 1 majority Democratic.

The citizens of Somerset are to be congratulated upon the selection of Mr Chas. Shepherd as the Director of the Board. His selection as Freeholder in a strong Republican Township certainly evidences that the people there have confidence in his ability to ably represent them. In Mr. Berry the County has found a faithful and efficent Collector the past year. His re-appointment is but a just recognizance of his ability to fill the position.

Haines, on Front street, were the scene of a spirited contest in glass ball shooting *Saturday afternoon last,* between Mr. H. and two of his friends, the result being at the end of the shoot largely in favor of the host, who is an adept at that kind of sport. Friends who once accept the hospitality of "Ben," are always sure to desire a "return match."

Dr. Robert Lowry performing the ceremony in the presence of a large gathering of the connections and friends of the happy parties. Mr. and Mrs. Doane subsequently left the city on an extended trip to Providence, Boston and Newport; returning to hold a reception on the 26th and 27th insts., at No. 40 East 6th street.

His suffering, however, has been forgotten during the past few hours which he has spent gazing proudly and admiringly at the little sweet face of the latest addition to his family.

By Mr. Tyler, from Law & Ord. Com., the following in reference to com'n of Assessor J. A. Hubbard:

To the Common Council of the City of Plainfield:

The Committee on Laws and Ordinances, to whom was referred the communication of J. A. Hubbard, assessor, bearing date May 2, 1881, report that it is not within the province of the Common Council "*to define the duties of the assessor,*" or of any other officer who derives his powers directly from the Legislature of the State of New Jersey; the assessor is an officer of the State, his powers and duties are prescribed—*if at all—by the acts and laws of the State,* and the only proper tribunals to interpret these acts and laws are the judicial tribunals of the State; we would therefore recommend that the communication be returned to Mr. Hubbard with the suggestion that the Common Council has no right "to define the duties of the Assessor."

Very Respectfully,
MASON W. TYLER, } Com.
T. H. HAMILTON, }

On motion of Mr. Darling, it was laid on the table for action later in the evening.

By the same, as correct, the claim of Wm. Swaim, $125, services as one of the Com'rs on Linfield Ave.

Mr. Darling moved that this claim lie on the table.

Mr. Tyler thought the claim should be paid.

Mr. Darling stated that these warrants were ordered drawn to parties who were in need of money; he did not think that the gentleman (Mr. Swaim) needed the money, &c.

After some further discussion, the motion to lie on the table was lost.

Mr. Guion then moved that a warrant be drawn for the amount of Mr. Swaim's claim. Carried. All aye, except Mr. Coriell, who voted "no".

By the same, as per res. of Council at its last meeting, he had conferred with Mr. Dodd, and learned from him that he was doing all that was possible in the collection of delinquent taxes.

According to the rule that all reports of Committees should be in writing, the rules were suspended and the verbal report of Mr. Hamilton accepted.

By Mr. Coriell, from St. Com., in reference to petition of Mr. I. W. Rushmore, 7th street, he thought it would not be advisable to cut down said street, giving many reasons therefor.

After some further discussion, the rules were suspended and Mr. Coriell's verbal report accepted. On motion, time was given Mr. Coriell to present a resolution relative to the 7th street petition, and the Council proceeded to other business.

By Mr. Tyler, the following:

Resolved, That the Corporation Counsel be and he is hereby authorized under the direction of the Law and Ordinance Committee to institute and prosecute a suit or suits at law for the recovery of delinquent City taxes for years prior to 1880.

Mr. Darling moved to amend by adding the words "State and County taxes."

The matter being explained in a satisfactory manner by Mr. Tyler, Mr. Darling withdrew his amendment, and the original resolution was then adopted. All aye.

Mr. Coriell presented his resolution, asking that the Council confer with Mr. Rushmore relative to 7th street.

Mr. Finch offered as an amendment one similar to that recently attached to a res. relative to the repairing of Park ave.

After some further discussion on the amendment, it was, on motion, not concurred in.

The resolution of Mr. Coriell, after a slight amendment by Mr. Gilbert, viz: "that the St. Com. wait upon Mr. Rushmore," etc., was adopted.

At this juncture Mr. Guion moved that the rules be suspended, and the Special Com. appointed at a late meeting of Council, present their report.

Mr. Tyler said that he would rather the Com. would not make their report this evening, as the Com. had not all met together; he would much prefer that the report be deferred until a future meeting of the Council.

Mr. Darling then explained to the Council the manner in which he proceeded in the premises, and presented a minority report, as he thought he had a right to so do, the rest of the Com. declining to sign the report.

The Pres. stated that this being a mi*nority report, it could be presented,* but not acted upon by the Council. The following is the opinion in full:

A writ of mandamus has been issued against Jeremiah VanWinkle Treasurer of the City of Plainfield on the relation of Patrick Sheridan County Collector of the County of Union, by which the said Treasurer was commanded to pay arrears of State and County taxes assessed in the City of Plainfield for the years and in the amount therein mentioned.

That is to say—
For the year 1878, $4,278 61 and interest.
For the year 1879, $2,897 50 and interest.

The whole sum named in the writ is $[illegible], less the payments by the Treasurer made on account thereof, since July 1, 1880, which payments amount to $[illegible] and leaving a balance due of $[illegible] as claimed.

I am not informed whether there is any error in the amounts claimed, and cannot state as to their accuracy.

1. Is the City of Plainfield liable for State and County taxes in the years 1878 and 1879?

By the tax laws of the State, taxes must be assessed for State, County and Township purposes. When a Township is abolished and a city [illegible] where a township formerly existed, the City [illegible] the place of the Township, and the [illegible] regularly [illegible] and controlled by the general [illegible]. The [illegible] is not the [illegible] of taxes for Municipal purposes, but the [illegible] for State and County purposes.

By the tax law of the State, it is the duty of the Secretary of State [illegible] by law for the [illegible] of each year, to prepare a [illegible] of taxable property, both real and personal, [illegible] the use of the assessors in making their assessments. Rev. 1152, Sec. 31.

The assessor shall make out his duplicate so as to show in separate and distinct columns, the names of all persons assessed, the land, the value of the land and the value of the personal property assessed, the rate per dollar and the several sums assessed on each person, for State, County, Township, poor, school, road, poll, dog and other taxes. Rev. 1154, Sec. 38.

It is the duty of the several assessors of the Townships and Wards in each County to meet at the [illegible] in each year [illegible] the duplicate of the [illegible] and [illegible] in [illegible]. Rev. p. [illegible], Sec. 21.

The Assessors [illegible] shall adjust and fix the proportion, or quota of tax to be levied in each Township or Ward in proportion to said value. Rev. p. 1156, sec. 16.

The Board of Assessors of the several counties shall annually make out abstracts of ratables for their respective Counties from the assessments returned. Rev. 1159, Sec. 23.

Where money is to be raised for County purposes, the Board of Chosen Freeholders shall direct in writing the Assessor of the respective townships in the County to assess the same on the inhabitants and their estates, agreeably to the law for the time being, for the raising of money by taxation for the use of the State. Rev. 139, Sec. 12.

The term Township is understood to comprehend precinct and ward. Rev. 138, Sec. 27.

It shall be the duty of the Assessor of each Township and Ward in this State, on or before the fifteenth of September in each year to make and transmit to the comptroller an abstract of the amount of all the ratables in their respective Townships and Wards, designating in separate columns to said abstract the amount of Quotas of State, County, Poor, Road and all other taxes assessed and to be collected, etc. Rev. 1317, Sec. 28.

That the Assessors in Townships and Cities are placed in a like position with reference to State and County taxes, is illustrated by the following sections of the Act concerning taxes (Revision), viz: Sections [illegible].

It cannot be asserted, that if the Legislature creates a particular political district and invests the inhabitants thereof residing with municipal powers, that thereby such political districts are exempt in any way from the assessment of taxes for State and County purposes. The general laws of the State make all property, real and personal, liable to assessment for taxation; and where an exemption exists, it must be shown by positive enactment and clear terms. The amended constitution of the State which went into effect on the 28th of September, 1875, declared that "property shall be assessed for taxes under general laws and by uniform rules according to its true value," and this rule went into operation by force of the Constitution.

The amount of the tax to be raised by the State is fixed by the Legislature, that for the County by the Board of Chosen Freeholders.

On the 6th of April, 1872, an Act to amend the Charter of the City of Plainfield was passed. The Charter provided for an Assessor, Collector, Treasurer and two Chosen Freeholders.

On the 6th of March, 1872, the Township of Plainfield was established, and the Act provided "that the Assessor and Collector of said Township, elected or appointed, shall remain in and perform the duties of their respective offices for the term for which they were elected or appointed, after which the Assessor and Collector of said city shall have the same powers and perform the same duties as the Assessor and Collector of said Township are now required to perform." It thereupon became the duty of the City Assessor to assess the State and County taxes.

The 12th section of the charter provides that the "Assessor," etc., "shall possess the powers and perform the duties of like officers in any township of the State so far as shall be consistent with the provisions of this act." Section 15 of the charter declares, "And the collector of revenue shall pay all moneys received by him for the city as soon as collected to the treasurer of said city, who shall pay over to the treasurer of the State, or the collector of Union county the full quota of taxes required by law to be raised in said city for State and county purposes, so far as the same have been collected."

These words, "so far as the same have been collected," have received a construction by the Supreme Court in the case of Bayonne vs. The State, 12 Vroom 368. They do not prevent the county collector from claiming the unpaid costs and county taxes, as the first fruits of the money collected. There is no direct expression in the amended charter of the city of Plainfield which exempts the assessor from the duty of assessing the State and county taxes, or the collector from collecting the same. On the contrary, reference is made to the following sections, which show that the assessor should assess for State and county taxes, and the collector should collect the same; that is to say, Sections 12, 15, 17, 14 and 24. Reference is also made on the same point to the amendment of the charter of March 18th, 1874, section 4. The act entitled "An Act in relation to the extension of the boundaries of the City of Plainfield," approved March 18th, 1874, confirms these views. The 6th section of that act declares "that the assessor and collector of said township, elected or appointed, shall remain in and perform the duties of their respective offices for which they were elected or appointed, after which the assessor and collector of said city shall have the same powers and perform the duties as the assessor and collector of said township are now required to perform." Laws of 1874, p. 545.

The fact that the boundary of the city was extended by the last named act did not make the same unconstitutional. Such was held to be clear in Patt vs. Newark, 11 Vroom 77. It seems clear that "the inhabitants of the city of Plainfield" can be made liable for the State and county taxes of the years 1878 and 1879.

2d. In the petition for rehearing, the question is presented that the collector is bound by the charter of Plainfield to pay over to the treasurer, and the treasurer can only pay out by the authority of the common council. The point seems to me to be well taken. In the case of the freeholders of Ocean county vs. Lacy, 13 Vroom 507, a question of similar character was raised where a township was interested. The mandamus was asked against the town committee and the treasurer. The court refused the mandamus. The intimation of the court is that the mandamus should have been directed to "the inhabitants of the Township of Lacy" in the county of Ocean.

Neither the treasurer or collector of the city of Plainfield should be punished for doing what the charter authorized and expressly required. The question then is, would the court order a mandamus against "The Inhabitants of the City of Plainfield." On principle, it seems to me that the mandamus would be so ordered.

I am unable to say whether the taxes were correct in amount as claimed. I infer from the [illegible] agreed upon and proved, that the State and county taxes were assessed.

My advice is that "The Inhabitants of the City of Plainfield," through their Common Council make provision to ascertain and pay the amount of State and county taxes in arrear.

I have examined the Act entitled, "An Act in relation to townships, the territorial boundaries of which are the same as those of incorporated cities." Approved March 18th, 1878.

I judge, but do not know, that the territory of "The Inhabitants of the City of Plainfield," is not the same as that which was formerly in the township of Plainfield. If the territory of the township and city be the same then the collector should have paid the State and county taxes, under the provisions of the general tax law. See Revision page 1120, section 83.

"That it shall be the duty of the collectors of the townships, cities or wards in this State out of the taxes and moneys which shall be collected by them, to pay to the county collector of the county in which they hold their offices, the State and county taxes required to be assessed in their several townships, cities and wards at the time required by law to pay the same."

The provisions of the act seem broad enough to cover the case whether the boundary of the city and township is the same or not.

J. W. SCUDDER.

May 7th, 1881.

Ref'd back to Mr. Darling without action thereon.

Mr. *Darling then presented* the following:

Resolved, That the Common Council direct the Finance Committee to meet the Freeholders of Union County and acquaint them with their decision—that the city of Plainfield is liable for State and County taxes of 1878 and 1879, and will pay the same as soon as the amount claimed as being in arrears is ascertained to be correct, and in the meantime will pay the County Collector such sum on account as may be necessary to induce the Freeholders to withdraw the mandamus against the Treasury of Plainfield.

This resolution occasioned considerable discussion.

Mr. Tyler was of the opinion that the matter should be definitely settled by the Courts, and not rush hastily to a settlement while the mandamus was hanging. He thought it should be settled in a manner that no mistakes could be made in the future. He quoted sections of the State law bearing upon the duties of a Collector, and made some very pointed remarks relative thereto.

Mr. Coriell said he was no lawyer, but he thought that the Township Committee could order the issuing of warrants. He was quite positive that he had seen a law to that effect. An opinion of the Corp. Counsel in the premises he thought would be advisable.

Mr. Gilbert's remarks were somewhat in the same strain as those expressed by Mr. Tyler. There are many reasons he said why we should not act hastily in this matter; we should wait. The Corporation Counsel has made every effort to bring about a satisfactory adjustment of city's affairs. He thought it not wise to act upon the resolution to-night. This Council nor previous ones, he said, are responsible; the responsibility is with the Collector.

Mr. Darling looked at the matter in a different light. He thought the remarks of Mr. Tyler were largely overdrawn. He said the arrearages for State and County *taxes on the Collector's books* amounted to nearly $32,000. If the Collector fails in the performance of his duty, the city is responsible. It may be until next Fall before the Supreme Court will render its decision. He believed in paying a portion of the money; if needs be, pay it under protest, anyway to get out of this dilemma. He thought the easiest way the best, etc.

After some further discussion, the res. was not adopted, Messrs. Coriell, Darling, Finch and A. H. Smith voting in the affirmative, and Messrs. Gilbert, Guion, Hamilton, H. Smith, Tyler, Waring and Whiton in the negative.

Mr. Darling offered a res. that the note of $3,500, falling due on the 11th inst. at 1st National Bank, be renewed.

Mr. Gilbert moved that the resolution be tabled.

Mr. Darling thought that the action of Mr. Gilbert was rather hasty. He said *it was the usual course that past Councils* pursued.

Mr. Gilbert withdrew his motion, and quite a tilt was afterward had by the two gentlemen as regards the duties of Committees. The res. on motion, was adop'd. All aye.

Mr. Tyler called from the table the report of the Law & Ord. Com. on com'n of Assessor Hubbard, and moved that the report be rec'd and recommendation of Com. adopted.

Mr. A. H. Smith offered a minority report from Law & Ord. Com. Mr. S. was of the opinion that the Assessor should be instructed as to his duties.

Mr. Darling did not want to take the responsibility should the Assessor not make his assessment.

Mr. Coriell asked if Mr. Hubbard was elected only as Assessor. He was elected, he thought, by the people, and qualified the same as other city officers.

The Assessor, Mr. Tyler said, was a co-ordinate branch of the city government; the Council, he said, had no more right to define the Assessor's duties, than the Assessor had of defining the Council's duties.

A portion of the charter, upon request of Mr. A. H. Smith, bearing upon the duties of city officers, was read by the Clerk, and after some further discussion the recommendation was adopted.

By Mr. Tyler, the following:

WHEREAS, at the recent money election the citizens of Plainfield voted not to raise an additional sum for the current general expenses of the city this year, and thereby rendered it necessary for the Common Council to reduce the expenses as far as is possible consistent with the maintenance of the city government and the safety of the community; and

WHEREAS, we recognize the right of the citizens to determine how much money shall be raised for general city purposes by the city [illegible] under our charter, and we [illegible] their decision in this regard as final; and

WHEREAS, the good faith and credit of the city requires the payment of the salaries of the city officers and the police force and the expenditures of such further sums upon the streets in connection with the public health, which at present can only be paid through the medium of warrants which there are no funds in the city treasury to meet;

Resolved, That it is the policy of the Common Council at this junction to reduce the amount of general expenses of the city to the lowest possible limit, and to that intent for the present that the lighting of all lights at the expense of the city, so far as the same can be done without the violation of existing contract rights, be discontinued, and that only so much money be expended upon the streets and the public and health of the city as the safety and security of our citizens shall require.

On motion of Mr. Gilbert, tabled.

On motion, Council then adjourned to meet the first Monday evening in June.

SPORTSMEN'S CORNER.

On Saturday last a friendly shoot at glass balls took place on private grounds in this city between three well-known amateur shooters. Each shot at 100 glass balls. The result ended as follows:

H. R. B.	average	80 out of 100
F. L. W.	"	60 out of 100
F. H. J.	"	60 out of 100

They will do better next time.

The well-known trotting stallion, "Carbolic," owned by Mr. Wm. Moore, of this city, under the excellent training of Mr. John Griscoll, at Parkville, L. I., promises to perform wonders in the trotting circuit in which he is entered for the coming season. Last week "Carbolic" was given a trial heat of a mile, trotting the distance in 2:27, repeating the heat in 2:25½. "Contest," another of "Uncle Billy's" wonders, is coming out fine under the hands of the same trainer, and promises to perform wonders on the turf this summer.

A LITTLE OF EVERYTHING.

And now the boot and shoe men have got it. They think they can get the same money for less leather by selling a bottle of German Corn Remover.

The A. S. T. Co., ever since the introduction of the metal shoe tip by them, have been searching for some material that had its merits as to wear, and not be objectionable in appearance. This *they now have in their tip known as the A. S. T.* Co. Black, and parents should ask for them.

THE straw hat and the duster appeareth, while shirt sleeves once more are seen.

RESCUED FROM DEATH.

The following statement of William J. Coughlin, of Somerville, Mass., is so remarkable that we beg to ask for it the attention of our readers. He says: "In the fall of 1876 I was taken with a VIOLENT BLEEDING OF THE LUNGS followed by a severe cough. I soon began to loose my appetite and flesh. I was so weak at one time that I could not leave my bed. In the summer of 1877 I was admitted to the City Hospital. While there the doctors said I had a hole in my left lung as big as a half dollar. I expended over a hundred dollars in doctors and medicines. I was so far gone at one time a report went around that I was dead. I gave up hope, but a friend told me of DR. WM. HALL'S BALSAM FOR THE LUNGS. I laughed at my friends, thinking that my case was incurable, but I got a bottle to satisfy them, when to my surprise and gratification, I commenced to feel better. My hope, once dead, began to revive, and to-day I feel in better spirits than I have the past three years.

"I write this hoping you will publish it, so that every one afflicted with Diseased Lungs will be induced to take DR. WM. HALL'S BALSAM FOR THE LUNGS, and be convinced that CONSUMPTION CAN BE CURED. I have taken two bottles and can positively say that it has done more good than all the other medicines I have taken since my sickness. My cough has almost entirely disappeared and I shall soon be able to go to work." Sold by druggists. 1 3

HAVING BEEN AFFLICTED WITH CATARRH and cold in the head, I tried a great many remedies without any beneficial effects, at last I used Ely's Cream Balm, which effectually cured me. NATURE'S SLUICE-WAY.

The kidneys are nature's sluice-way to wash out the debris of our constantly changing bodies. If they do not work properly the trouble is felt everywhere. Then be wise and as soon as you see signs of disorder get a package of Kidney-Wort and take it faithfully. Druggists sell it, both liquid and dry, and it is equally efficient in either form.—*Independent.*

A miraculous escape from death is an oft quoted remark in our newspapers, and yet, how many such occurrences happen every day and are unchronicled, unheard of and unappreciated except by the few who are closely interested. There is probably no larger collection of such facts than in the correspondence of R. F. ARTHUR & CO., whose Elixir of Sulphur has caused many a grateful heart to express its thanks for help in time of danger. This preparation is a certain cure for all diseases of Throat and Lungs—Coughs, Colds, Consumption, Catarrh, etc., and is sold by A. Kilgore, Druggist. 1 16de

"Letters pour in daily, sometimes by dozens, scores and hundreds, to Dr. David Kennedy, of Rondout, N. Y., in grateful acknowledgment of the great benefits received from his 'Favorite Remedy.' But it is when a sufferer comes miles to tell the story of his deliverance in person, to grasp the doctor by the hand and greet him as a true and valued friend, that the interest in his case deepens and intensifies." m4w4

THAT'S A FACT.

A man can't work unless he feels well. The hard times have made plenty of people sick simply by worrying them almost out of their wits about money and business. Trouble of mind has brought on trouble of body. There is indigestion, heaviness in the head and all that. Are you afflicted in this way? Go and invest One Dollar for a bottle of Dr. David Kennedy's "Favorite Remedy," and it will make a new man of you. It takes the bile out of the blood, and is worth a trip to Rondout, N. WHY ARE YOU BILIOUS?

Because you have allowed your bowels to become costive, and liver torpid. Use Kidney-Wort to produce a free state of the bowels, and it will stimulate the liver to proper action, cleanse the skin of its yellowness, cure bilious headache, and cause new life in the blood. 5. And be it enacted, That the assessments authorized and directed by this act shall be and remain a lien upon the lands and real estate assessed, from the time said report shall have been delivered to the collector of said township, in the same manner and to the same extent that taxes are now liens upon lots or tracts of land and real estate in said township.

6. And be it enacted, That if the owner or owners of any lot or tract of land and real estate, which shall be assessed for any improvement aforesaid, shall desire to pay the whole assessment which shall be made and levied under the provisions of this act upon his or their lands and real estate, notwithstanding the provisions of the second section of this act, the said township committee, or a majority of them, are hereby authorized and empowered, after the report and certificate in writing shall have been delivered to the collector of the township as aforesaid, to remit or deduct from any annual assessment which shall be so paid a sum not exceeding [illegible] per centum of any such assessment; provided such payment is made within [illegible] months after said report and certificate shall have been in said collector's hands, and any such deductions shall be considered as a portion of the balance to be raised as aforesaid by said township.

10. And be it enacted, That for the purpose of meeting the costs and expenses of such improvements, it shall be lawful for the township committee to issue bonds under the seal of said township, and by the signature of the chairman thereof, with that of the township clerk, to an amount equal to said costs, expenses and accrued interest; said bonds shall bear interest at the rate of six per centum per annum, payable semi-annually, and be made payable at any time not exceeding ten years from their date, and shall not be negotiated at a rate less than par, and all assessments for said improvements and all taxes raised to meet the portion of the costs and expenses assessed to said township, when paid, shall be kept apart and used solely to pay said bonds with the interest thereon; said bonds shall also be receivable in payment of said assessments, for their full or face value, with the interest thereon.

11. And be it enacted, That this act shall take effect immediately.

A further supplement to an act entitled "An act respecting conveyances," approved March twenty-seventh, one thousand eight hundred and seventy-four.

Whereas, Writings declaring or directing uses or trusts of real estate are not [illegible] to be recorded by authority of the present recording laws; for remedy whereof:

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That all writings heretofore made or hereafter to be made, to declare or to direct any use or trust of real estate, or which though made or to be made for some other purpose, are yet, by the terms of any recorded deed, or will which refers to such writing, made to operate as such a declaration or direction, may be recorded in the same manner as deeds are recorded in the office of the clerk of the county in which such real estate is situate; provided, that such writing shall be recorded in the office of the register of deeds instead of in the office of the clerk of the county, where both offices exist in the county in which such real estate is situate.

2. CHAPTER CCXVI.

An act to authorize cities to sell and convey such lands as they have acquired by purchasing such lands for the non-payment of assessments for improvements.

Whereas, Heretofore in many cities of this state public improvements were caused to be made by [illegible] grading, curbing, flagging or paving streets, or by building sewers therein, for which improvements the lands supposed to have been benefited by such improvement or improvements were assessed, and for non-payment of such assessments [illegible] for a term of years, and for want of other purchasers such lands have been purchased for a term of years as aforesaid, for the benefit of such city or cities in which such lands were situate; and whereas, by reason of the accumulation of interest on such assessments, and the general depreciation in the value of real estate, in many cases the owners of the lands so assessed and sold as aforesaid have neglected and refused to redeem such lands for more than the time limited by law for redemption thereof after the said lands were sold as aforesaid, whereby the title of such cities for the term or terms aforesaid have become absolute; and whereas, such cities have no means of [illegible] the lands so purchased for non-payment of assessments; therefore,

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That in all cases where any city or cities in this state [illegible] by virtue of any purchase or purchases [illegible] for the non-payment of any assessment or assessments [illegible] improvement or improvements [illegible], it shall be lawful for the mayor and common council, mayor and aldermen, or the corporate authorities of such city, by whatever name they may be called, to designate a time and place for sale, and to direct the city clerk of such city to advertise and sell at public vendue, to the highest bidder, all the right, title and interest which such city has or claims to have of, in and to such lands purchased for the non-payment of assessments aforesaid; provided, nevertheless, such lands shall be sold subject to the lien and encumbrance of all unpaid taxes at any time heretofore assessed and levied thereon by the law for general taxation for state, county and municipal purposes, and also subject to unpaid water rates.

2. And be it enacted, That notice of the time and place, when and where such sale will be made, together with a description of such lands, and the city's term therein shall be posted in five public places in such city, for at least thirty days [illegible] and published in at least one newspaper published and circulating in such city, once each week, for four weeks successively, previous to such sale.

3. And be it enacted, That such lands or the right, title and interest of such city or cities therein, shall be sold in separate lots or parcels of the same dimensions as the same were originally assessed and purchased by such city or cities; except in cases where assessments have been divided and apportioned under some existing law to correct mistakes, or to allow a portion or portions of a lot or lots so assessed to be redeemed, and in such cases such lot or lots or parts of lots shall be sold separately, according to the new apportionment or apportionments.

4. And be it enacted, That in case at the time and place so appointed for the sale of such lots or parcels of land, no person shall bid or offer to pay for the same, at least one-fourth part of the amount of principal and interest of the assessment, or assessments existing against any lot or lots so offered for sale as aforesaid, the sale of such lot or lots shall be adjourned for not less than two weeks and not more than six weeks, at which adjournment said lot or lots may be sold to the highest bidder therefor, without regard to the amount owing on such assessment or assessments.

5. And be it enacted, That the city authorities of the city making such sale shall have power to make and publish such conditions of sale as to payments and delivery of deeds of conveyance as they may deem expedient, and that upon compliance with such conditions by the purchaser or purchasers of any lot or lots, such city by the mayor or other duly authorized agent, or agents, shall sign, seal and deliver a deed to such purchaser or purchasers conveying all the right, title and interest which such city has or claims to have of, in and to the lands therein described, which deeds, the execution thereof having been duly proved, may be recorded in the office of the clerk or register of the county in which such lands are situated, the same as other deeds of conveyance, subject nevertheless to the lien and encumbrance thereon of all taxes previously assessed thereon by general taxation, for state, county and municipal purposes, and subject to all unpaid water rates, such taxes and water rates to remain liens thereon, the same to all intents and purposes until paid, as if such sale and conveyance as aforesaid had not been made; provided, nevertheless, that no city shall have power to warrant the title which such city proposes to sell and convey.

6. And be it enacted, That all acts and parts of acts, whether special or general, inconsistent with the provisions of this act, be and the same are hereby repealed, and that this act shall take effect immediately.

Approved March 25, 1881.

2. And be it enacted, That this act shall take effect immediately.

Approved March 25, 1881.

CHAPTER CCXXII.

An act relative to railroad crossings, and to prevent accidents.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That where any public road crosses the road bed and tracks of any railroad company in this state, it shall not be lawful for the surveyors of the highways, or other body having the power to lay out or vacate public roads in this state, to lay out or locate a public road across such rail road and tracks, within a distance of five hundred feet of such other public road or crossing; provided, that this act shall not apply to incorporated cities.

2. And be it enacted, That this act shall be deemed and taken to be a public act, and shall take effect immediately.

Approved March 25, 1881.

CHAPTER CCXXIII.

A supplement to an act entitled "An act concerning bridges and turnpikes," approved March twelfth, one thousand eight hundred and seventy-eight.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That whenever any turnpike or other public road, or any part thereof, in any county of this state, shall have been purchased and acquired, the same, so far as it lies in any township of said county, shall, at the cost and expense of said township, and not at the cost and expense of the said county, be graded, regulated, worked, repaired, maintained and kept up, and if deemed necessary or proper by the inhabitants of said township, the same or some portion thereof shall be macadamized, and such grading, regulating, working, repairing, maintaining, keeping up and macadamizing shall be done by such person or persons as may for that purpose be employed by the town committee of said township, and in such manner as said town committee shall order and direct; and the amount of money necessary for paying the cost and defraying the expense aforesaid shall be determined by the inhabitants of said township in the same manner in which they now are or hereafter may be authorized by law to determine the amounts to be expended for township purposes, and shall be raised by taxation in the same manner as other township taxes.

2. And be it enacted, That if such road, or any part thereof, so as aforesaid purchased and acquired, shall form the division line between two or more townships in any county of this state, and if specific portions thereof shall have been allotted or assigned, in such manner as may be authorized by law, to said townships respectively, to be by them graded, regulated, worked, repaired, maintained, kept up and macadamized, the amount so as aforesaid to be raised in any township shall be wholly expended on that portion of said road so as aforesaid allotted or assigned to said township; and the inhabitants of said township shall in no case be held responsible for not grading, regulating, working, repairing, keeping up or macadamizing any portion of said road not allotted or assigned to said township as aforesaid, although some part thereof may be within the boundary line of said township; but therefor, the inhabitants of the township to which any portion of said road shall have been allotted or assigned as aforesaid, shall alone be responsible, although some part thereof may be within the boundary line of said township.

3. And be it enacted, That at every annual election of township officers, in any township required by the provisions of this act to grade, regulate, work, repair, maintain, keep up or macadamize such road or any part thereof, so as aforesaid, purchased and acquired, the amount of money so deemed to be expended thereon, and also that portion of said amount to be expended in macadamizing the same, if any, shall be specified on the ballots and be voted for, and be determined on a canvass of the votes, as other amounts to be raised for township purposes are by law determined.

4. And be it enacted, That if, for any reason, the amount so to be expended on such road as aforesaid, by such township, shall not have been voted for and determined at such annual election, the town committee of such township may, at their discretion, resolve that a town meeting be held for the purpose of determining the amount to be raised for expenditure on said road, and the portion thereof to be expended in macadamizing the same, and notice thereof, and of the time, place, and object or purpose thereof, shall be given; and the same shall be held and conducted in the manner required by law in other cases of special town meetings.

5. And be it enacted, That said amount to be expended on said road by said township, shall be assessed and collected by the assessor and collector, or other proper officer or officers of said township, in the manner and at the time prescribed by law for the assessment and collection of other township taxes, and for assessing and collecting the same such officers shall each receive, as additional compensation, fees equal to the one half part of such fees as they may by law be authorized to receive for the assessment and collection of state and county taxes.

6. And be it enacted, That the act entitled "A supplement to an act entitled 'An act concerning bridges and turnpikes,'" approved March twelfth, one thousand eight hundred and seventy-eight, which supplement was approved March [illegible], one thousand eight hundred and seventy-nine, and the act entitled "A supplement to an act entitled 'An act concerning bridges and turnpikes,'" [illegible] which supplement was approved March [illegible], one thousand eight hundred and eighty, be and the same are hereby repealed.

7. And be it enacted, That this act shall take effect immediately.

Approved March 25, 1881.

CHAPTER CCXXIV.

An act concerning the compensation of commissioners of highways.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That hereafter members of any board of commissioners of highways in any township in this state, elected under and by virtue of the provisions of any special act, at the time and in the manner that other township officers are elected, shall not be entitled to receive any compensation for their services as such commissioners.

2. And be it enacted, That all acts or parts of acts, whether general or special, inconsistent with the provisions of this act, be and the same are hereby repealed, and that this act shall take effect immediately.

Approved March 25, 1881.

A MOTHER'S JOY,
A Wife's Gratitude to Him who has Afforded her the means of once more Enjoying Life.
The following pleasant letter was recently received by Dr. David Kennedy, of Rondout, N. Y., and signed "Old Schenectady":
"I procured a bottle of 'Kennedy's Favorite Remedy' and my wife used it with the best results. She has no more headache or pain in the side. Indeed, the medicine seemed to have an almost magical effect, and she feels very grateful to you for your kind advice, and especially for the 'Favorite Remedy.' We shall be glad to recommend it to all women who may be suffering from any of the ills peculiar to the sex. It is all you claim for it."
It may be in place to mention, as pertinent to the above letter, that Dr. Kennedy, the proprietor of "Favorite Remedy," located in the City of Schenectady soon after his graduation, and went from there to the war. Some of the most cheering letters he receives are from his old acquaintances in that place, many of whom know from experience what "Favorite Remedy" can do for disease. There all the Doctor's old friends will believe him when he says that "Favorite Remedy" is a specific for Liver and Kidney Complaints, Constipation, Diseases of the Blood and Urinary Organs. Write to Dr. David Kennedy, Rondout, N. Y., and state your case, or ask your druggist for "Favorite Remedy." For sale by all druggists.

THE NEW BUSINESS
OF THE
EQUITABLE
Life Assurance Society of the U. S.
FOR THE YEAR 1880, WAS OVER
Thirty-Five Millions of Dollars,
The Largest Business Done by any Company in the World.
REASONS FOR THIS RESULT.
The Equitable is the strongest Company in the United States.
Its policies are, by their own express terms, made incontestable after three years. [For precise terms see form of policy contract.]
ALL such incontestable policies are paid immediately after receipt of satisfactory proof of the death of the insured, and without even the customary delay of sixty or ninety days.
EACH ordinary policy provides for a definite surrender-value in paid-up assurance, in case the policy is forfeited after three years from its date and is surrendered within a reasonable time thereafter.
BY THE TONTINE SAVINGS FUND plan of assurance, *returns to policy-holders, after the expiration of what is called the Tontine Period, are greater than are obtainable on any other system.* Actual settlements of Tontine policies have been made in which policy-holders have withdrawn amounts varying from eighty to one hundred and twenty per cent. of premiums paid, besides enjoying a life insurance indemnity during the period. No other company can show such results.
THE TONTINE plan is the *only one extant* by which a person may withdraw from his insurance contract at specified periods, receiving the entire reserve and surplus accumulations in cash.
ALL the ordinary forms of insurance with annual dividends of profits, both cash and reversionary, are issued by this Society.
ASSETS, - - $41,108,602.
SURPLUS, - - $9,228,294.
Its business for the last ten years (represented by the new policies issued) has been larger than that of any other Company.

THE PREMIUM COLT.

SPARTAN, JR.
Is a bright bay, 16 hands, foaled May 1st, 1877, of superb style and action, with the appearance and finish of the highest type of the gentleman's roadster. Spartan, Jr. took first Special Prize at N. J. State Agricultural Society in 1879; he also took first premium at Somerset Co. Fair in 1879 and '79. Gentlemen wishing to raise stock either for speed, road or coach, will find the three combined in this promising young horse. We claim he has the best crosses of blood for speed, road and coach of any horse in the State. Spartan, Jr. was sired by Spartan, he by Ethan Allen whose record is 2.15, and I think has never been beaten in double harness. His first dam by Nelson, noted for coach and road; 2d dam by Fiddler who has a record of 3 miles in 40 minutes, 15 seconds, he by Monmouth Eclipse, 3d dam by Bolerah, also noted as a road and coach horse. For further pedigree see bills.

MALARIA.

Our baby lay on its mother's arms,
All sweet with its tiny dimpled charms;
But little tongue and mouth were sore,
And of its food 'twould take no more,
The Doctor hemm'd and shook his head,
And looking wise he gravely said:
"Malaria—'tis plainly seen;
Three times a day give him quinine?"
Said Grandmamma: "Dear me, that's new;
When I was young we called it 'sprue!'"

Our urchin, Tom, ne'er off his feet,
One day his dinner could not eat;
His head ached so, he was so ill,
Poor mother's heart with fear did fill.
The Doctor felt his hands and head,
And looking wise he gravely said:
"Malaria—'tis plainly seen;
Three times a day give him quinine!"
Said Grandmamma: "That can't be so!
He has been smoking, sir, I know!"

Our lady Maud, at seventeen—
As bright a girl as e'er was seen—
One day turned languid, white and frail,
And seemed she did strangely pale.
The Doctor felt her pulse and said,
While wisely he did shake his head:
"Malaria—'tis plainly seen;
Three times a day give her quinine!"
Said Grandmamma: "That can't be right!
Why, my good sir, she danced all night!"

Our pride, our eldest, Harry dear,
One night did act so strange and queer
That mother, frightened, panting said:
"Run for the Doctor—he'll be dead!"
The Doctor came and shook his head,
And looking at him, grandly said:
"Malaria—'tis plainly seen;
Three times a day give him quinine!"
"What stuff!" said Grandmamma: "I am thinking
That good-for-nothing boy's been drinking!"

The head of the house, forever well,
One day fell ill, and, sad to tell,
Could not arise, but loud did cry:
"If this keeps on, I'd rather die!"
The Doctor came, stood by the bed,
And looking solemn, gravely said:
"Malaria—'tis plainly seen;
Three times a day give him quinine!"
Growled Grandmamma: "O, fiddle-de-dee!
He's only bilious—seems to me!"

One day our grandpa—eighty-four—
Complained that he could see no more;
That, at his age, it worried him
That his good eyesight should grow dim.
"I've often seen it act that way."
The doctor solemnly did say:
"Malaria—'tis plainly seen;
Three times a day, sir, take quinine!"
But Grandmamma cried: "I never see!
Old man you're growing old like me!"

"ARE YOU A MASON?"

Rev. Magill, Rector of St. Paul's Church, Peoria, Illinois, being asked the above question by a lady, responded as follows:

I am one of a band
Who will faithful stand
In the bonds of affection and love;
I have knocked at the door,
Once wretched and poor,
And there for admission I stood.
By the help of a friend,
Who assistance did lend,
I succeeded an entrance to gain;
Was received in the West,
By command from the East,
But not without feeling some pain.
Here conscience was taught
With a moral quite fraught
With sentiments holy and true;
Then onward I traveled,
To have it unraveled,
What Hiram intended to do.
Very soon to the East,
I made known my request,
And "light" by command did attend,
When lo! I perceived,
In due form revealed,
A Master, and Brother and Friend.
Thus far have I stated,
And simply related,
What happened when I was made free.
But I've "passed" since then,
And was "raised" up again,
To a sublime and ancient degree.
Then onward I marched,
That I might be "Arched,"
And find out those treasures long lost;
When behold a bright flame,
From the midst of which came
A voice, which my ears did accost.
Through the "veils" I then went,
And succeeded at length
The "Sanctum Sanctorum" to find;
By the "signet" I gained,
And quickly obtained
Employment that suited my mind.
In the depth I then wrought,
And most carefully sought
For treasure so long hidden there;
And by labor and toil,
I discovered much spoil,
Which are kept by the craft with due care.
Having thus far Arrived,
I further contrived
Among valiant Knights to appear;
And as Pilgrim and Knight,
I stood ready to fight,
Nor Saracen foe did I fear.
For the widow distressed
There's a cord in my breast;
For the helpless and orphan I feel;
And my sword I could draw
To maintain the pure law
Which the duty of Masons reveal.
Thus have I revealed
(Yet wisely concealed)
What the "free and accepted" well know.
I am one of a band
Who will faithfully stand
As a brother, wherever I go.

AN INVITATION TO BREAKFAST.

"Walk out to my house, and have breakfast with me some morning." Such was the invitation given to me one day by Mr. Robertson, a genial, middle-aged solicitor to whom I was articled, in the thriving town of Abbeyton.

Now, I had only been articled for a few weeks; and what I had seen of Mr. Robertson in business, made me wish to know him and his in their private life; hence I was much delighted to have this opportunity of gratifying my wish. A few days afterward, waking up and finding a glorious summer sun streaming into my room, I speedily decided that this was just the kind of morning on which I should accept the invitation to breakfast at Abbey Grove; and in a few minutes I was on my way thither.

Abbey Grove was situated about two miles from the town, and consisted of a small cluster of villas, built in a prettily situated spot, which, generations ago, had formed part of the grounds of an old abbey. The only remains of this ancient building, however, were a few yards of crumbling wall, with here and there vestiges of what at one time had been traceried windows; these, with numerous mounds of stones and masonry, were all that was now left to tell of what had been there centuries ago. Most of these mounds were now covered with grass and shrubs and trees, and thus formed a delightfully secluded retreat, which the inhabitants of Abbey Grove villas enjoyed in common.

The invigorating charms of an early walk on a summer's morning need no description. The pure air, the genial sun, the twittering birds, the sparkling dew and soft low breeze, all tend to exhilarate one's spirits and to make the day pleasanter and happier throughout. All these experiences were mine on the day I write of. As I approached Abbey Grove and saw the houses peeping from out the surrounding trees, I commenced wondering as to what kind of a residence would be occupied by Mr. Robertson, how it would be furnished, what kind of people his wife and family would be like, and the kindred things that you speculate upon when going to visit a house for the first time. Last, but by no means least, as my walk continued, I wondered what kind of a breakfast there would be to appease the appetite stimulated by the breeze.

I walked down the short avenue leading to the houses, and then began to wonder which of the half-dozen villas I was bound for. This small community dispensed with numbers to their houses, nor did they even distinguish them by the ambitious and ridiculous names which you see stuck up on most suburban residences. No; nothing savoring so of the town for this group of country residents; they all called their several houses by the common name of Abbey Grove; and the stranger had to take his chance of having to go to each of the houses in turn, before he found the particular one he sought. Fortune favored me, however, by sending across my path a traveling directory in the shape of the local milkman; and in response to my inquiry as to which house was Mr. Robertson's, I received the straightforward reply: "This 'ere one as I've just come from, sir." Walking up the path I found the door invitingly open, and the housemaid putting the finishing touches on the bell-handle.

"Master is not down yet, sir," she replied to my inquiry as to whether he was at home, which, considering the time of day, really appeared an absurd question to ask the girl; but we get accustomed to use stereotyped phrases under some circumstances.

"Oh, then, I will come in and wait," I replied.

"What name shall I say, sir?" asked the girl.

"*Just tell him Mr. Brooks has called, and he will understand.*"

So saying the girl showed me into a snug little breakfast-room, where the sunbeams and the fresh morning air seemed to be vieing with each other as to which should have possession of the room, with such friendly rivalry were they streaming through two wide French windows, which opened upon a tastefully arranged lawn and flower-beds outside. While noticing these things the housemaid had gone upstairs to announce me, when something like the following dialogue ensued:

"Please, ma'am, Mr. Brooks is downstairs."

"Mr. Brooks! Who is he?" was the response, in a muffled female voice.

"I don't know, ma'am," the maid replied. "I've never seen him here before. But he's a young gentleman, and says he'll wait 'till master comes down."

"Whoever can he be, and what can he want, bothering here, at this time of day?" continued the muffled voice; and thereupon the door was shut.

Now, this was not exactly pleasant to me; but when I reflected that most probably Mrs. Robertson would be unacquainted with her husband's invitation to me, I thought it best not to be offended; so I commenced examining the pictures on the walls. They were not very interesting, and I soon concluded my inspection, and looked round for something else to occupy the moments, which began to hang rather heavily. The newspaper of the previous day was upon a small table by the window, so I took that up, just to pass away the time, and I was soon listlessly perusing the advertisements. I had not been sitting thus above a minute or two, when I heard a slight rustling, as of a lady's dress; simultaneously came three or four light footsteps through the window into the room; and before I could look up from my paper, or raise from my seat, a musical voice accosted me with "Good-morning, uncle; here is your buttonhole bouquet."

I started up in no little surprise at this greeting, which was evidently not intended for me; and there stood before me a fairy-like maiden of some sixteen summers, her brown hair falling loosely from a daintily-shaped head; her cheeks aglow with the healthy morning air she had been enjoying, and deepened, too, by a rosy blush, when she discovered her greeting had been unwittingly addressed to a stranger. She was standing before me, holding out the knot of flowers destined for her uncle's button-hole—how I envied her uncle!—a very picture of health and life and happiness and beauty. Her expression of unstrained enjoyment had changed in a moment to one of embarrassment and dismay, mingled with a gleam of amusement in her bright eyes as the humor of the awkward situation we were in broke upon her. An instantaneous mutual agreement seemed to flash between us. We both broke into a merry little laugh; and I have often wondered what would have happened, if we had not adopted this course, if, for instance, the young lady had passed on with a dignified coldness, and simple apologies and bows had been passed between us! Our sudden introduction was however, not destined to have this sudden ending. In a few moments we were chatting away like old friends. I fancied my fairy seemed to be actually pleased when I announced that I was going to stay to breakfast; and I had almost summoned up courage to ask her to present me in reality with the flowers she had undesignedly offered to me, when the entrance of the servant with the completing dishes for the breakfast table served as an excuse for her to leave the room.

She had scarcely gone through the door, when I heard again the greeting, "Good-morning, uncle," followed this time by an unmistakable sound, which made me long more than ever to be that girl's uncle! The door opened once more. I stepped forward to meet my employer, but suddenly paused, as a tall gentleman entered the room whom I had never seen before in my life.

He stood looking inquiringly at me after a sharp "Good-morning." I was too embarrassed to make any response. My first thought was: "He is some visitor;" but in a few moments the awful truth dawned across my mind, that this was in reality the owner of the house I was in, and that by some means or other I had got into the wrong one. The situation was tremendous. I am naturally a cool character; but I was so taken by surprise and chagrin, that I could only mutter some confused apology about having been invited to breakfast by Mr. Robertson; that I had been directed to this house by some miserable misunderstanding; that I humbly apologised for my intrusion, and hoped he would pardon it. So speaking I made a frantic dash at my hat, maddened at my stupidity, at the loss of my breakfast, and still more at the thought of never seeing or speaking again to that charming little lady, who, in less than five minutes, I had found I was absurdly in love with!

I said a hurried "good-morning," and was trying to make a ghastly attempt at a smile as I left the room—when, would you believe it? that tall, dark man burst out into a loud laugh. I felt ready to knock him down. I knew how my stupidity would be gayly discussed at that breakfast table, before her, and I felt my discomfiture and humiliation deeply; but this open merriment at my expense maddened me.

A strange calm succeeded this storm. It was caused by some words uttered by my tormentor. "You really must forgive me; I could not refrain from laughing. My name is Robinson. Your friend Mr. Robertson lives in one of the other houses. We frequently get parcels and letters, and even callers coming to the wrong house; but in all my experience we have never had so amusing a mistake so early in the day as this one."

Now this explanation toned down my anger considerably; but the words which followed were like balm to my troubled heart. "Mr. Robertson will have finished breakfast by now. I cannot think of allowing you to go. Do me the favor of remaining here and breakfasting with us this morning." So saying he took my hat out of my hand and led me into the room again. Of course it did not need much persuasion to make me stop. Two minutes before I had been ready to knock this man over; I now thought him the most kind and considerate fellow in the world.

Of course the breakfast was delightful. I found Mr. Robinson and his wife sensible, genial, kind-hearted people. I found their niece even more sensible, more genial and more kind-hearted than they were; and when, after breakfast, I accompanied her and Mr. Robinson into their pretty flower garden, I received from her a rosebud for my buttonhole, which I kept for some years afterward. When saying good-bye I was perplexed by thinking how I should manage to see her again; it must be contrived somehow I mentally resolved. Upon returning to town I lost no time in explaining "the situation" to my worthy employer, Mr. Robertson, who rallied me good-naturedly upon the mistake, and upon what the consequences might be! Next week I was invited to a picnic at Mr. Robinson's, and went not only to it, but likewise to Mr. Robinson's house again and again before his niece returned to her home.

Four years have passed since that invitation to breakfast was given me; and that "fairy-like girl" is now my wife. The local milkman, bless him, got a handsome "tip" upon our wedding day.

WHY DOES HE TREAT ME SO?

"Are you the gentleman who answers the questions sent to the *Eagle*?"

The voice was filled with music, and as the bent and gray philosopher who officiates as encyclopedia for the institution looked up his eyes were blinded. A flash of golden hair! A bewildering sea of blue eyes! A struggle between the red and white roses!

"I am the man," he said, wondering what such loneliness could want of him.

"May I—ask—you—a—question?" inquired the voice, as the beautiful head bowed.

"Certainly, anything. Can I do something for you?"

"It's about Frank," she faltered. "I want to ask you about Frank. Oh! why does he treat me so?" and the sweet face was turned toward the staggered philosopher, wet with tears and imploring consolation.

"Is it—is it a matter of ice cream or oysters, or something of that sort?"

"No, no; oh, no! I have plenty of those. But why does he let me pine?"

"Something about theatres? Concert business? Boquets? Candy? Bong bong?" asked the philosopher, ending his interrogations with some respectful French.

"Nothing, nothing of that kind," murmured the quivering lips. "Why am I so desolate?"

"Something about presents? Makes you walk to the park? Won't hire a hack? Another girl? Won't go to church? Plays pool for drinks! Something of that sort?"

"How strangely you mistake him! How cruelly you wrong him!" and the sweet eyes looked reproach. "You don't know Frank, or you wouldn't say so. What I want to ask is—is—oh! why I am so wretched?" and the tears rained down her face.

"Maybe he's growing a beard," said the encyclopedia tenderly. "Perhaps he parts his hair in the middle. Possibly he belongs to a base ball club, or maybe he stands in front of the theatre on matinee afternoons. Is that it?"

"No, he doesn't! If he did I shouldn't care. You shant abuse him. I came here to ask why—why—oh, why am I so utterly hopeless?"

"Possibly he gets drunk," suggested the philosopher. "Or his pants may bag at the knees. Does he brush his plug hat the wrong way? Is his mustache too long on one side?"

"Oh! cruel, cruel!" said the maid, sinking into a chair. "You are unjust to him. You don't know how grand, how manly he is."

"What is the matter with him, then?" said the philosopher. "How has he made you miserable? What has he done? What do you want of me?"

"I want to know—why—he gets up—between every—act and goes—out of the—theatre. I know—he's got another girl and he goes—to see—her."

"My dear," said the philosopher, solemnly raising her up and putting his arm around her waist, "My dear, you are mistaken. I have known Frank for years, and he has no love for any one but you. Let me tell you something. Frank has got the malaria, and he goes out to get quinine. Trust me that is all."

"If I only could believe that," murmured she, doubtingly.

"On my honor."

"Then I am happy. If that is all, I am content, but I thought some ugly girl had attracted him."

The red roses had come back, and the saphire flash to the eyes, and she went out a grand crush of color, fragrance and beauty, and the philosopher turned to the question, "What was Eve's maiden name?"—*Brooklyn Eagle.*

RESISTED.

Four young men, clerks and students, while on a summer vacation tramp through Northern New England, engaged for a guide to a certain romantic forest waterfall a boy named Forrest Graves. Forrest was a fine, athletic fellow, who could outwalk and outclimb any amateur in the mountains, and his moral courage was quite equal to his physical health and strength.

After he had guided the young men to the waterfall, and they had satisfied themselves with sightseeing, they invited him to lunch with them.

"Thank you, I have my own lunch;" and the boy went away by himself. Later, when full justice had been done to their repast, and a flask of brandy had, furnished each of the young men with a stimulating draught, Graves was called.

"You must drink with us, if you will not eat with us," now said the owner of the flask and the most reckless of the party.

"No, sir, thank you," was the boy's courteous response.

"But I shall insist upon it."

"You can do as you please, and I shall do as I please."

The young man sprang to his feet, and with a brand stood beside the boy, too much absorbed in his own purpose to heed the quivering lips and flashing eyes of another.

"Now you are bound to try my brandy. I always rule."

"You can't rule me."

These words were scarcely uttered when the flask was seized and hurled into the stream, where the clinking of glass betrayed its utter destruction. Then a clear, defiant tone rang out:

"I did it in self-defense. You had no right to tempt me. My father was once a rich and honorable man, but he died a miserable drunkard, and my mother came here to live to keep me away from liquor till I should be old enough to take care of myself. I have promised her a hundred times I wouldn't taste it, and I'd die before I'd break my promise."

"Bravely said. Forgive me, and let us shake hands. My mother would be a happy woman if I was as brave as you. I wouldn't tempt you to do wrong. I I shall never forget you, nor the lesson you have taught me."

The most reckless was the most generous, and seeing his error apologized frankly.

How many boys need to be kept from strong drink; and, alas, how many men and women! Who dares tempt them? Let it not be you and I.—*Youth's Companion.*

LESSONS IN LOVE MAKING.

Don't love too many at once.

Don't do your spooning in public.

Give your little brother taffy and get him to bed before your chap calls.

Recollect that a wedding-ring on your finger is worth a good many of them in your mind.

Try to find out by some means whether your intended knows how to earn a decent living for two.

Be reasonable; don't expect a man working for $8 a week to furnish you with reserved seats at the opera every other night.

Don't be afraid to show the man of your choice that you love him—provided, of course, he loves you. Love is a double-sided sort of concern, and both have a part to play.

Don't try to bring too many suitors to your feet. They have feet as well as you have, and you may see one pair of feet walking off from you some day you would be very glad to call back.

Keep your temper, if you expect your other-half-in-law to keep his. If he doesn't suit you give him ticket-of-leave. If he does suit you, don't expect him put up with your humors.

Deal carefully with bashful lovers; lead them gradually to the point (of proposal, of course), but don't let them suspect what you are at, or they might faint on your hands, or go crazy on the spot.

It is said lovers' quarrels always end with kisses. This is partly true; but if you are not careful those little spats you indulge in may end in the kisses you covet being given to some other girl!

If it is possible, try to suit your sisters, cousins, aunts, grandfathers, neighbors, friends and acquaintances when you happen to fall in love. If you can't suit them all don't worry, for the thing has never been done yet.

If you use powder, don't give yourself away. For instance, it would be well to spread a handkerchief over the shoulder of his broadcloth before you lean thereon. He will be too green, depend on it, to suspect the reason. If his mustache happens to look a little powdery, there are several ways in which it could be brushed off.

Don't imagine that a husband can live as a lover does—on kisses and moonlight. He will come home to his meals hungry as a bear, and any little knowledge of cookery you can pick up during courtship is about the best provision you can make for future happiness.

Remember that nature has put every man under the necessity of having a mother, and that the latter is not in any way to blame if she is regarded as the bitter part of a sugar-coated matrimonial pill. If you feel in duty bound to be her sworn enemy postpone this duty till you know something about her.

Don't seek advice in love affairs from an old maid who has been crossed in love, a bachelor who has been jilted, a woman who married her husband's pocketbook, or a man who happens to be henpecked. Don't confide in your girl friends; to keep a secret in a love affair would kill them. Don't consult your minister; he'll have the marriage fee in view. If you go to your family physician he will say your liver is affected in place of your heart. If you must get instructions from somebody why not ask your mother how she used to manage things with your father? True love didn't run any smoother in old times than it does to-day, and, since she knows how it is herself, we can't think just now of any better way to advise you.

IT LOOKS SUSPICIOUS.

It seems suspicious for a dramatic critic at a play to laugh until his vest buttons rattle off like peas from a pod, be affected to tears until he has to borrow an extra handkerchief to absorb the moisture, applaud till he seems to lead an "encore," and then to write a criticism next morning condemning the play as execrable and the actors as worse.

It seems suspicious for a young man to call on the same girl every other evening, and on another girl every other evening. It seems as if it would be "s'mother evening" with him before a great while.

It seems suspicious for a grocer to put up a sign "None but dairy butter sold here," when there are a dozen kegs of something or other with the labels scraped off just unloading at his store door.

It seems suspicious for a woman whom you have known since she was a girl as a decidedly freckled specimen, to appear on the streets without a freckle in sight.

It seems suspicious for a restaurant keeper to carefully avoid dining at his own place of business, just for the sake of walking two miles to dine with his family.

It seems suspicious for a clerk who gets $6 a week salary to appear in a new pair of mauve pantaloons and suit to match at least four times a year.

It seems suspicious for a man to bring down a cotton umbrella in the morning and carry home a silk one at night. It also looks like a good trade.—*New Haven Register.*

THE ONLY HOPE.

It was remarked by a New York paper the other day that, "if the Presidential election was held to-morrow General Hancock would carry nearly all the States," and however extravagant some may consider such an assertion, the present record of the party in power gives it credence.

The exposure of gigantic post route frauds, out of which came the means so lavishly used for corrupting ballot-boxes in Indiana and other States; the disgraceful Mahone intrigue in the Senate; the wrangling of factions over official patronage and plunder, the weakness of Garfield, dictatorial spirit of Conkling, and political weasel of Blaine, all go to make dishonorable in the public eye an administration not yet three months old.

Had General Hancock been inaugurated President on the fourth of March last, what a different and far more reputable condition of affairs would now exist at Washington, for the welfare alike of country and people.

The Republican leaders retained governing power, how, it is needless here to mention, and rapidly are they working ruin for their party.

The Democrats in Congress have an important duty to perform, and we hope they will meet it with united front and decided action. It is for them to keep severely aloof from the contentions of their political opponents, and, regardless of "stalwart" or "half-breed," support whatever is clearly right, but unhesitatingly antagonize everything wrong.

The Government of the United States to regain its dignity and beneficence must pass into Democratic hands.

That is a truth to which the people are prepared to respond—Amen!

Partisan Republicanism has been found sadly deficient.

Democracy is the country's only hope.

THE HAPPY FAMILY.

Affairs do not seem to run very smooth or harmonious in the Republican ranks at Washington. On Monday last a sensation was created, unequalled in extent since the assassination of President Lincoln, by the announcement of the resignations of Messrs. Roscoe Conkling and T. C. Platt, United States Senators from New York. The resignations were entirely unexpected, except by a very few of the Senators' most intimate friends. The proper official documents have been forwarded to the New York State Legislature for that body's action. According to the statute of that State an election to fill the vacancies must take place on Tuesday, May 31st, at which time undoubtedly the two representatives confidently expect to be returned. The resignations came about in consequence of the inharmonious feeling existing between President Garfield and the New York Senators regarding the nomination of Judge Robertson for Collector of the Port of New York. It now remains to be seen whether the President has the stamina and back bone to insist on the confirmation of his choice or whether the one-man-power Conkling is to rule. Meanwhile the public look on at the fight among this happy family of office seekers and holders, and fervently pray for the time to come when the affairs of the Nation shall be entrusted into capable and honest hands—that of the Democracy.

The two vacancies created by the resignations reduce the Republican strength in the Senate to 35, without counting Mr. Mahone, thus giving the Democrats a clear majority of 2 votes. Democratic Senators say that no attempt will be made on their part to interfere with the organization of the Senate as it now stands, but that they will proceed with the business for which the Senate was convened, and having disposed of that they will favor adjournment *sine die.*

Since the above was put in type, the nomination of Judge Robertson has been confirmed by the Senate and a remonstrance, signed by prominent Republicans sent to the members of the New York Legislature, protesting against the re-election of Conkling and Platt.

ORGANIZATION OF THE CONSTITUTIONAL COMMISSION.

TRENTON, May 17.—The commission to suggest amendments to the Constitution of New Jersey met in the State House to-day. All the members were present except Mr. Gardner, of Atlantic County. The commission was organized by the appointment of H. Newton Congar, of Essex, as President; C. O. Cooper, of Morris, and Wm. Cloke, of Mercer, as Secretaries, and J. A. McLauchlan as stenographer. Messrs. Abbett and Hobart were appointed a committee to prepare rules. Mr. Abbett offered several amendments, which for the time were laid on the table:

1. That the real and personal estate of every corporation, foreign and domestic, except that of the municipalities of this State, shall be taxed the same as individuals, all laws establishing a different rule to be repealed.

2. No law to be passed or contract made by which the power of taxation shall be in any way impaired or abridged.

3. The power of taxation to be completely restored by the condemnation of all rights to exemption from taxation, whether total or partial, and that such condemnation shall be on just compensation, to be paid out of the State Treasury.

The commission then adjourned, to meet at the State Capitol, on the 25th inst., at 1 P. M.

STATE FISH COMMISSION.

The great increase of shad in the Delaware river this year, has proven conclusively that the efforts of the State Fish Commission, of which Major E. J. Anderson, (State Comptroller) is at the head, to replenish and stock streams with this delectable food fish by artificial propagation, has not been without its beneficial results. The increase in the catch of shad alone in the Delaware for 1879 was more than 200,000 over that of the preceding year, while in 1880 there was the same increase over that of 1879. The prospects are that a still larger increase will be the result of this season's catch. It is certainly a gratifying result to the Commission, as well as the public, to learn of this exhibit of an increase of over 600,000 of one variety of fish, through their labors.

The Monmouth Battle Monument Commission desire to procure a list of all the troops engaged on either side in the battle and the names, as far as possible, of the killed and wounded. Persons having information bearing on this subject will please communicate with Gen. William S. Stryker, Adjutant General of New Jersey, at Trenton.

Gotham is the dead cock in the pit.

Garfield didn't dream he was playing with a torpedo until it went off.

If Conkling isn't sent back there will be no use for Platt, who is merely Conkling's chore-boy.

Stanley Mathews appointed as U. S. Supreme Court Judge! And that by Democratic votes, too! Shame!

Conkling and Platt say that Judge Robertson is "a man who cannot be said to have any special fitness for the place."

William H. English is only a one-millionaire, after all. Which shows that the Republican papers have a seven-million lying power.

The Chicago *Tribune* thinks it is about time for a reorganization of parties for the good of the country. Have heard something like that before.

The Board of Freeholders of Middlesex County, met Wednesday of last week, and organized by the election of the following officers: Director, C. Powelson; Clerk, W. M. Cox; Collector, L. D. Jarrard; Counsel, A. V. Schenck; Physician, N. Williamson; Janitor, R. L. R. Pierce. Mr. Rogers, Republican, of New Brunswick, refused to vote for collector, and Mr. Jarrard was elected by the vote of Mr. Meagher, Democrat, of New Brunswick. The Board adjourned to meet next Wednesday, when the committees will be announced.

The State of New Jersey now ranks fifth in the iron producing States of the Union. In 1870 the State ranked fourth, but Illinois, which only produced 25,761 tons in 1870, now takes the fourth place with a production of 417,967 tons. New Jersey, however, increases its production from 115,262 tons in 1870 to 242,860 in 1880, an increase of 112 per cent. Pennsylvania, Ohio, New York, Illinois and New Jersey are the five great iron producing States, ranking in the order named, Pennsylvania alone producing over fifty per cent of the total amount.

Last Friday evening the body of a young woman of about twenty was found in the woods near Guttenberg, N. J., about one hundred and twenty-five feet from the Bergenline Boulevard, between Guttenberg and Fort Lee. A gash three inches long over the right eye, that penetrated the skull, indicated that the girl had been murdered. She was dressed in black cashmere, trimmed with deep fringe, fine underclothing, red and white striped stockings and buttoned kid shoes. The dress was badly torn. Near the body were found two large stones covered with blood, a Rhine wine bottle, and a newspaper dated April 28. The bushes were torn apart and trampled down as if there had been a desperate struggle. The body was taken to the morgue, in Hoboken.

Our Healthy City.

We give below the vital statistics of the cities of New Jersey; which table speaks for itself as to the desirability of Plainfield as a place to live in, endorsed as follows by the Elizabeth *Journal*: "Our sister city of Plainfield must be again congratulated as standing at the head of the list, with a death rate below the general rural average."

	Population 1880.	Death Rate per 1,000.
Plainfield	8,125	13.66
Bayonne	9,374	15.84
Elizabeth	28,229	15.30
New Brunswick	17,167	15.60
West Hoboken	5,441	16.17
Orange	13,206	16.86
Rahway	6,464	17.87
Newark	136,400	18.71
Morristown	6,838	18.71
Chambersburg	5,417	[illegible]
Town of Union	5,349	[illegible]
Trenton	29,910	[illegible]
Jersey City	120,720	[illegible]
Passaic City	6,591	[illegible]
Paterson	50,877	[illegible]
Harrison	6,899	[illegible]
Hoboken	30,999	[illegible]

The *Journal* also pertinently remarks in an editorial: "Why should unsewered Plainfield stand at the head of the towns of the State so far as health is concerned? Its situation in a bowl, and surrounded by hills, with no river to drain its nuisances into, would seem to attract disease. Is not one solution the *character* of its population, so much of which is of the well-to-do middle class, who have run away from New York to escape high rents. The gravelly soil which sewers itself, and the underlying water, is no doubt another cause."

SPORTSMEN'S CORNER.

The New Jersey Game & Fish Protective Society have issued cards containing the open season for all game birds and fish of this State, compiled by order of the Society. Parties desiring a copy should address the Secretary, W. L. Force, Plainfield, N. J.

An interesting match at glass balls was shot on the grounds adjoining Mr. B. R. Haine's residence on Front street, last Saturday, the parties interested evidencing that they are "getting the range" of that mole rotary trap. The match was for a barrel of Paine's Feather Filled Balls. Distance from trap 18 yards. Fifty balls each. Messrs. B. R. H. and W. L. F. were partners against E. P. T. and J. H. F. The following is the result:

B. R. H.	broke	44

The Albany *Argus* says that some of the sea lions that made their escape from Coney Island last Summer have again appeared in the Hudson River, and boatmen are on a lookout for them.

The Messina migratory quail have returned to Maine in good numbers, and the experiment of importing them is regarded as a success. They have been seen this Spring in a score of places in this State.

WESTFIELD WISPS.

Mr. Wm. B. Chamberlain is fencing in the open lots on South avenue, above the railroad.

Mr. Joseph S. Clark formerly Assessor for this Township was in town on Wednesday last.

Soda water with choice syrups, both at Bayard's and Gale's, is one of the luxuries of the season.

On Thursday the 12th inst., a son, weight 11½ pounds. Mr. Eb. Hart Jr., is the happy father; accept our congratulations.

The property formerly owned by Mr. James E. Brush, on South Avenue, has been sold to Mr. Peter F. Randolph. We understand the consideration was $4,000.

The extremely popular President of the Westfield Fish and Game Protective Society, is to be congratulated upon the addition to his family of a girl. The pleasant advent took place on Tuesday last.

A very interesting discussion on the question of Insurance Agent *vs.* Insurance Broker, held a number of our citizens together on Broad Street, on Saturday evening last, until a late hour.

A very hardly contested game of billiards for the "Championship of Westfield," took place at Moffett's Hotel on Wednesday afternoon last, between Messrs. P. H. and S. J., the latter winning.

The friendly contest between Messrs. S. M. and H. M. will probably be decided at an early date, the last meeting between the gentlemen being indecisive. At last accounts, S. M. had the call.

Dr. Banning of New York, has favored our citizens during the past week with daily lectures on health, greatly to the instruction and satisfaction of those attending.

The ladies of the Presbyterian church will give an Ice cream and Strawberry Festival in the Lecture room of the church, on Tuesday evening next, May 24th. Admission 25 cents, children 5 cts.

Mr. Augustus K. Gale the able and popular assistant at "Gale's Pharmacy," returned from a trip to Pittsburg, Pa., on Saturday last. It is rumored that one of Pittsburg's fair daughters was the attraction.

Mr. Joseph Moffett has completed fencing in the Stillger farm, on South Avenue, for Mr. Ed. Chamberlain. As usual, with anything that Joe takes hold of, the work was well done and entirely satisfactory.

It is rumored that H. M. Moffett contemplates the sale of the Livery Stable business. Our citizens will undoubtedly miss this service, but as they have failed to support it in the effort to give them good service, have only themselves to blame.

The members of Atlas Lodge, F. & A. M., accompanied by their ladies, favored Mr. Thos. Love with an evening's visit at his home on Park Avenue on Friday evening last. The festivities of the occasion were continued until an early hour. Music by Wilcox and Applegate.

The late wet weather has added interest to the games of the Westfield Checker Club, owing to the fact that its membership is largely composed of our local tradesmen. So far the championship remains unchanged, and is held by one of our Township officials.

Mr. Nathan Burnsmith, who has been for the past month sojourning at Aiken, S. C., on account of his health, returned home on Tuesday last, we regret to say not greatly improved in health. We trust to be able to report decided improvement at an early date.

On Thursday of last week, Mr. Sparkman, of the firm of Sparkman & Seagar, was overcome by the heat while at work upon Mr. Ed. Chamberlain's place. We are pleased to announce that he has almost entirely recovered. This is the only case of sunstroke reported here this season.

Last Saturday evening was what our colored citizens termed Boxing night. The candidates for honors upon this particular occasion were Messrs. Aaron Garnett and John Pettifoot. After about ten rounds fought in good style, giving evidence of considerable science on the part of the contestants, it was decided a draw.

Considerable surprise was expressed by many of our citizens, on Monday morning last, at the peculiar brightness of the moon on Sunday night. We are glad to be able to offer an explanation: The lamps ten in number, set out by the Village Improvement Committee, were lighted on that night for the first time. Mr. John Pfeiffer is the artist in charge.

The arrival of the usual Spring invasion of gypsies, occurred on Monday last. Their camp was pitched on North avenue, below Moffett's shop, and was surrounded during their sojourn here by a crowd, some anxious (generally young ladies) to learn their prospects for the future, horse traders anxious to get rid of the "finest horse in the country" at any price, and children drawn from curiosity.

Under the impression that if a cool atmosphere could be found anywhere it would be in an *ice house,* we visited that of Mr. Henry Manning, at Clark's Lake, during the late heated term. Alas for human hopes; after climbing the ladder to the top of the building, we found Mr. Henry Manning with his able assistant Mr. Arthur Foster hard at work and apparently as warm as if the sun's rays struck them. Upon this particular day there had been delivered from the house about four tons (mostly to private families) and when we take into consideration its cutting out, loading and delivering, it certainly makes a solid day's work. The cakes, as taken from the house, average to weigh about 250 pounds, and it is no easy matter, for one not accustomed to it, to handle this amount of "slippery customer."

Mr. A. E. Wilcox, whose appointment as engineer at Irving's factory we noticed last week, met with a very serious accident on Monday afternoon last. While endeavoring to tighten a nut upon the engine, (which was in motion) his right foot slipped and was caught by the crank from the fly wheel, and three toes almost severed from the foot. He was immediately removed to the office of Dr. J. B. Harrison who, with the assistance of Dr. Sherman Cooper, amputated the injured members, and the sufferer was afterwards conveyed to his home. It seems hardly creditable when we consider the terrible suffering incident to an accident of this nature, that Mr. Wilcox had presence of mind sufficient to stop the engine after receiving the injury, but such is the fact. That done his sufferings overcame him and he fainted away; not, however, until he had gone into the mill proper to notify those there of the reason of the stoppage. At last accounts he was doing well and on the road to recovery.

The following communication received by one of our Road Overseers, will certainly be of interest to our citizens:

WESTFIELD, N. J., May 6th, 1881.

Mr. Orren Pierson, Overseer of Highways for District No. 8,

DEAR SIR: Please remove all obstructions from the sidewalks in your District, (velocipedes and goat carriages included) as they have become a nuisance to our sidewalks.

Very Respectfully,
E. A. KINCH,
A Tax Payer.

With all due respect to the writer, we should be pleased to know upon what grounds he claims that the use of our sidewalks by the children of our citizens in the manner charged, is an obstruction? The question is without doubt a very fine legal point. Under the State law relative to cruelty to animals, he might arrest any child found with a goat in harness, and if he proved his case their parents would be liable to a fine. Perhaps this is his intention. We hardly consider his call upon a Road Overseer to perform this work as either justifiable or correct. The Road Overseer would be obliged to induce the Town Committee to pass an ordinance prohibiting the use of the sidewalks for these purposes; and as the present Town Committee seem to be of the opinion that they have no authority regarding sidewalks, it is doubtful if they would decide to grant such a request. We await developments.

THE plan of selling goods on New York principles by the house of Edsall & Price, certainly has its good effect on their trade, for in an interview we learn that their plan of breaking prices, such as they are doing this week, is appreciated by their customers, as it gives advantages unaccustomed to cities of this size.

WE have just received one of the most thorough and complete works on the art of cookery, it has ever been our good fortune to peruse. Cassell, Peter, Galpin & Co.

GREAT success is being achieved by the Mission meetings now being held every evening in St. Mary's Church. They are addressed by the Dominican Fathers Daly and Quinn of Newark, and largely attended. On Sunday last fully one thousand people were present, and interested throughout. Much sound advice is being instilled into the minds of the young of the parish, by the eloquent discourses that are given.

THE Board of Freeholders of Union County met at Elizabeth on Wednesday last. The County Collector's bond was accepted, and after the transaction of routine business, in which the matter of paying publishers a decent price for publishing proceedings of Board and Collector's Report, occupied a prominent part, the body adjourned, first adopting resolutions regretting the death of Hon. Hugh H. Bowne, and resolving to attend the funeral in a body.

CORPORATION Counsel Kimball has addressed communications to those owing for taxes levied for the years prior to 1880. He notifies such of his intention to institute suits for the collection of the arrearages and concludes by saying: "Deeming it but proper and reasonable to afford you an opportunity to pay the sum due without the expense and vexation of a suit at law, I shall withhold legal proceedings for *ten days*, during which time payment may be made to me or to the City Collector in my behalf."

LAWYERS and others in the habit of searching among the records of the Union County Clerk's office, find Clerk Vosseller and his assistants courteous and obliging; but when a pompous and overbearing lawyer refuses to obey the rules of the Clerk's office, one of which is to put back the books used in their proper places, after using them for a search, he finds out what kind of stuff our little Clerk is made of, as was very forcibly illustrated the other day in the case of a Newark limb of the law who thought he would place the books back just when he pleased. He didn't search any more that day, nor will not in the future until he obeys rules.

Vocalisms.

In addition to the singing of Miss Josephine Holcombe, which we mentioned last week as a feature of the Crescent avenue church sociable to be held this evening, Mr. Wm. W. Howland will join that lady in a duett, besides otherwise contributing his vocal talents.

Grace church is endeavoring to engage a soprano voice for its incomplete choir, to fill the vacated position of Mrs. Belle Fagels-Collier. Mrs. Jason H. Tuttle, who sang at the recent Trinity Reformed Concert—and who is about to take up her residence in North Plainfield—is spoken of to fill the part.

Miss Maggie Newhall the admired soprano of the Crescent avenue church choir, having entered into an engagement upon which she is to be congratulated and envied, will shortly leave for the West in care of a Dunellen gentleman. The 29th inst. being her last Sunday at the church, an unusual and attractive musical programme will be rendered.

After many changes of date, it has been decided by the Plainfield Vocal Society to give its last concert of the season at the Park avenue Baptist church on Thursday evening of next week. The programme as outlined by us last week, will be produced with commendable precision by the Society in general and the soloists that have been secured, in particular. The accompaniments will be sustained by Miss Jennie Pratt and Mr. Clark W. Evans—taking, in the Cantata, the form of a duett especially pleasing and to some extent, original. The Society will be assisted in the choruses by the Brooklyn Vocal Society, all under the leadership of Mr. E. J. Fitzhugh. The soloists will be: Miss Emma Wilkinson (Armida) mezzo-soprano; Mr. Wm. Dennison (Rinaldo) tenor, and Mr. I. R. Morawski (Peter the Hermit) baritone. Miss Harriett Cady will again favor the Concert's patrons with piano solos. Besides the selections mentioned last week, there will be a part-song for male voices, composed by Mr. Fitzhugh, including a tenor solo by Mr Dennison; also Smart's "Ave Maria" and Rheinberger's "The Stars are Shining in Heaven."

The Trinity Reformed Concert.

Although there had been a large sale of tickets for the Concert of Sacred Music at the Trinity Reformed Church, on Thursday evening of last week, the intense heat warned many of the discomforts of indoor and gas-lit entertainments, and precluded a large attendance. It is fair to suppose, in consequence, that only those intensely fond of music and capable of enjoying fully its beauties, were present; if so, they failed to sustain such verdict by an almost universal lack of appreciation. *Even the talented Mr. Geo. W. Morgan*—who enjoys a national reputation as an organist second to none—was accorded but a slight and almost inaudible applause of thanks, not to mention a total absence of any expressed recognition of his talents. That artist contributed largely to the programme, playing six selections with his usual power and perfection. He was especially grand in the Aria, "By the sad sea waves," with impromptu variations—ably interpreting throughout the composer's sentiment. The basso of the occasion, Mr. James A. Furey, displayed enviable vocal powers in a solo selection of Giorza, "O, Salutaris"; while the tenor, Mr. Clark Ackerman, ably sustained his part in a very pleasing duett with the soprano, Mrs. Jason H. Tuttle. Mrs. James A. Furey's contralto voice was also commendable and such qualification may be given the entire affair.

Mr. H. W. H. Lindsley the organist of the church, under whose direction the entertainment was consummated, opened the concert with an enjoyable instrumental selection, the execution of which was deserving of an appreciation it failed to receive. The efforts of that gentleman are to be credited with having secured the artists of the occasion, and all honor is due him for whatever success was achieved.

Refugee Barick.

The inhabitants on both sides of the brook were thrown into quite a fever of excitement, on Saturday last, when rumors affecting the honor of a North Plainfield public man—which had been floating on the *air for a week past*—formed themselves into a substantiated account of his wickedness, the truth of which was vouched for by parties interested and well informed. The accused being the principal of the Public School, Mr. E. W. Barick, and the crime charged no other than bigamy, the excitement the report caused and the gossip it created is not to be wondered at. Although, as is customary after the committing of a crime, the accused is credited by sensation-lovers and scandal-mongers with a past that is more or less odious, the principal in the present drama seems to have been very generally liked and trusted. Besides occupying a position of respect as the Principal of the North Plainfield Public School—his efficiency and ability as such having been but recently endorsed, upon a certain occasion, by the Board of Trustees—Mr. Barick has been more or less prominent in musical and social circles by reason of his vocal powers, and courteous and cordial manners. He is a member of the Plainfield Vocal Society, was leader upon different occasions of the singing in the Congregational and Trinity Reformed churches, and during the past sang in the choir of the latter.

Of his early life an authentic account in full is not to be obtained. Enough is known to show that he was a man of many parts, quick to seize any advantageous opportunity to advance his personal prospects, but wanting, to a certain degree, the principles of unswerving honesty. He was born in this section of the State about forty years ago, and received such an education as was offered by the district school, supplemented by his own efforts and natural aptness. He married when twenty-two years of age, a Miss Plummerfelt, the daughter of a neighbor; the fruits of which alliance now being living in the persons of three daughters, the eldest about seventeen. A few years ago he engaged in the music business in Somerville, but failing as a merchant he adopted the profession of an educator of the young, and through "influence at headquarters" was appointed School Superintendent of Somerset County. From this position he became respectively Principal of both the Somerville Public School and that of North Plainfield.

While occupying the latter situation, Mr. Barick has been living on Manning avenue, North Plainfield, with his wife *of eighteen years and his family, in seemingly* the most pleasant of home and neighborly relations. It is true that since his disappearance those having business relations are mourning uncollected accounts of merchandise purchased and unsettled for, but as a rule the most implicit trust has always been placed in the man and his character. As a teacher and head of a school he has proven himself thoroughly competent, and his actions have universally met with the approval of the Board of Trustees. This detailed review of the man's past history and life, only serves to show the favorable exterior presented; and the following account of his recent actions, so far as known, seem, in consequence of the above, almost an imagined romance of fiction.

During some weeks recently Mr. Barick has been complaining of an affection of the throat, and both at home and in school had practiced a huskiness of voice that at times seemed to prevent his speaking above a whisper. During this period other unusual circumstances occurred, that only the light of present happenings have brought into notice. A telegram was forwarded to him at the school, signed "Belle Tuttle," which was remarked upon by his daughter and explained away by him with the statement that it was meant for another. His best suit was taken from the house by him ostensibly "to be cleaned," and another suit followed, the disappearance of which was accounted for in the same way. Almost immediately, after he packed a quantity of underclothing and with the expressed intention of going to New York for a medical treatment of his throat, he bid his family farewell. No permission for thus absenting himself was personally asked or given, the Board not knowing of his movements, but a letter was subsequently received from New York by District Clerk Arnold, signed by Mr. Barick, in which the latter stated that he was compelled to go to that city in order to have an operation performed on his throat. On the bottom of the note was an addition by the writer to the effect that he had intended to send the communication before leaving Plainfield, but neglected to do so, and consequently forwarded it therewith. This was followed by another from the same, stating he was feeling miserable under the treatment and could not return at present. Ten days after a telegram dated Boston, Mass., and signed J. D. Fargo, M. D., was received, in which that mythical physician said that Mr. Barick had rapidly improved under his care and would leave for Plainfield that night. It is now believed that Mr. Barick was the writer of the message and the inventor of the signer. Then came the first news of the truth of the affair. On the 6th inst., a prominent citizen of North Plainfield living on Jackson ave., received from he knows not who, a copy of the *Somerset Reporter*, a journal published in Skowhegan, Maine, containing the following marked with a blue pencil:

"May 3d, by Rev. W. O. Ayer, Mr. E. W. Barick, of Plainfield N. J., and Miss Augusta B. Tuttle, daughter of Chandler Tuttle, Esq., of Skowhegan."

The notice was shown to another party interested, who on the next day wrote to the editors of the paper asking for such information as they could furnish in relation to the marriage, and enclosing money for a number of copies of the publication. The papers were sent but nothing in addition was communicated.

Meanwhile the suspicions of Mrs. Barick had become aroused, although taking no definite *line of imagination*. She inquired frequently if the Board had heard from her husband, and the Clerk was at a loss to know what to do about telling the terrible news. At last it was thought unjust to longer keep the imposition secret, and on Thursday morning of last week Mr. Arnold went to the lady's house with a copy of the paper publishing the marriage notice, intending to tell her that it contained information relating to her husband and then leaving her alone with her grief and affliction. Finding that she had just left for New York, he immediately went to the depot to try and see her before her departure. The 8:20 train was leaving as he arrived, but at an open window of one of the cars he saw the lady he was searching for, and handed her the paper containing the death blow to her happiness.

Proofs of the villainy practiced by Mr. Barick thus becoming known to his wife's family, preparations were at once made for the removal with her children to another home. On Saturday last the removal quietly took place, only interfered with by a judgment for a milk bill of $10, which had been procured. This was settled by Messrs. Arnold & *Van Nostrand out of their own pockets*, and they have since been reimbursed for the outlay from a check sent by a brother of Mrs. Barick for her use.

As we go to press no news has been received from Mr. J. A. Plummerfelt, who was to start on Saturday last for Skowhegan in search of the brother-in-law who has brought such formidable disgrace upon the family. It is possible that after committing the base deed of bigamy, Mr. Barick has fled the country, although where he secured the means to meet the expenses of any extended travel is not known. He drew his salary only to May 1st, before leaving North Plainfield, and it is not probable that he was in possession of any large amount of funds, unless obtained from a source unknown to his family.

In regard to a report to the effect that Mr. Barick was discharged from the choir of the Congregational Church by reason of his character being suspected, it is only fair to state that such is not the case. The Rev. Mr. Manchee received about two months ago a letter from some person writing from Skowhegan, Maine, who signed himself or herself "Hill," asking if Mr. E. W. Barick of Plainfield was a married man. Mr. Manchee replied in the affirmative and added that the gentleman inquired of was living with his family in North Plainfield. Nothing was thought of the unusual question, and Mr. Barick's connection with the choir spoken of was only severed because it was thought better, by the church, to save the salary of $250 a year that was being paid him.

That the North Plainfield Public School was left in commendable condition, is shown by the average standing of its head scholars as published by us in another column. It is now in charge of Miss Stillman under the superintendence of the Board of Trustees.

A Deserved Honor.

The combination sale of Jersey cattle, conducted by Messrs. Peter C. Kellogg & Co., at the American Institute Building, N. Y. was concluded on Wednesday. The heifers Hattie, sent by Mr. A. R. Darling, and Petronella, sent by Mr. John I. Holly of this city, each brought $2,500. The "Breeders' Cup," contributed by several members of the *Jersey Cattle Clubs* as an award for best average in the sale, was secured by *Mr. John I. Holly by the close* margin of 20 cents per head in excess of the average of Mr. A. R. Darling. The sale realized $18,717.50.

A Feast.

With his accustomed generosity, County Collector Sheridan, on Wednesday last, gave a dinner to County officials and friends, at the Sheridan House, Elizabeth, which was attended by forty-seven persons, the occasion proving one of unusual enjoyment. We regret that a previous engagement prevented our being present on the festive occasion. Nevertheless we extend our congratulations to Mr. S. in his re-appointment to the office which he has so efficiently filled for several years.

He Has Not Resigned.

The rumors circulated from unreliable sources that Mr. Jas. S. Vosseller has resigned from the Secretaryship of the Union & Middlesex Counties' Mutual Agricultural Association, are unfounded. As we before stated in these columns, Mr. Vosseller declined to accept the position at the recent election of officers by the Board. That body made him Secretary of the meeting *pro tem* and left the office open until a future meeting, at which time undoubtedly Mr. V. will be re-elected and serve in the capacity he is so eminently fitted for, certain existing difficulties being removed in the meantime, which compelled Mr. V. to decline the nomination.

Death of a Prominent Man.

Judge Hugh H. Bowne died suddenly at his residence in *Clark Township*, Union County, on Wednesday last, aged about 67 years. Mr. Bowne was a highly respected citizen and for several years held the position of Lay Judge in the Union County Courts, in which position he was an honest, upright and fearless official. In former years he ably represented his party in the State Legislature. Four years ago he ran against Jas. S. Vosseller for County Clerk. Out of respect to his memory, Judge Van Syckel adjourned Court on Wednesday, when the news of his death was announced by lawyer Lindabury. The Union County Bar Association and Board of Freeholders resolved to attend the funeral in a body.

Hospital Pleasures.

The governors of the Muhlenberg Hospital will celebrate the anniversary of the laying of the corner stone of that building, by holding a public reception therein on Decoration Day, the 30th inst., from 4 to 6 o'clock p. m. A promenade concert and an inspection of the comfortable quarters and conveniences provided for patients, will be the attractions.

On the evenings of June 7th and 8th a Bazaar, arranged by the ladies of the Society, will be held in Van Deventer Hall. Besides the many beautiful wares that will be displayed for purchase for the Hospital's benefit, it is intended by Mr. Clark W. Evans to organize an instrumental orchestra from the amateur performers of this city, to furnish pleasing music during the occasion.

A Card.

The ladies of the Relief Association would express thanks to the public for the aid which has enabled them to provide work for many during the Winter and to give aid to others gratuitously. And while the work of the Society at this season is greatly curtailed, there still present themselves during the Summer, many cases of suffering incident often to old age and illness, which appeal urgently to the sympathies of this christian community. To meet such needs, requires additional money. Persons who have not contributed during the Winter can avail themselves now of an opportunity to carry cheer and comfort to homes of the poor during the hot weather, while the more prosperous are availing themselves of the benefits of sea and mountain air.

By order of the Board.

Plainfield's Children's Home.

The Fourth annual Report of the Children's Home Association of this city, which has just been issued in book form, shows a most satisfactory condition of its affairs at present and a great deal of needed and effective work as having been accomplished in the past. To its future good, additional help will undoubtedly accrue, and the objects of the Association continue to be carried out so thoroughly and so successfully as has been the experience of its existence. The report of the Treasurer, Mrs. L. W. Serrell, shows the cash receipts for 1880 to be $1,399.32 while the expenditures were 1,533.07. Of this amount $647.69 was spent for food and clothing. The pamphlet sets forth in detail the donations received, the benefits accomplished, the help afforded and other interesting information connected with the management of the Home. We must repeat again that it is completely a remarkably satisfactory showing.

A Fine Residence.

Netherwood can boast of many fine *residences, but that of Mr. John F.* Plummer, now in course of completion by Messrs. Shepherd, Johnson & Godown, builders, ranks first for style, dimensions and finish. The building is of brick, three stories in height. The floors on the first and second stories are laid with oak, the wainscoting being of cherry wood with oak panels. The broad staircase rails, balusters and newels are also of cherry. All the rooms are finished in hard wood. The fireplaces are constructed of Colaber brick, ornamented with mirrors. Handsome stained glass windows lend an additional attraction to the enchanting view to be obtained in the distance through them. The building is furnished with gas manufactured on the premises, and water from a large tank supplied with a pump operated by a caloric engine. The grounds about the residence are being laid out in an artistic and beautiful manner by Mr. M. Uhdal, who thoroughly understands such work. A large force of workmen are engaged in completing this elegant and costly residence.

Congregational Church.

The special evening services of this church are being continued in the Seventh-Day Baptist Church, through this month, and are being well attended and appreciated.

Rev. Mr. Manchee by request last Sunday evening, took up the subject of "Contrast between Paradise lost and Paradise regained," and starting with the Edenic life showed how this was used as a means of individual development and discipline, and the action of God as the Divine Father, in taking up the load of this guilty pair, going out with them, becoming a partaker of their lives, a ransom for their sins, and helping them to regain the lost Paradise. This leads up to the subject for next Sunday evening, in which the essential difference of the contrast between Eden and Heaven will be set forth.

An appeal on behalf of the Relief Association was made in the Congregational church last Sunday morning, and $75 was the amount given in response, and was handed by Rev. Mr. Manchee to the President of the Board of Directors.

Music and Strawberries.

The annual musical and strawberry festival of the Park Avenue Baptist Church, is announced in our advertisements for the evenings of Wednesday and Thursday, June 1st and 2d. The character of the entertainments gotten up by this church has become so well known that no special comment is needed here. The fact that the truculent strawberry is compelled to take second place, in favor of the musical feature, bespeaks a popular affair and an enjoyable entertainment.

Common Council Proceedings.

MONDAY EVENING, May 16th, 1881.

Council met in special meeting. Members all present except Messrs. A. H. Smith and Darling. Pres. Whiton in the chair.

The Pres. stated that the meeting was called to act upon the following questions:

1st. The question requesting or directing the City Judge to issue an alias warrant or alias warrants for the collection of City Poor and School taxes in arrears;

2d. Consideration of and action on the matter of official bonds of said city officials as have not yet filed the same;

3d. To receive and consider such applications as may be made for leave to construct frame buildings within the fire limits.

Mr. Gilbert then presented the following:

Resolved, That the City Judge be and be hereby is requested to issue his alias warrant for the collection of City, Poor and School tax in arrears for the year 1880, as required by law, to George W. Moore, Constable, who is hereby nominated and appointed for that purpose.

Adopted. All ays.

By the same—The following:

Resolved, That the Committee on Laws & Ordinances be and they hereby are authorized and directed to confer with Constable Geo. W. Moore and make whatever arrangements may seem to them necessary to secure the collection of arrears of taxes under the warrant of the City Judge.

Mr. Coriell wanted to know if the Law & Ord. Com. would give all directions in the premises.

The Pres. stated that the Com. would no doubt act legally in the premises.

Mr. Waring thought that the Com. could be trusted to act consistently in the matter.

Mr. Coriell brought to mind some similar proceeding of not long since, whereby 10 per cent. was asked, and an opinion of the Corporation Counsel bearing upon the matter was had. He (Mr. C.) wanted to vote understandingly.

After further remarks by the Chairman in explanation of the action of the Law & Ord. Com. in relation to the subject matter, and by Mr. Coriell that an opinion from the Corp. Counsel should be had, the Pres. stated that action was on Mr. Gilbert's res.

Upon the call of the roll, Mr. Coriell asked to be excused. The Pres. was about to call Mr. Coriell's attention to a certain Rule, when Mr. C. said he would vote "No." With his exception, the res. was adopted.

The Chairman thought that Constable Moore should give a bond for the performance of his duty.

Mr. Gilbert thought that that matter came under the scope of the former res.

After referring to charter upon the subject matter, Mr. Gilbert presented a res. that Constable Geo. W. Moore be required to give a bond for the performance of his duties, to be approved by Com. on Laws & Ordinances.

Mr. Tyler thought that the res. should have the amount stated.

The Pres. was not sure that the amount was $1,000, but he thought that there was a statute law that Constables should give bonds, &c.

Mr. Tyler moved that $1,000 be fixed as the amount of Mr. Moore's bond.

Mr. Gilbert then presented the following:

Resolved, That Constable George W. Moore be required to give a bond of $1,000, the form and sureties to be approved by the Com. on Laws & Ords.

Adopted.

In answer to a question by the Chairman if the Collector had given his bond, Mr. Gilbert replied that he was in conversation with Collector Clark to-day, and that gentleman informed him (Mr. G.) that he would have his bond in readiness at next regular meeting of Council.

Mr. Waring presented a petition from Mr. John B. Clark for permission to extend his frame lean-to 8x10 feet, along side of building on the west corner of Front and Somerset streets, to be covered with tin roof.

Mr. Coriell moved that the petition be ref'd to Com. on Fire, Water & Lamps, with power. Carried.

On motion, Council then adjourned.

The Murder Trial.

The second trial of the colored murderer, John Johnson, for the shooting of Sam'l Williams in this city during midnight of September 11th of last year, was begun before Judges Van Syckle and associates in Elizabeth on Monday last. The new Prosecutor, Wilson, and Attorney-General Stockton conducted the case for the State, and Messrs. R. V. Lindabury, G. P. Suydam, J. H. Jackson and W. M. Stillman managed the defence. The prisoner appeared at the bar looking well, and unconcerned. His past life of ease in the County Jail had, seemingly, quieted any apprehension he might have felt upon the receipt of the verdict pronounced at his first trial. The evidence adduced was from the testimony of the same witnesses, with one or two exceptions, as were placed on the stand before, and established nothing particularly new. The attendance of outsiders was astonishingly small—nearly all interest in the trial seeming to have subsided.

Mary Stewart, who was not called on the first trial, said: "I was in Eva's house on a visit the night of the murder; we went up-town together; saw John Johnson on Front street and in Cherry street; he met us and came with us; we went *in the big gate; I went into* Mrs. Thompson's; Eva did not go in; she went out in the street; Williams came from behind the well; saw him; all three went on the sidewalk; heard Johnson and Williams quarrelling; saw the flash of the revolver; they were standing close together as near as I could see (about 4 ft.) facing each other; couldn't tell what words they said; Eva came in right after me; Mrs. Thompson was angry with Eva; Johnson came to the door afterwards; I stood against it; he said he wanted to see Eva; told him he could not see her, as she had company; saw Sam'l Williams when they brought him in; he was dead; they laid him on the floor." On cross-examination she added: "Williams got up from behind the well; appeared to be angry; told Johnson and Eva he wanted to see them together; took hold of them both and went out toward the street; they quarrelled loudly; stood face to face; did not see them change positions until the shot was fired; if he had slung the other around I think I could have seen it."

County Physician Terrill, during his cross-examination by the defence, testified that, "taking the clothes in consideration, the parties must have stood close together when the shot was fired; after such a shot the man must die almost instantly."

Upon this Mr. Lindabury read some authorities to show that injuries to right ventricle were less liable to cause immediate death than any other part of the heart, and that in the majority of cases, wounds of the heart were not instantly fatal, and that recovery from gunshot wounds were probable, and cited a Glasgow case where a duelist had a sword thrust through his heart, yet lived long enough to fight his antagonist for 150 yards, also a Louisiana case, where a man was shot through the auricle and ventricle yet ran several hundred yards before he died.

The State closed its case during Tuesday forenoon, and the defence opened by calling Mr. Wm. B. Lewis, in whose employ Johnson was. He testified—"There had been burglaries in the neighborhood; spoke to Johnson about them; that he must be extremely careful; he must have got a revolver about that time; I approved of it, but did not say so to him."

It was also shown that the murdered man and the girl Thompson, in whose company Johnson was at the time of the affray, had been extremely intimate. Also that though the girl was not married, she had a child, three weeks of age.

The principal point sought to be established by the defence was that the fatal shot was the first one fired, and probably in self defense, as a quarrel was occuring at the time. Much medical testimony was taken, some for and some against the possibility of a man running any distance with a bullet wound in his heart. There was a decided disagreement between the opinions of the surgeons questioned and the authorities quoted on this point. The entire examination was concluded on Wednesday; the counsels summed up and the Judge charged the jury on Thursday.

After being out a short time the jury returned a little after five o'clock on Thursday afternoon with a verdict of murder in the second degree.

A blood-thirsty exchange remarks that fashions in women are constantly changing and the brunette has now been shelved for the glorious girl with red hair—not lemon color, nor tow, nor corn color, but the genuine red. Big mouths have also come into fashion, and the woman who cannot take in a tea saucer is considered passe and second class.

FIRE MATTERS.

The Board of Managers of the Plainfield Fire Department met in adjourned meeting on Wednesday, at 8 o'clock p. m. All present. The minutes of previous meeting were read and approved with corrections. Mr. Jones from the Committee on Wells reported on the petition of about twenty residents in the vicinity of La Grande and Franklin avenues, who asked that a fire well might be placed there and paid for by the signers, to be credited on their fire tax. Mr. Jones had found upon inquiry of the Collector, that the parties whose names were on the petition were in arrears $116.40. He considered a well in the location asked was necessary but thought the residents should first pay their taxes. They had refused to pay because there was no protection allowed—now the Board should inform them that they might have protection, if they would pay what was owing. The Committee therefore recommended that a well be placed as requested, if those of the signers who were delinquent settle their indebtedness. The report was accepted and the recommendation adopted. The claims of Mr. J. A. Hubbard for assessing fire tax for the past three years, amounting to $377.86, were read. Mr. Depew moved, seconded by Mr. Jones, that the Treasurer be authorized to pay the same when in funds. Mr. Morris stated that he must enter his protest against such payment. He remembered the legal opinion on the matter that had been obtained, to rule that fees could only be paid for such services as were rendered *after* the vote of the people allowing a remuneration to the Assessor. Mr. Depew's motion was withdrawn and another made and carried to the effect that the bills be laid upon the table and the President authorized to get an opinion as to whether the claims can be legally paid by the Board. The claims of Geo. W. Reamer, $1.25; Wm. H. Voorhees, 10.35; Morgan Bird, 41.75, and W. L. Force & Bro, 25.20, were passed and ordered paid when the Treasurer shall be in funds. On motion the Committee on Wells was authorized to make such arrangements and incur such expense as was necessary to provide for the procuring of a supply of water at the Grove street bridge, when needed. Mr. Morris offered a resolution requesting the Assessor to return to the Board a list of taxable property within the limits of the Plainfield Fire Department, on or before the evening of June 8th 1881, as required by law. Carried and the Secretary instructed to transmit a certified copy of the resolution to the Assessor. The Committee on Repairs and Supplies was requested to rehang and put the fire bell in such condition as would insure its easy ringing. Pres. VanWinkle stated that he had secured permission from the Common Council for the Board to use that body's room for the regular meetings of the Board. It was resolved that the thanks of the Board be tendered the Common Council for its courtesy and that the next regular meeting of the Board be held in the room spoken of. Also that the Secretary send a copy of the resolutions to the Common Council. A communication was presented from Zephyr H. & L. Co., stating that at a special meeting of the company held on Monday evening, it was resolved that a "protest" be sent to the Board of Managers of the Plainfield Fire Department, "praying" it to reconsider the granting a certificate of exemption to Mr. D. W. Littell, and giving reasons for such request. It was moved by Mr. Gillies, but not seconded, that the matter, with all papers in connection, be referred to a special committee for investigation, to report at the next meeting. Mr. Depew thought that as exemption papers had been given, and Mr. Littell, in consequence, was no longer a member of the Department, the Board had no authority in the premises. Mr. Jones so considered the matter. Mr. Gillies then moved, seconded by Mr. Morris, that the communication be placed on file. Unanimously carried. The Secretary was ordered to distribute among the companies the nomination, resignation, expulsion and exemption blanks that had been printed. The meeting then adjourned.

AN INVALUABLE ARTICLE.—The readers of the *Argus* have no doubt seen the advertisement of Ely's Cream Balm in another column. An article like "Cream Balm" has long been desired, and now that it is within the reach of sufferers from Catarrh, Hay Fever, and., there is every reason to believe they will make the most of it. Drs. W. E. Buckman, W. E. Hamman, Druggist, and other Eastonians have given it a trial, and all recommend it in the highest terms.—*Easton, Pa., Daily Argus*, Oct. 7, 1879.

Statistics often prove unwelcome facts and none more so than that twenty per cent. of the people of this State die from consumption and kindred diseases. From the testimonials of thousands who have used ANTHONY'S ELIXIR OF BOURBON, nothing in the way of medicine has ever done so much toward this end. *In all affections of the throat and lungs its remedial effect is simply wonderful.* Once introduced into every household it would banish the terror of this disease from the land. GOOD WORDS FOR A GOOD THING.

All things are not humbugs, nor are all patent medicines. Dr. David Kennedy's "Favorite Remedy" is exactly what it claims to be. Hear a word from Mr. Israel R. Snyder, of Saugerties, N. Y. He says: "My little daughter was covered with Salt Rheum from head to foot. Dr. Kennedy's 'Favorite Remedy' cured her altogether, and the disease has never since appeared. This was two years ago." Such words go to the point. Get "Favorite Remedy" of your druggist or write to the Doctor at Rondout, N. Y. $1.00 a bottle.

CONTAGION is largely propagated by means of the clothing, and clothing is best disinfected by steam. No form of contagion can withstand a dry heat of 220 degrees. The clothing should be placed in a box or closet maintained at that temperature for perhaps an hour. Carbolic acid will not destroy the effect of vaccine virus but for the time being.

A BOY AGAIN.

Pain and sickness bring on old age with fearful rapidity. They make an incessant drain on the vital forces, and the weary steps and faded cheeks of age often come when the enjoyment of life should be at its highest. Dr. David Kennedy's "Favorite Remedy" turns the head of old age into youth again. Headache pains, in the limbs, troubles of the liver, bowels or kidneys vanish before it, and ladies men and women become like rollicking school boys and girls once more. That the county is benefited in a financial manner by the appointment of a County Physician is made apparent, as a published statement of the County Collector of Camden county, in this State, where the population is about the same as the county of Union, shows that during the year ending May 11th, 1880, there was paid to Coroners and for their expenses the sum of $3,028.58.

The county of Essex, with a population of 189,819, paid during the same period for Coroners' expenses, $992.74.

Your County Physician reported for the year 1880, 59 cases, at a cost to the county of $374.50.

A particular description of each case is not considered necessary as through the public press, your County Physician has received that courtesy which has enabled him to place before the public, facts bearing on every important matter.

Very respectfully submitted,
THOMAS TERRILL, JR.
County Physician.

On motion the report was received and placed on file, and ordered to be printed with the minutes.

The Committee to settle with the County Collector presented the following report:

To the Director and Board of Chosen Freeholders of the County of Union, N. J.:

Your Committee to settle with the County Collector beg leave to report that they have carefully examined his annual report which is hereunto annexed in all its details, having examined each and every account, and compared each disbursement with accompanying voucher, and find the same correct in every particular.

A certification of balances in the different banks to cover the difference between disbursements and receipts, and checks still outstanding amounting to twenty-nine hundred and eighty-five fifty-four one hundredths dollars ($2,985.54) was presented to the Committee and found to tally with the amount due the County at this date.

Respectfully submitted,
WM. M. CROWELL,
GEO. W. F. RANDOLPH,
Committee.

May 1st, 1881.

Annexed to the above report, was the annual statement of the County Collector, in detail, which was read in part by the Clerk as follows:

JOHN L. CROWELL, Clerk.

May 5th, 1881.

The wife of a German editor in New York recently gave some college or other a trifle of $100,000 of her pin-money, and people talk about it as if such things were of uncommon occurrence. These little incidentals of every well-regulated newspaper office are so frequent that they are seldom heard of outside of the counting-room.

Miss Eva C. Kinney has assumed editorial control of the Ellis (Kansas) *Headlight*, and announces in her first number that she is "a girl, with all a girl's love for fun, frolic and romance." If editing doesn't take that love for fun, etc., out of her we shall be mistaken. It has a more sobering effect than a husband could have.—*Troy Times.*

"How to attract editors" is the title of a newspaper article. Why, bless your heart, editors are so exactly like other men that a pretty woman, modest, shy and all that, will attract them as easily as a magnet does an iron filing, and the proportion of the attraction is about the same; the pretty woman, like the magnet, has all the advantage.

A MOTHER'S JOY,
A Wife's Gratitude to Him who has Afforded her the means of once more Enjoying Life.
The following pleasant letter was recently received by Dr. David Kennedy, of Rondout, N. Y., and signed "Old Schenectady":
"I procured a bottle of 'Kennedy's Favorite Remedy' and my wife used it with the best results. She has no more headache or pain in the side. Indeed, the medicine seemed to have an almost magical effect, and she feels very grateful to you for your kind advice, and especially for the 'Favorite Remedy.' We shall be glad to recommend it to all women who may be suffering from any of the ills peculiar to the sex. It is all you claim for it."
It may be in place to mention, as pertinent to the above letter, that Dr. Kennedy, the proprietor of "Favorite Remedy," located in the City of Schenectady soon after his graduation, and went from there to the war. Some of the most cheering letters he receives are from his old acquaintances in that place, many of whom know from experience what "Favorite Remedy" can do for disease. There all the Doctor's old friends will believe him when he says that "Favorite Remedy" is a specific for Liver and Kidney Complaints, Constipation, Diseases of the Blood, and Urinary Organs. Write to Dr. David Kennedy, Rondout, N. Y., and state your case, or ask your druggist for "Favorite Remedy," for sale by all druggists. my6m4

THE NEW BUSINESS
OF THE
EQUITABLE
Life Assurance Society of the U. S.
FOR THE YEAR 1880, WAS OVER
Thirty-Five Millions of Dollars,
The Largest Business Done by any Company in the World.
REASONS FOR THIS RESULT.
The Equitable is the strongest Company in the United States.
Its policies are, by their own express terms, made incontestable after three years. [For precise terms see form of policy contract.]
ALL such incontestable policies are paid immediately after receipt of satisfactory proof of the death of the insured, and without even the customary delay of sixty or ninety days.
Each ordinary policy provides for a definite surrender-value in paid up assurance, in case the policy is forfeited after three years from the date and is surrendered within a reasonable time thereafter.
By THE TONTINE SAVINGS FUND plan of assurance, returns to policy-holders, after the expiration of what is called the Tontine period, are greater than are obtainable on any other system. Actual settlements of Tontine policies have been made in which policy-holders have withdrawn amounts varying from eighty to one hundred and twenty per cent. of premiums paid, besides enjoying a life insurance indemnity during the period. No other company can show such results.
THE TONTINE plan is the only one under which a person may withdraw from his insurance contract at specified periods, receiving the entire reserve and surplus accumulations in cash.
ALL the ordinary forms of insurance with annual dividends of profits, both cash and reversionary, are issued by this Society.
ASSETS, - $41,108,602.
SURPLUS, - $9,228,294.
Its business for the last ten years (represented by the new policies issued) has been larger than that of any other Company.

KIDNEGEN,
THE GREAT KIDNEY REGULATOR AND DIURETIC.
KIDNEGEN is highly recommended and unsurpassed for FOUL KIDNEYS, DROPSY, GRAVEL, BRIGHT'S DISEASE, LOSS of ENERGY, NERVOUS DEBILITY or any OBSTRUCTIONS, arising from KIDNEY or BLADDER DISEASES. Also for BLOOD and KIDNEY POISONING, in infected malarial sections.
By the distillation of a FOREST LEAF with JUNIPER BERRIES and BARLEY MALT we have discovered KIDNEGEN, which acts specifically on the Kidneys and Urinary Organs. It can be taken at all times, in all climates, without injury to the system. Unlike any other preparation for Kidney difficulties, it has a very PLEASANT and AGREEABLE taste and flavor. It contains positive DIURETIC properties and will NOT NAUSEATE. LADIES ESPECIALLY will like it, and GENTLEMEN will find KIDNEGEN the best Kidney Tonic for any purposes ever used!
